What is Going on in the Business World—The Market News.

Lighter sheetings are firmer, but are slow Duck continues strong and in fair call for export and home use.

There are 5,000 silver mines and over 1,000 gold mines being operated in Mexico, and last year the value of these metals was nearly $40,000,000.

The amount of gold coin in actual circulation in the world is estimated by the bank of England officials to be about 865 tons.

Ten thousand men employed in the refineries of the sugar trust in Williamsburg, N.Y., have been laid off. The refineries are closed.

Bleacheries are still behind upon deliveries of lawns and other white cotton goods. The lull in trade will allow them to soon get abreast of orders.

Last year the American people ate 2,000,000 tons of sugar. Of this the American sugar refining company, otherwise known as the trust, made 1,385,000 tons.

The new match factory at Walkerville, Ont., will open on May 1st. It is a three-storey, brick building, covering one and a quarter acres of ground. When completed 2,000 operatives will be employed. The capital stock is $100,000, all paid in.

From Huddersfield comes the news that a good business is being done with shippers for Canada, and the continent, and a fair demand for both worsteds and woollens for the UnitedStates. Wools are being sold slowly, and there is a downward tendency in prices.

Canada's imports of tea during the last fiscal year were the heaviest on record. She imported 25,055,607 lbs. against 19,950,462 lbs. in 1898. Of this amount 1,226,519 lbs. were exported. The tea that remained in Canada averaged 4.33 lbs. per head of population.

Stocks of Fall river print cloth are steadily accumulating, with few goods absorbed by old contracts. The stock is now estimated at more than 500,000 pieces. First hands hold near deliveries firm, but show no signs of weakness upon late deliveries.

The price of raw sugar has advanced Last Saturday yellows were marked up 10c and granulated 5c. per 100 lbs. to $3.75 to $4.40 and $4.50, respectively, Montreal. A feature of the sugar situation worthy of note is that the margin in the United States between the price of granulated and raw sugar is only 45c. per 100 lbs, which is less than the cost of manufacture.

THE BRITISH ARE ADVANCING

THOUGHT LORD ROBERTS HAS STARTED FOR PRETORIA.

Press Censorship Very Strict—The Boers Retreating From Bloemfontein—Trouble Looked for Between French and British Commands.

London, April 20.—The firing reported to be in progress south of Karee Siding, six miles north of Glen, may be the first news of the progress of the British advance on Pretoria. But even if this were only an unimportant skirmish there are many other indications that Lord Roberts is either starting or has already started for the northern goal.

A despatch from Cape Town under today's date says: "The censorship restrictions have been greatly increased owing to the movements of the troops." All the dispatches bear traces of strenuous efforts of the correspondents to give their papers an inkling of what is afoot.

The Boers south of Bloemfontein are reported to be retiring. Large commandoes were seen April 10th, near Thaba N'Chu moving to the north. Their progress was slow owing to the terrible condition of the country.

No More News For A Time.

Cape Town, April 20.—The officer controlling the censorship here has notified the correspondents of the practical suspension of all telegrams during the operations now begun.

Trouble Is Looked For.

London, April 20.—A despatch from Lagos, British West Africa, says it is rumored that a British war force of 1,300, advancing through Agos, Hinterland, encountered a French force on the border of Dahomey, near Meko, and that trouble ensued. The extent of the trouble in West Africa is causing grave alarm at the British colonial office.

British Again Victorious.

Cape Town, April 17.—A British command has occupied Dewetsdorp, twenty-five miles north of Wepener. There is fighting six miles south of Glen. The British, with artillery supporting, are holding a large dam. Rains continue to prevent operations. Glen is about twenty miles north of Bloemfontein on the railroad.

De Negrier To Direct Boers.

London, April 20.—According to Boer reports the foreign adventurers are to be formed into a special legion, with continental officers, and the command will be given to a distinguished French soldier, lately retired, who is now in the Transvaal. The officer referred to is Gen. de Negrier, former member of the French supreme council of war, who was removed from the active list last July by the marquis de Gallifet as a disciplinarian measure, during the excitement arising from the Dreyfus courtmartial.

The Last Ditch.

London, April 20.—Prevost Battersby wires to the Morning Post from Bloemfontein: "Observation might profitably be kept on the intentions of the Boers respecting Swaziland. The alternative plan of operations following on defeat at Pretoria includes the employment of Swaziland for the retirement of half of the Boer forces, while the other falls back to Zoutpansberg. Boer emissaries are already in that country endeavoring to purchase secret information concerning the caverns in the country, which are known only to the natives, with the object of accumulating provisions and ammunition."

BANK TELLER ARRESTED.

Geroge M. Wilson, Merchants Bank, Toronto, in the Toils.

Toronto, April 20.— George McC. Wilson, 48 St. James avenue, paying teller in the Merchants' bank of Canada, Wellington street west, was arrested last evening on a charge of theft, laid by Daniel Miller, the manager. It is alleged that the prisoner has been using the bank's money for his own purposes for a long time, but the immediate cause of his arrest was the disappearance of a package of bills containing $10,000. This occurred on Wednesday, and Wilson was detained on the bank premises while his books were gone over. The search revealed that since last November his books show a shortage of $2,000. He remained at No. 1 police station last night, bail being refused, and appeared before deputy magistrate Kingsford this morning. Wilson is thirty-seven years old, and has been in the employ of the Merchants' bank for twenty years. His home is in Napanee, and he entered the bank's service there, coming to Toronto ten years ago. His salary is $1,200 a year. He is a married man, but has no family.

W. G. Wilson, of Napanee, the lawyer who defended Mackie in the famous Dominion bank robbery case at Napanee, is a brother of the accused man, and he has been telegraphed for and will arrive in the city this morning to take charge of the defence.

George M. Wilson appeared at the police court this morning. He was remanded for a week, neither side being ready for a hearing. The crown officers have still a hope that Wilson will give information enabling them to recover the missing $10,000 in the expectation that his sentence will be made lighter.

Lost Bicycle Recovered.

James Gardiner, Portsmouth, attended the dance at the barracks on Wednesday night, leaving his bicycle outside the building. When he went for it, it was gone. The case was given to constable Megarry to look after, and he succeeded in locating the wheel in N. Parent's bicycle repair shop, where a soldier had left it for repairs. It is possible the wheel may have been taken as a joke.

Thirteen Students Drowned.

Bingen, April 19.—A boat, on board which were twenty members of the Catholic students' association, while crossing the river Rhine yesterday from this place to Ruedesheim was capsized and thirteen of its occupants were drowned.

Convicts of the Kingston penitentiary are no longer allowed to accompany the farmers of the institution in their trips each day to remove manure from the city to the penitentiary farm. This work must now be done by the government employees, not by convicts.

ST. JAMES' CHURCH.

Disruption of the Congregation Threatened.

The resolution passed by St. James' church vestry on Monday evening has created the stir that all the world anticipated. The churchwardens, J. A. K. Drummond and R. Hooper, have resigned, leaving the church without executive officers, and Mrs. Betts, the choir leader, has also retired, as any self-respecting woman would do under the almost brutal terms of the motion. Those who moved and voted for it have each had a mother, and some of them have sisters and daughters; they must have lost all kindly feeling before placing such a resolution on record. Their zeal for fancied injuries must have worn away the last atom of discretion.

At a meeting of St. James' church woman's guild yesterday afternoon, it was moved by Mrs. Wade, seconded by Mrs. Nash, and carried, "That the members of the church woman's guild strongly object to a resolution passed at the vestry meeting Monday evening, April 16th, and beg that the said resolution be withdrawn at the adjourned meeting, and that an apology be made to the choir leader; otherwise, the church woman's guild demands that a meeting of the congregation be called as soon as possible to ascertain the general feeling, which the guild believes is not in accord with the resolution passed at the vestry meeting; and also resolved that the members of the church woman's guild put themselves on record as being strongly against the resolution and the uncalled for language used towards the choir leader and those who help to make the church services attractive."

It is about fair to the congregation to explain that the gathering at the meeting was not representative either of its numbers or its spirit. There are 228 pew-holders. The News gives the names of those present: R. V. Rogers, J. S. R. McCann, J. A. K. Drummond, R. Hooper, J. Crawford, R. D. Baker, J. Kearne, F. R. Sargent, D. C. Patterson, James Shannon, A. E. Shannon, A. J. Shannon, A. Davis, F. Partridge, F. Pigeon, W. Dean, Norman Smith, A. Skeggs, W. G. Hamilton, H. Hamilton. It is stated that all voted for the resolution but Mr. Davis, but this is a singular statement, because the wardens did not favor it and show this by their resignation. The fact is that about half those present held up their hands for the motion; Mr. Davis was the only hand against; nearly half did not vote. Some now say they were led into a false sympathy with the mover of the resolution and desire another meeting. The incumbent did not favour the resolution, but took no decided stand.

There must be an early meeting of the congregation to reassure the wardens of greater confidence or to replace them. There is no hope of harmony in that congregation, and it is useless to attempt to patch matters up. There are widely divergent feelings as to form of service, and for thirty years there have been periodical outbreaks An element came in from other churches where they had been in open rupture, and as predicted they have been very close to every trouble since. The majority which ask for brighter services have improved and enlarged St. James' twice, have led in every ornamentation; they have respected the feelings of the other party, and no offensive resolution or action of theirs can be recalled The building up of the congregation has been a mistake. The little church around the corner should have been left to the element that, though only one-sixth of the whole body, still seeks to have everything its own way, and to allow the others no consideration, not even one service in eight. The greatest humility has been exercised by pastor and people till it has been mistaken for license. The action of Monday night has brought affairs to the crucial point and the future has to be determined with courage. There is no comfortable course but for those who want a brighter service and feel the lack of worship without it to step out and form a new congregation. Christianity ought to be peaceful and kindly; it will be a blessing to be relieved from the recurrent squabbles at annual vestry meetings and the perpetual gloom that haunts the services. Those who recall the proceedings of a quarter of a century will despair of harmony or even reasonable consideration. Natures do not change in church matters.

The Late Rev. W. H. Smythe.

Kingstonians were grieved to-day to hear of the death of Rev. William H. Smythe, father of our townsmen, Dr. E. H. Smythe, Q.C., and A. E. Smythe, bailiff, Arch street. The death occurred this morning at the home of his daughter, Mrs. George Perley, O'Connor street, Ottawa. Dr. Smythe yesterday received a telegram stating his father's serious illness, and he at once left for the capital.

The deceased was born near London, Eng., over eighty years ago. He was ordained a deacon in the diocese of Tennessee in 1860 by bishop Lewis, and was made a priest in 1869 in the diocese of Michigan. From 1860 to 1863 he was missionary at St. John's Keleher, Arkansas. His first parish in the Kingston diocese of the Anglican church was in Tamworth, where he took charge in 1864, remaining five years. From 1 to 1886 he was missionary in Lexington, Michigan, and Cos. Sanilac and Hur. In 1887 he was missionary at Wellington, Ont., remaining there until 1890, when he was superannuated.

Surviving him are three children: Mrs. George Perley, wife of an engineer in the public works department, Ottawa; Dr. E. H. Smythe, Q.C., and A. E. Smythe, bailiff, of this city.

Six Months For A Stabber.

Toronto, April 20. Harry Gibson, who during a game of "craps" on Good Friday, tried to settle a dispute with Thomas Broom, by stabbing him in the head, was this morning sent to the Central prison for six months. Broom was very badly hurt, seventeen stitches being required in his head. The fact that Gibson was an amateur in crime saved him from a longer term.

SOLDIERS IN DISGRACE.

So Far Forget Discipline as to Commit a Serious Offence.

Toronto, April 20.—The Mail and Empire says to-day: A second burning in effigy took place last evening at Stanley barracks, in consequence of political feelings of the members of the Royal Canadian Dragoons proving too much for their sense of decorum. The object of the wrath of the soldiers this time was Sir Wilfrid Laurier, whose effigy, soaked with the product of the Standard oil company, and dressed in blue overalls, was solemnly set fire to in the barrack square. The arrival of the sergeant-major put an end to the sacrificial ceremonies and the soldiers dispersed.

The arrest of two dragoons as ring leaders, and a third for having refused to put out the flames at the command of his superior officer, brought the proceedings to a close. It is understood that the proposed government measure disfranchising the members of the permanent force gave rise to the little ebullition of feeling.
