CLAIMS INADMISSABLE.

Spain Acted Rightly In Accepting The Resignation.

APOLOGY AND DISAVOWAL.

IS A LITTLE TOO MUCH FOR SPANISH PRIDE.

McKinley Should be Satisfied With Spain's Recall of the Minister—A Parallel Incident Quoted—Correspondence Between Spain and the United States Has Not Been Satisfactory.

NEW YORK, Feb. 15.—A special to the Herald from Washington says: The De Lome incident is still unsettled. The cipher despatch received from minister Woodford was not entirely satisfactory. It was taken to the president by assistant secretary Day and after a short conference between them Mr. Day sent another cablegram to minister Woodford. Officially nothing will be said about these two communications further than that the incident is not yet entirely closed. It is said that minister Woodford's cable was a report of his interview with the Spanish minister of foreign affairs, which showed that no direct disclaimer had been made by Spain of that feature of the De Lome letter, which has been interpreted to indicate the insincerity of the Spanish government in the matter of autonomy, and in the negotiations for a commercial treaty.

Absence of such a disclaimer is not entirely satisfactory to the president. Accordingly minister Woodford has been given further instructions on the subject.

MADRID, Feb. 15—The Liberal, commenting on the De Lome letter, says: It was a private document of which the government misunderstood the text. It is semi-officially stated that the official claims cannot be founded on a private letter, that Spain acted rightly in accepting the resignation of Senor Dupuy De Lome, and the ministers, it is added, declare that any claims whatever are inadmissable.

The cabinet met at five o'clock yesterday afternoon and discussed the present state of the war in Cuba and the De Lome matter at great length. It was decided to publish a decree accepting the resignation of senor Dupuy de Lome as minister at Washington and appointing senor Louis Polo Bernabe as his successor. A decree will also be issued convening the chambers before the end of the month, so as to enable the election of the new cortez to occur on March 20th.

LONDON, Feb. 15.—The St. James Gazette, referring to the De Lome incident, says: It appears that president McKinley is really making a serious incident out of the affair. He is not content with the prompt resignation of De Lome. A disavowal from Spain and an apology is now demanded from Madrid and this is a little too much for Spanish pride. Is the American government, which has had for some time ample justification for intervention in Cuba, if it had been able to make up its mind to interfere, going to pick a quarrel over this paltry business? Those interested in historical parallels will recall that Napoleon III in 1870 refused to be satisfied with king William's disavowal of his kinsman's candidature for the Spanish throne and demanded a declaration from the king of Prussia that he would never permit such a candidature to be revived. War followed immediately."

WASHINGTON, Feb. 15—The state department yesterday officially denied reports that Fitzhugh Lee, consul general to Cuba, had tendered his resignation.

At The Lowest Possible Cost.

MONTREAL, Feb. 15.—After the meeting of the board of directors of the C.P.R. yesterday afternoon T. G. Shaughnessy, vice-president of the company, announced that the deal with F. A. Heinze for the transfer of his railway and smelting interests in the Kootenay mining district in British Columbia to the C.P.R. had been completed, and the railway would now be in a position to carry out its pledge to the mining people of that section. The agreement had been signed by the interested parties, Mr. Shaughnessy said, but it might take a month or two to make the transfer of the property. Briefly stated, Mr. Shaughnessy said the policy of the C.P.R. in reference to the Kootenay smelting business was to provide the miners there with the most modern facilities at the smallest possible cost, so as to make possible the development of the country to a much larger degree than under the present circumstances.

Fatal Elevator Accidents.

NEW YORK, Feb. 15.—One laborer, John Degnan, was killed and two others badly injured yesterday by the falling of a freight elevator in the hotel Waldorf.

A driver for an express company was killed by an elevator on the eighth floor of 588 Broadway. He was looking down the shaft when the car descended and caught his head between the bottom and the floor.

Oscar Westberg, twenty-four years old, elevator attendant and assistant janitor of the Walton building on 5th avenue was killed yesterday by having his head crushed between the elevator and the second floor. His death is almost an exact repetition of the circumstance of yesterday at the Holland house, when Mrs. Arthur C. Levy was killed in an elevator.

Coal Was Never Delivered.

LONDON, Feb. 15.—A despatch to the Daily News from Odessa says that a secret police inquiry undertaken at the instigation of the ministry of marine has revealed a huge and sensational scandal in connection with the coaling of the Black Sea fleet. The Russian admiralty paid for 60,000 tons of coal which was never delivered. The contractor, who is a Jew, together with several naval officers at Sebastopol, one of them being the senior admiral, have been arrested.

France's Immense Gold Circulation.

PARIS, Feb. 15.—The ministry of France recently instituted an inquiry to learn the amount of gold in circulation. It has ascertained that there is $800,000,000 worth bearing the French stamp in circulation. It is ascertained this is a record amount and that the United States has $720,000,000, of Germany $680,000,000, of Great Britain and Russia, $600,000,000 each.

Purses—new stock just to hand at E. C. Mitchell's.

DOMINION PARLIAMENT.

Answer Made In Regard To The Kingston Locomotive Contracts.

OTTAWA, Feb. 15.—This was the first day of the session on which the business of private members had the right of way, and the government was inundated with questions on all sorts of subjects. The interrogations numbered no less than sixty-seven, and it took more than an hour to supply answers to them. Many of them had reference to the Yukon country, which at the present time looms up big in the eye of parliament, and which will demand a large part of the time of the legislators during this and succeeding sessions. The introduction of the subject of dairying in the north-west by Mr. Davin gave the minister of agriculture an opportunity of making known the progress that is being made by this industry under the beneficent and wise encouragement of the government. Mr. Fisher's statement as to the expansion of the British market and the opening up of new markets in the West Indies and the far east was especially gratifying.

To Mr. Taylor's question whether an order had been given by the department of railways and canals or public works to the Kingston locomotive works for locomotives, and if so at what price, Mr. Blair replied: "No order has yet been given by the department of railways and canals to the Kingston locomotive works for locomotives. Tenders have not been recently asked from the Kingston locomotive works or other firms. It is the intention, however, of the department, as soon as specifications and plans for a new locomotive have been completed, to open negotiations with the Kingston works on the subject of the building of some locomotives for the Intercolonial railway, as the department desires and intends, so far as is practicable, to give to a Canadian firm the preference in the manufacture of the locomotives which the government may require. No letters or telegrams had been sent to Kingston announcing that such a contract had been awarded, and no purchase had been authorized by an order-in-council."

The important announcement made by senator Scott last week that during the present session the tariff law will be so amended that after August 1st British imports alone would enjoy a preference of twenty-five per cent., was the subject of a question put by Sir Charles Tupper to the leader of the government in the house to-day. The opposition leader gave expression to his gratification, and indulged in the hope that the statement would be confirmed as authentic, but he regretted that it had not been accompanied by the signification of a desire that the products of Canada should receive preferential treatment in the united kingdom.

Sir Wilfrid Laurier made this reply: "I am more than pleased to hear that my hon. friend is gratified at what has been stated in another house. I am sorry to hear that his happiness is not complete. The only thing I can say is that when the budget speech is brought down I hope my hon. friend will have every reason to be even more satisfied and pleased than he is to-day."

Mr. Fisher replied to Mr. Lemieux that Canada would participate officially in the Paris exposition in 1900.

Mr. Blair informed Mr. Foster that by March 1st next the government hoped to commence through traffic from Montreal over the Grand Trunk and the Drummond county railway in connection with the Intercolonial.

Mr. Blair, in answer to Mr. Gillies, said that two engines for the Intercolonial had been purchased in Philadelphia as models for future construction. They cost $10,000 each.

PITH OF THE NEWS.

The Spice of The Morning Papers and the Latest Despatches.

Reinforcements have been brought in to strengthen the garrison of Paris.

A Scruton, one of Brantford's school trustees, is moving to Brockville.

The Canadian oil clothing company of Port Hope is to move its establishment to Toronto.

J. W. Beynon, Q.C., has accepted the conservative nomination for Peel, in place of Kenneth Cameron, retired.

The Ontario rolling mills, Hamilton, Ont., was partially destroyed by fire Sunday night. Loss about $35,000; partly covered by insurance.

Mrs. Livingstone, formerly of the dominion lands office at Winnipeg, has been appointed by the department of the interior to take charge of the immigration of a superior class of domestic servants from Britain to Manitoba and the territories.

A banquet was tendered to major Johnston last evening at Leamington. Mr. Johnston leaves for the Klondyke in charge of a company of eighteen men sent out to that country by a mining company of Essex. The men will go by Edmonton, N.W.T.

The directors of the C.P.R. company Monday declared the usual half-yearly dividend of two per cent. on the preference stock and a dividend of two and one-half per cent. on the ordinary stock, making, with the dividend already paid, four per cent. for the past year.

The legislation in connection with the proposed railway from Winnipeg to lake Superior will be brought down in the Manitoba legislature early in the session. So far not the slightest intimation has leaked out as to the decisions which the government has reached in respect to this project.

The minister of railways and canals states that the government has not yet decided what action it is competent for them to take to compel the Grand Trunk and the Ottawa and Parry Sound railways to give better connections at Scotia junction and to compel the Grand Trunk and C.P.R. to adjust their differences as regards the North Bay traffic.

A Justly Indignant Editor.

Presque-Isle Star-Herald.

We purchased a lot of chickens, dressed by a well-known woman whose voice we have often heard in revival and camp meetings. We did not explore the interior of the fowls at the time but later on our better half called our attention to the "foul" that we had paid for that was taken from the interiors of our purchase. Some fine needlework had been done on the skins of the chickens to give them a plump appearance. That woman made a dime or two out of the transaction, but hereafter whenever we hear her voice lifted up to the Master above we cannot but think of that chicken trade.

For a mild cured Yarmouth bloater full of roe go to Carnovsky's.

THE BULWARK OF INDIA.

Consists of Independence of the Frontier Tribes.

THE POLICY OF AGGRESSION

IN MILITARISM IS THE GREATEST DANGER FEARED.

Mr. Walton Criticized the Government's Frontier Policy From a Liberal Standpoint—The Occupation of Chitral Said to be the Source of Present Troubles—Lord George Hamilton Defended the Government's Action in a Vigorous Reply.

LONDON, Feb. 15.—The president of the board of trade, C. T. Ritchie, replying to William Field, Parnellite member for St. Patrick's division of Dublin, in the house of commons yesterday, said the Canadian law forbidding gambling in grain futures was satisfactory, but added that the government did not intend to introduce a bill on the subject at present.

Replying to another question, as to whether the government intended to co-operate in promoting an international conference to consider the currency question, A. J. Balfour, first lord of the treasury and government leader, said he was happy to say that the government would be very glad to see an international agreement regarding currency, but, he continued, he had nothing further to add to the information already in the possession of the house.

The house later discussed the amendment of John Lawson Walton, liberal member for South Leeds, to the address in reply to the speech from the throne and raising the question of the government's Indian frontier policy. Mr. Walton critized it from a liberal standpoint, disapproving of the occupation of Chitral as being the source of the present troubles and urging the government not to tamper with the independence of the frontier tribes, who, he said, were "the natural bulwark of India."

Lord George Hamilton, secretary of state for India, replied. He said it was impossible to evacuate Chitral without impairing the prestige of Great Britain and the tranquility of the tribes. Their present troubles, he continued, proved that the occupation of Chitral was welcome, and he warmly repelled the opposition's charges that the government had been guilty of breach of faith with the local tribes in continuing the occupation.

The Right Hon. Henry H. Fowler, liberal member for the East Wolverhampton and secretary of state for India in the last liberal cabinet, rebutted the charge that the liberal government had agreed to a permanent occupation of Chitral. The future, however, would be more important, he said, than the past, which had been a costly blunder and the liberals would resist the forward tendency of the military party in India. He urged that the Indian council should have some control of the expenditure as the greatest danger which threatened the northwest frontier was a "policy of aggressive militarism."

Odessa Occurrences.

ODESSA, Feb. 14.—Missionary services were held in the Methodist church on Sunday last, conducted by the Rev. Dr. Crothers, Napanee. Allan Montgomery, an old resident of this place and father of George and Calvin Montgomery, passed away on Wednesday last after a short illness. Remains interred in the Wilton cemetery. Mrs. Ira Smith is quite ill. Miss Baker, Parrott's Bay, spent a few days last week at her brother's, Albert Baker.

The brick is about all in for the new Catholic church. Nathan Snider is hauling brick for a new residence in the spring. Visitors: Mr. McConnell and wife and Edgar Williams, Cherry Valley, at P. A. Mabee's; Miss Shannon, Glenburnie, Miss Lake, Murvale and Cory Storms, Wilton, at Robert Metzler's; William and Blanch Dunbar, Napanee, at J. W. Denyes'; Miss Ethel Aylesworth, Tamworth, at John Jones'.

Doors Had To Be Locked.

The crowd that assembled in the council chamber last night was probably the largest the chamber was ever called upon to accommodate. The doors had to be locked to keep citizens from attempting to crush in. They took possession of the clerk's office and stood upon chairs in order to get a glimpse of the interior of the chamber. Every window from the outside was fully occupied by eager sightseers.

Canada's Great Fair.

TORONTO, Feb. 15—"Your directors regret to have to report that for the first time since the organization of the association there is a small balance on the wrong side."

The above quotation appears in the annual report of the directors to the members of the industrial exhibition association to be submitted at the annual meeting of the association to-day.

Will Be Carried Out.

MONTREAL, Feb. 15.—William McKenzie, the Yukon railway contractor, is in the city en route for England to-day. He says the contract with the government is bound to be carried out and is not worrying about the opposition from some quarters. He emphatically denies the statement published that the firm was negotiating with the Sun life assurance company for a million dollar loan.

Offered A Fat Salary.

VANCOUVER, B.C., Feb. 15.—The sensation of the week in mining circles has been the offer made by Mackenzie and Mann, railway contractors, to W. A. Carlyle, provincial mineralogist. They offer him $25,000 to go to Yukon as mining manager in their behalf. Carlyle is also being sought after by other corporations.

An Independent Retires.

CAYUGA, Ont., Feb. 15.—John Senn, the independent candidate for Haldimand, has retired from the contest. Mr. Holmes, liberal, and Mr. Lator, conservative, are the only candidates at present in the field. A meeting of the independent electors is to be held on Friday, 18th, at the court house.

Used Cleaned Stamps.

BRIGHTON, Ont., Feb. 15.—C. R. Irvine, M.A., barrister, Brighton, was convicted before magistrate Gunyo, of using postage stamps the second time and fined $10 and in default of payment imprisonment for ninety days. Postoffice inspector Merrick prosecuted.

GANANOQUE GATHERINGS.

Special Meeting of the Council Held—Benefit Concerts Given.

GANANOQUE, Feb. 14.—The town council held a special meeting on Friday evening, at which a lot of business was transacted. The annual grant of $100 was made to the public library and a small grant was given the hospital for sick children, Toronto. H. E. Walton appeared before the council with a new fire extinguishing powder. Successful tests were made and the matter was referred to the fire committee for consideration.

A benefit concert will be given to-morrow evening in favor of William Meade, who leaves for the Klondyke on Wednesday. An "At Home" will be given in Turner's hall in honor of Mr. and Mrs. J. M. Campbell, who leave shortly for British Columbia. The affair takes place on Thursday evening. There were large congregations at all the churches yesterday, the day being particularly fine for getting out. Dr. Bower went west on a business trip to-day.

A MINER ASPHYXIATED.

Another Steamer to Be Put On the Yukon Route.

VICTORIA, B.C., Feb. 15.—The steamer Clara Nevada, burned off Berner's Bay, Lynn canal, was destroyed by an explosion which was seen from the wharf. Wreckage was picked up at the beach next day, but no sign of the forty men who left Skaguay on her.

P. McKenzie, who arrived from Seattle on Saturday on his way north, was found dead yesterday afternoon in his room at the Australian hotel. The gas was turned full on and death had been caused by asphyxiation.

Six hundred miners have booked to go north on the steamer Islander, which leaves this evening, and applications are still pouring in. An extra steamer will be put on to accommodate the overflow.

The steel steamer Clara Nevada, of Seattle, was burned and wrecked off Seaward City, north of Juneau. Four passengers and the crew perished.

Relief Expedition About Ready.

PORTLAND, Ore., Feb. 15.—Capt. D. L. Brainerd, in charge of United States relief expedition, was on the steamship Oregon which sailed Monday for Dyea. He has orders to go to Dyea and there await the arrival of the government reindeer and snow and ice locomotives, both of which will be used in transporting supplies to Dawson. He expects to start from Dyea by March 15th. The first battalion of the 14th infantry, companies "A" and "G," will leave Vancouver barracks Tuesday via Tacoma, for Skaguay. All the United States property and paraphernalia, including rations amounting to 250 tons, have been loaded on the river steamer Undina for shipment to Kalama, where they will be shipped by rail to Tacoma on the Northern Pacific.

A Sensational Life.

PORT HURON, Mich., Feb. 15.—The suicide of Charles Anderson, at Jordan, Ont., a few days ago, recalls his sensational marriage to Maud VanNess, of this city, some time ago. The VanNess woman has served time in jail and at the Detroit house of correction and has given the police much trouble. During a visit in this city a few months ago Anderson met her and they were married. Together they spent several thousand dollars which Anderson had inherited.

Many Logs For Michigan Mills.

SAGINAW, Mich., Feb. 15.—The Georgian Bay district will furnish Michigan mills with a large quantity of logs this year. A gentleman from that region states that the loggers are experiencing trouble with deep snow and slow progress is being made. He thinks 328,000,000 an estimate of the quantity of logs being put in this winter by the several firms operating in the Georgian Bay district.

Want $40,000 For Lense's Death.

ST. LOUIS, Feb. 15.—The L. A. W. by a unanimous standing vote has decided to demand $40,000 from the Turkish government for indemnity for the friends of the late Frank Lense who was murdered while touring in Turkey. The L.A.W. will push the claim.

Templars In Session.

ST. THOMAS, Ont., Feb. 15.—The sixteenth annual session of the grand council of Royal Templars of Temperance opened this morning in the Oddfellow's hall. About 100 delegates were present.

The interstate commerce commission has granted the request of the G.T.R. and other western roads for the abrogation of the long and short haul clause in the passenger business to Manitoba and the north-west. This will enable the Trunk line to have a share in the business which previously the C.P.R. has practically monopolized.

Hon. Mr. Harty is in Toronto, going up yesterday on departmental business. He will be back on Friday.
