SEPARATE SCHOOL QUESTION.

Premier Macdonald Refuses to Open It Up Again.

Winnipeg, Man., June 20.—Two weeks ago the Winnipeg Catholic schools' committee waited upon premier Macdonald, and asked him to bring up legislation for the relief of the Catholics in the matter of education. The premier has written a letter to P. Marin, secretary of the committee, in which he says he fears that it will be impossible for his government to meet the wishes of the delegation; the position assumed by his party during the last election, was that this matter, having been settled as announced by Sir Wilfrid Laurier and Hon. Mr. Greenway, should not be disturbed, and having taken this position it is ficult for him to see how his government can properly move in the direction desired.

On receipt of this letter a meeting of the committee was held, and it was decided at once to lay the matter before the dominion authorities and a memorial has been sent to Ottawa.

In the legislature yesterday a resolution was passed urging that the question of adopting similar methods to those adopted and used in other countries for the purpose of producing rain during the periods of drought and preventing the occurrence of disastrous hail storms in the province, be actively taken into consideration of the government, and all inquiries made in the premises.

How 'Twas Settled.

Victoria, B.C., June 20.—It is understood that the opposition convention at Vancouver resulted in the endorsation of Mr. Dunsmuir as premier. Messrs. Eberts and Turner are to remain during the session, after which the cabinet is to be reconstructed. Mr. McBride is to go in at once as provincial secretary and Mr. Wells as chief commissioner of lands and works, with a ballot to be made between Mr. Green, of Kaslo, and Mr. Prentice, of Lillooet, for the portfolio of mines.

PEKIN IS BOMBARDED.

RUSSIAN GUNS DO THE WORK EFFECTIVELY.

Chinese Soldiers Renew Attack on Legations—French Minister is Said to Have Been Killed.

London, June 20.—"The Russian relieving force arrived outside of Pekin this morning," says the Shanghai correspondent of the Daily Express, "and immediately began to attack the city on two sides, employing numerous artillery. The force apparently arrived in the nick of time, for the Chinese assert that the attack on the legations had been successfully renewed. On the night of June 16th, the Chinese troops under generals Tung Fuh Siang and Tung Ching attacked the legations and set on fire five European buildings. Nothing definite is known as to the result, except that the Chinese were disappointed, although other reports, utterly discredited by foreigners here, are that the Chinese, infuriated by the destruction of Taku, have since massacred all the foreigners in Pekin."

A modified version of these rumors received at Berlin is that the French as well as the German minister has been killed. The English at Shanghai think that the Chinese had foreign advice in organizing the defences at Taku, because of the precision with which their attack was delivered. The wires connecting with the harbor mines were cut by the bolts of the warships the night before the bombardment. It is reported that no fewer than seven hundred Chinese were killed in the forts. The Shanghai correspondent of the Daily Express says he is officially informed that Japan is mobilizing 25,000 men for immediate transport.

The new Chinese cruiser Hai Yang, built by the Armstrongs, has been taken into custody at Taku by the British and Russians. At Yuen Nan Fu, where the rising has been gathering force for several days, 680 christians have been attaked at the French mission settlement, many being put to death. The French consul and three missionaries are still in prison. The disorderly elements have secured the upper hand at Wuhu and Ozchuan, where the native christians have been massacred. A thousand "Boxers" have gathered on the outskirts of Tien Tsin.

Seymour Is At Pekin.

Shanghai, June 20.—Reports from Chinese sources, credited by the local foreign officials here, say the legatons at Pekin were safe June 17th, (Sunday), and that admiral Seymour with the relieving column reached Pekin to-day.

Christians Were Massacred.

San Francisco, Cal., June 20.—Mrs. A. P. Lowrie, Presbyterian missionary, stationed at Pao Ting Fu for the last six years, arrived here on the Doric. She reports that on the night of May 16th, many native christians, principally women and children, were murdered by the Boxers while fleeing from Pao Ting, toward Tien Tsin. This was about ten miles from Mrs. Lowrie's station, which was not disturbed.

The native christians had been attacked on May 15th, and had successfully repulsed the herde of murderers, but in trying to reach Tien Tsin the following night they were overtaken and murdered. The 'Boxers' then returned to Pao Ting and burned all the houses of their victims.

A Russian In Command.

St. Petersburg, June 20.—Vice admiral Alexejeff, from Port Arthur, reporting the capture of the Taku forts, says the bombarding fleet was commanded by the Russian Capt. Dobrowolski, as senior officer present. The Russian losses were two lieutenants killed and sixty seven wounded.

The gun boat Giljak was seriously damaged by a shell below the water line and must be docked for repairs. The gunboat Korejez was made to leak in six places and had her cabin destroyed. The gun boat Bobr was undamaged. Besides the above, admiral Alexejeff says the French warship Ijon, the British Algerine and the German gun boat Ithis participated in the engagement.

An attache of the Chinese legation here named Qwed Chin has stated that the resistance to foreign troops would collapse and that affairs would be arranged by the guardian to the heir presumptive, taking the empress dowager's present place.

Advance On Pekin.

Washington, June 20.—The state department was officially notified that 4,000 Russians were being sent from Port Arthur to Taku. These, with the marines and troops now at Tien Tsin and others ordered there by the powers, will make officials figure out at least 15,000 men. In the absence of further information respecting the battle with the forts at Taku, the officials adhere to the view that there is not yet a state of war between China and the United States. The authorities are proceeding on the assumption that the Chinese government is powerless to protect foreign interests of any kind for that matter, and that it is their duty to take every possible step to guard Americans.

Instructions sent to Col. Liscum, who commands the 9th infantry, which has been ordered to China, require him to proceed to Tien Tsin via Taku and march from there to Pekin, reporting to the American minister on his arrival. This, of course, means that he will be required to fight his way through, if necessary. Under the general instructions, issued to him and admiral Kempff, the American forces are to act jointly with the allied powers.

The Chinese consul at Havana, according to the Havana correspondent of the World, says that the empress dowager of China is responsible for the present trouble. He predicts that a new government will be set up on the leadership of Li Hung Chang, and hints that he himself is under orders to await telegraphic notification of these changes. He says that everything will be arranged to the satisfaction of the powers.

The Missionarries Are Safe.

Washington, D.C., June 20.—A telegram was received at the state department this morning from United States consul Fowler at Chifoo. The consul says that no communication has been had with Pekin for six days past; that the mission at San Chow has been looted, but that the Chinese general carried the missionaries off in safety to an unknown place. The Chinese ships in the harbor have left for the south. The Russians continue to land troops at Taku.

DESPATCHES FROM ROBERTS.

British and Boers Are Still Fighting—Two Guns Captured.

London, June 20.—The war office has received the following despatch from lord Roberts:

"Pretoria, June 20.—Hunter's advance column occupied Krugersdorp without opposition, June 16th. Methuen, who was escorting a large convoy to Heilbron yesterday routed a force under Christian Dewet, who endeavored to prevent him from entering the little town. Methuen had only three casualties.

"Baden-Powell left this city to-day on his return to Rustenburg. The country is quieting down in that direction. This satisfactory state of affairs was materially assisted by the capture between here and Rustenburg, June 19th, of two guns by Hutton's mounted infantry from a body of the enemy, under commandant Duplessis. Railway and telegraph communication with Cape Town is now completely restored. All is quiet here and at Johannesburg. The shops are open and the market is daily becoming more crowded and business-like."

A Cape Town despatch says that Gen. Kitchener had a narrow escape from capture while sleeping in a train at Koppje station on June 14th.

Boers Open Shell Fire.

Larile, Basutoland, June 20.—The Boers from around Laing's Nek are trying to cut off Rundle's lines. They opened a big shell fire yesterday.

SUICIDE AT QUEBEC.

A Disastrous Fire on St. Joseph Street—Heavy Loss.

Quebec, Que., June 20.—A stranger committed suicide by hanging this morning in the Louise embankment. A newspaper from Glasgow, Scotland, was found in pocket, dated June 2nd. He is believed to be a Scotchman, arrived by one of the last steamers. He is between sixty-five and seventy years of age, stout, weighs about 200 pounds, height five feet ten inches. Three bottles of laudanum were found in his pocket, a razor, a pair of spectacles, fortyseven cents and the balance of a package of clothes line, bought to hang himself, dressed in a blue serge suit, looks like a man of means and education.

Considerable property was destroyed by fire this morning; losses are placed at $10,000.

McKinley The Favorite.

Philadelphia, Pa., June 20.—The second day of the republican national convention opens with the prospect that the renomination of president McKinley, with the bursts of fervid oratory it will evoke, will be the chief event of the gathering. There is an apprehension on the part of many leaders that the day may have in store some coup d' etat, some crisis or stampede in connection with the vice presidency not down on the set programmes. The most careful precautions have been taken to guard against any such contingency.

No Bail Yet Accepted.

New York, June 20.—No bail has been accepted in the case of Mr. and Mrs. Pilgn, the bride and groom who are spending their honeymoon in Lockport jail for alleged complicity in the Lassgar diamond smuggling case. The Montreal trust and loan company, which has offered bail, will be obliged to put up cash or to arrange for indorsement of its bonds by a resident of this country, as the law prevents the court from accepting foreign securities no matter how gilt-edged.

TO JAIL THE DYNAMITERS.

ST. LOUIS OFFICIALS EXPECT TO MAKE MANY ARRESTS.

People Now Fear to Ride—Patronage on the Different Lines is Falling Off—The Inquest Into the Death of the Strikers Continued.

St. Louis, June 20.—Strike matters were very quiet to-day. As a result of the numerous explosions of dynamite on its line after dark the Transit company has put detectives to work and it is said a number of important arrests will be made in the next few days. The cars are running about as usual, but the north and south lines are not heavily patronized. Since the attempts to blow up coaches have become so numerous there has been a perceptible falling off in the patronage of the other lines.

Coroner Lyon resumed taking testimony in the inquiry as to the death of the three strikers who were killed in front of the posse barracks, on Sunday, June 10th. Among the witnesses was Charles Cornell, a clerk in the Missouri Pacific railroad office, and a lieutenant of the posse, who said he saw G. E. Thomas, whom the strikers killed Sunday, shoot twice with a revolver. This was after the deputies had gone after a man in the ranks of the strikers who, the witness said, threw a brick at the passing car.

John H. Overall, judge advocate of the posse, said it was his impression that a striker broke a window in the car with his umbrella. Asked if he thought the deputies were justified in shooting the witness said that, under the circumstances, they were.

This afternoon the jury was taken to the posse barracks, where companies "F" and "M" were drawn up in line to enable witnesses to identify deputies who participated in Sunday's shooting. Several deputies were picked out as having participated in the trouble, but not a witness could swear that they fired a shot.
