THREE RARE DOCUMENTS.

LINKING THE PAST WITH THE PRESENT AGE.

Certificate of Discharge Issued in 1783—Minutes of a Meeting Held at Quebec in 1783—Land Grants to Children of Loyalists.

Charles Asselstine, assistant engineer at the power house of the light, heat and power company, has in his possession three old and extremely rare documents, which he prizes very highly. One is the certificate of discharge issued in 1783 to the great grandfather of Mr. Asselstine. It is worthy of notice that in the document Mr. Asselstine's name is curiously spelled "Esilstine." The document is yellow with age, but is in a fairly good condition of preservation. It reads:

"His majesty's provincial regiment, called Loyal Rangers, whereof Edward Jessup, Esq., is major commandant: These are to certify that the bearer hereof, John Esiltine, private soldier in Capt. McJones' company of the aforesaid regiment, born in the parish of Livingston, in the county of Albany, aged forty, hath served honestly and faithfully in the said regiment two years; and in consequence of his majesty's order for disbanding the said regiment, he is hereby discharged, and is entitled, by his majesty's late order, to the portion of land allotted to each soldier of his provincial corps, who wishes to become a settler in this province. He having first received all just demands of pay, clothing, etc., from his entry into the said regiment, to the date of his discharge, as appears by his receipt on the back hereof, having served in Capt. Jessup's corps four years and five months. Given under my hand and seal at Rivere du Chine, this twenty-fourth day of December, 1783. David Jessup, major, commandant Loyal Rangers."

The receipt referred to in the foregoing is as here given:

"I John Esilstine, private soldier, do acknowledge that I have received all my clothing, arrears of pay and all demands whatsoever, from the time of my inlisting in the regiment and company mentioned on the other side, to this present day of my discharge, as witness my hand this 24th day of December, 1783. In the presence of Solomon Jones."

The second document is the minutes of a meeting held at Quebec in 1789, to carry out the wishes of the king in making land grants to children of United Empire Loyalists, who remained faithful to the sovereign. The document reads:

"At the council chamber of Quebec, Monday, 9th November, 1789, present: His excellency the right honorable lord Dorchester, the Hon. William Smith, Esq., chief justice Hugh Finlay, Thomas Dunn, Edward Harrison, John Collins, Adam Mabone, J. G. C. Delery, Geo. Pownall, Henry Caldwell, William Grant, Charles Baby, Charles de Lanaudiere, Le Cte. Dupre, esquires.

"His lordship intimated to the council that it remained a question upon the late regulations for the disposition of the waste lands of the crown, whether the boards constituted for that purpose, were authorized to make locations to the sons of loyalists on their coming of full age, and that it was his wish to put a mark of honor upon the families who had adhered to the unity of the empire, and joined the royal standard in America before the treaty of separation in the year 1783.

"The council concurring with his lordship, it is accordingly ordered that the several land boards take course for preserving a registry of all persons, falling under the description aforementioned, to the end that their posterity may be discriminated from future settlers in the parish registers and rolls of the militia of their respective district, and other public remembrances of the province, as proper objects by their persevering in the fidelity and conduct so honorable to their ancestors, for distinguished benefits and privileges.

"And it is also ordered, that the said land board may, in every such case provide not only for the sons of those loyalists as they arrive to full age, but for their daughters also of that age, or on their marriage, assigning to each a lot of 200 acres, more or less, provided, nevertheless, that they respectfully comply with the general regulations, and that it shall satisfactorily appear that there has been no default in the due cultivation and improvement of the lands already assigned to the head of the family of which they are members. Signed Williams, C. C."

The document was printed by S. Neilson.

The third document is the patent of a plot of land situated in the township of Huntingdon, issued to Peter Asselstine, son of John Asselstine, mentioned in the discharge paper in the foregoing. Peter Asselstine benefitted by the decree setting apart land to sons of United Empire Loyalists. The deed is on parchment, and was issued in 1810 and contains a great wax seal, nearly as big as a saucer, and is attached to the document by tapes. The deed called for 200 acres of land, or block fifteen, in the thirteenth concession of Huntingdon township, county of Hastings.

These documents are all well preserved and are rare and valuable owing to their antiquity and the circumstances which caused them to be issued.

MARINE INTELLIGENCE.

Notes Regarding the Movements of Vessels.

At Craig & Co's wharf: Steamer Cuba, Montreal to Toledo.

The schooner Eliza White arrived to-day, from Oswego, with coal for Sowards.

A new steamer is to be run between Clayton and the Prospect Point club-house.

At M. T. Co's wharf: Steamer Glengarry and Minnedosa, from Fort William with 90,000 bushels of wheat.

The steamer Arundell is doing a fine business between Oswego, Charlotte and the islands. The all-lake route is preferrable in summer.

The excursions conducted from river points to the city have not been as well patronized this summer as they were at this time last season.

Capt. A. R. Hinckley's new steam-barge, is 118 feet long, 25 feet beam and 8 feet hold. A New York marine boiler has been put in her at Oswego.

The indications are at present that the steamers Kingston and Toronto will have all the business they can attend to right up till the middle of September.

At Swift & Co's wharf: Steamer Kingston, on down and up trips; steamer Rideau King cleared for Ottawa; steamer Spartan, Hamilton to Montreal.

The Thousand island steamboat company is having plans prepared for two large side-wheel steamers to be built and ready for the opening of next season. They will have a large carrying capacity and be very fast. So says the Brockville Recorder.

The steamer North-Western, which left Chicago on April 24th, for Europe has completed her first round trip. The voyage was lengthened somewhat by the ice jam in the St. Clair river. With this delay the vessel would not be able to make the number of trips calculated. The owners have concluded that at best she could only make four round trips during the season of navigation.

The steamer American ran aground on Thursday on the Blanket shoals near the foot of Wolfe Island, while on her return run from Kingston with 300 passengers aboard. The steamer St. Lawrence went to the America's assistance. John Dunfee, with his yacht William Elkins, jr., assisted in passing a line and the America was pulled off on the first trial. No damage was done and the boats were delayed only an hour.

NEIGHBORS IN TROUBLE.

The Burtch And McBride Families Cannot Live In Peace.

There is trouble again between the Burtch and McBride families in Williamsville. Another row yesterday resulted in bringing Mrs. McBride into the police court this morning on a charge of assaulting A. W. Burtch. Burtch testified that he was abused by Mrs. McBride, who knocked down a fence on his property, threw water over him and wound up by assaulting him with a rotten egg. Mrs. Burtch gave corroborative evidence. She saw Mrs. McBride put an axe out of the window and knock down the fence; saw Mrs. McBride throw the water and the egg.

Mrs. McBride denied these statements. She and her sister, with their babies, sat near an open window talking, when Burtch began calling them names. He threw a stone through the window. Witness left the room, but saw her sister, Mrs. Mary Holland, throw an egg at Burtch. Mrs. Holland afterwards knocked down the fence.

Mrs. Holland testified that every time she went to visit her sister she was abused by Burtch and his wife, who used filthy language towards her. Yesterday the same thing occurred. Witness produced a stone which Burtch had hurled through a window at which she was sitting. She had retaliated by throwing an egg at Burtch, hitting him on the face; the egg was fresh. Burtch had caused the fence in question to lean over a window in her sister's house, and in trying to straighten it she had pushed on a couple of boards. Her sister was afraid of her life of the Burtch family. The witness made a charge against Mrs. Burtch of very unseemly conduct.

The magistrate dismissed the case against Mrs. McBride. W. F. Nickle, counsel for Burtch, said he would at once lay information against Mrs. Holland, who accused Mr. Nickle of abetting Burtch in his misconduct.

THE DUKE IS COMING.

Will Be In Kingston On Saturday, October 12th.

At a meeting last night of the civic finance committee mayor Kent read a letter which Hon. William Harty had received from Hon. J. M. Gibson, acting premier of Ontario, concerning the movements of the duke and duchess of Cornwall and York, on their tour of Canada. The letter stated that the royal party would arrive in Toronto on Monday, Oct. 7th, and would remain until Friday night, Oct. 11th. Saturday morning early they would leave for Kingston, remaining here until Sunday morning, Oct. 13th. Mr. Gibson asked for particulars concerning local arrangements.

Mayor Kent has called a special meeting of the city council for Monday night, when arrangements will be considered and committees formed to carry out details. The finance committee will likely be given power to make arrangements meanwhile, and with this end in view, aldermen Walkem, Shaw, Toye, Hon. William Harty and B. M. Britton, K.C., M.P., have been added. It is proposed to have the duke lay the foundation stone of the new arts building of Queen's. The royal party will also be banqueted. It is expected they will be taken for a run down the river, through the Thousand Islands and the rapids on the 13th.

Turned Around In The Shafts.

John Gilbert's delivery horse, while standing in front of the store lately occupied by R. Uglow, books seller, started to run away this morning. After colliding with Nugent & Taylor's waggon, the animal turned completely around in the shafts, smashing them. It was a comical situation when the horse turned around and faced the driver.

400 People Expected.

To-morrow the annual excursion over the K. & P. railway will reach the city. The train which will bring the excursionists in will consist of ten coaches. Part of the people will visit Lake Ontario Park, while the remainder will continue the trip among the islands. It is expected that 400 people will be in the city. The merchants are looking forward to a good day's business.

Ready Next Week.

The new flag pole to be presented to the city and raised at the fair ground, will be ready by Wednesday next when it will be formally handed over to the city by J. H. Metcalfe. A silver plate on the pole will bear testimony to the fact that the pole was presented by the Victoria day celebration committee. Carpenters are at present working on the pole preparing it for erection. It will stand eighty-seven feet above ground.

A Delightful Concert.

In order to keep faith with the public and make amends for the small band at Wednesday night's concert, the 14th regimental band gave another delightful concert in Macdonald park last evening. There was a very large attendance and the choice music was highly appreciated; the band was never before heard to better advantage. The air was cool and delightful. The water fronting the park was thickly dotted with canoes, skiffs, sail and steamyachts.

A Word For Sir Mack.

Addington is a conservative constituency, and owes a duty to its party; it is a Canadian constituency and owes a duty to its country, and these duties should take precedence over the private grudges of Sir Mackenzie Bowell or anybody else.—Toronto Telegram.

Do you hear that, Sir Mack? If you try any more to keep Geordie Foster from sucking that Addington legislative icicle John Ross Robertson may feel impelled to give you one where you'll feel it. And you're not such "punkins" in the senate now either.—Hamilton Times.

Will Get The Money.

The manager of the Stella Island brass band, has written to mayor Kent, demanding payment of $10 for playing here on Victoria day. The band was engaged to play here on Victoria day, for which they were to receive $10. The band came, played and went home, free of expense, their expenses amounting to $37, being paid by secretary Metcalfe, of Victoria day celebration committee. He did not agree, to pay the band's expenses, but having done so, it was not expected that a demand would be made for the $10. However, this sum will be forwarded to the band.

How The Finances Stand.

The finance committee of the Victoria day celebration committee met last night to wind up business connected with the recent celebration. The secretary's books showed that $1,077 had been subscribed, of which there remains $27 to collect. There remains to be paid debts amounting to $340, and against there is the city council grant of $300 and $25 due from the fair association for advertising, not to mention the $27 of uncalled subscriptions. The committee decided to have the secretary's books audited, preparatory to a general meeting to finally close up the celebration matter.

When Found Chain It Down.

Alderman Graham, chairman of parks, states that there is a tap in the city park, but that caretaker Phillips took the cup away, unknown to him (alderman Graham). The chairman further says that the children could ask Mr. Phillips for the cup if they wanted it. It would seem more appropriate if the parks' committee and its chairman looked after these things, that is what they are elected for. The water is not fit to drink, anyway, inasmuch as it is conveyed through surface pipes and is always warm and insipid. It is said the chairman has a big surprise up his sleeve for the people, concerning water in the park, which he will spring before long.

Wanted—A Boat Service.

There is quite a large Kingston colony spending the summer at Tremont Park, near Gananoque—a delightful spot to rusticate in. But the heads of the families complain that they have no satisfactory way of going to and returning from the city. The steamer Pierrepont leaves here at 4 p.m.—too early for business men—and does not return till 9 or 10 a.m. next day. And a great deal of time is wasted on the trip. Said a Kingstonian last night: "My family is staying at the park during the summer, and I find it very inconvenient to go down and back. I believe there exists a splendid opportunity for some enterprising man to establish a boat service between Tremont Park and Kingston. A small yacht would answer the purpose admirably, leaving here at 6 p.m. and returning early in the morning. There would be enough business to make the boat pay well. I would like to see such a service established."

Any grocer taking a glory fit after a race at grocers' picnic will be given some spirits to bring on a revival.

We have something to surprise you Saturday. Grand Union.

The Pony baseball team will meet the Malone, N.Y., team here during the latter part of this month.

The Ponies have signed a new general utility man named Tilton. He is a smart fielder and a good batter.

Charles Jerome, Cape Vincent, will likely umpire the baseball match on Wednesday next between Ponies and Granites.

The Shamrock II will be painted light green. Her mast and spars will be unshipped at Glasgow for transmission by steamer in New York.

If Toronto could do the same in football as she does in baseball, go all over the country picking up players, she might be able to pick up an occasional championship.

While playing baseball at Winnipeg Louis O'Connor, aged fifteen, was struck on the head with a ball. He managed to wheel home, but shortly after became unconscious and died from concussion of the brain.

Both Invader and Beaver had a good spin on Thursday. The breeze was travelling at the rate of about twenty miles an hour. The challenger had already shown her superiority in a light breeze and Thursday's trial showed that in rough weather she was fully the equal of, if not better, than Beaver.

Cricket Club Life, a Philadelphia, Penn., sporting paper devoted to cricket, contains an excellent cut of the Canadian cricket club, touring in the United States. Maj. Van Straubenzee, Maj. Logan and C. B. O. Symons, this city, are members of the team. Maj. Straubenzee captains the team.

At a meeting of the R.C.Y.C. sailing committee it was announced that E. H. Ambrose, of Hamilton, had been the choice of the R.C.Y.C., and that he had consented to act as the Toronto club's judge at the international race for Canada's cup, on August 10th. E. P. Warner will be judge for the Chicago yacht club.

E. H. Ten Eyck, the champion sculler, will be at Philadelphia to defend his title, and the outlook is that only Greer, of Boston, will enter against him. The winner of the association singles will be eligible to start in the race, but if this proves to be Juvenal, as seems probable, Ten Eyck will be allowed to continue champion unless his condition is such that he cannot row his best race. In other words, Juvenal will be reserved for the races unless the championship looks easy.

Bakers May Play Ball.

The bakers and drivers of Toye's and Pollit's shops are very anxious to meet each other in a game of baseball, and so a match has been arranged to take place at Lake Ontario Park next Thursday. Plenty of "dough" will be put up; it is said the winning team will "knead" it. Very likely the rooters will tell the referee that he is not "half-baked." As the players' "delivery" is good, none of them will be apt to "loaf" and a speedy game may be expected. The losing team will probably feel "crusty."

To Play For A Big Purse.

The Deseronto and Sydenham football teams, which stood at the head of the Quinte league and which were unable to settle the championship owing to some dispute, have arranged to play for a big purse, at Tweed, on the 31st inst. The game is likely to be a lively one, as there is considerable rivalry between the two teams.

MANY UNSANITARY CELLARS.

The Board of Health Should See to Improvement

Workmen, who have been repairing and renovating the store on Brock street, known as the Bon-Ton barber shop, have removed nearly twenty loads of dirt and refuse from the cellar. The odor arising from this refuse is something fearful, and plainly demonstrates the fact that the cellar has been a menace to the public health for many years. Its foulness is indescribable. Those who are in a position to know state that almost all the cellars in the block are in the same unsanitary condition. The question naturally arises: What has the board of health been doing? An alderman drew attention to the matter this morning, remarking: "The board of health, which is so particular about vaccination as to exclude from school all children who have not bared their arms to the physician's lance, has been neglecting its duty. It is its duty to see that all cellars, as well as yards, are inspected and cleaned. Certainly this cellar, and many others of a like nature, were never inspected. Such places should not be allowed to exist in the city. I hope the board will learn a lesson by the present instance, and do its work more thoroughly in future. There is big room for improvement in its work."
