Those who have used Laxa-Liver Pills say they have no equal for relieving and curing **Constipation, Sick Headache, Biliousness, Dyspepsia, Coated Tongue, Foul Breath, Heart Burn, Water Brash** or any disease or disorder of the stomach, liver or bowels.

Mrs. George Williams, Fairfield Plains, Ont., writes as follows: "As there are so many other medicines offered for sale in substitution for Laxa-Liver Pills I am particular to get the genuine, as they far surpass anything else for regulating the bowels and correcting stomach disorders."

Laxa-Liver Pills are purely vegetable; neither gripe, weaken nor sicken, are easy to take and prompt to act.

TRAVELLING.

Kingston & Pembroke and Canadian Pacific Railways.

## Settlers' One-Way Excursions

Manitoba and Canadian North West will leave Kingston and K. & P. stations every Tuesday during March and April.

Passengers travelling with Live Stock should take the train leaving Kingston at 11:50 a.m.

Passengers travelling without Live Stock should take the train leaving Kingston at 8:00 a.m. Mondays.

Colonist Sleeper will be attached to each train.

For full particulars and copy of "Settlers' Guide" apply to

F. CONWAY,
Ticket Agent K. & P. and C.P.R.

**The Bay of Quinte Railway**
**New Short Line for**

Tweed, Napanee, Deseronto and all local points. Train leaves City Hall depot at 3:45 p.m. R. J. Wilson, C.P.R telegraph office, Clarence street.

GRAND TRUNK RAILWAY SYSTEM

SETTLERS' SPECIAL TRAINS TO MANITOBA AND THE CANADIAN NORTH-WEST.

With free colonist sleeping cars attached will leave Toronto at 9 p.m. every Tuesday in March and April, 1900, and run via North Bay. Passengers leaving Kingston by G.T.R at 12:50 p.m. make direct connections with these trains.

# OUR WASHINGTON LETTER.

WARSHIPS ON THE GREAT LAKES.

**A Movement to Build But Not to Maintain Them There—Kruger Does Not Know the Definition of English Words.**

Washington, D.C., March 16.—It now turns out that Oom Paul, whether by accident or design, asked president McKinley to "intervene" in the war between the British and the Boers, instead of merely asking him to "mediate" or to "act as intermediary." Intervention carried the suggestion of force which mediation does not. It is of course possible that Kruger, not being thoroughly familiar with the English language, misunderstood the accurate definitions of the words and used the wrong one unintentionally. However, his despatch was communicated to Great Britain with the explanation that the United States did not intend any intrusion on British concerns, but that it would be glad to assist in bringing the war to a close if Great Britain should so desire. Lord Salisbury, replying, stated that the services of neither the United States nor of "any other nation" could be accepted. No doubt this wording was intended as a warning to the other powers, but if so, it failed in its intention as the state department will not give out officially the text of the answer, holding that it is a confidential communication. Later the text of the reply was made public in London.

The secretary of state has transmitted to congress the correspondence with the British government on the subject of modifying the Rush-Bagot treaty so as to permit the building of warships on the great lakes. He says that instructions were given to the high joint commissioners to try to secure a declaration that it was not contrary to the true intent of the arrangement of 1817 to build vessels of war on the great lakes, provided they were not to be used or maintained upon those lakes. In 1817 the great lakes were independent inland waters, and there was no navigable connection between them and the ocean. Under such circumstances, to build and arm vessels on the lakes meant to "maintain them there." But matters have changed since then. The negotiations fell through when the commission adjourned. The secretary's request limited construction of war vessels on the lakes to the capacity of the Welland canal, which is so small even the revenue cutters had to be cut apart to get them to salt water. The secretary's plan, apparently, would stimulate the building of third-rate vessels only, and is a disappointment to many people.

The house committee on military affairs has laid over for a week the consideration of the resolution introduced by Mr. Sulzer, of New York, directing the secretary of war to inform the house what fortifications Great Britain is erecting along the northern frontier of the United States, especially at Puget Sound and in the north-west border country. An amendment was made striking out the reference to Great Britain and making it read "any foreign power."

J. E. Hamilton, United States agent at Morrisburgh, Canada, reports to the state department as follows: "The New York and Ottawa railroad will be completed during the present year, and will be one of the most important routes between the United States and Canada. The run from Ottawa to New York will be made in about ten hours—one and one half hours less than the time from Montreal to New York. The placing of the northwestern portion of New York, Massachusetts and Connecticut, in such close touch with the dominion, especially with Ontario, cannot but largely increase the trade between the United States and Canada."

In the same mail, F. S. S. Johnson, commercial agent at Stanbridge, reports as follows: "The Quebec and Lake Huron railroad company, which is asking a charter from the Canadian government, promises to be a most important factor in the traffic between the great lakes and the Atlantic seaboad. The lines will start from Georgian Bay, and run east to Quebec. The main object of the promoters is to lessen the cost of transportation of grain and flour between the western states and Europe. They expect to bring to Quebec for shipment by the St. Lawrence, either in grain or flour, between 30,000,000 and 50,000,000 bushels of wheat per year, and a great part of the 2,000,000 feet of lumber cut every year in the country traversed by their line. The new road will effect the utilization of the splendid forests of hard wood through which it will run, which are now unavailable because they can not be floated."

In consequence of the extension of his assignment here, lord Julian Pauncefote, the British ambassador, has suspended the sale of his carriages, which he advertised last week. A coachman was assigned particularly to show the vehicles to intending purchasers. Many persons called, among them several members of the cabinet, local society folk and a number from other cities. An omnibus—the vehicle least commonly used—was the first to be sold a small Victoria and a trap—but the remainder will be held until the latter part of June, at which time the embassy buildings will be closed.

Lord and lady Pauncefote were guests of honor at a dinner this week given by the Austrian ambassador and baroness Hengelmuller. The guests were: baron von Holleben, German ambassador; the Spanish minister and duchess d'Arcos, senator and Mrs. Wetmore, solicitor-general and Mrs. Richards, general and Mrs. Miles, Mr. and Mrs. Westinghouse, Mr. and Mrs. McClellan, Miss Ward, Miss Patton, Miss Morris, Max Muller, and Dr. von Bohlen.

The following pensions have been issued to residents of Canada: Original widows—Amy J. Fitzgerald, Springford, Ontario, $8. per month. Increase—Joseph Trudelle, Shippegan, New Brunswick, $8 to $12.

E. G. Siggers, patent lawyer, reports the following patents granted by the United States patent office, March 13th, 1900, to inventors residing in Canada: V. M. Bouthiller, Montreal, adhesive compound; B. Kingsley, South Vancouver, churn; C. Kingsley, Montreal, ratchet wrench; E. J. Kirk, Bracebridge, hat or cap rack; S. Lounsberry and W. J. Winn, Milton, bicycle; J. H. K. McCollum, Toronto, car brake; G. Reynolds, Toronto, turning attachment for lathes; W. Rosk, Montreal, acetylene gas generator; W. Teake, Hamilton, rapid fire pyrotechnic gun.

## DISTRICT DASHES.

**News of the District Condensed From the Whig's Exchanges.**

Jim Stewart, Renfrew, is about to start a boot and shoe store in Shawville.

Frank Stewart, Renfrew, has secured the position of district agent or superintendent of agencies for the Federal life assurance company for Eastern Ontario. He will remove to Ottawa.

The hotel property belonging to the estate of the late W. A. Edgers, Frankville, was sold to Drs. Bourns and Dixon. It is reported they intend transforming the building into a private hospital.

Joseph Gabourie, Hungerford, assaulted Philip Fisher, a twelve-year-old boy employed by him. The boy left a root house door open and otherwise neglected his duties and the potatoes in the root house froze. Gabourie whipped him. He was fined $30.

At Bethesda, on the evening of March 8th, Stephen Hacket, was married at the residence of Mrs. T. Pridmore to her daughter, Sarah A., by Rev. A. S. Brown. The bride wore green cashmere and carried a bouquet of white carnations. The relatives of the happy couple were entertained at supper. To all others the marriage of the popular couple was a surprise.

### Centreville Sensations.

Centreville, March 19. — At present writing we have more snow and worse roads than we have had in years. Farmers are drawing logs and timber to the mills. William Henderson is leaving to reside in Earnestown. E. H. Perry has gone on a business trip to the back country. Miss Lizzie McKenty has returned from Cannifton. Miss Sadie O'Connor is visiting at Croydon. Joseph Perry has returned after spending the winter at Cloyne. Miss Jennie Ingoldsby has returned after visiting friends at Erinsville. Visitors: Mrs. Hayes, Picton; Mr. and Mrs. J. Dowling, Deseronto; the Misses Dewey, Napanee.

### Dr. Barrie Writes Home.

Toronto, March 20.— Dr. Barrie, Y.M.C.A. worker with the first contingent in South Africa writes encouraging letters concerning his labors among the soldiers. So far thirty conversions have been made and the field seems to be an unusually promising one. A large part of the Y. M. C. A. work in the field consists of nursing and tending the wounded, and Dr. Barrie is at present with the Canadian invalids at Orange River.

### Denies An American War Story.

London, March 20.—Being asked a question in the house of commons regarding the reports of trouble threatening in China, the parliamentary secretary of the foreign office, William St. John Brodrick, said her majesty's government had taken and would continue to take all necessary steps to protect British interests in this connection. He also denied the story published in the United States that the American government was sending warships to China.

### Favors An Addition.

Principal Mills, of the Guelph dairy school, after paying his annual visit to the local school, returned west at noon to-day. This morning he addressed the students and complimented them upon the good work they were doing. The principal is in favor of the proposed addition to the school if an appropriation can be secured from the legislature. The plans of the extension, as prepared by architect Ellis, were forwarded to Mr. Mills some time ago.

### Changed The Paper's Policy.

London, March 20.— A despatch from Bloemfontein states that the Friend of the Free State, the official newspaper printed there, has been taken in charge by a committee of English war correspondents, and is now being printed as a daily journal on imperialistic lines. The German consul expressed astonishment at the quiet manner in which Bloemfontein was occupied and the absence of looting by the troops.

### Gobel Murder Trial.

Frankfort, Ky., March 20.—Caleb Powers, John Davis and William H. Culton, charged with being accessories to the murder of William Goebel, were arraigned for trial. The commonwealth was not ready, and by agreement the trials were set for next Friday.

### Desmond Deliberations.

Desmond, March 20. Roads are bad, owing to storms of last week. No church services on Sunday. Fred. Bell is improving. Mrs. Mary Switzer is ill with la grippe. Mrs. John Paterson is quite ill. A number from here attended the lecture and tea at Moscow.

### A Wealthy Man Dead.

Stratford, Ont., March 20.— John Murray, who was reputed to be the wealthiest man in Stratford is dead at the age of seventy-eight years. He was born in Scotland, and was one of the early pioneers of Northeast Hope. Mr. Murray never married.

### Strike Out of Sympathy.

Buffalo, N.Y., March 20.— Fifty carpenters employed at the Union dry dock, this morning laid down their tools and refused to continue their work. They have gone out in sympathy with the iron workers and machinists at the dock, who have been out for several weeks.

### Belleville Won The Case.

Belleville, March 20.—At the assizes, before justice Ferguson, an action brought against the city of Belleville by one Keeleher, claiming $5,000 for the loss of a leg through the alleged negligence of the corporation, was non-suited.

### Martin's Latest Act.

Victoria, B. C., March 20.— Joseph Martin, has signalized his entrance to office by another sensational move. Yesterday he seized all the ties and timber of the Crow's Nest railway for alleged non-payment of royalties.

### Engagement Announced.

Hamilton, Ont., March 20.— The engagement is announced of Miss Christina Hendrie, daughter of William Hendrie, of this city and A. Herbert Eckford, High River, Alberta. Mr. Eckford is a nephew of Lady Somerset.

The ladies of Chalmers church have so far, among themselves, contributed $500 to the century fund.

We appreciate your patronage, drop in and see us for your new spring suit. Grand Union Clothing Co.

# SOLDIER ILL IN HOSPITAL.

PTE. JAMES HATTON ILL OF FEVER.

**Expresses Regret at Inability to Accompany Kimberley Relief Column—Nurses Are Kind—Many Deaths Occurring—Is Recovering Nicely.**

A letter was received this morning by his sister from Pte. James Hatton, member of the first Canadian contingent serving in South Africa. It is dated "Orange River hospital, Feb. 15th." The writer intimates that it is his sad misfortune to be left behind in the hospital, suffering from the effects of enteric fever, which has left him very weak. At the time of writing his temperature was 103 degrees, but it had been higher than that. The nurses were very kind and told him he would soon be able to rejoin his regiment.

"I am not fretting very much, but naturally feel very much put out at being left behind. The regiment is now close to Kimberley and I would like to be with the boys when they march into Kimberley; just think of them entering Kimberley and me not with them. Of course they tell me not to worry, but I would like to see that relief column enter the relieved city; the sight will be worth witnessing. I'll be all right in a week or two, so do not worry on my account. You must not expect a long letter from me this time as I find great difficulty in writing and the nurses tell me not to write too much. Besides, the fever has affected my memory and I find it hard to collect my thoughts.

"Some times two and three deaths occur in this hospital every day and it is heart-rending to see them cart the poor fellows away. I hear we are to return to Canada on the 15th, the steamer Sardinian is now lying at Cape Town, perhaps to take us back."

Pte. Hatton enclosed in his letter a card bearing the prayer prepared by the archbishop of Ireland for use of the soldiers in the field. Each soldier in South Africa received one of these cards.

### Stead, The Disloyal.

Saturday Night.

"War Against War." This weekly served, edited by W. T. Stead, seems the rankest newspaper offence against the national feelings of a country ever published. It declares against the British cause as if the imperial government were a gang of robbers and assassins, and the Boers were an army of saints. To editor Stead the British soldier is a hired cutthroat, and the burgher is his pious victim. Such a publication in a time of war would be tolerated in no other country—not even in the United States, where before the third issue a mob would have looted the office and lynched the editor. Yet this offensive and self-righteous rag is issued in "intolerant, tyrannical England!" If Stead had been a burgher and had tried during the war the game of publishing a pro-English paper in Pretoria, he would have been gibbeted and the vultures would have picked his bones before the ink was dry on the first copy.

### A Bowling Match.

The Kingston bowlers defeated the O.K. bowling club last night by a score of 3,521 to 3,407, the victors having a majority of 117 points. The individual scores were:

Kingston club—J. O'Donnell, 618; P. Milne, 639; H. Brown, 659; J. Evans, 535; R. Holden, 613; L. Donnelly, 490.

O.K. club—C. Napper, 516; E. Turbett, 606; R. Patterson, 571; J. Deroche, 649; M. Lawless, 516; W. Donegan, 549.

A return match will be played next Monday night.

### After The Vacancy.

The different candidates for the engineership of the water works department are putting up a strong fight for the position. There may be a scene in the council before the appointment is made.

### Steamer To Be Repainted.

The steamer Hero was cut out of her ice bed to-day, and will be moved along side the steamer North King to be repainted. Last year the Hero made her first trip to Picton on April 20th.

### Good Friday Concert.

The officers and bandsmen of the 14th battalion will arrange a big concert for the afternoon of Good Friday, the proceeds to be given to the general hospital.

Not long ago queen Wilhelmina, of the Netherlands, sent a letter to the tramway companies of The Hague requesting that they instruct the drivers of all their vehicles not to stop when the royal carriage passed them. Wilhelmina said she appreciated the sign of respect and courtesy which these abrupt halts upon her appearance signified, but the sudden and unnecessary stops and the consequent starts tired the horses who dragged the heavy cars, and for this reason it gave more pain than pleasure to her majesty to have the trams recognize her presence.

The Frontenac baseball club will organize Friday night. This club won the local championship last year and the members were to have received medals from E. B. Gallagher. At the meeting Friday night a committee will be appointed to wait upon Mr. Gallagher with reference to the delay in presenting the trophies.

St. George's cathedral building committee met on Monday afternoon and gave instructions to the architect to increase the number of hands engaged in moulding the plaster work. This will be done at once so that the completion of the building may be hastened.

"Thro' Fire to Fortune," the latest novel by that popular and prolific writer, Mrs. Alexander, has been published by the Mission book company, Toronto, at fifty cents in paper cover and at $1.25 in bound volume. It will assuredly have a great sale.

T. Darley Allen, M.A., of this city, at present literary editor of the Boston Christian, and editorial contributor to various American periodicals, will leave on April 15th for New York city, to devote himself exclusively to metropolitan journalism.

The ice in the harbor is fairly clear, but somewhat rough. The rain and the thaw yesterday has made ice-yachting once more a possibility. If it freezes again to-night the ice yacht club will likely be able to finish some of the pennant races.

Dr. Webster, of Rockwood hospital, left this afternoon for New York.

IF YOU ARE NOT DRINKING Monsoon Tea, you are not getting as good value for your money as you should. We think it is pretty well conceded on all hands now that "MONSOON" is best.

MONSOON

INDO-CEYLON TEA.

### AN OCTOGENARIAN DEAD.

**Only a Few Days Ill—Affairs in Busy Kepler.**

Kepler, March 19.—On Friday morning the spirit of Mrs. Emamuel Orser took its flight. Deceased, nearly eighty years of age, was confined to her bed for only a few days, and her death was a great surprise. The funeral took place on Sunday and was largely attended. A husband and eight children survive. Master Thomas Berry is ill with mumps. We regret very much that Thomas Ault and family are about to take their departure from this neighborhood. They leave for their new home, Front Road, in a few days.

Farmers in this neighborhood are preparing for sugar weather, which they say will be here shortly. Several started for Kingston on Saturday but were compelled to turn back on account of the fury of the storm. The W.C.T.U. social at Mrs. W. Kiell's, Elginburg, on Friday evening was well attended by our young people and a very pleasant evening was spent. Travelling on Loborough lake is still quite safe and will be for some time yet. S. Guess and H. F. Johnston have arranged to play a crokinole match on Thursday evening to decide the championship of Kepler. Both are adepts at the game.

H. F. Johnston has been increasing his fine herd of Ayrshires. He purchased several fine animals last week. Several in this neighborhood, who have friends in the first Canadian contingent in South Africa, are pleased to hear of their excellent work. No doubt some will return with that coveted honor, the Victoria cross. Miss Althea Cranston returned on Saturday from visiting friends in Switzerville.

Mrs. Kenneth Orser returned on Friday from visiting relatives in Brockville and other places. Mrs. William Horning and Miss Minnie Johnston are spending a few days in the city. Miss Effie Townsend, attending her friend, Miss Lillie Guess, who is ill in Sydenham, has returned. James Lindsay is visiting friends in Kingston. Visitors: Miss Nina Wood, Sydenham, at Erastus Horning's; Robert Curran, Mapitoba, at W. Horning's; Walter Switzer, Switzerville, at C. Cranston's; Miss Alma Sprole, Westbrook, at J. Knight's; Oscar Aykroyd, Kingston, at his father's, Daniel Aykroyd.

### Railton Ripples.

Railton, March 21.—Farmers are preparing for coming spring's work. C. A. Noll, Yarker, spent Sunday with us. Mr. and Mrs. J. D. Keeley and Mr. and Mrs. J. O'Brien visited friends on Wolfe Island last week. C. A. McAuley was visited by a welcome guest last week; it is a boy. The members of the Sacred Heart league recently placed a very beautiful statue in St. Patrick's church. G. Murphy returned home Monday after paying friends a visit. Mr. Keys had a very satisfactory bee last Tuesday hauling wood. Visitors: J. Boyle, South Lake, at F. D. McAuley's; Mrs. P. Nugent at C. A. McAuley's.

### Has A Scheme.

A merchant suggests, with reference to the locomotive works, that rather than allow the works to close up, the citizens should take control of them, merchants taking stock and getting the employees of the works also to take stock in the concern, subscribing from $25 up, according to their means. In this way the concern could be carried. The joint stock company thus founded could bond the works for the balance of the unsubscribed capital required.

### A Small Market To-Day.

There was but a small attendance on the public market this morning. The heavy thaw of yesterday left the country roads in such an uneven and dangerous condition that farmers thought it advisable to remain at home. Very few vegetables were to be seen on to-day's market. Large quantities of beef were offered for sale, and for the most part found ready purchase.

### Contracts Awarded.

The following contracts have been awarded T. J. Jamieson, plumbing and heating contractor: Plumbing work outfit, hot water heating plant and tinsmith work, in connection with alterations and improvements to house on Queen street, for J. D. Thompson, also plumbing work outfit and hot water heating plant in two houses for Ivo Cobett.

### Asthma.

If you have Asthma and wish to learn about the only remedy in the world that will instantly relieve and absolutely control and cure Asthma, call upon or write James Laturney, carriagemaker, 390 Princess street, Kingston, Ont.

Also cures Nasal Catarrh and Hay Fever.

### Are Doing Their Duty.

Secretary Mallagh again started out this morning on a canvas for funds to assist the local Y. M. C. A., after a week or so of rest from the work. He has so far secured $585. Kingstonians are doing their duty toward the Y. M. C. A.

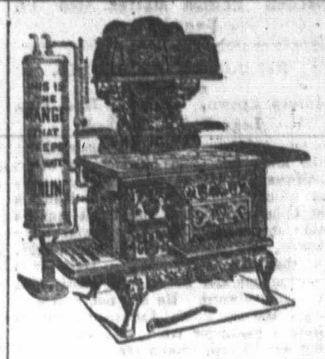
### Likely To Be Ten Cases.

So far, six cases have been entered for trial at the spring assizes, which open next Monday. Three of these are jury cases and three non-jury. Two criminal cases are on the slate. The docket will be ready on Thursday, and will likely contain ten cases.

### Peasants Drowned.

Budapest, March 20.—Twenty four peasants were drowned during a gale to-day by the capsizing of a boat in which they were crossing the Danube river from Kalocsa.

There is good ice yachting in the harbor.



SOLD AT AUCTION FOR $24.00.

This is the price at which a small, two years old "Happy Thought" Range sold at auction in this city last month.

Has any other Cook Stove such a record?

We sold 135 of these "HAPPY THOUGHT" Ranges during 1899—and every user is delighted.

McKELVEY & BIRCH,
69 and 71 Brock Street.

## COMMERCIAL MATTERS.

**What is Going on in the Business World—The Market News.**

Canadian linings are scarce and difficult to get. The market for these goods is very strong.

There is a strong demand for ladies' cloth, poplins, broadcloth and cashmeres. Black crepons still continue in active demand.

Dairy exports from Canada to Great Britain have greatly increased. Canadian butter and cheese in England demand high prices.

At New York all grades of refined sugar has been advanced five cents per hundred pounds, and the raws, one-sixteenth per pound.

The wholesale dry goods business shows less activity this week following, as it does, the liberal orders that were placed last week.

The imports of dry goods at Toronto for the month of February are valued at $1,004,384, as against $792,970 the corresponding month of last year, an increase of $211,414.

The advance in staple cotton good has had the effect of advancing the prices of printed Canadian goods in some instances. The Magog mills have advanced one line ½c. per yard.

The market for all lines of staple goods are very strong. In some cases, notably in that of shirtings, apron ginghams, dress ginghams, and flannelettes, the Canadian mills are refusing further orders.

Canadian home spuns and tweeds are eagerly bought by retailers for the spring trade. Samples of these goods coming forward for the fall trade indicate that the Canadian will be in it to a larger extent than ever for the fall business.

Trade at the coast continues somewhat dull, but the outlook is considered bright. There is a good deal of building going on and the building trades are likely to be well employed the coming season. Forty-five Fraser river salmon canners have decided to adopt the "pool" system. This leaves three who remain independent. The output in the mining camps, according to recent reports, is more promising. Australian and Californian butter has recently been supplying the Vancouver market.

B. W. Folger, jr., had his yacht Typhoon running around the harbor to-day.

THE BLUES IN SPRING.

Despondent, Melancholic and Tired People are Made Active and Strong by

Paine's Celery Compound.

Run-down and Half-dead Men and Women Obtain Health and Strength from the Great Medicine.

The blues, despondency and melancholy make thousands of lives miserable in spring time.

Men and women around us complain of tired feelings, nervousness, sleeplessness, stagnant circulation and general run-down condition.

Though not confined to bed, the condition of the thousands of despondent, melancholic, sleepless, nervous and run-down people is sufficiently alarming to demand immediate care and attention. The symptoms and feelings alluded to are the sure forerunners of disease and death.

This particular season should be a time of cleansing, recuperating and strengthening for run down and ailing people.

Paine's Celery Compound will quickly banish the blues, despondency and melancholia, and tired feelings will give way to life, buoyancy and full health.

It is suicidal for sickly men and women to mope around in a half-dead condition and shut their eyes to the marvellous blessings that are offered by Paine's Celery Compound. It is the one great medicine in spring time with all classes of our population. Try a bottle and see how rapidly you get rid of every physical burden. Paine's Celery Compound is the kind that "makes sick people well."

Werner's Dictionary of Synonyms & Antonyms, Mythology and Familiar Phrases.

A book that should be in the vest pocket of every person, because it tells you the right word to use. No Two Words in the English Language Have Exactly the Same Significance. To express the precise meaning that one intends to convey, a dictionary of Synonyms is needed to avoid repetition. The strongest figure of speech is antithesis. In this dictionary the appended Antonyms will, therefore, be found extremely valuable. Contains many other features such as Mythology, Familiar Allusions and Foreign Phrases, Prof. Loisette's Memory System, "The Art of Never Forgetting," etc., etc. This wonderful little book bound in a neat cloth binding and sent postpaid for $0.25. Full Leather, gilt edge, $0.40, postpaid. Order at once. Send for our large book catalogue, free.
