COMMERCIAL MATTERS.

What is Going on in the Business World—The Market News.

It is estimated that the year's Egyptian cotton crop will be equivalent to 1,000,000 American bales.

The business failures in Canada this week, according to Dun & Co., were 15, as against 24 last week and 19 the corresponding week of last year.

Farmers are now bringing in large quantities of this year's wool, and selling it on the local markets. They receive good prices for it, and the wool is of an excellent quality.

Local flour and feed dealers have been notified that the manufacturers have raised the price of Manitoba flour twenty-five cents on a barrel. No cause of the raise was assigned.

The increased industrial and commercial prosperity of Germany has decreased its emigration from 129,089 in '94 to 23,740 last year, 19,106 of the latter going to the United States.

The Northern Pacific crop report reports showers from every point of the line, and generally more favorable weather, although as a rule the crops will suffer if heavy rain does not come soon. Rounthwaite reports that grasshoppers are beginning to do considerable damage.

Good For Frontenac.

Iron ores have risen in value, good quality magnetic ores selling at $4.50 per ton laid down at Hamilton smelter, hematite being worth $5 to $6.50. There is new activity among owners of Frontenac iron mines. The Cataraqui smelting syndicate, who own several mines, are making a tender of 50,000 tons of ore to meet a demand from Germany.

The Ontario government has sent out ten exploring and surveying parties to the northern parts of Ontario, an appropriation of $40,000 having been ratified by the legislative assembly. Much of the territory to be explored is now a blank on the map and the surveys should add greatly to the fund of information regarding the resources—timber, farming land, minerals and fisheries. Each party is accompanied by a geologist to examine carefully rock formations and explore for ores and economic minerals, also by a practical farmer, to report on the value of arable land for settlers' use. All mineral samples collected are to be sent to the government assay office at Belleville for testing as to commercial value.

The government has purchased a second diamond drill of "S" size, for use in Eastern Ontario, owing to the great demand for the drill already in use in testing the size and continuity at considerable depths of ore deposits—before spending money in opening up. The second drill will bore to a depth of 500 feet, the diameter of core being 15-16 of an inch. Applications for the use should be made to the director bureau of mines, Toronto. The regulations regarding the public use of the drill are very liberal.

ON THE MARCH.

Sergt. Metcalfe Relates Some of His War Experiences.

A friend this morning received a short letter from Sergt. Frederick Metcalfe. The missive was dated May 7th, "on the march, at Velgelegen, five miles west of Cronje's sister's farm, Orange Free State":

"Just a few lines to say we are first rate and doing well under the circumstances. We have had four engagements this week, and the Boers are now five miles from us, strongly entrenched. We gave battle to them yesterday, and for the first time we had to retire from the fire of their guns. Their big guns outranged ours by quite a bit; our guns responded and we advanced to within one-half mile of their trenches, they shelling to beat the band. I do not know how many of our fellows were wounded, but I think three only; it was a miracle how we escaped, as the shelling was fierce and put the fear of the Lord in many a man that day. They nearly killed me the other day, but a miss is as good as a mile. We are waiting here for our big guns, which are expected along today or to-morrow. This is the first step on our march to Pretoria, and we are nearly half way there. We expect to have some fierce fighting very soon. Anybody who thinks war is easy and all play, is an awful fool. The Boers blow up the railway as they retire; the explosions are terrific and a grand sight to see; but our engineers are fixing up the road as quickly as the Boers blow it up. An awful lot of our boys have been sick and many have dropped behind. This country is a terrible place for thirst. Remember me to all friends, as I cannot write them, having lost all my envelopes and paper while on the march. All the men look like terriers with their full beards on.

"There is no use for weak or sickly men out here, as the sturdiest can hardly stand the hardship. We sleep on the ground with only one stingy little blanket; the weather during the day is hot and fierce, but at night it is like December weather at home, and my, how badly we feel when turned out at half-past two o'clock in the morning, and then feed and saddle our horses and get our own breakfast. It is awful hard, but we have been living high since entering upon the march to Pretoria; we commandeer everything we want, from a horse or a cow down to the finest necessity; we have pork, chicken, duck, etc., some days and then again on other days we scarcely get enough to eat. Yesterday we had oranges galore, having come across an orange grove and the trees were heavily laden."

The Second Match.

Saturday last the 14th regiment rifle team fired the second match in the Canadian rifle league, making a total of 757. The weather was fairly favorable for shooting, though the wind was shifting at times. The individual scores were: Capt. Cunningham, 91; Sergt. Creggan, 90; Sergt. Toner, 85; Lieut. W. Hughes, 83; Sergt. W. Swaine, 81; Pte. H. Swaine, 70; Pte. A. Dalton, 66; Sergt. J. S. Robinson, 65; Sergt. Sleeth, 63; Pte. W. Manhard, 54.

At a meeting this morning of the St. Lawrence river navigation company, the old officers and board of directors were re-appointed. A dividend upon all stock was declared.

THE SITUATION ALARMING.

MISSIONARY COMPOUNDS HAVE BEEN ABANDONED.

Dowager Empress Said to Have Fled to the Russian Legation—Trouble Feared in Pekin in Accommodating the Foreign Troops.

Tien Tsin, June 11.—It is rumored here that the dowager empress has fled to the Russian legation in Pekin. It is also reported that 4,000 Russians have landed at Taku with twenty guns, and are marching on Pekin. Great trouble is expected to be experienced in accommodating the foreign troops now in Pekin.

London, June 11.—A special from Pekin, under date of June 9th, says: "The situation is growing steadily more alarming. The missionary compounds were all abandoned yesterday evening. Forty American and English missionaries are gathered at the American Methodist mission, surrounded by 300 native pupils, whom it is impossible to send to their homes. They are waiting, armed with only a few revolvers and guarded by ten American marines, for reinforcements to take them to the coast. A missionary, who has returned from the country to the east says the populace are asserting that they must have a new emperor.

The Troops Sent On.

Tien Tsin, June 10.—Telegraphic communication between here and Pekin was interrupted this morning. A special train left at five o'clock this evening with thirty British troops to guard Tong Shan. It is considered that the number will be inadequate. If trouble arises in Tong Shan, all the northern China railways will be at a standstill.

Owing to difficulty in securing the viceroy's permission for a third special train to start for Pekin, the foreign troops occupied the cars, whereupon the Chinese engine driver ran away with his locomotive. The mob tried to pull up the track, but the troops cleared the rabble away with the point of the bayonet and seized the engine.

On learning of this the viceroy granted permission, and the train left at 5.15 p.m., with about 500 men. The force was made up of 350 Germans, eighty British and the rest French troops.

Not Helping "Boxers."

London, June 11.—The Chinese minister in London, Lo Feng Luh, when shown the latest despatches from Tien-Tsin, authorized his secretary to make the following statement:

"It is all nonsense to believe that the empress is encouraging the 'Boxers.' She is doing all she can to calm them. How can the Chinese government support a rebellion when China alone suffers? We have already lost property worth £10,000,000. The empress back of the 'Boxers?' It is absurd." The secretary expressed the opinion that the "Boxers" numbered less than a million of the population.

Who Are The "Boxers."

The Chinese society of "Boxers" constitute in reality a great clan of murderers, estimated to contain in its ranks over eleven million semi-barbarians well organized, well armed, and as savage in their fanaticism as the Soudan dervishes.

The society was originally formed with the beneficent intention of protecting honest men in China from bandits. It was called Ta Tao Hwri, which means "The society of the Great Sword," a title which seems to have been changed at a comparatively recent date to the more familiar name which so often appears in our newspapers just now.

When and where the clan originated is not certain. The natives refer to it as an "ancient" society, but that may mean ten years or one hundred. It is agreed that at first its principles were laudable and its work good, but as it became more powerful and increased in numbers many dishonest and designing persons entered it for the prestige and protection it accorded, just as dishonest and designing persons ally themselves with influential bodies in other lands to-day.

These men proved a disturbing element, and in many cases directed the efforts of the society against their personal enemies, whom they represented as bandits and lawless persons. Terrified by persecution, the innocent victims looked round for protection, and discovered it in the christian missionaries. It is said that they professed conversion. At any rate, it seems to be clear that the missionaries succeeded in protecting them, and thus intensified the feeling which has always existed in China against christian evangelists.

In many districts of Shantung countless christian homes have been destroyed. German Protestants and Roman Catholics, English churchmen and Congregationalists have been alike the victims of shocking outrages.

After Mining Properties.

J. Kellerschon, an expert mining engineer, was in the city to-day. He has charge of the diamond drill working in the mines at Bedford. He was here to interview J. S. R. McCann in regard to some iron properties, which Mr. McCann is negotiating for the purchase of from a Buffalo, N.Y., company. Mr. Kellerschon left this afternoon for Lake Opinicon to look over some properties there, with a view to purchasing.

Addressed By B. Silver.

At 3 p.m. yesterday the Zionist society held a meeting in the hall over the board of education rooms. There was a large attendance. B. Silver, president, was in the chair, and delivered an able address on "The Duties of Citizenship." The society aims at drawing together more closely the Jewish people, and to inform them more thoroughly on the great questions of the day.

Bishop Continued His Sermon.

Brantford, June 11.—While bishop DuMoulin was preaching in Grace church yesterday, a large barn close to the edifice caught fire. The bishop calmly proceeded with his discourse, and although the congregation could see the adjacent flames and smoke and hear the firemen at work, not one of the vast concourse left the building.

Dr. Paul Gibier, Suffern, N.Y., was killed in a runaway. The horse took fright at fire-crackers. Dr. Gibier was head of the Pasteur institute, New York.

KING BEN IN COURT.

Charged With Immoderate Driving—Put Up a Strong Fight.

There was a large attendance at the police court this morning to hear the evidence against King Ben, charged with immoderate driving in Victoria park on the 30th of May. Two minor cases were first disposed of:

John Maloney, a sailor, was fined $5 and costs for drunkenness.

James McCoy, an aged man from Bedford, was charged with vagrancy, which he said was correct. He was remanded for one week.

The original charge against Mr. Folger was that of driving immoderately "through the public streets or a square." This was withdrawn and one substituted, named Victoria Park as the place in which the offence was committed.

Robert Gowan testified that he saw Mr. Folger drive into the park from Mack street; apparently he drove across the grass; he encircled the ring three or four times; twice the horse broke; witness had had some experience with horses and was satisfied Mr. Folger was speeding his horse; at the very least the horse was going at the rate of ten miles an hour, perhaps more.

Cross-examined by W. F. Nickle—The horse had a wabbling gait; he trotted part of his time and again paced; the horse was going at the rate of at least ten miles an hour, but under fifteen; did not notice Mr. Folger using a whip.

Re-examined by Mr. McIntyre—Considered from ten to fifteen miles an hour immoderate driving; it would not be allowed on the public streets.

Magistrate Duff—"From ten to fifteen miles an hour would not be tolerated on the public streets, nor anything like that speed."

Continuing, witness said such driving was not conducive to the saftey of children playing in the park.

John Wilkinson gave evidence corroborative of that given in the foregoing, touching the fast running of the horse, its breaking and again being urged; the horse was going at the rate of from three to four minutes to the mile; in turning the curves the wheels of Mr. Folger's rig "slewed" around, Mr. Folger pulled up and asked Mr. Conroy "how the horse was doing." Mr. Conroy replied that it was "doing splendid."

Crossed-examined by W. F. Nickle—Never drove a fast horse, nor timed one; judge speed of Mr. Folger's horse by my eye.

The evidence of a lad named Porter concluded the case for the prosecution. Superintendent Phillips, of the parks, stated that he had frequently warned Mr. Folger against fast driving in the parks.

For the defence alderman Knapp stated that Mr. Folger was going at a pretty good road gait; ten or twelve miles an hour. F. Bibby and J. McParland gave expert evidence regarding speed of horses, etc. After which the case was further postponed until Friday to allow Mr. Folger to summon other witnesses. D. M. McIntyre looked after the interests of the city, and W. E. Nickle, those of B. W. Folger.

THE BRITISH DISASTER.

The Derbyshire Regiment Met With Serious Losses.

London, June 11.—Lieut.-Gen. Sir Frederick Forestier-Walker, in command of the lines of communication in South Africa, reports that in the disaster to the British troops on June 7th, at Roodeval, where the Boers cut lord Roberts' line of communication, the fourth battalion of the Derbyshire regiment were all killed, wounded or made prisoners, except six enlisted men. Two officers and fifteen men were killed and five officers and seventy-two men were wounded, many of them severely. The Boers returned the wounded to the British. The officers killed were Lieut.-Col. Bair-Douglass and Lieut. Hawley. The wounded include Col. Wilkinson and Lieut. Blanchard of the Canadian infantry. Gen. Walker's despatch in full is as follows:

Cape Town, June 10.—The following telegram has been received from Charles Knox at Kroonstadt: The following casualties reported from Roodeval, June 7th, received from Stonham, commanding the Imperial yeomanry hospital, dated Rhenoster River, June 8th, received here by flag of truce on June 10th: The fourth battalion of the Derbyshire regiment (the Sherwood Foresters). Killed—Lieut.-Col. Baird-Douglass and Lieut. Hawley and fifteen of the rank and file; wounded, Col. Wilkinson, Capt. Bailey, Lieuts. Hall, Lawder and Blanchard and fifty-nine of the rank and file; the Shropshire light infantry, one; Cape Pioneer railway regiment, seven; ammunition, Park Royal marines and Imperial telegraphs, one each; post office corps, one.

"Stonham reports that many were severely wounded and the remaining men of the 4th Derbyshire and details of prisoners, except six of rank and file, are in his camp. All the wounded are in his camp lately occupied by the 4th Derbyshires. Enquiries are being made as to the names."

It is inferred that the Boers captured over 500 men and as late as June 10th, held positions cutting off the British forces north of Kroonstadt from reinforcements.

Another despatch from Gen. Forestier-Walker says Gen. Methuen was fighting within ten miles of Heilbron on June 8th. It follows:

"Cape Town, June 10.—Kelly-Kenny reports from Bloemfontein this morning that Methuen, with the greater part of his division, was fighting early in the morning of June 8th, ten miles south of Heilbron, where Colville was reported to be with the Highland brigade. Methuen left Lindley June 5th, with ample supplies for himself and Colville, leaving Paget to hold Lindley with a sufficient force and supplies.

"Kelly-Kenny has ordered Knox to press in the enemy's outposts, believing the enemy's strength to be exaggerated. All is quiet, and there is no anxiety as regards the district to the south. Communications north of Kroonstadt have been cut since June 6th."

Mob law reigns in Louisiana and Mississippi. Henry Asken and Edward Russ, negroes, were lynched for outrages. Seth Cobb was hanged at West Baton for incendiary talk, while a fourth, name unknown, was shot and killed for a demonstration before a sheriff's officer.
