EAKING OF PAINT.

The Honesty of our Paint is patent to any user after one trial. We thoroughly test a paint before we place it on sale. In everything we sell we use the same rule: Satisfy a customer.

W. A. MITCHELL,
Headquarters for Sap Buckets.

Another Triumph for Science....

RHEUMATISM and its kindred diseases have always been classed by physicians among the ailments for which their science afforded no sure and complete cure.

DR. L. R. HALL

DR. L. R. HALL, New York, originator and proprietor of DR. HALL'S RHEUMATIC CURE, has changed all that and has earned the sincerest thanks of thousands of sufferers.

People are slow to believe that rheumatism can be cured. They have tried many things, and all have failed, and the announcement of a new cure is received by many with sceptical indifference, and yet it may be stated very confidently that DR. HALL'S RHEUMATIC CURE NEVER FAILS, and there are innumerable BONA FIDE testimonials to back the statement. From one to six bottles will cure any form of rheumatism.

Sufferers from rheumatic complaints should read Dr. Hall's pamphlet on rheumatism, wherein their symptoms are described, and should lose no time in making a trial of the only sure remedy—DR. HALL'S RHEUMATIC CURE.

Dr. Hall's Rheumatic Cure is put up in 50 cent bottles, containing ten days' treatment. For sale by all druggists and dealers in medicine. The Dr. Hall Medicine Co., Kingston, Ont.

For sale at Wade's Drug Store.

STAMPS AND MARKERS.

RUBBER STAMPS OF ALL KINDS, Self-Inkers, Linen Markers, Daters, Seals, Stencils, Bank, Ticket and Office Stamps, etc. Repairs prompt. JOHN OFFORD, Whig Office.

THE 5 P. M. EDITION

Second Edition Matter Also On Page Five

COMMERCIAL MATTERS.

What is Going on in the Business World—The Market News.

A cable from Greece quoted a further advance of 3d in the price of currants, and stated that the market was still advancing. The last previous cable quoted 11s 3d for prompt shipment.

Canadian Hardware and Metal notes these price changes: Cotton twine is ½c. to 1c. higher. Manila rope is ½c. per lb. dearer at 16c base. Pig tin is quoted at 37c. to 38c., and advance of 1c. per lb. on last week's figures. Barb wire is dearer at $3.77½ here. Cement and fire brick are advancing in the primary market.

A Palermo letter of March 24th states that stocks of shelled almonds at Sicily shipping points are getting to be very light. Holders who are most large growers and speculators refuse to sell until the position of the article becomes more clearly defined, and in the meantime the price is nominally 83s per cwt. The damage done to the new crop by late frost was accentuated by a strong gale of sirocco wind on the 17th and 18th ultimos. Some time must elapse before the actual amount of damage can be ascertained. In some districts it appears to have been very severe, while in others it has not been important. The market at the time the letter was written was reported to be very firm and excited, as speculators were encouraged by the reports of severe injury to the Bari and Spanish crops and were buying freely. The parity of 84s 9d had been paid for new crop for October shipment, but there were no sellers except at higher figures.

An Ontario Property.

Montreal Gazette.

Leopold Meyer, mining engineer from Brussels, operating near Madoc, Hastings county, was in the city yesterday. He says he has been at work two years, that the ore is free milling, and that the outlook for the Ontario gold fields is very promising. Mr. Meyer says that Belgian, Canadian and American capitalists are investing in Madoc and one of the mines there will soon have ten stamps at work, and a large vein with splendid showings. One shaft is down 100 feet, and the second seventy feet. The daily handling will be about thirty tons.

LETTERS TO THE EDITOR.

Concerning Mr. Cullen's Appointment.

Kingston, April 10.—(To the Editor): The appointment of Mr. Cullen as mechanical engineer of the pumping station of the water works department may be considered all right by those who voted and were interested in him, but the question will now be asked by those more interested in the welfare of the city, "Is the appointment a proper one?" No one can object to the statement that Mr. Cullen is a respectable man, but in a position of such large responsibility, more than respectability is required. First, Is Mr. Cullen a practical engineer or machinist; has he served his time at either branches of the profession the same as other applicants? Second, In what condition has the city placed itself by its action and appointment regarding the underwriters' association? Will they be satisfied to accept risks of insurance with a person who is not a practical man in case of an emergency or contingency likely to rise in connection with the machinery at any moment? Third, Is it fair or honest on the part of the aldermen to ignore the application of those who have served years in a trade or profession, that a non-professional man or mechanic should be chosen to please those who are simply against trade unions and in favor of cheap labor, and with a view to make a place for a man for whom they have no further use? If a man is so good as recommended, why were his services not retained by them? People are never in a hurry to part with good servants. Some parties are so much interested in this and other matters pertaining to welfare of the city that even they are afraid of the workmen raising a union, and consequently patronize Toronto laundry work, and then shout out at board of trade meetings what exertions they are using to make Kingston advance. Where is this going to end?—ANGUS.

Want a Larger Church.

The members of the First Baptist church will hold a meeting to-morrow night to take steps towards the erection of a new and larger building. Some of the members wish to rebuild on the old site, while others are equally anxious to remove elsewhere. The church has prospered wonderfully during Rev. Douglas Laing's pastorate.

A Barriefield Resident Dead.

Mrs. A. Rickey, wife of a well-known boat builder of Barriefield, died at noon Tuesday, after a short but painful illness. She leaves a four-weeks' old baby, and two other small children, besides a husband, to mourn her loss. She was an attendant at St. Mark's Anglican church, and her untimely death is much regretted.

To Declare It Vacant.

Washington, D.C., April 10.—The senate committee on privileges and elections have decided unanimously in favor of the unseating of senator Clark, of Montana. The report is to declare the seat of senator Clark vacant and not to expel.

Major McKay as Adjutant.

Toronto, April 10.—Lieut.-Col. Delamere, of the Queen's Own rifles, has been appointed commandant of the Bisley team, which sails for England June 30th and major McKay, of the 65th battalion, Montreal, adjutant.

The book committee of the Mechanics' institute met yesterday afternoon to reconsider the sale of some old, worn-out, useless books. The books had been disposed of to a second-hand dealer, but were brought back by a director. The committee will meet again to-morrow to settle the matter.

The debate on the water works engineership was not the only bit of argument at the council meeting last evening. Alderman Shaw passed around a box of most inviting looking chocolate drops, but those who "bit" were bitten, as the inside of the drops was composed almost wholly of cayenne pepper.

BOERS CIRDLE WEPENER.

FEARS THAT BRABANT'S COLUMN IS DOOMED.

The Vigor And Dash of The Recent Boer Raids — Reinforcements Likely to Be too Late.

London, April 10. — Gen. Roberts' silence as to the fate of Gen. Brabant and the colonial division has created extreme alarm for their safety. Swift-moving bodies of Boers were reported to be advancing on Brabant in overwhelming force, and then the censor stopped all further news. Even if Roberts should send a force to his relief, it is feared it would arrive too late, for the vigor and dash of the recent Boer raids have swept down all opposition long before reinforcements have been able to reach the troops attacked.

Every message from the front has increased the fear that Brabant's entire colonial division of 2,500 men at Wepener, sixty-three miles north-east of Bloemfontein, near the Basutoland frontier, will be captured.

Ten thousand Boers are now reported at Ladybrand, north-east of Wepener. The force that captured the five companies at Reddersburg is at Dewetsdorp and another big commando at Rouxville, so that Brabant is completely surrounded by a girdle of Boers. His outposts have been forced to retreat to avoid capture, part of them even returning to Aliwal North, in Cape Colony, leaving the Boers to sweep through the Free State south-east of Brabant, without opposition.

May Wait For Months.

London, April 10.—Preparations are being made to hold Bloemfontein against surprise. Lord Kitchener has been given an important duty, being responsible for the protection of the railway, while lord Roberts is waiting for remounts and winter clothing for the troops, whose thin cotton khaki uniforms and boots are worn out. Gens. Brabant and Gatacre are both at a standstill. Lord Roberts will probably, for some time, confine his operations to clearing the Free State behind him of raiders and to relieving Mafeking, for which purpose apparently the eight division, now arriving at Cape Town, has been ordered to Kimberley.

What the chances are for an advance to Pretoria may be judged from the fact that only from 6,000 to 10,000 horses are on their way to the Cape and from the further fact that the military tailoring departments only within the last three weeks began making khaki uniforms. It is said it will take at least two months to provide 200,000 uniforms.

British Casualty List.

London, April 10.— The total number of casualties to date is 17,901, made up as follows, the deaths from injuries being deducted from the totals of wounded:

Officers killed, 219; officers died of wounds, 44; officers died of disease, 39; officers died of accidents, 3; non-commissioned officers and men killed, 2,029; non-commissioned officers and men died of wounds, 417; non-commissioned officers and men died of disease, 1,168; non-commissioned officers and men died of accidents, 29; total deaths, 3,958.

Officers wounded, 630; non-commissioned officers and men wounded, 8,850; total wounded, 9,480.

Officers missing and prisoners, 171; non-commissioned officers and men missing and prisoners, 4,292; total missing and prisoners, 4,463. Grand total, 17,901.

Of the total number of deaths no fewer than 1,207 are from disease, and the proportion due to this cause is steadily rising. Last week it was twenty-eight per cent.; this week it has gone up to just over thirty-one per cent., or very nearly one-third. On the other hand the mortality from wounds remains exceptionally low, only 4.7 per cent. of those injured in action having succumbed to their hurts.

Reached St. Helena.

Island of St. Helena, April 10.— The Niobe and the Milwaukee have arrived here with the Boer prisoners. The health of the men is good with the exception of four cases of measles, which necessitate the Milwaukee being quarantined.

Will Try And Retake Bridge.

Bethulie, Orange Free State, April 9. —It is said that the Boers will endeavor to retake and destroy the bridge over the Orange River, consequently extraordinary precautions have been taken. A force of Boers is located twelve miles east. As a matter of fact the Boers again practically hold the Free State eastward of the railroad and are greatly encouraged by their successes at Reddersburg and Korn Spruit.

Heard Heavy Firing.

Ladysmith, April 10. — Heavy firing was heard early this morning in the direction of Sunday's River. It continued for a few hours. No details of engagement has been received.

Have Guns in Place.

New York, April 10.—The Herald prints a despatch from Ladysmith, dated Sunday, which says the Boers have posted a big gun on Knights hill, north of Elandslaagte and another in the vicinity of Wessels Nek station. The enemy are reported to be strongly entrenched at Helpmaaker.

Has Reached Cape Town.

London, April 10.—Gen. Sir Frederick Carrington has reached Cape Town and is going to Beira, Portuguese East Africa, forthwith. The war office purposes to land at Cape Town before the end of May 20,000 horses.

Holding Snyman.

Buluwayo, March 31. — Col. Baden-Powell wires from Mafeking under date of March 27th, confirming the report that the Boers had been pushed back so far that the town was comparatively out of range of musketry. He concluded with saying: "All promises well for eventually cutting off this force of the enemy if we can hold Snyman here."

Has One Of The Passes.

London, April 10.—In connection with the recumption of hostilities in Natal an interesting rumor is current that Gen. Buller has obtained command of one of the Drakensberg passes, whereby he hopes to take the Boers in the rear. In the event of his being successful Gen. Buller has enough troops to leave 20,000 men to hold Natal, while he should advance by way of Harrismith, whence he would be able to threaten the Boer positions at Bethlehem and Kroonstadt.

INCIDENTS OF THE DAY.

Newsy Paragraphs Picked Up By Reporters on Their Rounds.

The Portsmouth council meets this evening.

The salary of the mayor of Winnipeg has been increased to $2,000.

Miss Maggie Scott, Renfrew, is the guest of M. Marshall, Albert street.

Rev. Dr. Benvis, has resigned the pastorate of the first Congregational church, Hamilton.

W. F. Trayes, Port Hope Times, has sold that paper to Messrs. Swaisland, London, Ont.

M. McGlade, a well-known hotel proprietor of Brockville, was in the city to-day on business.

It is reported that Ald. Wright engineered the Cullen job. We thought so; it is about his size. D'ye See?

The directors of the Richelieu and Ontario navigation company have declared a half yearly dividend of three per cent.

William Arniel, son of the late alderman W. J. Arniel, left to-day for Philadelphia, Pa., to locate permanently.

The prisoners at the county jail are engaged in tearing down the western portion of the wall which will be rebuilt.

Capts. Mawdsley and Milligan, of the steamships Rosemount and Bannockburn, respectively, arrived to-day from St. Catharines.

Alderman Donnelly certainly called a spade a spade last night. And then he turned around and helped shovel Cullen into office.

In the case of the Frontenac loan and investment society vs. Turner an order was made for sale with reference to the local master of Kingston.

Harrison Co's. warerooms, with their handsome suite of rooms are open to vistors every day, hundreds have visited these magnificent warerooms.

John O'Leary, son of deputy warden O'Leary, Kingston penitentiary, left today for Ottawa, where he has secured employment and will settle down.

Robert Gaskin, Albert street, and Edmund Staley, Barrie street, leave tonight for Buffalo to begin work on the vessels on which they will sail this season.

Workmen are engaged in preparing the schooner S. H. Dunn for the coming season. She is being re-painted, her masts and spars scraped and oiled and otherwise fixed up.

It is possible that a special meeting of the city council will be called for Monday night next to consider the agreement between the city and the proposed smelter syndicate.

This afternoon the finance committee of the city council and the council of the board of trade had another conference with reference to the location here of the proposed smelter.

Alderman McLeod submitted a dose of medicine to his confreres last night. He was unkind in so labelling Mr. Cullen's application. Alderman Donnelly was one of those who writhed hard in swallowing it.

The other night some one drew the staple from the coal box at Cataraqui public school, and the caretaker complains that some of the coal is missing. The matter has been communicated to the police.

St. George's cathedral building committee met yesterday afternoon and decided to push the work ahead with the utmost rapidity so that the cathedral would be ready when the Ontario synod meets here in June.

The Canadian Horticulturist contains a portrait of E. H. Wartman, of Kingston, exhibiting his new patent fruit packing case. Good packing will have a great influence in the profitable sale of fruit in England.

"I warn the citizens" was alderman Donnelly's suggestion last night "to look out for squalls if Cullen is made engineer; but I will vote for the squalls to come, because if I don't, conservative squalls will overtake me."

Police Sergt. Snodden last evening found it necessary to put out of the council chamber an over-zealous friend of one of the candidates for the water works engineership, who persisted in interrupting the proceedings.

The Westminster declares that the augmentation committee of Kingston presbytery made a strong and nearly unanimous growl over the disproportionate amount given by augmented charges to the scheme that helps them.

Hereafter Calvin Lewis will remove dry earth closets, kitchen refuse, dead animals, etc., from that section of the city lying north of Princess street, and R. Reeves will perform the same work on the south side, but either one may remove pit contents from any part of the city.

A thorough engineer at the water works can make his salary every year by conservation of energy and equipment. Then again an engineer can waste and wreck so that he is dear at any price. Alderman Donnelly commended E. C. Hiscock as a thorough mechanic.

Hereafter all communications and petitions affecting the business of the city council will be first considered by council before being dealt with by committee. This was decided upon by council last night, and a by-law will be framed up on these lines and added to the rules of the council.

Calvary Church Tea-Meeting.

The anniversary tea meeting of Calvary Congregational church was held last evening. The pastor, Rev. Mr. Legatte, presided, and delivered a brief but well-worded address. Miss Monks gave a fine recitation and master D. Davis and Miss Claxton rendered piano solos. Miss V. Howard, Miss A. Funnell, the Misses E. and F. Carrington and other young ladies contributed solos. The pastor's little son charmed the audience with a recitation. He is very clever for his age. Supper was afterwards served to a very large number of people. The services proved to be very successful.

Interred at Cataraqui.

This morning there reached the city from Toronto the remains of Mrs. Fraser, mother of Dr. Fraser, of Toronto. Deceased was aged sixty-nine years and was sister of Mr. Bell, Westbrooke, father of G. W. Bell, veterinary surgeon, this city. A brother of the deceased lady came up from Iroquois this morning to attend the funeral, which took place this afternoon from T. F. Harrison's undertaking rooms. Rev. E. B. Langeley conducted service in the Methodist church at Cataraqui, after which the remains were interred in the cemetery.

Timely Notice.

Strawberries, pineapples, bananas, navel oranges, tangerines, blood oranges and lots of green grapes for Easter at Carnovsky's.

HE HAS CALLED A CAUSUS.

FOR THE FIRST TIME IN HISTORY OF TERRITORIES.

An Organized Opposition Has Been Formed, And It Means Business—Haultain Appreciates The Situation And Will Consult Supporters.

Regina, N.W.T., April 10.—Something like a crisis is being appreciated in territorial politics. For several days past it has been in the air that an organized opposition was being formed. To-day it is an accomplished fact, and D. H. McDonald, of Fort Qu'Appelle, has been elected leader. The opposition does not claim to have a majority of the house, but it declares itself solid and compact, and that it means business. The exact step it will take to inaugurate its existence is not yet decided upon, but some notice will be given when the house reassembles on April 17th. The attack on the government is to be on the expenditure of the agricultural department, the contention being that the appointment of a third minister was unnecessary, as is evidenced by the fact that minister Ross could be absent from Regina for several months as commissioner of the northern Indians. Premier Haultain had a meeting of his supporters last night, the first time in the history of the territories that the government has had to go into caucus.

STIRRED UP FEELING.

The Hanging of Williams on Good Friday Morning.

Toronto, April 10.—The action of chief justice Meredith in advertently sentencing Henry Williams, the murderer of J. E. Vareoe, to be hanged on Good Friday morning, has stirred up a great deal of public feeling and this morning mayor Macdonald addressed the following telegram to the minister of justice:

"Judging from the large number of direct personal protests, the utterances of the public press, and what I know of christian sentiment in this country, I am satisfied the whole christian community, especially of this city, regard the proposed execution of the death penalty upon the condemned man, Williams, by hanging, (which many deem an uncivilized practice) in Toronto upon Good Friday with feelings of the deepest shame, horror and indignation. In deference to public opinion and at the request of many citizens and representatives of the people, I beseech and implore you to respite the said Williams and postpone his execution until some less objectionable day."

CHAPLAIN COX'S LETTER.

Demurred Against Charge Over The Open Velt.

Halifax, N.S., April 10.—Bishop Courtney has received a letter from chaplain Cox of the second Canadian contingent, from Cape Town, in which is the following: "The Canadians (first contingent) had heavy marching for several days, and arrived at Paardeberg just at its hottest.—Imperial officers say they never saw such cool men. They went into action laughing and smoking and telling jokes. The Cornwall regiment was with them. The colonel of the Cornwalls told Col. Otter that the Canadians would have to charge across a piece of veldt 800 yards wide, with a cross fire raking it. Col. Otter demurred at making his men charge at so long a distance. The Cornwall colonel then said, 'If you don't like to, or don't know how to, the Cornwalls will show you.' Col. Otter said, 'The devil you will. We will lead and you keep up if you can.' It was here in this charge that the heavy loss occurred."

Hurrah! Dog Taxes Increased.

Toronto, April 10.— This province is not as happy a home for dogs as it was before the municipal committee met this morning. The committee approved of a bill by Mr. Burt to compel all municipalities to tax dogs. A bill by Mr. Carpenter fixing the rate of taxation at $1 for the first dog owned by any person, $2 each for the second and other dogs, and $5 for bitches was also accepted and this will be the uniform rate throughout the province.

Empire Day in Montreal.

Montreal, April 10.—Last year, May 23rd, was observed as empire day in this city, and this year it is proposed to enlarge and improve the event. Five thousand school children will sing patriotic airs in the Arena, and Sir Wilfrid Laurier has promised, if business engagements permit, to be present and deliver an address. It is also hoped to have lord Minto and staff attend.

Kumassie Invested.

Accra, British Gold Coast Colony, April 9.— A relieving force of 100 Hussars started for Kumassie to-day. As this body of troops is considered insufficent a large force is being concentrated in the Hinterland. Kumassie is evidently invested. The Ashanti have captured several native teachers and their families. The rising is spreading.

Griffiths Goes to Jail.

Dublin, April 10.—Arthur Griffiths, editor of the United Irishman, suppressed last Saturday, was sentenced to fourteen days' imprisonment or a fine of a sovereign for assaulting Ramsay Collier, proprietor of the Irish Figaro, in the latter's office on Monday. He decided to take the imprisonment.

An Officer Resigns.

Montreal, April 10.—Pierre Lacroix, civic building inspector, who has recently been charged with irregularities in connection with his department at the city hall, has resigned, giving advancing age as the cause.

May Take Charge of It.

There is a prospect that Miss Phillpotts, of Havergal Hall, Toronto, an accomplished teacher, may secure Kingston ladies' college. She would be a very welcome addition to Kingston's educational forces.

Fresh Fish For Good Friday.

We will have a nice assortment, also finnan haddies and oysters. Your early orders desired by Carnovsky "On the Corner."

This magic furniture cream has been on the market for sixteen years. It has given universal satisfaction. We have never had anything but good words spoken for it. Try it this spring for renovating your furniture. Cheaper than varnish. E. C. Mitchell.
