MARINE INTELLIGENCE.

Notes Regarding the Movements of Vessels.

The tug Maggie May cleared for Ottawa.

The tug Thomson cleared light for Montreal.

The schooner Joseph McBride, from Trenton, is unloading birchwood at Booth's wharf.

The SS. Bannockburn and consorts from Fort William will arrive at the M. T. company's elevator to-night.

The steamer Myles from Goderich, with 40,000 bushels of wheat, will, arrive at Richardsons' elevator on Sunday.

The steamer John Milne arrived from Smith's Falls, last evening, having in tow the new steambarge built by Mr. Foster for the coal trade. The steambarge was taken to the Kingston foundry wharf to have its boiler and machinery put in.

The steamer Jessie Bain has been chartered by the dominion government from the Thousand Island steamboat company, to be used for a survey of the St. Lawrence river between Kingston and Prescott. Extensive repairs are being made to the steamer which will be completed in ten days time.

The steamer Columbian did not reach the city till after midnight on her return trip from Oswego. From Nine Mile Point to the city she was obliged to run very slowly and to keep her whistle constantly blowing, owing to the heavy fog that hung over the water. The citizens who patronized the trip much regretted the condition of the weather that prevailed at Oswego. Beginning at eleven o'clock it rained nearly all day. Many people stayed on board the boat.

Helps From The Start.

Within a few weeks from the passing of the smelter by-law the work of construction will begin. There will be fresh energy, fresh employment, fresh hope for Kingston. Every elector should be loyal to the city's interest and his own and vote without urging.

$2. Rochester, Dominion Day. $2.

Spend Dominion day in Rochester. "Columbian" and "North King," excursions Saturday and Sunday next.

All disorders caused by a bilious state of the system can be cured by using Carter's Little Liver Pills. No pain, griping or discomfort attending their use. Try them.

Our store is delightfully cool these hot days, and our Soda is all that the most fastidious could demand. E. C. Mitchell.

FIGHT TO SAVE TIEN-TSIN.

BLUE JACKETS SAID TO BE IN BATTLE.

The Chinese Army Began the Battle Against Tien Tsin—China Will Answer Later For All That Has Been Done.

London, June 23.—"Eight hundred Americans are taking part in the fighting at Tien Tsin," says the Shanghai correspondent of the Daily Express, cabling last evening, "and they apparently form a part of a supplementary force, arriving with Germans and British after the conflict started. It is impossible to estimate the number of the Chinese there, but they had a surprising number of guns."

Reports from native sources continue to reach Shanghai of anarchy in Pekin. According to these tales the streets are filled day and night with Boxers, who are wholly beyond the control of the Chinese troops and who are working themselves up to a frenzy and clamoring for the death of all foreigners.

Chinese Generals Bombard City.

London, June 23.—A special despatch from Shanghai dated yesterday says: "Intelligence has been brought by the United States gunboat Nashville to Che Foo that the foreign quarter of Tien Tsin was bombarded Monday and Tuesday by Gens. Nieh, Tung Fuh Siang, Kiang Su and Yuan Su Kai. The result of the fighting is not known.

"The foreign residents are confined to a restricted district, and, as food and water are scarce, they have suffered greatly.

"The Tong Shang mines at Pie Tai Ho were abandoned by the soldiers and rioters flooded the mines and ruined the machinery."

Will Settle With China Later.

Berlin, June 23.—The Herald correspondent is informed at the foreign office that the action of the powers in China is for the present limited to three points:

First—The relief of Tien Tsin and Pekin.

Second—Satisfaction for all that has happened up to the present.

Third—Guarantees that there will be no repetition in future.

Beyond this no decision has been reached. As regards the future attitude of the powers this will be dictated by events at Pekin.

In naval circles at Kiel it is stated that the cruiser Hansa has driven a Chinese ship ashore and captured a second one. Fifty Chinese were killed and seventy wounded.

The Yacht Club Races.

The sailing instructions, to govern the yacht races to be held this afternoon, have been issued as follows:

The course will be triangular, the start and finish in each race being across an imaginary line between the club house and a buoy moored about 300 feet therefrom and carrying a flag marked No. 1.

A buoy marked No. 2 is laid from this in a southerly direction toward Channel Grove, and a buoy marked No. 3, two miles in a westerly direction, off the asylum. The yachts will sail twice around this triangle, making twelve miles. The hour of starting will be 2.30 p.m. At the same time the gun is fired the flag on the large pole will be lowered. The races will be governed by L. Y. R. A. rules and time allowance table. The leading yacht will complete the course in three and a half hours, or the race will be re-sailed.

The Minister Not Dead.

Berlin, June 23.—The Chinese minister here, Lu-Hai Houan, to-day informed the foreign office that the German minister at Pekin, baron Von Kettler, who was reported to have been killed by Boxers, is safe and well.

Killed In The Battle.

New York, June 23. The Journal and Advertiser to-day prints a copyrighted despatch from Rev. Frederick Brown, presiding elder of Tien Tsin district of the Methodist Episcopal church. The despatch is dated Chee Foo, June 22nd, and is as follows: "I have just got away from Tien Tsin on a German gunboat. The city has been bombarded for several days by the Chinese. All the foreign part of Tien Tsin has been destroyed. Lieut. Wright, of our navy, and 150 others of the white resident marines and sailors sent up to our assistance, are killed or wounded.

"The American consulate building has been destroyed. Ammunition is almost gone; the garrison is suffering terribly and needs instant help."

The Lieut. Wright reported killed is probably John R. Wright of the marines. He was appointed from South Dakota, last October.

Latest From Tien Tsin.

Shanghai, June 23.—Prince Tuan has dismissed Yong La, nephew of the empress, and taken charge as commander-in-chief. He gave notice that he would sweep the foreigners out of Tien Tsin.

The Chinese army has about 450 Krupps. They burned the United States consulate. Legations are surrounded, but still hold out.

London, June 23.—Special advices say that Tien Tsin has been bombarded for three days. Entire British and French settlements have been destroyed, and heavy casualties have been reported. Russians are resisting advance of the enemy.

It is the universal belief that Russia instigated the rioting, expecting to march an army to Pekin and proclaim herself protector of China under the guise of restoring order, but achieved a fiasco on account of the prompt action of the other provinces.

King Ben Fined.

At the police court this morning the famous horse case in which B. W. Folger was concerned, came up for final settlement. The evidence of M. Conroy went to show that King Ben was speeding his horse at least a three minute clip at times. The magistrate adjudged Mr. Folger guilty of the offence of immoderate driving and imposed a fine of $10 and costs, with the option of going to jail for one week. W. E. Nickle, counsel for Mr. Folger, gave notice of appeal.

The By-Law Wednesday.

Every voter should come forward early in the day for Kingston's good. It will help the committee by saving canvassing and sending after electors. It will help Kingston and thus help ourselves.

INCIDENTS OF THE DAY.

Newsy Paragraphs Picked Up By Reporters On Their Rounds.

Lockport, N. Y., jail has forty-six prisoners.

P. Preston, Napanee, is visiting Kingston friends.

McKinley and Roosevelt are sure of carrying Kentucky.

Queen's medical summer session examinations began to-day.

Cars were run all day yesterday in St. Louis without molestation.

Judge Thompson, Vermont supreme court, is dead of pneumonia.

Gildersleeve and marriage licenses are synonymous, 42 Clarence street.

Arthur Ledgard, aeronaut, fell into the lake at Toledo, Ohio, and was drowned.

The wheat crop in the western states will be less than half that of last year.

The New York gas companies have raised the price of gas to the legal rate.

Henry Ferris, of Wallace, N.Y., was thrown from his carriage on Friday and killed.

Mrs. Sargent, Barrie, Ont., is visiting her daughter, Mrs. Herbert Raney, University avenue.

An inquest is to be held concerning the death of Capt. W. H. Oliver, at Charlotte, N. Y.

The Thousand Island house, Alexandria Bay, opened to-day, repairs having just been completed.

Col. Gardiner, a prominent Red River planter in Arkansas, was murdered by a negro highwayman.

William S. Jennings, cousin of W. J. Bryan, has been nominated for the governorship of Florida.

A conservative estimate of the actual cost of the national republican convention would be $352,200.

The steamer Columbian on her trip to Picton this afternoon carried almost her complement of passengers.

Striking miners near Wilkesbarre, Pa., fired on non-union men. Guards returned the fire, wounding two miners.

Dr. J. R. Douglas was chosen yesterday by the liberals of Queen's, P.E.I., to contest the district at the election on July 11th.

There is already much interesting gossip about the probable successor to governor Roosevelt. Ex-justice Andrews is mentioned.

The Clayton, N.Y., fire engine has been used for several days to pump water to sprinkle the lawns about the Frontenac hotel, Round Island.

Next Monday evening Capt. Cunningham has consented to speak to the young people of Sydenham street church on "The Wars of Great Britain."

The United States government may seize the British steamer Alpha for landing freight and passengers at Cape Nome on May 25th in violation of law.

The old man from Watertown, N.Y., who strayed away from the excursion party yesterday, was found last evening by police constable Diamond near the car works.

The Livingston county, N.Y., farmers, having despaired of getting a hay crop, are now sowing corn to keep stock on next winter.

Charles Green, employed at Wormwith's piano factory, was struck across the body by a plank, this morning, and slightly injured. He was taken to the general hospital.

Democratic talk strongly of nominating comptroller Bird S. Coler for governor of New York state to succeed Theodore Roosevelt. He would rather retire to private life.

Much damage has been done in Indiana by the overflowing of the Wabash river. A train was wrecked and four people injured. Thousands of acres of corn will have to be replanted.

Frank Smith, a soldier, stationed at Fort Hamilton, made a theatrical attempt to kill himself in a crowded Third avenue street car, in New York. He stabbed himself three times.

Lemuel E. Quigg, the New York member of the committee on resolutions of the republican national convention at Philadelphia, denies that the platform was altered after being agreed on.

There will be on exhibition at R. J. Spoor's warerooms on Brock street for a few days, the latest pneumatic tire runabout, manufactured by the McLaughlin carriage company, Oshawa.

Thursday next O. G. Johnson and wife will leave for New York en route to London, Eng. They will sail on the steamer Lucania and return on the same boat, leaving England on August 11th.

A charge of wadding fired from the deck of the private yacht Sport, at Clayton, on Friday, struck conductor H. S. Forsyth, who stood on the platform of an incoming train, blowing his hand almost entirely off.

A young lad by the name of Ryan, employed at Bailey's broom factory, Queen street, had his hand badly injured in the machinery yesterday afternoon. Dr. Gibson dressed the wounds, which are rapidly healing.

The good citizens who patronize the public market complain about the rough, uneven condition of the block walk fronting the weigh scales. The old blocks ought to be torn up and an asphalt walk substituted.

J. D. Thompson thinks B. W. Folger would present a rare spectacle with close cropped hair and a suit of brown and yellow clothing on. He would like to see King Ben game, and refuse to pay the fine inflicted, accepting the alternative of a week in jail.

A petition is in circulation and will be presented to the minister of justice in behalf of the young girl sent to the Mercer reformatory this week by police magistrate Dufl. It is expected the young man interested will be liberated next week.

A Prosperous Westerner.

Orrin Pencille, of Plainview, Minnesota, has arrived in Kingston after an absence of thirty-eight years. He was born at Cataraqui and was living at Industry in 1856, when he left for Plainview. Within fifteen miles of that town he became a settler and took up a section of land, 640 acres. He prospered with this and he and his family of five sons and daughters are comfortably settled. He sold his land and is now seeking leisure that his active life and success entitles him to. He returned to Kingston and Frontenac with pleasure, this only visit since 1856, being in 1862), and will be welcomed by his old friends. When first he went to Minnesota the land produced forty-one bushels to the acre, and one of his sons-in-law last year had a yield of 65,000 bushels of wheat.

A New Dawn.

The smelter will be the dawn of a new industrial boom in Kingston. Electors must do their part on Wednesday enthusiastically. Everybody with a vote is a helper. Bring out your neighbors!

TAKES STRONG OBJECTION

TO THE REMOVAL OF LIEUT.-GOV. McINNES.

His Secretary Writes a Bitter Letter—Charges That Mr. McInnes Has Been Unfairly Treated—Condemned Him Without a Hearing.

Victoria, B.C., June 23.—The Times publishes a letter from T. R. E. McInnes, secretary to the lieutenant-governor, in which the writer takes strong objection to the demand for the removal of the governor. Mr. McInnes characterizes as "all rot," the argument that a majority of the members-elect having asked for the dismissal of his Honor, the government at Ottawa was bound to comply.

"No obstinacy of that nature on the part of the legislature," he declares, "would affect in the slightest degree any federal government that cared a straw for its own rights or dignity. The lieutenant-governor can constitutionally be removed for good and sufficient reasons only, and Sir Wilfrid Laurier himself enunciated those reasons in the celebrated Letellier case." After quoting Sir Wilfrid's declaration in that case, Mr. McInnes continues: "No, Mr. Editor, I am not even yet prepared to believe that our leader, Sir Wilfrid Laurier, will fly in the face of his own declaration in deference to the spiteful and cowardly resolution of the tory convention. I say cowardly, because in condemning a man unheard, they outrage every sentiment of justice and fair play. But it certainly passes my comprehension how the Times or any self-respecting newspaper can uphold such proceeding. I understand very well how a few designing scoundrels may, for their own purposes, encourage a mob of lynchers to execute their victim at once before the hysterical mania to kill for real or fancied [illegible] have time should have time to subside, and the sense of fair play and fair trial return. A lieutenant-governor is in this position in which he cannot step into the public arena and answer or explain the charges made against him. He must await the official publication of such reply, as he has made. I feel confident, sir, that not only the constitutional editors, but also those members of the legislature who, while still in the heat and passion of a successful political campaign, passed an ex parte resolution against the lieutenant-governor, will before long admit that they should have awaited the reply of the accused before condemning him. A Chinese chicken thief is accorded a fair trial by us, and is given a chance to speak in his own behalf. Is it going to be said that the people of British Columbia, or their elected representatives, have descended to the level of the nigger-roasting lynchers of the southern states, and that against a pioneer of the province, who for over a quarter of a century has filled the highest representative positions in the country? If so, British Columbia is no fit home for a Briton now."

Where Water Pipes Do Protrude.

The water works authorities have said that no water pipes extend above the level of the street farther than it is necessary for them to do. The citizen who will visit the corner of Division and Princess streets, the corner of Earl and Division streets, the corner of King and Barrie streets, and many other places that might be named, will find pipes protruding from three to five inches above the level of the street, and plainly stamped "water." They are very dangerous, inasmuch that if a bicycle strikes them the rider is sure to chase himself over the handle bars.

Receive Severe Criticism.

Adverse comment is expressed because the Salvation army authorities are charging admission fee to Miss Booth's affair at the cricket field. Ald. Walkem, chairman of parks, was asked this morning if his committee had given the army permission to do so, and he replied that they had not. He stated that the army had no right to make a charge as the field had been granted them free of charge, and the city did not allow any admission fee to be charged under such circumstances. An admission fee put the affair on the same footing as a circus. He intended writing to the army authorities to-day about the matter.

Assumes Responsibility.

Montreal Herald.

Dr. Neilson has assumed all responsibility for the recommendation of the Devlin emergency ration, but makes it clear that he so recommended it on the repeated assurances of Dr. Devlin that it was identical with the Kingston food. The question now to be answered is, Were these assurances true? If they were the case against Dr. Devlin falls to the ground as completely as has the allegation against Dr. Borden.

The Articles Returned.

Last spring Miss Simpson, Cataraqui, while attending an auction sale of household goods in the city, had her gold watch and chain stolen. Nothing was heard of the missing articles until last week, when a man called upon John Simpson, father of the young lady who sustained the loss, and said he thought he could secure a return of the goods, as he had heard two women quarrelling about them. A day or two later the man returned the watch and chain and received a substantial reward.

How They Do Things.

A piece of botched public work is to be seen at the corner of Johnston and Bagot streets. Some days ago a tree was cut down and the stump allowed to remain above ground. A sidewalk has just been constructed "around the stump," it should have been built over the stump. The old root protrudes above the level of the walk and is most dangerous.

Fact, Fancy And Fable

Have convinced people that Putnam's Painless Corn Extractor should be given the preference. Get rid of your corns; get rid of them without pain, use Putnam's Extractor and no other.

There is no fresh news to hand from Kumassi, but the Prahsu authorities state that the relief of the town may now be expected any day. The casualties of the relieving forces aggregate 300 already.

John R. Lavell, Smith's Falls, is in the city.

Dr. H. Malone, Strathroy, is home on a visit.

No Sauce has been Imita

so much as

LEA and PERRIN

WORCESTERSHIRE SAUCE

and, although these numerous imitations have ably been miserable failures, they prove concl the vast superiority of the LEA & PERRIN'S p People only try to imitate the BEST. All th Grocers and Italian Warehouses sell it.
