THE SIMPLEST CURE FOR INDIGESTION,

As Well as the Safest and Cheapest

The new medical discovery, Stuart's Dyspepsia Tablets, digest the food instead of making the worn out stomach do all the work, give it a much needed rest, and a cure of dyspepsia is the natural result.

You get nourishment and rest at the same time because these Tablets will thoroughly digest all wholesome food taken into the stomach whether the stomach works or not. A cure is certain to result because the digestive organs are given a chance to rest and recover their natural vigor and tone. The Tablets are then no longer required.

To show the manner in which the remedy acts on different people and how quickly and effectually it cures stomach troubles we present a few recent cases.

J. O. Wondty, of Peoria, Ill., writes: I was unable to eat anything but the plainest food, and even that often distressed me, but since using one box of Stuart's Dyspepsia Tablets I can eat anything and everything I want.

Mrs. Samuel Kepple, of Girty, Pa., writes: I have been entirely relieved of my stomach troubles by your Tablets. I suffered three years with sour stomach and gas at night. I am thankful for them.

Mrs. A. E. Bowen, Barnard, Vt., writes: I think Stuart's Dyspepsia Tablets are the best thing for dyspepsia I ever took. I will recommend them to anyone troubled as bad as I was.

Stuart's Dyspepsia Tablets will not disappoint because they cure dyspepsia surely and lastingly by causing the food to be properly assimilated, and cure constipation by producing the proper quantity of bile, and sold by all druggists at 50c. per package.

DISTRICT MEETING ENDED.

METHODISM IN KINGSTON DISTRICT PROSPERING.

$18,000 In Sight For the Twentieth Century Fund—Suggestions From Laymen Endorsed—Meetings Well Attended and a Fine Spirit Prevailed.

Thursday afternoon the lay members of the district meeting retired to a separate room, and passed the two following resolutions, which were afterwards heartily endorsed by the joint meeting of the ministers and laymen:

Moved by A. Hunter, Harrowsmith, seconded by N. F. Darling, Pittsburg, that we learn that the general conference has, of the delegates to be sent by the Methodist church of Canada to the Ecumenical council in convention in England, allowed three to be elected at the annual session to be held shortly in Gananoque. We are of the opinion that one of the three delegates should be a layman, and we think it would be a becoming and gracious act on the part of our ministerial brethren to consent to further this suggestion. Therefore, be it resolved: (1) That the district meeting be asked to give its concurrence to the representations of the laymen on the proposed deputation from the Montreal conference to England in connection with the Ecumenical council; (2) That a copy of the resolutions be sent to A. G. Morton (Montreal), its secretary, for the information and guidance of the conference's laymen's association; (3) That the aforesaid laymen's meeting, being agreed in regard to the motion, adopt the best means of presenting it to the Montreal conference.

The second motion was moved by R. D. Anglin, of the city, and seconded by E. M. York Verona, and was as follows: That the laymen in attendance at the district meeting have been deeply impressed with the schedules presented. Some of them have indicated marked progress and prosperity. Some of them have shown an advance in some respects and a falling away in others. Some have revealed a seeming indifference of the people to the calls of the church and the personal comfort of the clergy. We have thought much over these facts, and we recommend: (1) That the church depend more upon its laymen and use them more in the discussion of its temporalities, because laymen can talk more plainly and certainly with less feeling of delicacy upon the duties of the laity than the pastors; (2) That at the financial district meeting the delgates be named from among those attending the next conference, to visit where necessary, each delegation to consist of two members and to take in two or three appointments, and to make the work and possibilities of the circuit a matter of special study; (3) That the expenses of this visitation cannot amount to much, if anything, and that the quarterly boards in the several circuits be required to provide means of transportation and entertainment for the delegates, and that where the incidental outlay is incurred by the delegates on account of unforseen circumstances, the amount of it be deducted from the contribution of the circuit; (4) That in this way the laity may be met face to face and caused to answer the energies of the church as the lay members of this meeting cannot hope to do.

The following laymen were elected representatives to the Montreal conference meeting in Gananoque: H. Cunningham, E. Chown, Dr. Anglin, A. Shaw, T. Mills, O. Chown, R. Meek, R. Crawford, W. J. Crothers, T. R. Carnovsky, W. Drury, Dr. Lavell, R. D. Anglin, J. J. Gardiner, T. Sprole, B. Gordon, W. J. Anglin, P. Healsip, R. Wilson, N. F. Darling, A. Hunter, F. M. Lawson, J. Willoughby, R. Patterson, J. Moorhouse, E. M. York, T. B. Campbell, Ira Darling, G. Peck and Frank Anglin.

Several cases of sickness and supply, which came up before the meeting, were referred to the various conference committees.

The following probationers were recommended to attend college: J. I. Hughes, Elwood Lawson, W. T. G. Brown and C. J. L. Bates.

The report of the district concerning the twentieth century fund showed that about $18,000 was already in sight for this fund. This is an excellent showing for the district.

Rev. T. Meredith reported that a new parsonage had been built at Battersea during the year, at a cost of about $1,000. Extensive repairs had been made to the Elginburg church, and also on the churches at Verona and Bell Rock.

The report on membership showed a net increase in the district, during the year, of about fifty. The several connexional funds showed a good advance, while the amount contributed for circuit purposes was largely in excess of the amount contributed last year.

The session throughout was well attended, a good proportion of laymen being present and a very fine spirit prevailing throughout the entire meeting. The annual meeting of May next will be held in Sydenham street Methodist church.

Want Pavements, Not Boards.

"I noticed an article in the Whig the other night," said a carpenter contractor this morning, "asking why pavements were not being laid instead of Board walks. That's something I would like to know, too. In my opinion the city should lay a certain amount of pavement each year. Brockville last year paved many of its streets, but not a foot was put down in Kingston. If the city should decide to do it here they must lay better and deeper foundations than those laid in the past. The only real good piece of pavement in the city is that on King street, near the customs house, and that was laid as a test."

George Tait, who resigned the presidency of the C.C.A., has consented to act as president of the association until the annual meeting in July. The board of control has decided that all races up to June 1st shall be held under the C. W. A. rules. The new rules will come into force after that date. Mr. Dorval, who is supposed to have written one of the letters which caused Mr. Tait to resign office, charges that the letter is a forgery. It is pointed out that the C. C. A. does not exist, because not a single club has paid its fees. Once the constitution was passed the association had to be governed by its laws. The constitution calls for a five dollar fee from clubs in order to constitute membership. As no club has paid the fee there are no members, and therefore no association.

There was a stormy meeting of the newly-formed Canadian cyclists association at Montreal Tuesday night, when George Tait, president, and who is also chairman of the Dominion board of control, resigned both positions. Mr. Tait read letters from D. J. Kelly, Toronto, resigning the office of vice-president, on the ground that he is on the dominion racing board of the C.W.A. Telegrams were received from John Shuttle, Toronto, and C. D. Spittal, Ottawa, nominating A. Martineau for the presidency of the C.C.A. Mr. Martineau challenged the legality of the election of officers at the last meeting, but a sub-committee appointed to investigate declared that the election was all right. Mr. Tait said he had left the C.W.A. because of the crooked work going on in that body, and he would not stand for crooked work in the C.C.A. Mr. Martineau was accused of being a party to the crooked work. Mr. Danderand, owner of Queen's park, said he would have nothing to do with the association unless the officers were recognized and sustained. The meeting broke up without an understanding being reached.

PROTECTION FROM MOSQUITOS.

Mosquitos Will Not Light if You Apply Griffiths' Menthol Liniment to the Face and Hands.

You may be going to some watering place this summer. You remember how active and business like the mosquitos were there. Griffiths' Menthol Liniment is positive mosquito proof, and does not injure the most delicate skin. It is pleasant to use and does not stain the face or linen. It is only objectionable to insects. You will find it is as effectual as nets, and much more pleasant and convenient. Take a few bottles with you. You will find it useful. All druggists, 25c.

Rudyard Kipling.

"One man, not possessing any delegated authority, not holding any public office, responsible only to himself for his political utterances, is to-day the arbiter of public opinion in an empire of four hundred millions of people."

"A single line of his pen can change a nation's policy, can make a man famous. Four stanzas of twelve lines each has created a fund which has relieved the agony of thousands."

"This man is now in the prime of life and usefulness. His works rank on the library shelf with those of Dickens, Scott and Thackeray. Each day creates a new interest in them."

The British Whig has arranged with Messrs. George N. Morong & Co., limited, for a few sets of the authorized edition of Kipling's complete works in prose and verse. Only a few sets could be obtained. These will be distributed among our readers while they last at an exceptionally low price, and on easy terms. One dollar will enable you to possess the sixteen volumes immediately. You complete the purchase afterwards leisurely, in little payments. See the announcement in to-day's paper.

Not a Quack Doctor.

Merrill's System Tonic does not eminate from quackery, but is a scientifically prepared and valuable prescription, curing all diseases having their origin in constipation and weak or vitiated blood. It purifies the blood, builds up the system, strengthens the nerves and regulates the bowels. Sold in 50c. bottles containing fifty doses, at J. B. McLeod's drug store. Descriptive pamphlet free.

Vertical Writing Adopted.

Newlands' and Row's system of vertical writing has been adopted into the public schools of Buffalo and Rochester, N.Y. This was after two vertical systems of writing had been introduced into the schools and tested. It will require about one million copy books a year to supply these schools. This is another handsome compliment to the utility of the system thought out by the two Kingstonians.

The Batterymen Arrested.

Five batterymen who "cleared" from the barracks on Wednesday night were arrested in Brockville. They were found in a box car. A guard was sent down and the culprits were brought back, and placed in the guard room at the barracks. The deserters were: William Cleater, Daniel Windell, Brantford; William McClary, John Cooney, Toronto, and Thomas Mitchell, Belleville. Major Fages will enquire into the matter, and arrange for a court martial if necessary.

Won't Be At The Islands.

H. R. Heath, a pioneer among the Thousand Islands will not be at Nobby island this year. The family will spend the season in Europe. Nobby island, with its buildings, is worth a fortune, but back in 1870 it was purchased by Mr. Heath from the late George M. Pullman, of palace car fame, for a paltry $100. It is now worth a thousand times that. Through Mr. Heath's influence no less than forty families have located their summer homes on the St. Lawrence.

Squandered a Fortune.

How often we hear the expression, notwithstanding the fact that those who use it are spending their money foolishly in medicines which only give relief without removing the cause. Merrill's System Tonic cures heart, stomach, kidney, nerve and liver troubles—because by purifying the blood, regulating the bowels and toning each of these organs the cause of disease is removed. Price 50c. per bottle at J. B. McLeod's drug store. Descriptive pamphlet free.

Open Up The Street.

The work of levelling up the road at the south end of the new drill hall is in progress, and a citizen thinks steps should be taken towards opening up and grading Colborne street, from Sydenham to Montreal streets, before all the material is used up. The board of education agreed to allow a street to be run through the Central school property on condition that it was properly graded and the school grounds were fenced off. The work should be undertaken by the city without delay.

Addition to School Of Mining.

The governors of the school of mining and agriculture have decided to enlarge and extend their buildings to accommodate the increased attendance of students. Architect Arthur Ellis was requested some time ago to prepare specifications and plans for the work, and these have now been accepted. The present buildings will be raised two storeys, and an annex added, containing a boiler and engine room, a lecture room, a laboratory and a drafting room. The construction will be framework on a stone foundation, the same as the present building. The dimensions of the annex will be 90x45 feet. Tenders will be called for in a few days, and the work proceeded with at once.

Kingston Fair Directors.

The directors of the Kingston fair association met Thursday afternoon for the transaction of general business. The report of the special committee appointed to prepare a schedule defining the duties of secretary and manager, was presented and adopted, these two officials having agreed to the lines laid down by the document. Manager Drennan asked for an appropriation for specialties, but the directors thought the manager should present a report of what attractions he intended securing, together with the cost of the same. Mayor Minnes and H. J. Wilkinson were appointed a committee to wait upon the Frontenac cheese board and solicit the members to make a large exhibit at the coming fall fair, as good prizes would be offered. Secretary Oram was formally installed into office.

LETTER FROM PHILIPPINES.

SERGT. ROGERS WRITES OF WARFARE.

A Kingston Lad on Service in the South Pacific — Fighting the Treacherous Filipinos — How They Butcher the Americans When Captured.

T. X. Rogers yesterday received an interesting letter from his son, a sergeant in a United States regular regiment on service in the Philippine Islands. Sergt. Rogers did not write much for the reason that his supply of paper was limited but he promised to give an interesting account of his travels when he obtained a supply of writing paper. Engagements between the American troops and Filipinos take place almost daily and the natives sustain great losses; they are being killed off at the rate of about ten every day. The natives are very treacherous and cannot be depended upon. When they capture an American soldier they torture him to death, binding him hand and foot and cutting him to pieces; they will cut off one ear, then laugh at his agony; cut off another ear, then his nose, and so on until the poor victim dies, when they butcher him horribly. For this reason the Americans give the natives no quarter in battle and all who resist are slain.

The Americans have many prisoners and these have to be closely watched night and day, as they are continually plotting to kill their guards and escape; if they could get a knife or any weapon they would not hesitate a moment about killing any Americans within reach, even though they were sure of being killed themselves the next moment.

Sergt. Rogers would like to have been in Kingston to join one of the contingents going to South Africa, but from what he can learn the United States troops will yet have plenty of fighting.

Sergt. Rogers is a former member of the 14th P.W.O. rifles and also of "A" field battery. He served through the Cuban campaign and when relieved of duty there was sent to the Philippines.

SATURDAY'S WHIG.
