CAME AS A BIG SURPRISE.

HERB. HORSEY TALKS OF THE "BOXER" MOVEMENT.

His Headquarters Are at Shanghai and He Did Not Expect the Present Outbreak.

Ottawa Journal.

"The Boxer movement in China is a surprise to me," said Herbert H. Horsey, Shanghai, manager in China of the Sun life insurance company, who has recently returned to the city on a visit to his parents, Mr. and Mrs. H. H. Horsey, of 243 Daly avenue. Speaking to a reporter yesterday, Mr. Horsey said: "I have not been in North China for about a year and at that time there were no indications of the Boxer movement. Affairs among the people were, however, in a very volatile condition, but I had no idea it would develop into an attack upon the foreign powers. This movement is among the lower classes who are antagonistic to foreigners, but it is possible it has been instigated by some one of the foreign nations. All the nations have their spheres of influence in China which practically means that the empire belongs to other nations. The Chinese do not like this, and, while the educated classes do not openly espouse the cause of the Boxers, the general impression is that every Chinaman would like to see the empire left intact. Those Chinamen who favor the progressive policy would want western ideas adopted, but are opposed to the partition of the empire. There can be no doubt about the result of this trouble. The Chinese are poorly equipped, and are not in a position to cope with foreign powers, although they would like to drive the foreigners out of the country. If they get a chance to massacre they will do it.

"The missionaries are not held in any great favor by the foreigners, or the Chinese, although I am not in a position to say anything about their work or their methods. There is an impression among foreigners that many of the missionaries are not broad minded or tactful enough, and that they are not ready to admit the good which is to be found in the religions of the Chinese. These religions have been in vogue for thousands of years, and the Chinese resent interference with them. The medical missionaries get along well enough, but the women missionaries are said to cause a lot of trouble by entering the homes of the Chinese and talking to the women while the men are away.

"I am unable to say how far this movement will spread, but if the conditions are favorable and the powers are not able to cope with it it may extend to the southern portion of the empire.

"The Chinese do not know whether the emperor is alive or not. I think the powers will depose the dowager empress, and if they do not partition the empire will reinstate the emperor, if he is alive, and then pursue a progressive policy, admitting all nations on an equal footing."

Mr. Horsey was one of the best footballers in Canada a few years ago. He is in splendid health and will probably remain in Canada until September. He left yesterday for Kingston, where he formerly attended Queen's college.

'Twas Children's Day.

Yesterday was "Children's Day" in the First Baptist church, and in consequence the platform was banked with lovely flowers, and flags in moderation suggested the patriotism that is not lacking even in the children's hearts. In the morning the children gathered in the school-room and marched into the church, occupying the front seats. The pastor preached to them, yet not overlooking the older people, from the text "Suffer the Little Children, etc." Mark x. 14. The little people gave close attention. Special music for the day was provided by the choir.

At the Sunday school hour in the afternoon, a review exercise was conducted by the pastor and the superintendent, Dr. Lake. The superintendent, with his usual skill in black board crayon work, sketched a window looking out on a mountain scene, and a path, the way of the cross, leading up to a crown at the end of the way. Over each of the twelve panes, a square of paper was pinned, on which the subjects of the twelve lessons of the quarter were printed. As the pastor, by question and comment, reviewed each lesson, each paper was removed, revealing by degrees the scene beneath. After this came a brief programme of music and recitations by the primary department, and some choruses by the Sunday school choir, which, under the leadership of Dr. Lake, is showing a marked improvement. A solo, by Master Harold Singleton, eight years of age, is worthy of especial mention.

Were Out On A Cruise.

The yachts Kestrel and Tezpi, at the conclusion of Saturday's races, sailed down to Prospect park, near Clayton, N.Y., with a party of yacht club members on board. A very pleasant time was spent, the yachts returning to the city last evening. The sail up last evening before the fresh breeze was very much enjoyed.

Fall Of Drain Is Sufficient.

On examination it has been found that the drain from Victoria school is of the regulation level. The trouble resulted from the drain being choked up, but the congestion has now been relieved. The property committee of the board of education will to-night discuss the question of putting in manholes, and abandoning the idea of building a new drain.

A Canard.

The report circulated in the city that the smelter company would employ foreign laborers is a falsehood. They have not considered the labor they will employ, but they intend to engage Kingston men.

14TH AT CHURCH.

Sermon By Rev. G. L. Starr—Canadians Are Good Soldiers.

The 14th regiment had its annual church parade Sunday morning, attending service in Ontario hall, where Rev. G. L. Starr, chaplain of the regiment, preached an impressive sermon to the men. Before beginning his discourse Mr. Starr extended a hearty welcome to the regiment; it was the first time he had had the pleasure of meeting them since being gazetted their chaplain. He could enter into the spirit of a soldier's life, having advanced from the ranks to be major. He did not want to be chaplain in name only; he wanted to be of service to the corps and he wanted the men to make themselves known to him at all times. He also extended a welcome to the cadets of the Royal military college, who were present for the last time of the session.

Referring to Canada's place in the great British empire, Mr. Starr said that only one short year ago peace reigned throughout the empire, and the only enemy this country had were men who fought with their tongues. But the war trumpet sounded and Canadians responded to the call to arms. This country sent out 3,000 men but she was ready with 50,000 if they had been needed. Canada is indeed part of the great British empire, which God has so signally blessed. The Canadians all along knew that there flowed in the veins of our countrymen blood that could do something brilliant if the opportunity were afforded, and the conduct of the Canadians all through this war has fulfilled these expectations. The queen to-day for the first time realizes that she has worthy sons beneath northern skies.

The speaker mentioned the fact that June 24th was the anniversary of the battle of Beaverdam, when a handful of soldiers held at bay a whole army and saved the Niagara peninsula. Mr. Starr paid a glowing tribute to Laura Secord, the heroine who carried to the Canadian soldiers news of the plot of the Americans.

For his sermon Mr. Starr took as his subject the life of St. John the Baptist, taking up three characteristics of the great divine—self-discipline, courage and loyalty. These characteristics were worthy of emulation, and were requisite in a soldier, who must be loyal to his commanding officer, courageous to carry out his orders, and self-disciplined to act promptly and to have that health which is needed to make a good soldier. Christ should be their ideal leader, to whom they could say, "Lord, whither Thou goest, there shall I follow."

During the service Charles Harvey sang with fervor and feeling Kipling's Recessional.

After service the regiment was taken for a short street parade.

The hymn marches used by the brass band were arranged by bandmaster Trendell.

Fined $5 And Costs.

The chicken case in which James Stratford was charged with having cruelly treated a game fowl owned by W. H. Carson was completed at the police court this morning. Richard Savage gave expert evidence touching the putting on of steel spurs, injuries which natural and steel spurs could inflict, etc. Mrs. Stratford also gave evidence, showing that her son was alone at the time the incident occurred which caused all the trouble. Stratford was adjudged guilty and fined $5 and costs.

W. H. Carson, plaintiff, had the injured game cock in court, and wanted to give an exemplification of his ability to put on steel spurs unaided, but the magistrate did not care to see it. However, in the police station Mr. Carson, unaided, placed the spurs on the fowl in the presence of city solicitor McIntyre and press representatives.

Crops In Kingston District.

H. W. Richardson, of the firm of George Richardson & Sons, grain merchants, gives the following report of the present condition of the crops in this district: "The hay crop is very light but the quality is good. Unless there is immediate rain, it will be only about half a crop. There is little or no fall wheat sown, but what there is, is good. The same applies to rye. Spring wheat is looking well, the ground is well covered and if rain comes soon it will not be injured. Peas are looking very well. Oats are fairly good. Barley is good, but needs rain soon. Root crops are starting fairly well, but it is too early at present to predict concerning them. Fruits will not be numerous; strawberries are already a very small crop.

He Has Recovered.

Staff sergeant Bruce Carruthers wrote from near Kroonstadt, May 21st, that he was fully recovered from enteric fever and there is joy among his friends. The Canadian regiment was then only 400 strong, including the draft, and only forty out of the 125 of the latter are effective.

A VANCOUVER LADY

Cured of Asthma After 8 Years of Almost Constant Suffering—She Says The Absolute Freedom From the Disease Seems Like a Dream—Clarke's Kola Compound Cures.

Mrs. J. Wise, Mount Pleasant, Vancouver, B.C., writes: "I have been a great sufferer from bronchial asthma for the past eight years, many times having to sit up nearly all night. Through the advice of a friend who had been cured by Clarke's Kola Compound I resolved as a last resort to try it. The first bottle did not relieve me much, but before I had finished the third bottle the attacks ceased altogether, and during the past six months of damp and cold weather have not had a single attack. It seems something like a dream to be free from this worst of all diseases after so many years of suffering. I have since my recovery recommended this remedy to others suffering as I was, and know many others in this city whom it has cured. I consider it a marvellous remedy, and would urge any person suffering from this disease to try it."

A free sample bottle will be sent to any person who has asthma. Enclose 6c. stamps. Address The Griffiths and Macpherson Co., limited, 121 Church street, Toronto, Ont.

Clarke's Kola Compound should not be confounded with the other Kola preparations on the market, as this is altogether a different preparation, designated especially for the cure of asthma. Price $2 per bottle. Sold by J. B. McLeod, Kingston.

Business College Notes.

The teachers are kept busy conducting final examinations in order that students who have completed their courses may graduate this month.

The picnic which was to have been held to-day at Kingston Mills, has been postponed.

Gathering In Same Building.

New York, June 25.—The immense battery park building is gradually being occupied by large corporations, especially steel companies, and present indications point to this being the centre of the clerical forces of the steel industry of the country. The latest arrival is the American steel hoop company, which has removed its headquarters from Pittsburgh, and arrived here to-day via special train over the Baltimore and Ohio railroad. This company is closely allied with the American tin plate company, the National steel company, and the American sheet steel company, and, combined, they occupy the sixth to twelfth floors inclusive of what is probably the finest building in America. In constructing the building the offices were especially designed for these parties.

Had A Second Test.

Ottawa, June 22.—Sergt. Cotton, one of the five men on whom the emergency ration test was made at Kingston last year, surprised the emergency ration committee this afternoon by swearing that he had undergone a second test of one month with Dr. Devlin's food in February and March of this year, and that the food and its effects were exactly similar. He entirely upset all calculations based on the Kingston test by stating that during it he had taken his beer regularly, which would upset the calculations as to the value of protose based on that test. In the recent test he did not take any beer, and did not have any bad taste in his mouth in the mornings. He was positive that Devlin's food was identical with Hatch's.

Child Fatally Burned.

Almonte Gazette.

At Appleton last Friday evening Irene, three-year-old daughter of John H. Hueston, was attempting to start a smudge in the yard to keep away the mosquitoes, and in igniting the match set fire to her dress. Miss Peever, who lives opposite, hearing her scream, hurried across the street and managed to smother the flames with her skirt, but by this time the child's clothing was all burnt to ashes. Medical aid was immediately summoned, and in dressing her it was found that her limbs and back were badly burned and her hair singed. She suffered considerable pain until Sunday, when she became unconscious, and died.

Awarding Medals.

Montreal, June 25.—The university council has awarded the Alexander MacKenzie fellowships in political science to J. W. Mitchell and H. P. Biggar. The Glashan gold medal in mathematics goes to W. N. Tobey, and the Ottawa gold medal in physics to J. Patterson.

The Marvellous Record of Cures made by Dr. Pitcher's Backache Kidney Tablets in every section of the Country is always backed by home evidence. Kingston proof.

Mrs. William Hazlett, 147 Frontenac street, says: "I got Pitcher's Backache Kidney Tablets from J. B. McLeod, the Princess street druggist, for myself, but my husband was having so bad a back that he could get neither up nor down, and I had him take them.

"He is a boilermaker and his work is very hard on his back. That day he was worse than usual, every motion caused him extreme pain. Those attacks of lumbago hung on so long, but in this instance he was quickly relieved. He says that he never had any kidney medicine so prompt. Now I am going to use them myself. These Tablets not only remove the pain and stiffness from the back, but they regulate the kidneys as well. We think that there cannot anything surpass Dr. Pitcher's Backache Kidney Tablets for the kidneys."

Mrs. William McCutcheon, 151 Frontenac street, says: "I was very much pleased with the result of using Dr. Pitcher's Backache Kidney Tablets which I procured from J. B. McLeod, the druggist, on Princess street. Though I was not suffering from backache, yet I knew that my kidneys were out of order. The secretions were not normal. I had more or less languor and at times a feeling of lightness or slight dizziness. I began using Pitcher's Tablets and all traces of those difficulties disappeared. Having afforded me relief so quickly induces me to heartily recommend these Tablets."

If you have the slightest symptom of kidney or bladder trouble you can test this great medicine free. Arrangements have been made whereby every reader of this paper can obtain a trial package of Dr. Pitcher's Backache Kidney Tablets absolutely free by enclosing two cent stamp for postage to the Pitcher Tablet Co., Toronto, Ont. When giving address mention this paper.

If you are convinced Pitcher's Tablets are what you want you can purchase regular size for 50c. per bottle, if not obtainable at druggist's, mailed free of postage on receipt of price.
