IS INDIA DISAFFECTED?

Rev. Mr. Wilkie Startles His Toronto Hearers.

Toronto, July 3.—Rev. Mr. Wilkie, head of the Canadian Presbyterian college work in India, startled his hearers in College street church Sunday night by declaring very earnestly that beneath the surface in India there is a movement going on much akin to that of the Boxers in China, a very strong feeling is developing against foreigners and he would not be surprised at the outbreak of another mutiny similar to that which devastated India in 1857.

The leaders in the agitation were the native priests, as in the anti-christian outbreak in China, and already in some parts of India the christians were arranging shelters and laying in supplies and arms and ammunition to defend themselves against the machinations of the priests. The destruction of the caste system, as a result of christian teaching, was one of the things most deeply resented.

BRAVE JOHNNY CANUCK.

R. Jamieson, Perth.

When Johnny Canuck comes home from the war,
All covered with glory, with many a scar,
We'll give him a welcome—glad welcome we'll give—
We'll sing his brave deeds as long as we live.

When Johnny Canuck comes home from the war,
With the din of the battle still loud in his ear,
We'll twine him in a wreath of laurels and gold,
To shine on his brow so dauntless and bold.

When Johnny Canuck comes home from the war,
From Africa's fields of battle and fame,
We'll place a bright star upon his brave breast—
We'll honor our hero with banner and crest.

When Johnny Canuck comes home from the war,
With victory crowned on many a field,
We'll gather bright flowers to strew in his way—
We'll garland his steed in richest array.

Bold Johnny Canuck, brave Johnny Canuck!
The first in our hearts, the first in the war—
Miss Canada's welcome to you will be grand
When you come from the war—the war in the rand.

The name you have made, the deeds you have done,
The battles you've fought, the fields you have won,
With lustre shall shine on history's page,
Untarnished by time, illumined by age.

Baseball At Barriefield.

The Artillery baseball team played a game with a picked team from Barriefield yesterday morning. The score was twenty-five to twenty-four in favor of the Artillery team. Stansbury and Cooper were the battery for the last mentioned, and Harris and Cooper for the Barriefields. W. Mullins, of this city, umpired the match, which was very interesting.

There Was Small Damage.

A small blaze occurred Sunday morning in the dwelling of John Guiry, Montreal street, above F. Walsh's tailor shop. The fire was confined to the kitchen and did not do much damage. The flames were extinguished by the firemen.

IS INTENSE ANXIETY.

Are To The Foreigners Now In Pekin.

NO FORCE LIKELY THERE.

THE MINISTERS TO TRUST TO OWN RESOURCES.

British Legation is Likely The Rallying Point—Grave Fears Expressed — Germany Is To Avenge the Death of Her Minister.

London, July 3.—Dr. Debergen's eloquence "to hasten" in his letter to Col. Zimmerman at Tien Tsin, has intensified the anxiety concerning the foreigners in Pekin, throughout Europe, and whatever hope had been based on the reports that the Russian, or combined relief force, was approaching or had arrived at the Chinese capital seems to be crushed by Mr. Broderick's announcement in the house of commons that admiral Bruce thought it was not yet possible for the allied force to attempt a further advance. It is remarked here that even if the foreign force of 13,500 men, landed at Taku, were homogenous, it would be practically powerless to act while its composite character and the failure to choose a leader greatly impair its efficiency. It is accordingly recognized that the members of the legations, if they still survive, must, for the present, trust to their own resources. It is recalled that during the Chinese-Japanese war a plan of defence against possible attack was concerted by the foreign representatives in Pekin, and it is suggested that this plan, with the British legation as the rallying point, is now being followed. The hope that it may succeed, however, is qualified by the gravest fears.

Germany's action is watched here with the keenest interest. The English correspondents concur in declaring that her policy at present is based on loyalty to the concert of powers and that she is refraining from a separate declaration of war, notwithstanding such a serious outrage as the murder of her minister. The emperor's decision to immediately mobilize and despatch to China, the first naval division is nevertheless taken to indicate that Germany, is prepared to assume the heaviest responsibilities. It is noteworthy that notwithstanding the apparently irrifragible proof of assassination of baron Von Kettler and the wounding of Dr. Cordes, the interpreter of the German legation, many Germans still doubt the truth of the statement. They contend that all the reports are inspired from the same source and especially remark upon the absence of any reference to the murder in Dr. Debergen's message.

The situation at Tien Tsin is not clear. Admiral Rendomann's statement that it is most serious and admiral Kempff's despatch reporting that fighting is proceeding has awakened anxiety. There is an unconfirmed Shanghai rumor that all the provinces south of Hiang-He, whose governors and viceroys maintain friendly relations with the consuls have been informally constituted into a confederacy with Nankin as the capital. The confederacy repudiates the authority of Pekin and agrees to oppose prince Tuan, whose reported usurpation of imperial authority gains credence.

Attacking the Legations.

Berlin, July 3.—In a despatch dated Taku, July 3rd, admiral Rendemann, commanding the German squadron in Chinese waters, says: "I have received a letter from the German legation in Pekin, stating that the legation is besieged, supplies are running short, and the position of affairs is desperate. I learn from the bearer of the letter that on June 16th the German minister while proceeding from the legation to the Chinese government buildings without a military escort was attacked by Chinese troops and wounded in four places. He died in the government buildings. His interpreter was also wounded, but escaped to the legation. On June 25th German, French and British legations were alone destroyed. They were, at the time, unoccupied by troops, the commander of foreign guards and foreigners being in the British legation. The Chinese quarter of Pekin has been burned down. About 30,000 Chinese troops are outside the city. The empress dowager has fled from the capital. The situation is most serious, as large bodies of Chinese troops are reported to be marching on Tien Tsin."

Had No Pretext.

Rome, July 3.—In the chamber of deputies yesterday the marquis Venosta, minister of foreign affairs, announced that Italy had participated with the other powers from the beginning of the crisis in China in the negotiations and subsequent operations. He said accord among the powers had existed throughout. The nearest powers acted first; they did so in common interest. Italy would soon have six or seven warships in Chinese waters and other measures would be taken to meet any emergency, but she had no selfish aims and sought no pretext for a policy for the occupation of Chinese territory.

To Rescue The Ministers.

Tien Tsin, June 29, via Che Foo, July 1st, and Shanghai, July 3.—A courier from Sir Robert Hart, inspector at Pekin, has just arrived. He left Pekin on Monday, June 25th, and reports the situation desperate. He reports that baron Von Kettler, German minister, and his secretary, attempted to visit the Tsung-li-Yamen. The minister was shot four times and died at the rooms of the Tsung-Li-Yamen. His secretary succeeded in making his escape. All the legations except the British, German and Italian have been destroyed. The diplomats and missionaries are in the British legation under rifle fire. Cannons command the legations, but they are not being used.

It is impossible to start relief to Pekin at present. Capt. McCall, a commander of the United States cruiser Newark, estimates that fifty thousand soldiers will be required for the rescue of the ministers.

Election Day Amendments.

Ottawa, July 2.—The house celebrated dominion day to-day with ten hours' solid work and no sky-rockets. The election bill and railway estimates are not conductive to oratory, and it was these somewhat dry subjects that were discussed until one o'clock in the morning.

RACES AT NAPANEE.

Were Successful on Monday—Very Quietly Married.

Napanee, July 3.—The driving park association scored another success in their race meet yesterday afternoon, which was the most successful in the history of the association. The weather was all that could be desired. The crowd was a most orderly one, and nothing occurred to mar the pleasure of the day. The following is summary of the various events:

Prof. Sutherland, with his string of trained horses gave some very clever exhibitions between the races, which were most clever and delighted all who witnessed them. Large excursions came in by boat from Belleville and Picton, as well as by Bay of Quinte railway. The Picton band enlivened the afternoon by choice selections of music. It has been some time since the town held such a crowd as was present yesterday afternoon.

On Saturday Harry Haynes died at the residence of Reuben Herrington, Belleville Road, aged thirty-five years. The deceased had been ill about three months with consumption. A wife, but no family, are left. The funeral takes place to-day.

Mr. and Mrs. W. H. Davis, Picton, spent yesterday in town, the guests of Mrs. Davis' parents, Mr. and Mrs. W. Vanalstine, Palace road. Herbert Ashley, Picton, also spent the day visiting his parents, Mr. and Mrs. Dr. Ashley, Piety Hill, and numerous friends. Frank Thomas, Picton, came over to see his old friends.

Ernest Ball and W. J. Taylor, Montreal, spent Sunday and Monday at their homes here. Robert Henry, Toronto, is spending a couple of weeks with his many old friends in Napanee. Wilbur Alcombrack returned on Saturday from Manitoba whither he went a couple of weeks ago with a car load of horses for F. A. Thompson.

Thomas Burley has returned from a couple of months' stay in the mining districts of New Ontario.

Napanee is becoming noted for matrimonial surprises. On Saturday morning Miss Minnie Greave, daughter of George Greave, was wedded to the man of her choice, Edward Huff, only son of Wesley Huff, Napanee. The friends of the contracting parties were astounde at the fates, so quiet and still were the plans laid and carried out. Miss Sarah Allen accompanied the bride and acted as bridesmaid, and H. A. Fish, Belleville, performed a like service for the groom. After the wedding ceremony, which was performed by Rev. T. J. Thompson, in John Street Presbyterian church, the happy couple went west for a honeymoon in Toronto, Niagara Falls and Buffalo. They will reside in Campbellford, where the groom has a thriving tailoring business.

SHE LEFT MILLIONS.

Will of the Late Mrs. Schley Fyled For Probate.

New York, July 3.—An estate variously estimated in the millions is disposed of by the terms of the will of the late Emma A. Schley, which was fyled for probate in the surrogate's office Saturday. Mrs. Schley died a few weeks ago. She was related to the late governor Roswell P. Flower and lived at No. 601 Fifth avenue.

The late governor Flower and Allen C. Beach, of Watertown, were named as trustees of a large trust fund created under the will. Governor Flower also was given $200,000. Under the will Mrs Schley's late residence and the income of a trust fund of $1,000,000 are bequeathed to Mrs. Emma C. Halsey, a daughter of the testatrix. Upon the death of Mrs. Halsey the fund is to be divided among the next of kin of the testatrix.

To her sister Mrs. Roswell P. Flower, Mrs. Schley leaves $200,000; Lois P. Cooper, of Watertown, another sister, receives $500,000. To her brother, Horace W. Woodruff, the testatrix leaves $25,000, and to her niece, Alden E. Van Brunt, she gives $50,000. Mrs. Mary Kenyon gets $50,000; Frederick S. Flower, $50,000; George W. Flower, May S. Robbins and Anson F. Robbins, $5,000 each. To the sisters and brothers of her husband, the late William Schley, Mrs. Schley leaves $100,000 to be divided equally among them.

Among the charities mentioned by Mrs. Schley is a bequest of $50,000 to the Watertown cemetery; $10,000 to the New York medical college for women and $6,000 to the Universalist church of Watertown.

There were a great many picnickers at Kingston Mills on Monday.

COLLARED BIG CHIEFS

Luyman And Botha Caught At Litchenburg.

ENEMY FOUND IN STRENGTH

FEW CASUALTIES IN RUNNING AGAINST THEM.

Pretoria the Proper Place For the Capital of the African Confederacy.—Death of a Canadian and Dangerous Illness of Another.

London, July 3.—It is reported from Zeerust that Gen. Snyman, the besieger of Mafeking, and commandant Botha and the whole Marco commando have been captured near Litchenburg.

The war office has received the following despatch from Gen. Buller:

"Standerton, July 1.—Gen. Talbot Coke, with the 10th brigade, reconnoitered, June 29th, towards Amesfoort, Transvaal, and found 2,000 of the enemy there with guns in a strong position. Having shelled them he retired and was not followed up. His casualties were two killed and six wounded.

The war office issues a list of twenty-six deaths from disease in South Africa, including Corpl. R. Irvine, Canadian infantry, at Bloemfontein. Corpl. J. M. Gaskin, Canadian artillery, is dangerously ill at Kimberley.

Corpl. Irvine, was a member of "D" company, first contingent. He joined as a private, but later was promoted to the rank of corporal. He formerly was a member of the 19th St. Catharines battalion.

Favors Pretoria.

Cape Town, July 3.—The Times prints an article condemning the proposed removal of the Transvaal seat of government from Pretoria to Johannesburg. It says Pretoria is eminently situated by its wonderful water, its healthy situation and its perfect system of communication with the provinces for the location of public buildings. On the other hand Johannesburg is absolutely unsuitable for military headquarters. The removal of the capital would ruin Pretoria and create dissatisfaction, while at the same time outraging the sentiment of all the Transvaal burghers.

Defending The Administration.

Pretoria, Thursday, (delayed)—I have just seen lord Roberts with regard to Burdett Coutts' charges against the administration of the hospitals. The field marshal states that everything possible has been done to alleviate the sufferings of the sick and wounded. He, himself, personally visited the hospitals repeatedly in order to assure himself that patients were made comfortable and had the utmost attention. He says he believes the treatment of the sick and wounded throughout compare favorably with that witnessed in any campaign of recent wars.

I had a long conversation on the subject with lord Roberts, but the affair can well be summed up in the interview which I previously had with Dr. Conan Doyle.

The result of the interview with Dr. Doyle read to lord Roberts, and accepted and approved thereof, is as follows:

"The medical arrangements of the hospital at Bloemfontein were certainly very severely tried. The reason was that the outbreak of enteric fever was exceedingly violent. All the sick of lord Roberts' force were concentrated in one town at the same time. Under the circumstances of the unprecedented pressure of sickness and its limited means the medical departments did very well; possibly Mr. Burdett Coutts saw some overworked field hospital at Kroonstadt or Bloemfontein. As to jolting waggons that is not peculiar to South Africa. There are no other means by which to move the wounded and sick, as a rule, but war campaigning, it should never be forgotten, must necessarily entail painful scenes of suffering."

Rounding Them Up.

London, July 3.—An important step in the attempt to round up the Boer commandoes still active in the Orange River Colony is recorded by lord Roberts to-day. He reports from Pretoria that Gen. Hunter has crossed the Vaal river from the Transvaal into the Orange Colony and should have reached Frankford, twenty miles south of the river, yesterday (Monday). Here he was expected to be joined by Macdonald's brigade from Heilbron. Gen. Roberts further reports that Gen. Buller's leading brigade has gone to Graylingsdad, in the Transvaal, on a direct line north from Frankford. Buller's move is part of the scheme to lighten the lines about the Boers.

Nicholas Probably a Loser.

London, July 3.—According to Truth, the czar has issued a ukase positively prohibiting baccarrat playing within his dominions, even in private houses, under pain of a heavy fine, and, on a second conviction a prolonged term of imprisonment. Consternation reigns at St. Petersburg, but the British aristocrats contemplating visiting Russia are not much concerned, for it has been quite supplanted in England by the game of "bridge," knowledge of which is now almost as essential in society for men and women as evening clothes.

Died at 102 Years.

Parritt's Rapids, July 3.—One of the oldest residents of Canada has passed away here. The deceased, Mrs. Samuel Percival, had attained the advanced age of 102. She was formerly a resident of North Augusta and has a wide circle of friends in this part of the country. Mrs. Percival was born in Ireland on November 5th, 1798. She was ill but a few days during her life, and attended to her household duties up till a short time ago. Death was due to the infirmities cotumon to old age.

The schooner Alexandria called at Craig's wharf last ni

CRUSHED HIS LIFE OUT.

Drowned in the River—His Son is in England.

Montreal, July 3.—William R. Samuel, of the firm of Thomas Samuel, manufacturers' agents, went to the warehouse of the firm yesterday and did not return home, whereupon search was made without avail until this morning, when his body was found crushed between one of the doors of the goods' hoist and wall. He was on the third flat, and when the door of the floor arose it seems to have caught him and crushed his life out. He was thirty-seven years of age.

Brother Joseph, of the brotherhood of christian instruction, of Laprairie, was drowned in the St. Lawrence yesterday near Caughnawaga, while bathing.

Governor Vallee, of the Montreal jail received a cable from London, to-day, announcing the arrival there of Corpl. Lucien Vallee, his son, of the first Canadian contingent.

Fred. Adams, aged sixteen, was drowned yesterday afternoon at Bois Blanc Island, where he had gone from Windsor, with a Presbyterian church excursion. Young Adams was a son of William H. Adams, of this city. He was taken with a cramp while bathing and disappeared before assistance could reach him. The body was recovered last night.

RAPID MAIL SERVICE.

Sub-Divisions Were Served as Soon as Train Arrived.

Toronto, Ont., July 3.—A remarkable experiment in rapid mail service was conducted on the Montreal-Toronto express last night which resulted in the delivery of the eastern mail in the city this morning several hours ahead of the usual time. Under the superintendence of a Toronto sorter the letters were sorted out on the way up in such a way that each sub-division and delivery district had its own letters tied up in a package. When the train came into the Union station the letters instead of being taken to the general post-office to be sorted, were put on an automobile and sent direct to the sub-division. Parkdale got its letters in eleven minutes after the train arrived and delivery at once commenced. The experiment was successful beyond anticipation.

BRYAN'S ULTIMATUM.

Silver Must Be Endorsed Or He'll Not Run.

Kansas City, Mo., July 3. — "Bryan will not run on any platform which does not contain a specific declaration in favor of free coinage at the ratio of sixteen to one. If this convention does not put this declaration in the platform it will have to nominate another candidate for the post." This statement was made by judge Tibbetts, Lincoln, Neb., delegate-at-large from Mr. Bryan's own state, and chairman of the state delegation to the convention.

Married In Belleville.

Belleville, Ont., July 3.—W. J. Thompson, local agent for the Standard life assurance company, was married this morning. The bride is Murial May, daughter of William Hamilton, local manager of the Merchants bank. The ceremony, performed by Rev. M. W. MacLean, pastor of St. Andrew's church, took place at the residence of the bride's parents, in the presence of a few friends.

Travelled Thirty-five Miles.

Friedrichshafen, July 3.—After unsuccessful experiments here yesterday count Zepplin's much described air-ship ascended this evening and travelled safely to Immestadt, a distance of thirty-five miles, carrying the inventor and four others. No details of the trip have yet been received, and it is unknown whether it justified the inventor's claims that his air-ship can be steered.

Great Sum Subscribed.

New York, July 3.—Over one-third of the $20,000,000 called for by the bishops of the Methodist Episcopal church as a twentieth century thank offering has been raised already. It is proposed to obtain the entire amount this year and next. Syracuse university has raised $250,000 or more and will probably make it a half million.

Rear-Admiral Philip Dead.

New York, July 3.—Rear-admiral John W. Philip died at the navy yard, Saturday afternoon, of heart disease. It was commader Philip who said, when the Texas had finished the destruction of the Vizcaya: "Don't cheer, boys, the poor devils are dying."

He Will Not Accept.

Toronto, July 3.—News has been received from London, that Rev. Dr. Johnston, of St. Andrew's church, there has decided to decline the call to Knox church in this city. It had confidently been expected that Mr. Johnston would accept the call.

The Body Found.

Ottawa, July 3.—This forenoon the body of Thomas Barret, laborer, from Hamilton, drowned in Ottawa river, was found in a slide at the Chaudiere.
