HOLD UP YOUR HANDS

Episode On a Stage Coach in New York State.

Saratoga, N.Y., Aug. 15.—News was received here last night that the Blue Mountain stage was held up by a masked robber about noon, yesterday, at North River. The robber ordered the passengers to hold up their hands and alight. Six of the men immediately took to the woods, and the remaining man stayed with his wife, who was relieved of $20, but the robber failed to find a larger sum contained in another pocket. The highwayman then proceeded to rifle the mail bags and express packages, taking everything of value. He then took to the woods and up to dark searching parties had been unable to find any trace of him.

Old Rivals.

Baseball, Lake Ontario Park, Saturday, Gananoque vs. Ponies. Ladies free to grounds by car.

PRETORIUS IS DEAD

He Had Been Shot Through The Eyes.

BEYERS TRIED TO STOP HIM

BUT DE VILLIERS WAS BOUND TO SURRENDER.

The Commando Of Beyers' Is Rapidly Melting Away—The Offers Made By the Boers For The Sinking of Vessels—Kitchener Comes Home.

Pretoria, Aug. 14.—An attack on the railway at Naybroom Spruit resulted in ten Boers being killed. An armored train arrived in the nick of time. Commandant Devilliers, of the Waterberg commando who recently surrendered, was Gen. Beyers' second in command. Beyers attempted to stop him, but without success. Other burghers are expected to come in within a few days. This commando is melting rapidly.

Frederick Wolmarans, lately a member of the executive council, was captured in the Magaliesburg. Myburg, a commandant of the Boers south of the Orange River, has been killed.

Pretorius Is Dead.

Magersfontein, Aug. 13.—Commandant Pretorius, who was recently shot through the eyes, is dead.

Offers Made For Wreckage.

Paris, Aug. 15.—The Matin prints the alleged text of letters of marque submitted to the Transvaal executive at Brussels for signature. The letters offer £80 per ton of warship tonnage and £40 per ton of mercantile tonnage sunk. If the South African republics conserve their independence payment will be made on the signature of peace from the indemnity taken from England. Privateers are to respect neutral commerce and generally all vessels ignorant of their danger.

Kitchener To Come Home.

London, Aug. 15.—The Daily Mail says that Gen. Kitchener will return to England on Sept. 15th, the date on which his recent proclamation to the Boers become operative. He will be succeeded in the military command in South Africa by Gen. N. C. Lyttelton, who is now en route to South Africa with lord Milner.

PROFITABLE INVESTMENT.

Why Thrifty Business Men Seek Life Insurance.

New York, Aug. 14.—Careful examination of the reports of leading life insurance companies shows that, in a great majority of cases, the beneficiaries receive much more than the total amount paid to the company by the insured. This is in every case in direct proportion to the thrift of management and the character of investments of the company. The Mutual Life insurance company of New York, by far the largest and strongest of the life companies, reports for the five weeks ending August 3rd, a total of 359 death claims amounting to $1,341,197.03. For this the insured paid a total of but $665,967.98 or not quite half the amount received by beneficiaries. Between January 1st and July 1st, 1901, the Mutual Life paid 2,312 death claims for $8,185,298.89, which cost the insured only $3,742,353.81, much less than one-half. The company has returned to policy holders a grand total of over $550,000,000 and has steadily growing assets of more than $330,000,000.

These are among the reasons which are inducing so many thrifty business men to look to life insurance as the surest and most profitable investment for the protection of business or family. The Mutual Life is said to be writing much more insurance than in any previous year.

ARE ON THE ALERT.

To Locate All The Cases Of Smallpox.

Ottawa, Aug. 15.—The medical authorities have not been able to discover where the smallpox patients contracted the disease, and as they were all more or less exposed, until a few days ago, it is feared that they may have spread the contagion to others, and that new cases may develop any day. All the local physicians are on the alert to discover cases, and should any turn up they will be at once quarantined.

The Canadian Hythe school of musketry, at Rockliffe, will soon be closed for a time, and last night the attendants gave a bonfire reception to a large number of friends.

The inquest into the death of Mrs. H. F. St. George, whose body was found in the Ottawa river, on Monday, is not yet concluded, but it is apparent that the woman was insane and jumped into the water.

The Dominion education association this afternoon visited the central experimental farm and Britannia. The next place of meeting will probably be Winnipeg, in 1903 or 1904.

The kindergarten section elected the following officers this morning: President, Miss Mary E. MacIntyre, Toronto; vice-presidents, Miss Campbell, Montreal; Miss Carrie Newman, Vancouver. Mrs. Patterson, Truro; secretary, Miss Ellen Cody, Toronto normal school.

Was Badly Hurt.

Wiarton, Ont., Aug. 15.—James Lindsay, millwright in Robert Watts' saw mill, was seriously injured by a splinter of wood from the lath machine, the sliver entering deeply into his head through the eye producing concussion of the brain. He has not yet regained consciousness.

In all shirtdom, there are no prettier shirts than ours. Oak Hall. Silk bow ties 10c. Oak Hall.

CROSSES THE BORDER

Invader Defeats Cadillac Again in a Fine Race.

Chicago, Aug. 15.—The Canadian yacht Invader won again yesterday in a grand race and the Canada's cup goes back across the border, but accompanied by five challenges.

Chicago yachtsmen are not dismayed, and both the Chicago and Columbia yacht clubs immediately challenged for the cup. Each club sent a challenge directly to Toronto immediately after the race, at the same time handing commodore Gooderham of the Royal Canadian yacht club a duplicate. The Rochester yacht club also challenged at once, and so did two Detroit yacht clubs. The Canadian commodore says he cannot tell which of the five will be given the preference.

The times were: Invader, start 11.30; turning buoy, 1.57.40; finish, 3.07.38; elapsed time, 3.37.38.

Cadillac, start 11.30; turning buoy, 1.59.45; finish, 3.09.58, elapsed time, 3.39.58.

Squeal From Detroit.

Detroit, Mich., Aug. 15.—William C. Jupp, secretary of the northwestern amateur oarsmen's association, returned from Chicago yesterday. He saw the fluke and foul of Tuesday in the Canada's cup races, and while he does not deny that skipper Jarvis, of the Invader, was strictly within his rights in taking the race on a technicality he does not admire the spirit which prompted getting a race by such means. "Our folks have not shown any such spirit as that," he declared. "We could have had that cup without ever sailing a race for it and Jarvis knows it. The Invader is over the thirty-five-foot limit, and could not be brought within it without shaving off her lead keel, which they dare not do. If we had protested her size the cup would have had to go to this side without a contest, but we built up to the Invader as she could not come down. Cadillac was given more ballast and more sail until she is over the limit, too. On Tuesday Jarvis played a sharp trick to catch Thompson. When Invader was too close to him Thompson saw what the Canadians were doing. He put his helm up and tried to get out of the way, but he lay there in irons, though, and Invader, under nice headway came down and touched him and then took the race on a foul, because Cadillac was in the way when Invader had the right of way. Jarvis was within the rules all right, but it was not very sportsmanlike to get a race that way, when by giving way a trifle he could have let the Cadillac out."

SHAFFER TALKS.

Does Not Give Up Getting Western Men Out.

Wheeling, Aug. 15.—President Shaffer says if the western men do not quit they are non-union. Mr. Tighe has gone west and if the men decline to come out their charters will be forfeited. Then he added: "Taking the strike as a whole, we are making gains everywhere every day. Our membership is increasing at a rapid rate and many non union mills where we have never before been able to secure a hold are now organized or partially organized."

Shaffer Being Undermined.

Pittsburg, Aug. 15.—It is learned that a movement has started and has already made progress looking to the ousting of T. J. Shaffer from his place as president of the amalgamated association of iron, steel and tin workers, in order, they say, to save that organization from disruption, even at the expense of yielding all the points for which Shaffer has contended.

Desertions from the ranks of the strikers are reported from Painter's mill here, and the Crescent plant in Cleveland, and the managers say that it is only a question of time before there is a general break.

ENTIRELY ESCAPED

From Damage By Fires—Distressing Reports.

Toronto, Aug. 15.—Reports received by the department of crown lands indicate that the forests of northern Ontario have entirely escaped damage by fire this season, except in the case of the Temiscaming settlement which can hardly be called a forest fire. The government employes twenty fire rangers on crown lands, while 220 men are employed for a similar purpose on the licensed lands, the government paying half the licensees' expenditure in connection therewith.

Reports received from famine districts in China and India are still very distressing the latest to hand, records the fact that in some sections the people are reduced to the extremity of eating boiled leather and even of practising cannibalism. Li Hung Chang has issued an appeal to America on their behalf, and persons so disposed may contribute to their relief, through Miss Caroline Macklem of Sylvan Towers, Rosedale, Toronto. The fund will be forwarded to the China inland mission, or to New York as desired.

Five men were burned to death, four were drowned, three and possibly four were suffocated and several injured as the result of the fire which destroyed a temporary water works crib two miles off the Cleveland harbor early on Wednesday.

Fire destroyed the old Bronsin house on the Reed road, Geneva. A widow and four children named Hanrahan, barely escaped with their lives.

Among the numerous picnics at Lake Ontario park yesterday was one conducted by Miss F. Hartman, in honor of Miss Floyd, Cobourg.

H. M. S. Icarus, sloop of war, at Victoria, B.C., ordered to Panama, will leave Friday morning.

Ambassador White has been granted leave at Berlin and will visit the United States.

CANADIAN TO COMMAND

The Militia Will Be Put In His Care.

CABLE FROM OLD LONDON

WEATHER HAS BEEN MUCH DISCUSSED.

Men Are Leaving Britain For The Western Wheat Fields And It Is Quite Likely Nearly All Of Them Will Locate There Permanently.

London, Aug. 15.—Henceforth the command of the Canadian militia is to be given to a capable officer closely connected with the dominion, and this virtually means that Gen. O'Grady-Haly's successor will be a Canadian officer. In some circles in Canada considerable agitation over the appointment of an officer of the dominion forces to the chief position in the militia has taken place.

As a result of the appeal from Canada for men to bring in the great harvest in Manitoba and the northwest, a large number of men are leaving this country for the western wheat fields, and nearly all of them will settle there permanently.

The People Terrorized.

London, Aug. 15.—The last mail from Cape Town details the terrorized condition of that city, which is infested with criminals and denuded of police. The latter have largely become combatants. Desperadoes recently robbed a bank manager in the suburbs in broad daylight. Men from the front, who are paid off at Cape Town, are robbed in saloons daily, and the thieves go unpunished. Burglaries are of nightly occurrence in the heart of the city. The government has decided to import hundreds of British police.

Can't Obtain Space.

London, Aug. 15.—It is stated that many Americans are unable to secure passage on homeward bound steamers and will be compelled to wait for several weeks before they can obtain transportation. The manager of one of the lines says that all the accommodation on their steamers is booked up to October 1st. He ascribes the large trans-Atlantic travel to the prosperity in the United States.

WORKING ON OLD CASE

Of a Man Found Drowned At Hamilton.

Hamilton, Ont., Aug. 15.—Provincial detective Greer is in the city, and with the local detectives he is working an the case of Daniel Shea, an old soldier, who disappeared on the night of Thanksgiving day, 1894, on his return from Toronto, where he took part, with the 13th regiment, in a sham battle. Shea's body was found floating in the bay in the spring of 1895, but was badly decomposed and eaten by fish, and as no wounds could be detected on the body, it was supposed he had fallen from the Grand Trunk dock while intoxicated and was drowned. Recently some of the men implicated in Shea's death had a quarrel and one of them has divulged the story of how the old soldier went down to his death, leaving a widow and several children. It appears he went to the Tremont hotel, about midnight, after his return from Toronto, and there had a violent quarrel with several men, who ridiculed the queen's uniform which he wore. Shea retaliated by calling them Fenians, and upon this Shea was pushed into the yard and given his death blow. Later the body was carried to the dock near by and thrown into the bay, and as ice formed on the bay shortly afterwards, the remains were not recovered till the following spring. It is now said the police are in a fair way to lay their hands on the murderers of the old man, and they will be brought to justice.

Alfred Allison, a farmer living near Carlisle, was fatally injured on Monday last by his horses running away. He was thrown from the rig and his skull fractured so that he died yesterday. Deceased was thirty-three years of age and is survived by a widow and two children.

Hugh Brown, eighty years of age, a retired farmer, fell dead shortly after arising from bed this morning. Brown lived with his son in this city. A grown up family survives.

REFUSED TO MARRY.

Answered Advertisement of a Descendent of Vanderbilt.

South Bethlehem, Aug. 15.—John Vanderbilt, a lineal descendant of commodore Vanderbilt, after leading a hermit's life at the Hezenkopf, a wild and secluded portion of the lower Saucon, recently advertised for a wife. The advertisement stated that Vanderbilt was worth $200,000, and that he wanted a wife equally as well off in this world's goods. Wednesday, Miss Jennie Montgomery, New Orleans, thirty-five and pretty, stopped off here on her way home from the Pan-American exposition. She hired a cab and drove to the hermit's hut. After a look at the home and at the man, she decided she didn't care to accept his offer, and hurried away.

CZAR TAKES CONTROL.

Suzerainty Proclaimed Without Regard To Other Powers.

London, Aug. 15.—A special despatch from Shanghai, dated August 14th, says the Russians at New Chwang have proclaimed the czar's suzerainty over that district, have abrogated the Chinese laws and have prohibited the natives from referring their disputes to the arbitration of American or British merchants and missionaries. All disputes must be referred to the Russians for settlement.

SMOTHERED TO DEATH.

The Sad Fate Of a Boy in a Grain House.

Philadelphia, Aug. 15.—William McElhone, aged ten years, of 1525 Cadwalder street, was smothered in a bin of oats in Walton Bros.' grain house on American street, yesterday. The boy, according to his daily custom, had brought dinner to his father, who is employed in the place, and then, with a companion, began playing "hide and seek." Willie jumped into the oat bin that was filled to the depth of eighteen feet. The oats were running through a chute, and his weight accelerated the movement so much that he was drawn into the centre of the huge box.

His companion notified the employees and every effort was made to save the lad, but he was dead when they got him out.

DENIES THAT HE WILL ACT.

No Truth In Statement That He Is To Do Anything.

New York, Aug. 15.—Governor Odell, at Manhattan Beach, was asked if he intended to take any action concerning the police department. He replied that he would not, as there was no reason for his intereference at this time.

Deputy chief Devery, under fire, is back again from Saratoga. He is pugnacious to the last degree, and his friends at headquarters say he will refuse to resign.

Police captain Diamond, indicted for neglect of duty, was formerly arraigned before recorder Goff. Bail was furnished. The captain will plead on Friday.

BIT WOMAN IN BED.

Awoke And Found Reptile Crawling Over Her.

Fayetteville, Pa., Aug. 15.—Josephine Patterson, a young colored woman living at Pond Bank, was awakened by a snake crawling over her body. She gave a scream of fright and attempted to throw off the snake, a large copperhead, which bit her on the arm. Her shrieks aroused the family, who killed the snake. A physician was promptly summoned, and found the woman's arm swollen, and it is feared that he cannot save her life.

Swung Her Hatchet And Tongue.

Thousand Island Park, Aug. 15.—Mrs. Carrie Nation's lecture in the tabernacle here yesterday was listened to by 4,000 people. As soon as she landed at Clayton she opened her grip and began selling her little hatchets at 25c. each. On the way from Clayton here she put her arms around the violinist on board the steamer St. Lawrence, hugged him and kissed him, saying that "the light of God was born in him." She tried to stop several men from smoking on board. She stated at the hotel here that she couldn't do any more smashing until she got out of debt. In her lecture she affirmed that she was perfectly sane, meantime waving her hatchet around her head. She disposed of all the hatchets she had at the tabernacle. When asked if she was going to smash any more saloons, she replied: "Saloons! Why there are no saloons to smash on Thousand Island park. This is a lecturing trip and not a crusade against saloons." Mrs. Nation lectures in Watertown to-night.

Can Pay His Debts In Full.

Chicago, Aug. 15.—The George H. Phillips company have found out where they stand. The statement has been compiled from the books, which make their standing better than anticipated. They owe less than $200,000, and Phillips says they will be able to pay in full.

Their net losses are said to be more than the profits from the commissions, particularly in the May corn pool, where the commissions were $17,000 and losses by over-payment, $100,000.

To Have a New Line.

Sault Ste. Marie, Ont., Aug. 15.—The Bruce Mines and Algoma railway has completed an organization electing the following officers: President, John McKay, Sault Ste. Marie, Ont.; vice-president, Sol Skall, Cleveland; general manager, Arthur S. Burrows, Bruce Mines, Ont.; treasurer, Hermann Wile, Buffalo; secretary, L. C. Holden, Sault Ste. Marie, Mich. The contract for track construction was awarded to Birmingham and McMartin. The road will be extended from Bruce Mines to Rock lake.

Cape Vincent Man Arrested.

Watertown, N.Y., Aug. 15.—An action has been commenced in supreme court by Martin G. Whitney, of this city, against Alphonse Brenon, Cape Vincent, for the recovery of $10,000 damages, for the alleged alienation of the affections of the plaintiff's wife. Sheriff Ballard placed Brenon under arrest on an order granted by judge Emerson. Brenon gave bonds of $1,000, upon which he was released.

Summer Is Not Over.

Yet summer prices go on. Friday, August 16th, when Livingston Bros. offer their entire stock of neglige shirts and soft fronts at cost price.
