THE 5 P. M. EDITION

Second Edition Matter Also On Page Five

COMMERCIAL MATTERS.

What is Going on in the Business World—The Market News.

During May Toronto imported 8494,279 of textiles, as against 8418,233 last year.

The Niagara Falls International bridge company has declared a semi-annual dividend of three per cent.

The Pennsylvania railroad company subscribed $15,000 to the pan-American exhibition at Buffalo, N.Y.

Large quantities of Swiss muslins, piques and kindred goods for hot weather wear are being sold at present.

Canadian cotton mills are very firm, and, having ample orders on hand to keep them busy, are firmly maintaining prices.

A cable from Smyrna reports a further advance of 4s to 6s in the price of Sultana raisins owing to continued damage to the crop.

At Orleans county, N.Y., fruit growers predict that apples will drop from the trees in large quantities before they are ready to be packed.

Large export houses engaged in the China trade report that the effect of the present outbreak is likely to be more severely felt in the China wool and cotton goods than was first anticipated.

During the past ten days flour has advanced 65c. per barrel. As sixty-five loaves of bread are made from a barrel of flour it means one cent a loaf increase, but so far bread has not advanced.

Advices from Sicily report a very strong margin for spot filberts. An offer of 57s was made and declined on a lot for prompt shipment, we understand. This is equivalent to the full spot price in New York.

A London cable said French wheat crop has improved rapidly under influence of warm, moist weather; the plant is growing and blooming. Weather in Germany seasonable and warm; crops benefited by showery weather.

Though the Manitoba wheat crop is practically a failure this year, the province, however, depends less now on wheat than formerly. Pork-packing industries, creameries and cheese factories, together with live stock raising, share the attention of the farmers.

Conditions In Ontario.

Conditions are at present very favorable to Ontario's leading industries, and if they continue an unusually active autumn's business may be expected. Ontario's great industry is prospering. Buyers are now paying 10c. per pound and better at country markets, a price that means good profits to producers. The embargo laid on Argentine cattle by the British government has been beneficial to our exporters, inasmuch as it has raised the price of live stock and meats of all kinds in England. The only drawback in the trade just now is the high freight rates, but at prevailing prices of cattle and freights good profits are being realized. Wheat, oats and barley are generally looking well. An abundant crop of wheat is promised. A large quantity of old wheat is still unmarketed. A large crop of new wheat, liberal holdings of old wheat, and high prices are conditions that favour the expectation of active country markets throughout Ontario this autumn. That relatively high prices will prevail seems assured, as the wheat crop in Minnesota, the Dakotas, Ohio, Michigan, Illinois, and Indiana are very poor. The Manitoba crop will also be a short one. Ontario will also have a large cut of lumber, which will be sold at prices materially above the average. The cut would have been larger had the freshets been sufficient in some sections to bring down the logs. As it is, however, the lumber industry will be more active this year than usual.—Toronto Mail.

Drowned At Buffalo.

A telegram from Buffalo late Saturday night announced the accidental drowning of Charles Knapper, first engineer of the steamer Glengarry. It appears that late Saturday night Capt. Kane and Charles Knapper were going aboard the steamer by means of a plank stretched from the wharf to the rail, when the plank broke, precipitating them into the water. Though assistance was at once rendered and the men pulled from the water, death had resulted in the case of Knapper. The unfortunate man was aged thirty-five years. He was in the employment of the M. T. company four years. It was his first season as first engineer of the Glengarry. For a number of years he conducted a stage here between Kingston and Newboro. He is not known to have any relatives here, though it is thought his father is alive somewhere in England. The deceased was a popular young man, having many friends here. He was a member of Kingston lodge, No. 59, I.O.O.F., which order conducted the funeral. The remains arrived here at noon on the steamer America from Cape Vincent.

A Burglar At Work.

Between four and five o'clock this morning a young man broke into the confectionary store of R. H. Toye, but as far as can be learned he did not secure anything. He made two visits to the place, as Mrs. Town and daughter, residing over the store, heard him on the occasion of his first visit, and saw him upon the occasion of the second. He made his presence known by attempting to open the cash drawer, to which is attached a combination lock and bell. His efforts to get into the drawer were unavailing. Entrance to the premises was made by breaking a window in the rear of the store.

High Temperature.

The temperature to-day was the highest so far this season. The thermometer registered eighty-five degrees in the shade. There was a tired look upon the dial of everybody.

The cures of rheumatism and Dyspepsia effected during the last hundred years by the baths and waters of the Magi Caledonia Springs have given them a world wide repute.

MAY CALL ADMIRAL DEWEY

THANKS GOD FOR THE AID OF RUSSIANS.

The Bombardment of Tien Tsin Caused Fire That Destroyed the Native City—Decree of the Governor of Shan Tung Province.

Washington, June 25.—Admiral Dewey may go to China. There is reason to believe the situation in the far east may result in war between the powers in which the government might become involved. Dewey would be the first to apply for sea service.

In speaking yesterday of the ambuscade near Taku, in which four American marines were killed, Admiral Dewey said: "I am sorry to hear that some of our men have been killed. But I can understand how it occurred. While I have never gone from Taku to Tien Tsin it has been reported to me that the road is a very narrow one, flanked on both sides by paddy fields and swamps. Barricaded and defended it is the kind of a road that can be held by a small force, and there is no means for an enemy to flank them. For some reason the gun boat Nashville does not appear to have gone up the Pwi-Ho. The boat can proceed as far as Tien Tsin and I notice that she has crossed the bar at Taku. The failure of the gun boat to enter the river may be that the channel is filled up. The Chinese do not dredge you know. In fact the desire that the channel be blocked to prevent foreigners from entering."

Fired The Native City.

New York, June 25.—The Chinese bombardment of Tien Tsin set fire to the mission buildings, says the Chefoo correspondent of the Journal and Advertiser. It spread to the native city and destroyed everything. The attacking force, well supplied with modern artillery, has been pressing the small allied force very hard. Already the dead number 160. Relief is being rushed from Taku, but the column will have to fight their way through the big Chinese army.

The British store ship Humber arrived at Chefoo, bringing thirty refugees from Tong Shan, including Kinder and Parson and Mrs. Parson.

Peita To, the great watering plain of Northern China, where 200 prominent foreigners had their summer residences, has been abandoned.

The governor of Shan Tung province, in which Chefoo is situated, after conferring with his subordinate mandarins decided not to join the rebels and issued a proclamation decreeing that all Europeans and Americans should be protected.

Admiral Kempff, held a conference Sunday at the American consulate with consul Fowler, and the captains of the Nashville and the Yorktown. The local governor of Chefoo was present and promised to subdue the uprising here against the foreigners, and gave other assurances which seemed all right on the surface. The Too-tai expressed confidence in the good will of the American government toward China and said the feeling was reciprocated.

Capt. Edward Bayley, of the British armoured cruiser at Taku, signalled the American captains yesterday: "Thank God the Russians were here, otherwise we would all have been murdered."

Why Taku Was Seized.

London, June 25.—The admiralty have received the following despatch from rear admiral Bruce dated Taku, via Chefoo, June 24: "The total force which left Tien Tsin with the commander in-chief for Pekin was about 2,000, composed of detachments from the allied ships. No action could possibly be taken to relieve the commander in-chief, because it was only known that he was cut off by Tien Tsin being invested.

Tien Tsin has been fighting for its life ever since. It was on receipt of information that the Chinese army had ordered trains for attacking Tien Tsin, that they were ravaging Tong Ku and reinforcing Taku, as well as mining the mouth of the Pei He, that it was promptly determined to seize Taku. Since then every effort has been made to relieve Tien Tsin. I have commandeered a small coasting steamer for taking troops and sick and wounded across the bay to Wei Hai Wei, where I intend making a temporary base hospital and asylum for refugees."

Students in Danger.

San Francisco, June 2.—Prof. John C. Branner, head of the geological department of the Stanford university, is greatly worried over the danger of several Stanford alumni who are near Tien Tsin. Herbert C. Hoover and Noah Drake, with Mrs. Hoover, were near Tien Tsin, where the Boxer outbreak occurred. Nothing has been heard from them for over a month. At last accounts Mrs. Hoover was in Tien Tsin, but Hoover and Drake were engaged by an English mining syndicate 100 miles in the interior.

War Notes.

All foreigners in Pekin were safe last Tuesday and were preparing to leave.

Lord Salisbury is still hopeful that the Chinese crisis will be solved without war against that country as a whole.

The czar considers it necessary to raise the troops in the Amur railway district to a war footing, and has directed the war minister to take the requisite measures.

"Colt" Metcalfe Writes.

"Colt" Metcalfe writes from Kroonstadt, Orange Free State, under date of May 13th. Since leaving Bloemfontein the mounted division under Gen. Hutton had five engagements. They were having a hard time, sleeping in the cold, with only one blanket each. Kroonstadt was under martial law, and nothing could be commandeered. His escapes from bullets were miraculous. They whizzed all around, but the "Colt" is likely under divine protection. The bullets are mostly dipped in poison. Nearly half of "A" squadron, Canadian mounted infantry were sick at the time of writing. The writer gets up most nights and walks around to keep warm. The days are warm, but the nights extremely cold. The division of Gen. Hutton comprises 5,000 in all.

Wanted to Enter a Suit.

An Assyrian wanted to lay information at police headquarters this morning against a fellow countryman, charging him with assault, but the complainant, whose face was terribly cut, did not have the necessary money.

SHE INSPIRED REBELLION.

Aged Queen Personally Leading Ashanti Hunters.

London, June 25.—A despatch to the Express from Prahsu, says:

"The brain and inspiration of the Ashanti rebellion is the aged queen of Ofesu. Although old, she is full of physical energy, she carries a gun herself, and personally leads 1,000 picked hunters.

"Her personal confederate is the old, blind, crafty king of the Adansis.

"Cobina Foli, heir to the Adansis, is a prisoner of the British. He professes loyalty. The revolt, he says, has been simmering for a year. All the tribes except the Bekwais, according to his account object to paying British taxes. He says the golden stool is made of wood, covered with thin gold plates."

Flower Sunday.

Yesterday was flower Sunday in Brock street Methodist church, and very appropriately was the day observed. Rev. G. Edwards, Prescott, a former pastor of the church, preached to the children in the morning and to adults in the evening. His sermons were greatly appreciated. In the afternoon the children entertained the parents and strangers from 3 to 4 p.m., with songs and recitations appropriate to the occasion. The church was well filled and beautifully decorated with flowers and evergreens. Ten arches spanned the aisles, while the choir gallery was artistically decorated with ropes of flowers and evergreens, having in the centre a bell. The pulpit and altar were completely buried beneath a bank of plants and flowers. The music was excellent, the choir rendering good service, while the children sang very spiritedly. Great credit for the success of the day is due to Miss Maude Asselstine and Miss Tena Hoppins, for the decoration of the church and the training of the scholars. The report of the Sunday school was read, showing a decided increase in all branches of the work.

Marine Notes.

Arrivals at Craig's wharf since Saturday: Steamers Argyle and Ocean from Toronto; schooner Collier from Oswego with coal.

The schooner Fabiola, from Charlotte, with coal, arrived at Swift's wharf.

The schooner Lydon cleared for Oswego.

The steamer Spartan arrived from Montreal on Saturday afternoon on her first trip of the season.

The steamer America resumed her Cape Vincent route this afternoon, and the steamer New Island Wanderer left for Clayton.

The new steamer Unique started on Sunday on her trips between Ogdensburg and Clayton. She runs eighteen miles an hour, and will give the steamer Toronto a tussle. Her length is 165 feet and her width only twenty feet.

The steamer Rideau Queen left this morning on her trip to Ottawa, but got stuck below Belle's Island. The tug Shanley pulled her off, and the Queen proceeded on her trip.

The Company Responsible.

D. D. Rogers, M. P., upon hearing of the decision of the railway committee of the house of commons, to the effect that the county should pay half the expense of maintaining a flagman at the Cataraqui crossing of the G. T. R., at once went to the minister of railways and canals and protested against such a measure; he held that the company should alone bear the expense. Evidently the minister thought so, too, as the matter was referred back to the committee. Thursday last Mr. Rogers again appeared before the committee and presented data bearing out his contention, that in other places similarly affected the expense of maintaining a flagman was borne alone by the company. The committee and the minister have assured Mr. Rogers that either the company must maintain a flagman at the point complained of, or erect an approved electric bell and keep it in operation and good repair.

They Attracted Attention.

The Clayton correspondent of the Syracuse Post-Standard says: "Four officers of the Canadian militia, of Kingston, arrived here this morning and took the ramble among the islands on the St. Lawrence this afternoon. They were unusually large men and being dressed in full uniform attracted considerable attention by their striking military appearance. They were Capt. Campbell, Capt. Boggs, Lieut. Field and Lieut. McCallin. There are 5,000 troops stationed in the Kingston fortifications."

Pumping Out A Gulley.

Capt. John Donnelly, of the Donnelly wrecking and salvage company, returned this morning from Cascade Point, Soulanges canal, where he has been engaged for the past two months with the company's outfit in pumping out a gulley on the south side of the canal, the water from which was overflowing on the farmers' lands. The work has been completed.

No Great Outlay.

The small taxpayer, or the large one either, will not be loaded down by the proposed smelter taxes. Against the $1,000 per year bonus will come back $1,600 in school taxes, besides the taxes of the officers of the company. The margin, between expenditure and receipts will be so narrow it will never be noticed.

To Go To China.

Cadet Hamilton, son of bishop Hamilton, Ottawa, has received a commission in the Royal artillery, and will leave soon for China. He has been attached to "A" battery in camp at Deseronto, and was in the city last night on his way home.

Had A Collision.

Two wheelmen, "Billy" Nesbit and Fletcher Spence, collided on Saturday night on Princess street, near the Bagot street switch. Spence, who took the left hand side instead of the right, had his wheel smashed very badly.

See the realistic pictures of the British Boer war, Lake Ontario park, June 27th to 30th. The 14th battalion full band in attendance. Admission 10c., 8 to 10 p.m.

A committee of street railway employes waited upon manager Nickle yesterday with reference to shorter hours, but in the absence of B. W. Folger nothing was done.

The Grand Trunk imperial limited going east at noon to-day covered the distance between Kingston and Gananoque—eighteen miles—in fifteen minutes.

GOOD THING FOR CANADA.

WAR HAS INTRODUCED OUR HORSES TO BRITAIN.

Major Dent's Visit Likely to Result in Remount Stations Being Formed Here.

Montreal, June 25.—The direct financial benefit which is being derived by the provinces of Quebec and Ontario from the war in South Africa is shown by the fact that the Telfer & Climie company, of St. Sacrament and Inspector streets, sold to the British army no less than 1,028 horses, which approximate in value from $120,000 to $125,000.

George Climie, the manager of the company, says that a very large proportion of these horses came from the neighborhood of Montreal—Sherbrooke, Cowansville and Granby. These are mostly small cobs from fourteen and a-half to fifteen and a-half hands high.

Major Dent, of the British army, who is here, says he has so far purchased over 2,000 horses.

The horses have all been bred and raised on farms and taught to work, and are peculiarly fitted to the work for which they are intended. The method adopted by major Dent was entirely different from any of his predecessors who had gone around the country. He went directly to the dealers who knew the business, and where the horses could be procured, with the result that he has been phenomenally successful in securing nearly 2,000 so far, most of which have been shipped. Major Dent advances the opinion that the government should purchase suitable stallions, and by giving bonuses to the farmers, encourage the purchase of the proper animals to mate with them so that a breed of horses suitable for the British army would result. His idea as to the proper kind of a stallion would be a thoroughbred of the proper conformation, not necessarily a race horse, and he would restrict the breeding to mares of the better class. The stallions should be distributed under government supervision and then the imperial government would undoubtedly establish a remount supply depot, where an unfailing supply of remounts could be obtained. That major Dent has done a great service to the country, not only financially, but has been the means of introducing Canada as a field in a most practical manner from which remounts can be supplied, there is no doubt.

Two Volunteers In Canada.

Quebec, June 25.—Among passengers on the steamship Tunisian were two members of the first contingent to South Africa, Pte. Craig, Windsor, Ont., and Pte. Johnson, St. John, N.B. Both were wounded at the battle of Paardeburg, and were sent shortly after to Woolwich hospital. Pte. Craig still suffers from his injuries and walks with the aid of a stick.

Funeral This Morning.

The funeral of the late Capt. W. H. Oliver took place this morning from his father's residence, corner of Gordon and King streets, to Cataraqui cemetery. Service was conducted at the house by Rev. A. W. Richardson. The family are receiving sincere sympathy in their sad bereavement.

The Prospects Bright.

If the pledges of the smelter people are realized Kingston will begin to boom. That is the opinion of every person who has had experience with iron industries. The company has the capital, the engineering talent, and the enthusiasm. The prospects, therefore are bright.

Here On A Visit.

Rev. W. Higgs and wife, of Frankford, returned home to-day after spending a week in the city on their bridal tour. They were accompanied to the city by another newly married couple, Mr. and Mrs. J. T. Wilson, of Trenton, who returned home on Saturday.

A Distinguished Visitor.

W. T. O'Neill, captain of the famous Cornwall lacrosse team, is in the city visiting friends. His team played in Toronto on Saturday, and he holds out great hopes of the Cornwall team doing something really fine this year.

British "Boer" War.

See the great "Wargraph" at Lake Ontario park, 27th to 30th, accompanied by the famous 14th battalion band in patriotic concert. Music 8 to 10 p.m. Admission 10c.

British "Boer" War.

See the great "Wargraph" at Lake Ontario park, 27th to 30th, accompanied by the famous 14th battalion band in patriotic concert. Music 8 to 10 p.m. Admission 10c.

"D" Battery Is At De Aar.

A cable received at Ottawa by his family from Mannor Hardman announced the fact that "D" battery, second Canadian contingent, was at De Aar.

Was Well Attended.

The picnic conducted at Long Island park on Saturday afternoon was well attended. The valiscmen defeated the trunknen at baseball by 10 to 16.

"Chaucer" Elliott and his understudy, "Bike" Young, played ball for the Oshawa team Saturday against Lindsay, Oshawa winning by a score of one to nothing. It was the first time this year that Lindsay suffered defeat.

Dr. R. T. Walkem, Q.C., is in Cornwall in connection with the suit of the Ottawa and New York railway company vs. the Collins Bay mining and forwarding company.

See the realistic pictures of the British Boer war, Lake Ontario park, June 27th to 30th. The 14th battalion full band in attendance. Admission 10c., 8 to 10 p.m.

One Princess street hotel had as its guests on Friday and Saturday three married couples. They are beginning to reach the city by the scores.

A bicyclist scorching down Barrie street Sunday afternoon struck a rut and received severe injuries as well as breaking his wheel.

General manager Hays and other officials of the Grand Trunk railroad passed through the city this afternoon going west.

The funeral of the late Charles Knapper will take place from Cataraqui lodge room, I.O.O.F., Tuesday afternoon.

The wholesale grocers met this afternoon to discuss trade matters.

Miss Eva Booth is the guest of alderman C. J. Graham.
