OVER THE TEA CUPS.

Mrs. Partington has relatives all over the world who inherit the tendency which has made that old lady's name a household word. It was a male relative of the Partington family who talked glibly of "Tickely" river, and the military "tie tacks" of the Boers, and who discoursed for some minutes on the subject of the "Doorknobbers" before his listeners discovered that he referred to the new settlers in the Canadian northwest. And it was a great granddaughter of the original Mrs. Partington who returned home with the news that her neighbor's children had scarlet fever and that the house was "blackguarded" as a warning to all who might pass. Another of the Partington family said that her daughter wrote a very "eligible" hand, and that her son's wedding was attended by all the "eclat" of the city, and she was even known to ask what was on the "trapeze" this week.

There were many small social affairs "on the 'trapeze'" in Kingston this week. There was a young girls' dinner party on Monday night and a pianola party and dance on Tuesday afternoon. The first of the weekly hops at the yacht club was given on Wednesday night and there were several little supper parties after the dance. There was a very delightful little dinner party on Thursday night, when two of the six guests were out of town girls, and there were two impromptu "angelus parties" when the guests were charmed by the sweet strains which the host elicited from the angelus. The "trapeze" holds equally alluring prospects for next week, as there is to be a large dance given by Miss Agnes Browne on Tuesday night, and a girl's tea on Tuesday afternoon, at Mrs. Skinner's. The camp at Barriefield begins on Tuesday and social functions usually follow closely upon the opening of camp. Then the military college ball on Friday night will close the amusements of the week. Several girls from other places have already arrived for the college ball and many others are expected before the 22nd. Miss Miles, of Toronto, Miss Kathleen Harty and Miss Emily Low are three of the girls who will make their debut at the college.

There was a pretty wedding at St. Andrew's church, Perth, on Wednesday last, when Miss Laura O. Meighen was married to Mr. J. Edwin Frost, of Smith's Falls. The ceremony was performed by the Rev. A. H. Scott, M.A., in the presence of a large number of guests. The bride was gowned in white satin, trimmed with handsome old lace and sequins. The four bridesmaids were three sisters of bride, Misses Mabel, Isabel and Norma Meighan and Miss Edith Taylor. The groomsmen were Mr. R. Locke, of Toronto, and Mr. Edwin Hunt Frost, of New York. Little Miss Nora Lindsay, of Montreal, was maid of honor, and the ushers were Mr. W. Hardie, Mr. F. L. Hall, and Mr. W. B. Hunt, of Perth.

On the same afternoon a fashionable wedding was celebrated in the church of the Ascension, Hamilton, when the rector's eldest daughter, Miss Edith Wade was married to Mr. Ed. Holland Wade, of Kingston-on-the-Thames, England. The ceremony was performed by Canon DuMoulin, assisted by Rev. F. E. Howitt, the bride being given away by her father, the Rev. W. H. Wade. The church was decorated with daisies and white peonies, and the service was full choral. A reception was held afterwards on the rectory lawn, the guests numbering upwards of four hundred. Dejeuner was served in a large marquee attractively decorated with flags and flowers. Several Kingstonians received invitations to the wedding.

The Ven. Archdeacon Carey, rector of St. Paul's church, and Miss Edith Shibley, youngest daughter of the late Schuyler Shibley, M.P., were quietly married at Christ church cathedral, Montreal, at half past one o'clock on Wednesday. The bride and groom left for Quebec by the afternoon train and sailed on Thursday for England. They will visit Paris and travel on the continent before returning home in September. Mrs. Carey has many friends in Kingston who are sincere in their good wishes for her happiness.

Another out-of-town wedding in which the Kingston girls are interested as the bride has visited here, occurred at Toronto last week, when Miss Norah Eby was married to Mr. Wood, who was formerly one of the editors of the Mail and Empire. Miss Beatrice Tandy was one of the guests at that wedding.

Invitations are out for the marriage of Miss Ada Hart and Captain A. D. Cartwright, at Toronto, on Wednesday, June 27th. The bridesmaids will be Miss Mollie Cartwright and Miss Edith Folger.

Invitations are out for the marriage of Miss Hamilton and Mr. Edward J. B. Pense, on Wednesday, June 27th.

Mr. J. M. Farrell and Miss Leonerie Macgillivray are to be married at Chalmers' church Manse on Thursday, June 28th.

Afternoon tea will be served to all who attend and ice cream and candy will be offered for sale. There will also be a notion table, where fancy work, etc., will be sold. Broken Down In Health.

Weak, Nervous, Debilitated and Almost a Victim of Nervous Prostration, This Young Lady Was Restored to Health and Strength by using Dr. Chase's Nerve Food.

It is in the spring, when the blood is thin and watery, that the nerves become exhausted and the frightful break down comes. Few people can overcome the evil effects of artificial winter life and ward off distressing body ills without using a restorative to build up new, red corpuscles in the blood, and reinvigorate the whole body.

Mrs. D. W. Cronsberry, 168 Richmond street west, Toronto, Ont., states:

"My daughter, who sews in a white goods manufactory, got completely run down by the steady confinement and close attention required at her work. Her nerves were so exhausted, and she was so weak and debilitated that she had to give up work entirely, and was almost a victim of nervous prostration.

"Hearing of Dr. Chase's Nerve Food, she began to use it and was benefited from the very first. It proved an excellent remedy in restoring her to health and strength. After having used four boxes she is now at work again, healthy and happy and attributes her recovery to the use of Dr. Chase's Nerve Food. It also helped her through a very severe attack of la grippe. I can recommend it as an excellent remedy."

Let reason rule. Get right down to the foundation of the trouble and build up the system by using Dr. Chase's Nerve Food.

This great restorative is in pill form and contains the very elements of nature, which go to form new red corpuscles in the blood and create new nerve cells.

It is worth while to remember that Dr. Chase's Nerve Food is not a patent medicine, but the greatest prescription of Dr. A. W. Chase, author of the famous receipt book.

As a blood builder and spring restorative, Dr. Chase's Nerve Food is of inestimable value. It prevents and cures the ills of spring and all weakness and debility by the building-up process. It makes the blood red, the nerves strong, and the whole system healthy and vigorous.

Dr. Chase's Nerve Food is an up-to-date, scientific preparation, which has proven itself to be specific for all nervous diseases. It cannot fail, if used persistently, because it actually rebuilds and revitalizes the wasted nerves. It is especially recommended for ills peculiar to women, because they almost invariably arise from exhausted nerves. Dr. Chase's Nerve Food, 50c. a box, at all dealers, or by mail, from Edmanson, Bates & Co., Toronto. Book on nerve diseases free.

As a tribute to the memory of the late H. L. Hastings, Boston, it is proposed to publish a memorial edition of 1,000,000 copies of his striking lecture, "The Inspiration of the Bible."

A cultured lady who went to London to learn the duties of a Salvation army cadet, started a work in Finland that is now represented by forty-seven corps, slum posts, rescue and social agencies.

The great Methodist ecumenical conference takes place in City Road chapel, London, opening Sept. 4th, 1901. Representatives from the Irish, South African, American, Canadian and Australasian churches will be present. The conference will consist of 500 members.

Fourteen thousand, seven hundred and thirteen officers, maintained by the Salvation army, and 54,111 local officers, who maintain themselves, are now directing the work carried on in forty-seven countries and colonies. Besides the mission to the "submerged tenth," there are missions to the Zulus, South Africa, the Hindoo low castes of India, the Buddhists of Japan and Ceylon, the Mohammedans of Java, the Maoris of New Zealand, the Chinese of San Francisco and other similar native races.

This is what the New York Evangelist says about backsliders: "Nine-tenths of the church members who 'backslide' are not readers of the bible. An endeavor society is the best antidote a church can have for 'backsliding.' The daily use of the bible keeps its members on the qui vive in christian work. The intense interest in our spiritual welfare, as well as a hunger for the salvation of others, are two of the principal sources of christian growth. To do this successfully requires a constant and close touch with God by prayer and an intelligent study of his work."

CENSUS TAKING.

Should be Done in Winter—A Matter of School Grants.

The opinion has existed for a long time that the custom of taking the census of the city in mid-summer is a wrong one. It is contended that the winter is the proper time, and for various reasons. In summer all the people, who can get out of the city, do so; they are at summer resorts, working on boats or travelling. Thus many of them are missed. Then there are dozens of farmers who move their families into the city in the fall for the purpose of educating their children, but as soon as spring comes the family returns to the farm. They are missed by the census taker. There are over 400 Queen's college students (exclusive of the 250 residing here) who live in the city for about eight months in the year. These are never taken into consideration by the census taker. Though some of them are constantly going away, yet their number is ever being augmented by the others, so that there is always a student population of over 400.

Robert Meek referred to this matter during Thursday night's meeting of the board of education, and moved, seconded by J. G. Elliott, that the board enquire into the question. The taking of the census in midsummer does great injury to the schools of the city, as much as the legislative grant is based, not upon school attendance, but upon the population of the city. When the dominion census was taken in 1891 the population was several thousand above Mr. Gordon's figures, and the grants for the two following years were much larger.

An instance of the unfair way in which Kingston is treated may be given. Kingston has an average school attendance of over 2,661 and receives a grant of $2,229. Brantford has an attendance of only 2,148, yet receives a grant of $2,214. As the separate school grant in Kingston is $509 compared with $239 in Brantford, it will be seen that the grant to the public schools in Brantford is $225 higher than it is in the limestone city, although our school attendance exceeds theirs by about 550.

The council should certainly take up the matter, and, by ordering that the census be hereafter taken in the winter, protect the interests of the city, and give to the public schools what they are justly entitled to.
