Paint your Buildings

once in three years with Ramsay's Paints and you have as good looking and far better preserved erections than if you painted them every year with ordinary common paints.

RAMSAY'S PAINTS

are unapproachable for durability and retention of original color. Sun, rain and frost have little effect on them. They do not crack, scale or chalk off—they only wear gradually and no other paints are so slow in doing so. They leave no sediment and therefore no waste. Mixed ready for use.

BOTHA AND DEWET ACTIVE.

Dr. Conan Doyle Defends Hospital Arrangements.

London, July 3.—Gen. Botha is showing increased activity. His patrols cover wide stretches of country, approach near the British outposts, and engage in skirmishes, while larger bodies threaten to attack, declining to allow themselves to be caught by the return blows which the British promptly seek to deliver.

Gens. Botha and Dewet are seemingly operating in combination. Botha is reported to have divided his force into two parts, one moving west and other to the south to try and effect a juncture with Dewet.

Boer circulars are out exaggerating the Chinese troubles, and urging the burghers to rejoin the army.

Lord Roberts and several co-operating columns are still within striking distance of Dewet.

Dr. Conan Doyle, in an interview had with him by the Daily Telegraph's Pretoria correspondent, says the hospital arrangements have been severely tried, but that no more could have been done.

Lord Roberts, in the course of an interview, said he thought the charges brought against the government by William A. P. Burdett Coutts, conservative member of parliament for Westminster that inadequate provisions had been made for the sick and wounded were probably based upon one hospital and a hasty generalization thereon.

The Times' Pretoria correspondent telegraphs that Gen. Colvile has been ordered home.

KILLED ON THE STREET.

Details of the Assassination of the Minister

London, July 1.—The startling despatch sent on June 16th, from Hong Kong, containing the announcement that Baron Von Ketteler, the German minister at Pekin, had been killed is confirmed by a Chefoo despatch, dated July 1st which says the German minister was murdered by Chinese soldiers while on his way to the Tsung li Yamen. An interpreter who was with him was wounded, but managed to escape to one of the legations. On June 23rd only three of the legations remained standing, the others having been destroyed by the Chinese.

This despatch says that the murder of Baron Von Ketteler occurred on June 18th, but a despatch sent from Shanghai to-day says that the consular body there has received official news that Baron Von Ketteler was murdered on June 16th. While riding in Legation street he was attacked by Chinese troops and Boxers, who dragged him from his horse and killed him. His body was afterwards hacked to pieces. The Chinese then set fire to the German legation and six other legations. A number of natives who were employed as servants at the legations were slain and their bodies thrown into the flames.

They Were Disappointed.

A boat load of excursionists who started Saturday afternoon for Rochester, N.Y., intending to spend Sunday and Monday in the flower city, were gravely disappointed at not reaching that place. The steamer Columbian was billed to make the trip, but having gone up to Prescott the morning, she did not get back in time to take them from here. They boarded the steamer Hero, which connected with the steamer Columbian at Rift. But Capt. Hinckley refused to risk another trip across the lake until the steamer's steering gear had been overhauled, she had crossed the lake three times Friday, during the fog storm and Capt. Hinckley wanted to be assured that the steamer's steering gear was in good condition before risking another trip. Consequently, the excursionists were returned to Kingston and left Sunday night on the steamer North King.

ASTHMA CAN BE CURED

And is Being Permanently Cured Daily by Clarke's Kola Compound—Here is What a Hamilton Lady says:

Mrs. Gilbert, 145 Rebecca street, Hamilton, writes: "I suffered from a bad form of asthma for over nine years, and, notwithstanding all the doctors could do for me, got worse and worse, so that my neighbors looked for my death at any time. I spent money lavishly in the efforts to get relief, but all to no purpose. For six weeks at a time I could not get up or down stairs, and was in a miserable condition. My daughter, who clerks in a drug store, had heard a good deal of Clarke's Kola Compound, and urged me to try it as a last resort. I paid $2 for a bottle, but that is nothing, for it is worth more than that for every teaspoonful. Two doses gave me splendid relief, and after using but one bottle I am a marvel to all who know me. I can do my own work, can get around as well as ever, and feel like a new creature. Clarke's Kola Compound has been a God send to me, and I look upon it as a marvellous remedy. You may use this testimony as you see fit, and I shall be glad to give further particulars to anyone enquiring. I gratefully endorse Clarke's Kola Compound."

Sold by all druggists. A free sample will be sent to any person troubled with this disease. Enclose six cents in stamps. Address the Griffith & Macpherson Co., Limited, 121 Church street, Toronto, Ont. Sold by J. R. McLeod, druggist, Kingston.

THE HOUSEWIFE'S PART.

From the Times-Democrat.

Oh, men and oh, brothers, and all of you others,
I beg of you pause and listen a bit
And I'll tell without altering any of it
The tale of the housewife's part.

Mixing and fixing,
Brewing and stewing,
Basting and tasting,
Lifting and sifting,
Stoning and toning,
Toasting and roasting,
Kneading and seeding,
Straining and draining,
Poking and soaking,
Choosing and using,
Rehearsing and seasoning
Paring and sharing—
This is the housewife's part.

Filling and spilling,
Pounding and sounding,
Creaming and steaming,
Skimming and trimming,
Mopping and chopping,
Sorting pro and con,
Shelling and smelling,
Grinding and winding,
Firing and tiring,
Carving and serving—
This is the housewife's part.

Oiling and boiling and frying and prying,
Having and saving and trying and praying,
Burning and turning and churning,
Purging and singing and skeing,
Hashing and washing and splashing,
Scouring and plouring and vanquishing,
Cooking and looking and hooking,
This is the housewife's part.

Aching and baking and making and shaking,
Hearing and bearing and sighing and crying,
Hoping and coping and wishing and wiping,
Wee ones and big ones, brothers and all of you others,
Believe me this is the housewife's part.

HUMAN NATURE.

He lost a hundred dollars in a game of poker.

He never missed a wink of sleep on that account.

The cards had gone against him. They always had been to blame.

He swore like a pirate. Time was when he would not curse in the presence of women or among women.

Only yesterday he lost a dollar and ninety-nine cents through a hole in the pocket of the trousers he had on.

In a moment of the purest rapture he had cursed and cursed the tailors and the clothing dealers and the haberdashers and the knitted goods men who had chosen with the money that was gone.
