The Archbishop's Words.

Winnipeg, June 25.—At the St. Jean Baptiste festival yesterday, an address was presented to Archbishop Langevin, which he replied to in a speech which has created something of a sensation here. Referring to the school question, he urged the necessity of unity on the part of the French Canadians especially under existing circumstances. He said that although they had suffered under grievous storms, there was yet a way of safety if they remained firm and united. He was glad to speak of Messrs. Bourassa and Tarbouch, who were present, they had the courage to say what everyone thought. They would yet receive the homage of their opponents.

Got Convict To Open Safe.

Frankfort, Ky., June 25.—The inside steel safe in the state treasury vault was forcibly opened by a convict serving in the Frankfort penitentiary for safe blowing. He did the work under the watchful eye of state treasurer Hager and state inspector Hines. Frankfort machinists had been drilling and chiseling on the safe for three days without making progress. In less than twenty minutes after Simmons entered the room the safe was open. Simmons offered to blow it open with dynamite without injury to the safe or building, but his offer was declined.

Bourassa Is Loyal.

Winnipeg, June 25.—Henri Bourassa, M.P., for Labelle, attending the St. Jean Baptiste celebration at St. Boniface, in an interview declared that he was a loyal subject of Queen Victoria, but took exception to Canada throwing her sons into the South African war, and that he believed that time would justify his position. The people of Quebec, Mr. Bourassa added, are with him on his stand in reference to the war.

The house of commons commenced morning sessions today, and an effort will be made to rush business through so that prorogation will be reached early next week.

CRACK AT THE CHINESE

But The White Men Could Not Win.

WERE HORDES ON HORDES

SO THAT ANOTHER ATTEMPT MUST BE MADE.

The Foreign Concessions at Tien Tsin Have Been Burned—A British Warship Has Gone to the Rescue of the Missionaries—Situation is Almost Hopeless.

London, June 25.—The anxiety regarding Pekin and Tien Tsin and admiral Seymour's force has not been relieved, though all are the subjects of reports bewildering in number and variety. The whole of North China is declared to be ablaze. The Chinese general, Mei, who, it is stated, kindly saved the missionaries at Hang Chow, estimates the number of Boxers in the northern provinces at three millions. One Shanghai correspondent informs the powers that they have fully underestimated the numbers, desperation and armament of the Chinese, who have been quietly accumulating rifles for three years at the rate of 20,000 a month. When recent occurrences are more widely known in the empire the full force of the insurrection may be expected to be felt everywhere.

Among the numerous unauthenticated reports regarding Tien Tsin emanating from Shanghai and Chefoo, are statements that the casualties among the Europeans have been enormous. The position of the survivors is all the more desperate because the shallowness of the river prevents their escape in boats. The losses were owing to lack of time to prepare suitable bomb shelters.

These hastily erected consist of wetted piece goods. It is stated that among the killed are Capt. Winnington Ingram, of the sloop Daphne, and Capt. Beatty, of the battleship Barfleur. This statement is not confirmed. One report states that Capt. Beatty was badly wounded.

Rumor now adds that prince Ching is among the victims of the Boxers. It is stated that the French consul at Canton has telegraphed to Shanghai that Li Hung Chang has been informed that Gen. Tung Fu Siang's soldiers have joined the Boxers surrounding the legations.

A despatch to the Times from Shanghai, dated Sunday, says it is now stated that the first accounts of the destruction caused by the bombardment of Tien Tsin were exaggerated. The latest accounts say that the casualties were chiefly among the Russian troops north of the river.

There is still no news from the fleet, and the consulate at Shanghai has received no information concerning Pekin, but a statement has been made by viceroy Cheng, on the authority of a telegram from Yuan Shih Kai, in Shantung, that the latter had received news by a special courier from Pekin that all the legations were safe, and the foreign ministers were demanding their passports. The Tsung li Yamen appeared to be disposed to comply with their request. If this is a fabrication the motive is not clear. If it is true, it would imply the correctness of the earlier reports of admiral Seymour's arrival at the capital.

Sheng has also received a telegram from an official at Pao Ting Fu stating that the guns used by the Boxers in bombarding Tien Tsin have been seized, together with a quantity of plunder, at the viceroy's yamen. This is obviously intended to exonerate the government and troops. The foreigners at Chung King and Ning Po have appealed for the protection of British gunboats, but none is immediately available.

White Men Attack Chinese.

London, June 25.—The Central News has received the following despatch:

"Taku, Friday, 3.30 p.m., by despatch boat to Chefoo, Saturday, 1 p.m. Yesterday 600 Russians and Americans attempted to raise the siege of Tien Tsin. Hordes of Chinese blocked the road. The Chinese artillery was well placed, and it was impossible to drive them out. The allied forces retired in good order.

"The armoured train with a reconnoitering party was derailed last night.

"An attempt to relieve Tien Tsin with a larger force will be made on Saturday night."

A despatch from Shanghai of Friday's date says the Boxers have burned nearly all of the foreign concessions at Tien Tsin.

A despatch from Shangai says that the British warship Alacrity has sailed in the direction of Shis Tao for the purpose of rescuing the foreign missionaries.

The despatch adds that the foreign consuls there yesterday addressed a note to the Chinese admiral, there asking him to remove his fleet. Two of his ships have sailed; and the rest will sail shortly.

The British battleship Victorious has sailed from Castellamare for China.

Trustworthy information has been received at St. Petersburg to the effect that the situation at Tien Tsin is now almost hopeless.

A despatch to the Daily Telegraph from St. Petersburg says that 230 sailors and twenty-seven officers will leave Cronstadt shortly for Philadelphia, to take over the warship Varing, which will sail direct for Port Arthur.

Ordered To China.

Simla, June 24.—An order has been issued increasing the force commanded by Gen. Gaselee, which is going to China, to divisional strength. The following has been added to the force already selected: A regiment of native cavalry, a field battery, three companies of sappers, a battalion of pioneers and two native infantry regiments for the lines of communication.

Caught In Ambuscade.

Washington, D.C., June 25.—The navy department yesterday afternoon issued the following bulletin:—"A telegram from admiral Kempff, dated at Chefoo, June 21th, says: In ambuscade near Tien Tsin, on the 21st, four of Waller's command killed and seven wounded. Names will be furnished as soon as received. Force of 1,200 going to relieve Tien Tsin to-day."

The secretary of the navy has ordered admiral Remy to go with the Brooklyn to Taku, taking any of Gen. MacArthur's troops the Brooklyn can carry. The effect of this transfer is to make Taku the headquarters of the Asiatic squadron. If the Brooklyn starts to-day, as expected, it will take her fully a week to reach Taku. The determination to carry some of Gen. MacArthur's troops on a flag ship shows the emergency of the situation. The troops are believed to be ready to move, but some delay may be caused in getting on board sufficient supplies for a large body of men for a week.

Admiral Kempff's report that four Americans were killed and seven wounded in the ambuscade of Waller's force, caused the gravest concern among officials, but the chief fear was as to the outcome of the second attack, which the admiral would begin yesterday. It results may be decisive, not only to the immediate force employed, but in determining the fate of the legations and foreign settlements at Tien Tsin, and also whether the issue is, or is not, to be war with China.

Word reached the navy department yesterday that the battleship Oregon got away from Hong Kong on Saturday night, bound for Taku. This is two days ahead of her expected start. She took on 164 sailors and marines, brought to Hong Kong by the Zafiro. These ships and the Monadnock are the only ones going to China. Admiral Crowninshield pronounces untrue the report that the gunboats Marietta, Princeton and several other ships at Manila have been ordered to Taku. There is felt to be no need for them, and moreover, with the ships now under orders to sail, admiral Remy will have a force which is considered abundantly able to meet every possible requirement.

Casualties Are 300.

London, June 25.—A press message from Shanghai, dated yesterday at 4 p.m., embodies some later information. It says: "The guns of the Chinese around Tien Tsin are superior to anything the defending European force has or is likely to have for some time. The bombardment at Tien Tsin continued Friday. Bomb shelters were hastily erected by the foreign troops, largely constructed of wetted piece goods. The food supplies are insufficient, and the continued shelling is reported to be telling terribly. The foreign casualties were 300. Japan is making every effort. Her troops are now arriving at Taku in large numbers. The Chinese troops in the province of Chi Li include 60,000 auxiliaries who have been drilled by Russian and German officers."

THE BOERS SURRENDER

And More Would Do So But For Kruger.

IS FEARING BANISHMENT.

THEY WERE DECEIVED ABOUT THE WAR.

This is the Statement of a Free Stater—Lord Roberts Cables From Pretoria About the Condition of Affairs.

London, June 25.—A telegram from Cape Town states that De Villier's commando, numbering 220 men, with 280 horses, eighteen waggons, 260 rifles, and 10,000 rounds of ammunition, has surrendered to Gen. Warren at Blikfontein. Commandant De Villier himself did not surrender.

Despatches from Pretoria say that commandant Gen. Botha is willing to surrender to the British, but is prevented from doing so by president Kruger, who is afraid he will be banished. Commandants Andries and Cronje have surrendered.

The wives of Gens. Botha and Lucas Meyer are seen in the streets of Pretoria every day when they are out on shopping tours.

A despatch from Schupersnek, Orange River Colony, says that a force of 250 Boers drove off Dalgetty's mounted rifles near Dornkop, Thursday, capturing many cattle in the rear of Brabant's camps.

Blames President Steyn.

Cape Town, June 25.—A correspondent has had an interview with a representative Free Stater who has two sons among the prisoners here. This man talked freely and frankly about the war. He said:

"We were presuaded to join the Transval by president Steyn, who told us that now was our chance to destroy England's power. He said we would be able to capture Durban and Cape Town before reinforcements could arrive from Great Britain. Then we could dictate our own terms.

"If any one should have told us that we would be defeated we would not have believed him. Now we see our mistake and realize that we are completely beaten. We trusted our authorities, who deceived us. Now our only fear is that our independence will be restored, which would make a renewal of the war possible. We never anticipated that the war would be such an awful one. One experience of this kind is enough."

Burned For Spite.

New York, June 25.—In an interview the Boer envoys say they learn that the British have burned their homes for spite. They think the American people should force the administration, which is against them, to declare for the Boers.

Attack On Hospitals.

Cape Town, June 23, (delayed by censor.) The Times publishes and editorially comments on an interview with a colonial volunteer, who complains bitterly of the hospital arrangements. He declared that the accommodations, clothing, and food are insufficient, and that there is extortion and robbery by the orderlies, who are largely left without supervision, owing to the paucity of medical officers. He speaks in terms of the highest praise of the civilian doctors and the nurses from Netley hospital.

Lord Roberts Reports.

London, June 25. The war office has received the following cable from lord Roberts:

"Pretoria, June 21, (11:30).—Buller reached Standerton June 22nd. He found a good deal of rolling stock. All the Dutch residents had left town. The British prisoners captured since our occupation of Pretoria have been taken to Machadodorp. Ian Hamilton occupied Heidelberg Saturday. The enemy fled, pursued by our mounted men six or seven miles. The previous day Broadwood's cavalry had a skirmish with the enemy dispersing them completely and capturing six. Hunter's advance brigade reached Johannesburg on Heidelberg, June 22nd. The enemy attacked our post at Honing spruit and before reinforcements arrived from Kroonstadt they had burned three culverts. These had all been repaired by this afternoon."

A Reuter despatch from Cape Town says: "The casualties at Honing spruit were 375 killed and wounded."

In a despatch dated Standerton, June 24th, Gen. Buller confirms the report that 161 men of the 13th yeomanry, and 180 Highlanders were captured with a convoy near Heilbron. They passed through Standerton on June 18th. A few of them, including lord Longford, were wounded. These were left at Reitz. The despatch gives the names of other sick troops found at Standerton, and adds that the bulk of the prisoners, including lord Leitrim and lord Ennismore, were well.

REFERRED TO THE RAID.

Dr. Jameson At Last Breaks His Silence.

London, June 24.—At Kimberley Dr. Jameson addressed the electors. He sketched the position of the rand at the time of the raid, emphasizing the discontent of the working classes, who were groaning under grievances and were ripe for revolt. He denied that the raid caused racial troubles or induced the Boers to arm or hamper the imperial government. Race feeling, he continued, always existed, and armament already had been commenced, while the imperial government did not intend to take effective steps to redress the grievances. This is the first time that Dr. Jameson has broken silence on the subject of the raid.

Drove Convoy Back.

London, June 25.—The communications of Senekal with Winberg, the nearest supply point, have been temporarily interrupted. Gen. Clements is at Senekal. A convoy seeking to reach him Friday was driven back. A correspondent cables that the Boers have 1,350 prisoners on the Delagoa Bay line and probably about 800 in the Orange River Colony, which were taken at the Rhenoster river. Lords Leitrim and Ennismore have been taken north, with other members of the millionaires' battalion.

The Rebellion Quelled.

London, June 25.—Gen. Warren wires that the rebellion has been extinguished in the north of Cape Colony, but he does not mention the capture or dispersal of the considerable Boer force which has been occupying that part of the country.

Canadian Seriously Wounded.

Ottawa, June 25.—A cable received this afternoon says that Lieut. Inglis, of 4th troop, "C" squadron, mounted rifles, has been seriously wounded. Pte. Hiam, Montreal, is reported convalescent.

Thirty-Five People Killed.

Atlanta, Ga., June 25.—A passenger train on the Macon branch of the Southern railway ran into a wash-out one and a half miles north of McDonough, Ga., Saturday night, and was completely wrecked. The wreck caught fire, and the entire train, with the exception of the sleeper, was destroyed. Every person on the train except the occupants of the Pullman car, perished. Not a member of the train crew escaped. Thirty-five people in all were killed.

Atlanta, Ga., June 25.—Additional reports received here to-day from the scene of the wreck on the Macon branch of the Southern railway at McDonough show that the list of dead probably will number forty-one. The number of gang of section hands on the wrecked train, all of whom were killed, is not known. Several bodies have been removed from the wreckage, but they have not been identified. Six dead passengers were brought here to-day. Traffic probably be resumed to-day.

News has been received of the finding of the body of Lynn Rolfe, another victim of the man O'Brien, held by the police of Dawson. The Indians who were tried for the murder of Mr. and Mrs. Horton have been found guilty and will probably hang.

Contenarian Evicted.

Chicago, June 25.—Old and decrepit, Mrs. Sarah Elliott, said to be 101 years old, was evicted on Wednesday night from her one bare living room near Princeton avenue and Thirty-seventh street, because she had not paid her last month's rent. On Thursday night the police stumbled over what they thought was a bundle of rags in the alley at the rear of No. 3,722 Princeton avenue. Examination revealed Mrs. Elliott, and a patrol waggon was called and the woman removed to the station.
