"TARRY, THOU, TILL I COME,"

Or "Salathiel," the Wandering Jew,

—BY—

George Cooly.

Gen. Lew Wallace, author of "Ben Hur," writes:

"In my judgment the MY greatest novels are—Yeamings, The Last of the Barons, The Tale of Two Cities, Jane Eyre, Hypatia, and Terry. Then, Till I Come. If Shakespeare had never been born, if Milton Byron and Tennyson were never yet to be, and Bacon, Darwin and Ruskin unknown, still the MY works would of themselves suffice to constitute a British Literature."

THE 5 P. M. EDITION.

SECOND EDITION NEWS ALSO ON PAGE FIVE.

COMMERCIAL MATTERS.

What is Going on in the Business World—The Market News.

The total number of failures in Canada last week was 28, against 26 last year.

In some parts of the north of Ontario the potato crop was ruined by frost a few nights ago.

Cheese Sales: Iroquois, 9 5-16c; Perth, 9½c; Brockville, 9c; Ottawa, 9¾c; Winchester, 9½c; Kemptville, 9½c.

About 200,000,000 tons of soft coal are mined in this country annually, of which West Virginia alone shows 20,000,000 tons.

Farmers in Kansas and Missouri, according to the Modern Miller, are feeding wheat to the stock in place of corn, as the former is relatively cheaper.

The Grand Trunk railway earnings for the week ending July 7th, 1901, were $512,472; for the corresponding week in 1900, $481,[illegible] an increase, $30,641.

During the first week in July the conditions of the British grain crops were: Wheat, 97.6 per cent.; barley, 77.3 per cent.; and oats 77.1 per cent.

Robert James Graham, Belleville, and James H. Fickle, Colborne, propose to start an evaporatory at Brownsville for preparing various kinds of vegetable products. A by-law to grant them $3,000 as a bonus was carried.

The New York Journal of Commerce says: "Some definite progress in the current movement for a soft coal combination has apparently been made. It is understood that interests back of the United States steel corporation are engineering a large underwriting syndicate in the interest of that concern."

A despatch from Philadelphia says that a combination of the Pennsylvania railway, the American, the Chesapeake & Ohio railway, a fleet of steamers sailing from Newport News and the majority of the shipping of the great lakes is about to be the object behind the enormous coal pool said in New York which are attracting Messrs. Morgan, Harriman, Gould, Cassatt and Widener.

Two Aged Picton Ladies.

Mrs. Benson and Mrs. Marshall, twin sisters, Picton, on May 7th, celebrated the eighty-fourth anniversary of their birthday. They were born in the township of Sophiasburg, county of Prince Edward. Their father, John Wood, came from the state of New York, when a boy, with some settlers who were bringing in horses, and remained. He afterwards married a Miss Robin, U.E.L. stock, and settled on the shores of the Bay of Quinte, the old homestead commanding one of the many lovely views of the bay along the beautiful green, wood-clad sides of the high shore.

Mrs. Benson married at twenty years of age and lived for a short time in Hallowell township, where some of her children were born, subsequently moving in with her husband's father and mother.

Mrs. Marshall married later and was early left a widow with three children, two of whom are living. Mrs. Benson had five children, four of whom are living. She also is a widow since 1873. They and one brother, two years older, are the youngest and only survivors of a family of eleven children, most of whom lived to a good old age.

The brother, Peter Wood, lives on the old farm, in a house built on the site of the old farm. They are all three remarkably active for their years and take as much interest in local happenings as they ever did.

Fredericksburg Notes.

Fredericksburg, July 15.—Haying is well advanced. The crop on new meadows will be first class, mostly clover but fully up to on old. The meadows where sufficient hay is expected from is away short resulting from the wet spring. Grain is ripening and next week will see barley cut. Mr. and Mrs. P. Hunt, jr., Providence, R.I., are making a short visit with friends here. W. J. Cummings has purchased a new McCormick binder. Stanley Smith returned home to day after writing on his matriculation examinations at Albert college, Belleville. Mrs. J. J. Smith is visiting friends in Belleville. Fred. Perry has his new barn about completed.

Disturbed The Neighbors.

The Holiness held a revival in their chapel on Division street yesterday, and, while they apparently enjoyed themselves they provided the neighbors. Four or five of the young lady leaders never left the church from 6:30 a.m. till 10 p.m. The shouting was heard some distance away. One young man ran, shouting, through the aisles. Others fell exhausted on the floor. A lady, who resides near by, walked into the church, and told one of the leaders that she was fit for the asylum, and gave her some advice.

Excursion Bulletin.

Wednesday, July 17th, "America" moonlight excursion, 7:30 p.m., accompanied by 47th band. 25c.

Thursday, July 18th, "America" among Thousand Islands, 3 p.m. 25c. Canadian and American channels.

Friday, July 19th, "Empire State" leaves Kingston, 8:30 a.m., for Brockville, Ogdensburg and river points. 50c.

Must Be Left To Dry

Probably a dozen people telephoned the city engineer to day asking that the millions of dead dead flies on the sidewalks be removed. The engineer on looking up the law finds that it must remove dead animals, but nothing is mentioned about dead flies. These will simply have to be left to dry in the sun.

A special meeting of the fire and light committee was held this afternoon, relative to the lighting plant. The street railway has not yet offered the city the use of their tracks.

Messrs. Mackenzie and Mann have started work on their railway to James Bay, with which they propose to tap the Temiskamingue district.

Misses Eva Elliott and Emma Harkness entertained a number of their friends at a picnic on Friday. A very enjoyable time was spent.

A fire hitch hotel is awaiting completion at Bath. Messrs. Alexander McCartney and John McLeod are among the contractors.

Mr. Rowan, Hanaupane, has been appointed justice of the peace, and has filed his oath and qualification papers.

The Hamilton union desires to play ball with the plumbers' union, declaring it can whitewash the latter.

Dr. Bordman, visiting at his home in Ottawa, returned to the city to-day.

CRUCIAL TIME AT HAND.

If Turn Not Taken War Will Go On

AND LAST ANOTHER YEAR.

BOERS ARE IN MUCH NEED OF CLOTHING.

Further Reinforcements are Unnecessary—Civil Government is Being Carried Out—Districts Increasing Where Protection is Guaranteed.

London, July 15.—The next two months of the war in South Africa—July and August—are expected to be crucial. If operations during this period do not take a decided turn, it is quite possible that they will drag on for another year. Clothing is what the Boers stand most in need of. They have ample food—there is not the remotest possibility of ever starving them out—and their supply of ammunition, while not excessive, is ample for their immediate needs.

Lord Kitchener's views that further reinforcements are unnecessary are shared by every one conversant with the situation.

Meanwhile the civil administration that was established by Lord Milner is being carried on in his absence, and to correct a misapprehension it may as well be stated that the vast majority of the appointments are permanent.

The area in which civil government can be carried on is not likely to be extended yet to any great extent, but the districts in which "protection" is guaranteed by the military authorities are being slowly enlarged by extending the mileage radius from each garrisoned post.

Too Busy To Write Letters

Lord Kitchener sent a message to the war office yesterday, explaining his failure to report the engagement between 240 of his scouts and 400 of the enemy near Warm Baths early last month. He contends that it would be impossible to send an account of each action, owing to their number.

The officer commanding in the Warm Baths engagement gave the correspondents "a rather glowing account" of the action. In conclusion Lord Kitchener says: "I do not approve of the inclination to magnify every unimportant skirmish into a British victory that exists in the press, and although I find it difficult to control this, I certainly do not encourage it in any way."

Do His Work First.

Cape Town, July 13.—Major-Gen. Baden-Powell, thanking a correspondent for sending him an account of the Tottenham Hotspurs' home coming after winning the English football cup, writes: "I fear I have not much chance of getting home yet, nor should I wish to go till this job is finished."

Secured The Laager.

Grand Reinet, Cape Colony, July 15.—Col. Scobell's column surprised and captured Schooper's laager at Camdeboo, on July 14th, taking thirty-one prisoners and capturing a quantity of ammunition and stores. Schooper, with the bulk of his commando, escaped. There were no British casualties. Most of the prisoners are rebels.

Has Reached Pretoria.

London, July 15.—Lord Kitchener in a despatch to the war office confirms the report of the capture of the wife of the acting president Schalkburger, and says the prisoner has been brought into Pretoria.

MANY CHARGES LAID

By a Detective Against The Ottawa Chief.

Ottawa, July 15.—Thirty-four charges against chief of police Powell have been filed with the police commissioners by ex-detective John Flanagan, who is under suspension. Flanagan accuses the chief of immorality, drunkenness, compounding felonies, neglect of duty, misuse of power, etc. One of the charges is that the chief prevented a prosecution for a heinous offence.

It is also charged that the chief took out of the cells, one night, at one o'clock, a young woman accused of attempted murder, and that he did not bring her back until next day. The charges were given to judge MacTavish, Friday, by John L. Doherty, acting for Flanagan. The commission adjourned to-morrow to decide when to take up the charges. It is said that the chief is suspended until the investigation is ended.

A. F. McIntyre, K.C., Ottawa, has left for Johannesburg, where he will practice law. Mr. McIntyre was twice a candidate for parliament in the liberal interest, and once as an independent. Lately he has been a conservative.

W. J. Gorman, Ottawa, is being mentioned by some local lawyers for the high court vacancy in Ontario. Mr. Gorman is a conservative.

The civic reception committee has decided on the route the royal party will take on their arrival in the city. It will be through the principal streets. A committee of lumbermen will arrange to give the royal visitors a trip down the lumber slides.

G. A. Holden, Hull, thirty years old, is suffering from small pox. His wife and two children and house have been quarantined. The case is a mild one.

The staff of the inland revenue department are getting up a testimonial to Edward Miall on his retirement from the commissionership of the department.

Wheat Fields Burned

Great Bend, Kas., July 15.—Fire on Saturday, fourteen miles west of here burned ten thousand acres of standing wheat. Loss, $20,000. William Gerhardt, a farmer, is said to have perished.

Miss Bessie Cook, Hanaupane, was a successful candidate in the examinations in piano, harmony and theory of music under the auspices of the Toronto conservatory of music.

THE PROBLEM SOLVED.

A Great Trunk Sewer is Proposed For Toronto.

Toronto, July 15.—City engineer Rust, after a year's study of the problem, reported to-day in favor of building a trunk sewer at a cost of $175,000, which will have a capacity of discharging the sewage of half a million of people at a point miles east of the water works intake and over three miles east of the city limits. This scheme he thinks better and more economical than any attempt to treat the sewage with the object of purifying it and letting it flow into the bay.

Justice Ferguson gave judgment this morning in the action of John Macdonald, on behalf of the Lamb manufacturing company, Ottawa, to recover $1,000 on an insurance policy given by the Waterloo Mutual on the company's property. The insurance company's defence was that it had not been advised in writing of a prior insurance. The judge found for the Lamb company for $9,350, as the insurance agent had been told of the other policies and had not objected.

Bonar Presbyterian church, Rev. A. McGillivray, pastor, corner of College street and Lansdowne avenue, was reopened yesterday afternoon. It was closed for some time for enlargement. In response to appeals for contributions towards paying the cost of the improvements no less than $2,500 in cash was placed in the offertory at the morning service. At the Sunday school session in the afternoon $650 more was given and there was another generous contribution in the evening.

It is known, though not officially announced, that the following named infantry regiments from outside of Toronto will help to form the force to be reviewed in Toronto by the Duke of York: 12th Fusiliers, London; 13th regiment, Hamilton; 14th regiment, Kingston; 15th regiment, Belleville; 19th regiment, St. Catharines; 38th regiment, Brantford; 49th regiment, Brockville; 43rd regiment, G. and C. rifles, Ottawa.

There is no longer any fear that the experiment of growing sugar beets in Ontario will fail. The beets were very much handicapped by continuous wet weather, not after planting and it was feared that the long rainy spell in May would greatly injure the crop, but Prof. Shuttleworth, returned from an inspection of the beet areas, says the crop will be a great success.

DEATH THE HONEYMOON

Young Bride Drowned on Her Wedding Trip

London, July 15.—William S. Wedge, an American, who, with his bride, an eighteen-year-old London girl, was spending his honeymoon at Stratford-on-Avon, went boating on the river yesterday. Mrs. Wedge stood up to change her position, when she lost her balance and fell overboard. Mr. Wedge dived repeatedly for her, but could not find her. He was found later on the bank prostrated with grief and exhaustion. His wife's body was found three hours afterwards. Mr. Wedge, who is between forty and fifty years of age, broke one of his legs recently, and swam with difficulty. The couple were married in London two weeks ago.

REASON OF THE DECLINE

In The Steel Market—More Sellers Than Buyers

New York, July 15.—J. P. Morgan, jr., says: "The only reason that can explain the decline in steel is that there are more sellers than buyers. I do not believe the strike to be serious; only a few mills are concerned and the effect cannot possibly be judged for a few days. When these matters have developed, if the banks should decline to lend money on steel we would be glad to do so, if we have got money available for such purposes."

VOLCANIC ERUPTIONS

Caused Great Loss Of Life And Damage

Tacoma, Wash., July 12.—Oriental advices give details of a terrible destruction of human life which occurred in Northern Java, last month, by a sudden and terrific outbursts of the volcano Kloat. For fifty miles around all the coffee plantations and other estates were destroyed by showers of ashes and stones, together with great streams of lava and hot mud. Seven hundred natives and a number of Europeans perished.

GRIM REAPER GOT HIM

Narrowly Escaped Electrocution, Dies From Typhoid

Batavia, N.Y., July 15.—Howard Curtis Burham, thirty-two years old, once convicted and once acquitted on the charge of wife murder, died in a Columbus, Ohio, hospital yesterday. Burham's bride of a few months and his mother were at his side during his last hours.

Burham was stricken with typhoid fever a month ago.

Remember Five Monarchs

There is living at the present time near Corbyville, David Reed, who is ninety-three years and seven months old, having been born in July, 1807, also his good wife, Mrs. Reed, eighty-nine years and three months old, she having been born in Sydney township on Nov. 6th, 1811. Both of these old residents can remember five monarchs—George III., George IV., William IV., Victoria the Good and the present king Edward VII. Another interesting incident in connection with this is that Mr. Reed was born on the very farm on which he now lives, having resided there all his life.

It is a good plan to put off till to-morrow the clothes that are too heavy to-day.

GENT'S and LADIES'

SECOND-HAND CLOTHING,

Furniture, Stoves, Feathers, etc.

Drop me a postal card and I will pay the highest price in cash for all Second-Hand Goods.

I keep a large stock of new and Second-Hand Goods, which I sell at a very low figure.

I. ZACKS,

TWO STORES—271 and 273 Princess Street.

SOMETHING WRONG HERE

YOUNG GIRL SUPPOSED TO HAVE SUICIDED.

Watch, Chain And Rings Missing—The Coroner Alleged to Have Been Lax in The Performance of His Duties.

St. John's, Que., July 15.—The body of the young girl, Teresa Macdonald, formerly of Pembroke, Ont., but for sometime past a servant in the household of P. A. Chasse, K.C., being kept pending the arrival of relatives, was disposed of this morning, a service being held in the church. Miss Macdonald also attended a midnight excursion by steamer last Tuesday evening, up the river to Isle aux Noix, and on her return partly crazed from indignities to which she was exposed on the island and the steamer, she attempted to make away with herself by jumping from the steamer into the river from which she was, however, prevented. She disappeared from her home the next evening and was not again heard from until her bruised body was found in river Saturday morning, when it was brought to town and taken charge of by Mr. Chasse, her late employer. The coroner who it is stated, ordered her removal to the town in the morning, was not to be seen till late in the afternoon, and although the chairman of the police committee urged for an inquest, his requests were unavailing, being met by legal excuses.

The rumors in circulation in regard to the matter certainly call for the intervention of the attorney-general to dispose of the accusation, or cause the punishment of those concerned. A watch and chain and gold ring worn by the victim are missing.

HOT IN MONTREAL

The Mortality Report For Last Week Was Reasonable

Montreal, July 15.—The mortality returns of the city last week show a decided falling off in the number of deaths, both of infants and adults, compared with the two weeks preceding, the entire week being cool and comfortable. Total number of deaths during the last week was 198, of which number ninety-six were infants. Yesterday was decidedly hot, the thermometer registering at 11 a.m. eighty-five degrees at the city hall, the coolest spot in the city and this morning at the same hour eighty-six degrees were registered.

At the meeting of the harbor commissioners it was decided to call for tenders for the erection of one elevator with a capacity of one million bushels in the centre of the harbor. A strong effort will be made to have the elevator completed in time to handle business when navigation opens next spring.

Col. Planchet, D'Epercy, a son-in-law of a section of the French forces at Pekin, and W. Gaston, Chadourne, who have been at Pekin since September last, arrived in the city on their way home on route from China to France. They will sail from New York on the French liner, Aquitaine, July 18th.

J. W. Downey, freight agent at Montreal, for the C.P.R., has been appointed superintendent of the Algoma Central railway.

CANADIANS AT BISLEY

Sergeant Crowe Tied For The Daily Graphic

London, July 13.—At to-day's shooting of the National rifle association at Bisley in the Daily Graphic competition, twenty-five of the contestants made the highest possible scores, and in shooting off the tie Sergt. Crowe, Guelph, and eight others again tied without a miss. These will shoot off on Monday.

In the Graphic competition twenty-four of the contestants, including Lieut. Gilchrist, Guelph, scored the highest possible, and five of these again made a perfect score in the tie shooting, Lieut. Gilchrist dropping out by one point.

The list of prize winners in the Burlow competition announced to-day, includes private John Craig, 5th Lanarkshire regiment, first with a score of ninety-eight, out of a possible 100, and private W. F. Graham, Dundas, Ont., second, with a score of ninety-five.

FAMINE THREATENED

In Many Parts of Russia—Lack of Rain

St. Petersburg, July 15.—Large parts of the empire are again threatened with famine. The last official report, just published, was dated June 21st. Since then not a drop of rain has fallen in the eastern provinces, and it is believed the crops are now largely beyond hope in many districts.

Nature's Voices

By Claire R. Abbott in Farm Journal

Sky tones made over strikes in nature's music,
Pure melody in every tone, the strain
Of harmony is in its depths, the sweetness
Of brook, of wind, and patter of the rain.

A drowsy sense of comfort in the lapping
Of waves upon the beach. A grand deep strain
Of organ in the long, majestic clapping
Of thunder rumbling in the lightning's train.

The hum of bees, the insects in the meadow
Breathe their wings in tones as sharp and shrill
As tree-toads utter in the falling shadow,
The happy song of birds; all charm and thrill.

A thousand voices touch our hearts and souls
From faintest echo in a cave, to roar
Of ocean rushing in bewildering fury
To gather in his arms the waiting shore.

Was It Suicide?

Picton Gazette.

During Monday night, at the home of Capt. Duetta, Greenbush, his sister-in-law, Emily Damard, a cripple, was drowned in a well near the house. When or how the well was reached from her apartments seems mysterious, as the deceased was unable to walk. The family knew nothing of her absence from the house, until Capt. Duetta went to draw some water for his horses, when the body was discovered. The well was about fifteen feet deep, and about three feet of water in it. The deceased was upwards of forty-eight years of age. The funeral took place on Wednesday.

Everything possible has been done to make OUR STORE COOL these warm days, and we have succeeded in making SHOPPING VERY COMFORTABLE.

Cool Undervests for Women,

In fine Cotton or Lisle Thread, low neck and short sleeves or without sleeves, 5c., 8c., 10c., 12½c., 15c., 20c., 25c., 35c., 39c.

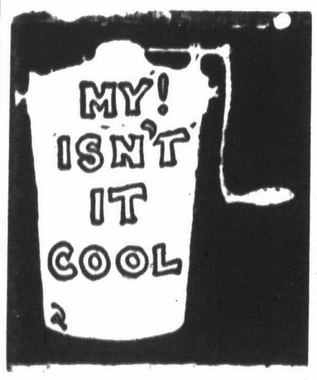
Your choice at this big silk sale for 29c a yard.

This is a rare chance to purchase a Silk Dress or Waist for the price of a muslin.

All sales for cash only.

CRUMLEY BROS.

132-134 Princess Street.



"FROZEN DAINTIES"

Is the title of a pretty little Book, containing 50 CHOICE RECEIPTS, for Ice Creams, Frozen Puddings, Frozen Fruits, Sherbets and Water Ices. We are at present giving one of these with each

WHITE MOUNTAIN ICE CREAM FREEZER.

McKELVEY & BIRCH,

69 and 71 Brock Street.

Canvas Boots and Shoes.

The proper thing to wear this hot weather. You don't know what real Summer Shoe Comfort is until you try a pair of CANVAS SHOES.

D. J. McDermott, 175 Princess St., Next to Routley's.
