COMMERCIAL MATTERS.

What is Going on in the Business World—The Market News.

Hops are quoted in Toronto at 12c. to 15c. per lb.

An English company have taken an option to purchase the Dufferin mine for $1,250,000. They undertake also to increase the plant, and until the purchase is made a rental will be paid equal to twenty per cent. on the paid-up capital.

Kansas wanted 20,000 farm hands, but could not get them and as a result college students have agreed to take their places in the fields. They will run the binders. Some of them have worked at harvesting before, but many of the girls have never lived on a farm.

I was said in New York yesterday that the Columbia river packers' association were paying 7c for fish in the river, and also that the combine's prices would not be named for several days yet. Meantime some of the independents who have made prices on a basis of 81.60 for 1 lb. talls report that orders are being confirmed at a good rate.

The wheat harvest is in full blast through Southern Nebraska and Kansas. The indications now are that the Nebraska wheat crop will reach 75,000,000 bushels, and that Kansas will reach close to 100,000,000. This is from fifteen to twenty-one per cent. heavier than previous yields in this state. Nebraska's shortage last year was due to the destruction of the winter wheat as a result of the severe cold.

PRETTY HOME WEDDING.

A Kingstonian, Now of New York, Weds a Pretty Kingston Girl.

A pretty wedding was solemnized last night at the residence of Mr. and Mrs. Alexander Young, Wellington street, when their daughter, Miss Madeline, was united to George Bacon, of New York city. About fifty relatives and friends were present. Rev. G. Lathrop Starr performed the ceremony. The bridesmaid was Miss Nellie Bacon, a sister of the groom. Gordon Young, brother of the bride, supported the groom. The bride was attired in a handsome grey travelling suit and carried a bouquet of white roses. The bridesmaid wore a costume of blue silk, trimmed with pink, and carried a bouquet of pink roses. About midnight an elaborate wedding supper was served, at which Rev. Mr. Starr proposed the health of the bride, in a few suitable words. Mr. McGregor responded. The bride, a very popular young lady, will be much missed. The groom is a son of George Bacon, of 152 Lower Bagot street. He is in the employment of Mr. Cosio, a whole sale and retail tobacco dealer, corner of Water street and Maiden Lane, New York.

Music for dancing was furnished last night by Thomas O'Connor. The young couple left on the 5 a.m. boat to-day for Cape Vincent en route to New York, where they will reside. The bride's travelling hat was of grey, trimmed with blue and white chiffon and forget-me-nots. The bride received many handsome presents, among them being a fine gold watch from the groom.

THE TUNNEL AGAIN OPEN.

Trains Running Through Laing's Nek Tunnel—Casualties Light.

London, June 19.—No important developments mark the progress of the British in the Transvaal. Lord Roberts reports that over 2,000 stand of arms have been given up at Pretoria since the occupation of the capital. These will be utilized by the released British prisoners of whom there are 148 officers and 3,039 men. Of the former twelve and of the latter 268 are in the hospitals. The total of the British losses June 4th, says lord Roberts, amounts only to two men killed and one officer and forty-eight wounded. Gen. Buller reports that the first train passed through Laing's Nek tunnel Monday, June 11th, and proceeded to Charlestown. The first batch of Mafeking's sick and wounded arrived at the hospital at Belfontein, June 15th.

THE MOB MOWED DOWN.

MACHINE GUNS TURNED ON THE "BOXERS."

Chinese Soldiers Burning Villages United States Congress Will Have a Special Session to Deal With Chinese Trouble—Gunboats Going Up the River.

Shanghai, June 19.—It is reported that Chinese soldiers have burned Tien Tsin, Yulet, the viceroy of Chi-Le, has fled. According to the latest reports the Pekin legations were attacked by Chinese manchus. Two onslaughts were made by the mob, but they were mowed down by machine guns, the slaughter being particularly severe at the gates of British and Russian legations. Many high officials were reported to have been killed.

Japan Will Assist.

Yokohama, June 19.—It is reported here that the powers have asked Japan to send 20,000 troops to China and that the Japanese government has consented to do so.

A Special Session.

Chicago, June 19.—A special from Washington says: "Persistent rumors are afloat that president McKinley has decided to call an extra session to deal with the Chinese situation. If the war exists in China, growing out of destruction of United States and other nations, it will be necessary to send more troops to China. Owing to conditions in the Philippines no more troops can be withdrawn with safety, therefore, it will secure authority from congress to furnish troops. The rumors of an extra session cannot be traced to a reliable source at this hour and inquiries at the white house throw no light upon the subject."

The Oregon To Go.

New York, June 19.—The president has directed Gen. MacArthur to send three regiments of regulars to Tien Tsin, which, with the support of commissiary field transportation, signal men and staff, will make a staff of 3,900. Admiral Romey has been directed to send the Oregon to Taku as soon as she can start. She will take extra marines and sailors from the Montery, now with her at Hong-Kong. The Oregon is sent because of her great moral effect and the large number of men she carries. The Iris is expected to leave Manila to-morrow for Taku with food, coal and ammunition for 900 men for three months, for admiral Kempff's squadron. She will take at least eight days to make the voyage. The Solace, which left Manila with 100 marines last Wednesday, is due at Taku.

Steaming Up The River.

London, June 19.—A Shanghai despatch says the light draught vessels of the international fleet are now steaming up the Pei-Ho river. Russia and Japan, now the forts, are demolished, will land many troops.

Two British Regiments Forwarded.

Hong Kong, June 18.—The United States battleship Oregon has been ordered to Taku. Her sailing has been delayed on account of her not having a sufficient crew or force of marines. The smallness of her crew is due to the fact that they were transferred to the gunboats recently commissioned. Two British regiments from India are coming here to reinforce the garrison and take the place of the troops sent north.

Many Were Killed.

London, June 19.—An associated press despatch from Chefoo dated yesterday afternoon says:

"The forts on both sides of the Talu are now occupied. The Chinese opened fire unexpectedly. The casualties to the mixed forces were as follows: Killed—British, 1; Germans, 3; Russians, 16 and French, 1. Wounded—British, 4; Germans, 7; Russians, 45 and French, 1. The Chinese torpedo boats were seized."

The Shanghai correspondent of the Daily Mail says: "The forts began firing in obedience to orders from Pekin conveyed in a personal edict of the empress dowager, by advice of Kang-Yi (president of the ministry of war). Several warships were struck by shells from the twelve-inch guns of the forts. The heavy Russian losses were due to the blowing up of the magazine at Mandshur. Four hundred Chinese are reported to have been killed. The Chinese, when retreating, fell into the hands of the Russian land force."

The Daily News has the following from Chefoo: "Two of the forts were blown up. The thirty-two warships at Taku aggregated 200,000 tons and carried more than 300 guns."

Admiral Seymour's column has retreated to Tien Tsin. The situation at Nu-Chwang is reported critical. The British consul at Kiu-Kiang has ordered all foreigners to leave Ku-Ling and Nau-Chang.

The powers are taking prompt action. Four thousand German troops have been ordered to China, 10,000 French troops are waiting to embark at Saigon, capital of French Cochin China, and from 3,000 to 5,000 more Russians have been ordered from Port Arthur to Taku.

News Of Surrender.

Washington, June 19.—The navy department has made public the texts of two cablegrams received this morning from admiral Remey and commander Taussig. The first is as follows:

"Cavite, June 18.—Taussig cables that the Taku forts fired upon foreign gun vessels and then surrendered to the allied forces the morning of June 17th. Kempff asks instructions about joining other powers who are taking united action in demanding that the Taku forts be turned over to them to secure favorable termination of the trouble. Will the department instruct Kempff through Taku at Chefoo and give me the same information?"

The telegram from commander Taussig, of the Yorktown, is as follows:

"Chefoo, June 17.—Taku fort fired upon foreign vessels about 12:45 a.m. Surrendered to allied forces at 5 a.m. to the British admiral at Tien Tsin.

The Admiral's Report.

London, June 19.—The admiralty office has received the following message from the officer commanding the British first-class cruiser Endymon: "Lie Kun Taku, June 18.—The Taku forts opened fire at one in the morning of June 17th on the ships of the allied squadron. After six hours' engagement the forts were silenced and occupied by the allied forces. Additional men for storming the forts were sent ashore from the ships the previous afternoon."

"The British ships up the river engaged were the Algerine (gun boat), Fame, (torpedo boat destroyer) and Whiting, (torpedo boat destroyer). The two latter captured four Chinese torpedo boat destroyers. The casualties of the Algerine were slight. Those of the storming party and others are unknown. A Chinese second class cruiser, flying an admiral's flag, is detained outside Taku by the allied admirals. No information of commander-in-chief Seymour's return to Tien-Tsin had been received by the rear admiral up to two o'clock in the afternoon of June 17th. I am sailing forthwith for Taku."

LINEMEN TALK STRIKE.

Demand More Pay—Say They Cannot Do Justice to Families.

Ottawa, Ont., June 19.—Unless a uniform wage of $2 a day and a working day of nine hours are conceded the linemen working for the Canadian Pacific telegraph company, the Great Northwestern telegraph company, the Canada Atlantic company, the Ottawa electric lighting company, the Ottawa electric railway company, and the Bell telephone company, will go on strike. The men have only been receiving $1.25 to $1.60 a day and with the high cost of living in Ottawa, say they are not able to give their families a proper education, to say nothing of the comforts of life. There is a considerable hazard involved in connection with the work and the men feel that they are deserving of public sympathy.

One member of the union expressed the opinion that if the action of the electric companies in discharging the men was legal the Ontario labor laws are nothing short of a howling farce. Should there be necessity for a strike to-day, the union will wait on mayor Payment and ask him to call a public meeting, that the people may hear their side of the case. Vigilance committees have been formed to prevent the electric companies, if possible, from employing non-residents and non-tax payers to replace the discharged men.

Justice King, of the supreme court, and Mrs. and Miss King sail for England to-day.

Mr. Piggot, Hamilton, has been awarded the contract for the improving of Meaford harbor. The harbor will be deepened to accommodate the largest lake vessels.

It is expected that the iron work on the inter-provincial bridge will be completed by September, but the structure will not be open for traffic till a much later date. At present operations are carried on on the bridge and approaches both night and day.

A cable was received at the militia department to-day from Lieut.-Col. Steele, which reads:

Newcastle, Natal 19.—With Buller's force moving forward. (Signes Steele.

STRIKERS USE DYNAMITE.

Rioting and Disorder Break Out Afresh.

St. Louis, Mo., June 19.— N. O. Nelson, president of the N. O. Nelson manufacturing company, one of the biggest factories of plumbing supplies and hardware in the West, to-day notified his employees of his wish that they shall not ride on the street cars during the pending strike. In order to induce them to use the passenger waggons he offered to pay all the fares of his employees while the strike lasts. The rule has gone forth from organized labor headquarters that no union man found riding in a Transit company car or permitting members of his family to do so will be tolerated in the ranks of the union.

To-day was one of the liveliest days since the strike began. Eleven cars were dynamited between morning and sunset and in every case the car was wrecked and the passengers escaped unhurt.

The sheriff's proposition to dismiss the posse, although not encouraged by the police, has had the effect of prompting new acts of lawlessness, and the mobs of women who infest crossings during the day increased yesterday at all points.

The increasing use of dynamite is having the effect of preventing anybody from riding on the cars and the police are making no arrests. It is feared that the use of explosives will continue with more disastrous effects.

Ernest Vigne, conductor of a Broadway car, was hit in the face with a torpedo, the explosion of which may cost him his life. Explosions have become of such frequent occurrence that the police make light effort to arrest the dynamiters.

Thus far eighty cars of the transit company have been wrecked with dynamite, six have been burned and over a hundred put in the repair shop on account of broken windows and battered sides.

Seven women in different parts of the city to-day applied to the police for protection from mobs of women and children, who followed them when they alighted from street cars.

DECLINES TO BE A CANDIDATE.

Roosevelt Will Remain in State Politics For a Time.

Philadelphia, June 19.— Gov. Roosevelt gave out this statement: "In view of the revival of the talk of myself as a vice-presidential candidate, I have this to say: It is impossible to too deeply express how touched I am by the attitude of those delegates who have wished me to take this nomination. Moreover, it is not necessary to say how thoroughly I understand the high honor and dignity of the office, an office so high and so honorable that it is well worthy the ambition of any man in the United States. But while I appreciate all this to the full, nevertheless I feel most deeply that the field of my best usefulness to the public and to the party is in New York state, and if the party should see fit to renominate me for governor I can in that position help the national ticket as in no other way. I very earnestly ask that every friend of mine in the convention respect my wish and my judgment in this matter."

A Deserved Promotion.

Montreal, Que., June 19.—R. J. E. Chapple, who has been assistant superintendent of the C.P.R., has been promoted to the position of superintendent of the Schreiber division of the road, extending from White river to Port Arthur. Thomas Hay takes the position of superintendent of the North Bay division.
