of our Paint is sufficient to tell o its goodness. We warrant the paints we have to be sun proof and weather proof, and to make your house or fence or whatever you use it for decay proof. We have a full line of Paints of every color for every purpose, and prices are right.

W. A. MITCHELL,
85 and 87 PRINCESS STREET.

Valuable Farm Property For Sale.

ABOUT 245 ACRES IN THE THRIVING VILLAGE OF NEWBURGH, seven miles from the Town of Napanee. This is a most desirable property, affording the advantage of a High School, where children can be educated at home under control of parents and save expense of boarding out. This Village affords the advantages of Churches, Post Office, Stores, Machine Shops, Carriage Factory, Blacksmith Shops and Cheese Factory, and excellent Railroad connection with leading lines. Station within quarter of a mile.

THE BUILDINGS on the Farm are commodious and in good repair. This property is well watered, of the best quality of loam soil under the very best cultivation, as all produce has been fed to beef cattle on the farm for the last ten years. Forty-three head of export steers are now ready for the market.

EXCELLENT MARKET at home for farm produce, as there is a large Paper Mill one mile east, and a large Paper Mill and Cement Works two miles west, employing several hundred men, with their families. There is also on the place a bearing orchard of apple trees. Will endeavor to make terms to suit purchaser. JAMES DALY, Box 83, Napanee.

THE 4 P. M. EDITION.

GIFT TO SOLDIERS.

Mr. Flower Sends a Cheque For $1,000 To The 8th Regiment.

The evidence of the condition and treatment of the men in camp Thomas and other United States camps has at last aroused the attention of prominent men in this city, says the New York Journal. The exceptionally destitute condition of the 8th regiment enlisted the sympathies of former governor Roswell P. Flower. He took occasion to inquire yesterday into the facts. A telegram was sent to an officer of his acquaintance in the 8th regiment, inquiring whether the representations coming to the north were true. The reply was: "It is all too true." Ex-governor Flower immediately drew his check for $1,000 and had an order for that amount telegraphed to Col. Chauncey, of the 8th, for distribution among the New York troops.

When asked whether this contribution was in anticipation of the arrears of pay due from the state Mr. Flower replied:

"No; I do not want any of their pay. The money has not been loaned; it is intended as a gift. I am told that the boys are not properly fed and have no money. I want them to have some money, and as long as they are needy and I have a dollar they shall have part of it. They shall not starve if I can help it, and I know of many other New Yorkers who are of the same frame of mind."

Mr. Flower declined to mention the names of the other patriotic citizens.

NO TRUTH IN IT.

Americans Report Victories And Landings, Which Spaniards Stoutly Deny.

Madrid, June 14.—A semi-official note issued to the press says that the United States has already announced the destruction of the forts at Matanzas and San Juan, the blockading of the harbor of Santiago by the sinking of the Merrimac, the destruction of the Terror, the effectual cannonading of the Morro forts at Santiago and at Caimanera on Guantanamo bay and the landing of 850 marines at the latter place.

Continuing it says that there is not a word of truth in all this. The forts at Caimanera are standing, ready for defence and the American ships have kept at a distance. Neither Caimanera nor Guantanamo have been burned. No American troops are encamped in the neighborhood. Every gun is in its place in the Morro and is as good as ever. In conclusion the note says: "The European press is mistaken in supposing that Spain has lost courage. Strength, hope and the resolution to continue the war are dominant here."

THE MONEY RAISED.

The Broadway Tabernacle In Toronto Saved To The Methodists.

TORONTO, June 14.—Under its agreement with the English company, holding a mortgage on the church, the congregation of Broadway Methodist tabernacle, has engaged to raise $10,000 within a few days. The congregation has raised $5,000 and made an appeal to outside Methodists for $5,000 more, carrying the appeal into conference. This morning the following subscriptions were announced in conference: Chester Massey, $1,000; senator Cox, $500; Timothy Eaton, $500; John Flavell, $500; Mr. Phelps, $200; H. A. Massey, $100; Mrs. Massey-Treble, $500; J. H. Treble, $100; Edward Leadley, $500. In response to Rev. Dr. Stone's appeal this morning, H. M. Peterson led off with $100. Numerous other smaller subscriptions were given, and during a lull in the responses Edward Gurney subscribed the balance of $170, making the second $5,000 complete.

St. John's Church, Bath.

The celebration of the 105th year of the existence of St. John's church, Bath, commenced on Sunday last. In the morning the rector was the preacher. In the evening the Rev. Prof. Worrell preached to a crowded house. The sermon was a masterly discourse on the quiet progress of the church in the dominion and beyond the water. All seemed more than pleased with the genial and eloquent professor. The choir of Bath and Odessa were amalgamated and the singing was worthy of any city church and it is much to be hoped that the two will very often give us such musical treats. The two churches have just cause to feel proud of their choirs. The service, which was choral, was taken by the rector. The choirs will again amalgamate on Wednesday morning at the centennial service, when the archdeacon of Ontario will be the preacher. The steamer Jubilee leaves Kingston on Wednesday for Bath at 8:30. The citizens of Bath are busy decorating the streets and their dwelling houses.

The Inspector Called.

R. Howe, C.E., inspector for the underwriters' association, visited the city today and inspected the fire department. In company with mayor Livingston and alderman J. A. Minnes, he pulled an alarm from box No. 3, corner of Queen and Montreal streets. The brigades from both stations made a rapid turnout, reaching the spot in two and one quarter minutes, and had the streams going in two and three-quarter minutes. Mr. Howe afterwards visited the stations and put the engines through a test, which proved satisfactory.

He Was Frightened Away.

About three o'clock this morning a burglar tried to gain an entrance to the residence of Mrs. J. Conley, Pine street. Mrs. Conley heard the noise and by her screams scared the intruder away. Her screams were heard by John Elliott, who hastened to the street without waiting to dress. Mr. Conley is away in Toronto, and Mrs. Conley was alone in the house.

A Double Duty.

Minneapolis Journal.

"Remember the Maine," says a Kansas newspaper genius, "and pay up your subscription."

FOR THE ST. LAWRENCE.

THE STEAMER NEW YORK A HANDSOME CRAFT.

Runs From Clayton to Montreal—A Vivid And Realistic Description of the New Boat And its Equipment for Passenger Service—Some Innovations in Furnishings—Possesses All Modern Conveniences.

Buffalo, N.Y., Courier.

This afternoon the passenger steamer New York, just completed in the Erie basin for the American line service from Clayton to Montreal, in connection with the New York Central & Hudson River railroad, will leave Buffalo for her new home on the St. Lawrence river.

Work was begun on the steamer in December, William Murphy being the contractor, under the careful personal supervision of Capt. Allen, assisted by B. H. Carnovsky, who designed all the artistic appointments of the handsome boat and selected the colors which are most delightfully blended in the decorations.

The New York is thoroughly up-to-date, and as she lay at the dock yesterday, presented a handsome appearance in her garb of white, green and gold, which are the principal colors of her furnishings, inside and out. She has not only been built, but furnished throughout almost entirely by Buffalo firms.

The steamer is about 180 feet long and forty-four feet beam, the full size possible for the canal locks, which are used upon the return voyage. The first glance at her from the outside would incline one to believe that she must be an immense private yacht. The first step on board, however, dispels the illusion. At a glance is seen the intelligent and thorough provision for passengers. Entering by the aft gangway on the main deck, the handsome dining-room is shown. The entrance is through a beautiful hand-carved mahogany arch which extends across the broad deck from side to side. The floor is covered with a rich velvet carpet in a delicate shade of green. Small, round, individual mahogany tables are arranged in graceful studied disorder throughout the room, and are furnished with rich linen, costly silverware and crockery, each piece of the latter bearing a tasteful hand decoration. The entire room is enclosed by large observation windows, with plate-glass mirrors between, and by this ingenious arrangement none of the delightful scenery is missed, as that which is not observed through the windows is reflected in the mirrors. This effect is particularly pleasing while passing through the Thousand Islands.

Green silk curtains, caught up by gold cord, are draped across the windows, the soft shades blending admirably with the carpet. The panel wood-work is white and gold. All other parts of the boat are equally attractive, particularly the forward main deck, which on ordinary steamers is devoted to freight and seldom, if ever, visited by passengers.

This deck is also enclosed by observation windows, has hardwood floor, and is arranged as a lounging and smoking apartment.

A broad, mahogany stairway leads from the main to the promenade deck, and here is situated a large saloon cabin, replete with comfortable, upholstered settees, ottomans, rich hangings and furnishings, in the same perfect taste as the dining-room, the whole effect producing the most agreeable suggestion of restful summer days, refreshing breezes and charming scenery.

On each side of this cabin is a row of state-rooms, each containing a double lower berth and upper berth, and provided with running water, electric lights, annunciators and all modern conveniences, some of them having tiled bath-rooms attached.

A noticeable feature of the New York is her broad promenade deck forward of the saloon cabin. She is provided with over 300 incandescent electric lights.

Her powerful machinery is situated beneath the main deck, as is also the electric lighting plant. Two huge boilers are situated just forward of the engines.

The new American line is a credit to the Folger system, and their enterprise in establishing a line of daily steamers from Clayton to Montreal in connection with "America's Greatest Railway" will revolutionize the transportation facilities in that region.

The American line steamers depart from Clayton on arrival of the St. Lawrence steamboat express leaving Buffalo at 9:15 p.m. daily. The boat service commences Monday, July 4th.

Reunion Of Queen's Alumni.

Toronto Globe.

A pleasant social hour was spent on Wednesday by the members of Queen's university alumni, who are in attendance at the general assembly, at present in session in Montreal, when fully sixty of their members, with a number of their friends, lunched at the Alexander cafe. Rev. Dr. Milligan presided. To the right of the chairman sat chancellor Sir Sandford Fleming. After lunch several toasts were proposed and responded to on behalf of Queen's and sister institutions by principal Grant, principal Pollock, Halifax, Dr. Thompson and Rev. W. J. McCaughan, while Dr. Campbell, Renfrew, and Rev. John McMillan, Halifax, spoke on behalf of the alumni. The speakers made timely reference to the good work done, and the encouraging growth and progress of Queen's and the beautiful esprit de corps that characterizes her alumni in relation to one another and their true-hearted loyalty to their alma mater.

Another Mysterious Find.

NEW YORK, June 14.—The body of a man, with several bruises on his head was found by a policeman floating in the East river at the foot of Sixty-second street early to-day. The body was wound with rope, tied about the legs, arms and body in a manner showing that the man could not possibly have done it himself. The body is that of a man about twenty four years of age. He was five feet ten inches tall, had dark hair and was smooth faced. The clothing was a blue sweater, black trousers and gaiters. The police think the appearance of the body corresponds with that of a young man named Joseph S. N. Britz, Brooklyn, whose mysterious disappearance was reported to borough headquarters last night.

Argued This Morning.

MONTREAL, June 14.—The demurrer of Messrs. Carranza and Du Bosc, the Spanish officials, in the action taken against them by detective Kellert, was argued this morning before judge Matthieu, who took the case en delibere. Mr. Pelletier, for the Spaniards, claimed that the clause accusing the Spaniards of being spies was entirely irrelevant to the case, and that the issuing of a capias on such grounds could have no status. On the other hand, Mr. Greenshields, for Mr. Kellert, claimed it was good grounds to base a capias on, inasmuch as spies were uncertain in their movements and might go away anytime.

Don't fail to attend the performance at Lake Ontario park to-night. Full 14th band in attendance. Admission to all, 10c.

ABSOLUTE INDEPENDENCE.

This Is the Only Thing the Cubans Will Accept.

LONDON, June 14.—A despatch to the Standard from a special correspondent dated off Cayo Ramano, on the north coast of Puerto Principe, reports a conversation with a representative of the insurgent government in Cuba. The latter declared that the insurgents would accept nothing short of absolute independence. He represented that Gen. Maximo Gomez had gone personally to assist the Americans against Santiago de Cuba and that the remainder were posted around Havana, which was being stoutly defended. The rainy season he said he did not regard as very dangerous for the American troops provided they fortified themselves with quinine.

MADRID, June 14.—The government has received a despatch from Gen. Rios, dated Iloilo, island of Panay, Philippine islands, which says:

"Although I have sent seven steamers toward the island of Luzon (on which Manila is situated) I am still without news from Manila, as the enemy has cut off communication.

"During the night of June 5th an American cruiser entered the harbor here. After reconnoitering she left, going southwardly. Since then there has been no news of the enemy's squadron.

"I am taking measures to secure supplies for the troops and inhabitants from the resources of the island.

"The spirit of the troops at the Vieayas island is excellent."

NEW YORK, June 14.—A special, dated off Caimanera, June 13th, via Mole St. Nicholas, Hayti, to day, reports that there was a renewal on Sunday of the Spanish attack upon the force of marines landed there on Friday last. The fighting is said to have lasted all through Sunday night, camp McCalla and Crest Hill being attacked by greatly superior forces of the Spanish. The battleship Texas and the gunboat Marblehead and the collier Alharenda supported the marines by directing a fire upon the coast and particularly the bushes, which all through these encounters have served to screen the movements of the Spaniards; the latter were finally forced to retire. No loss was sustained by the Americans.

LONDON, June 14.—Three Spanish steamers lying at Liverpool recently the Gallego, Navarre and Palentino, renamed the Coming, Lajuno and Palostro, sailed yesterday for St. Johns, N. B.

News In A Few Lines.

The prospect of a conjoint bombardment by the American squadron does not excite serious apprehension in the minds of Spanish military authorities.

The crews of the steamers Yankee and St. Louis cut the cable at Guantanamo, sixty miles east of Santiago de Cuba, yesterday, and Cuba is thus believed to be finally shut off from communication with the outer world.

The German consul-general has asked Berlin to send a warship to Monte Cristo, Santo Domingo, to protect the property of a German company.

It is believed that the Spaniards of Manila would surrender to rear admiral Dewey in preference to being conquered by the insurgents.

TO ATTACH PROPERTY.

Leiter Is Said To Have Put His Grain in Trustees' Hands.

CHICAGO, June 14.—Yesterday was a wild day in the Chicago wheat pit. Late in the day Leiter made no attempt to conceal the fact that he had sold out all his holdings in futures, probably 6,000,000 or 8,000,000 bushels. Leiter is said to have been called upon to margin his wheat holdings down to eighty cents. He had about 4,000,000 bushels of cash wheat, which he must have disposed of at a loss. Later it was reported that L. Z. Leiter, when asked by his son for more money, had refused to be drawn further in the wheat deal, and thus compelled the latter to let go a large line in order to satisfy his warehouse creditors and marginal demands.

Leiter admitted to friends that he had lost money. Excitement on the board ran high.

An intimate friend of Mr. Leiter, and one who is believed to know considerable about his board of trade business said this afternoon: "Mr. Leiter has not failed, nor has he made an assignment, and I do not think he will do so. I understand he is arranging to put all his wheat in trust with the banks here and so prevent the stuff from being forced on the market. I am not aware of any outstanding contracts on the board.

NEW YORK, June 14.—Justice Daly, of the supreme court, has issued an attachment against the property of Joseph Leiter, the wheat speculator of Chicago for $783,925, in favor of Otto E. Lohrke, William P. Callaghan and William Knight, grain dealers for money advanced.

Five Cattle Killed By Lightning.

CLAREVIEW, June 13.—Heavy rains have been falling at short intervals for the past thirty-six hours. Miss M. A. Mellow is suffering from an attack of measles. Born to Mr. and Mrs. B. O'Neil, a daughter. Five valuable head of cattle belonging to J. Hopkins were killed by lightning on Saturday. McGrath brothers are preparing timber for a barn for J. Flanagan. J. Flanagan has arrived home from Whitney. Cattle buyers have made their appearance again. Not many cattle have yet been bought in this vicinity.

Lord Hamilton For Governor.

C. B. Powell, M.L.A., informed the Ottawa Citizen, that he had read an article in the latest number of the British Court Journal received in Canada, stating that the general impression in court circles was that lord George Hamilton would be the next governor general of Canada. Lord Hamilton is fifty-three years of age and on two occasions has filled the position of first lord of the admiralty in the British government. In 1895 he was secretary of state for India.

Castellane Wants To Fight.

LONDON, June 14.—The Paris correspondent of the Daily Telegraph says: "Count de Boniface Castellane, who married Miss Anna Gould, of New York, has challenged to a duel M. Herr Tarot, for an article in the Petit Republique, commenting upon the act of infanticide committed by a servant in the count's household."

The Judgments Given.

OTTAWA, June 14.—Judgments were delivered in the supreme court to day as follows: The matter of the arbitration in respect of the common school fund and lands, both appeals of the provinces of Ontario and Quebec, were dismissed with costs.

Body Found.

PICTON, Ont., June 14.—The body of Mr. Gordon, one of the young men who was drowned on Saturday, near Glenora, was found about three o'clock to-day near the place where he went down.

Powerful Chinese societies are working for the purification of politics.

JOHN LAIDLAW & SON

HOLY SMOKE!

That is what Pat said when he saw smoke coming out of his church in great clouds, and then he did what any quick-witted son of Erin would have done: yelled "Fire! Fire!! Fire!!! grabbed a pail of water and started to put out the conflagration. Smoke is a nuisance almost anywhere. It is one of the greatest nuisances Montrealers or New Yorkers have to deal with. If you think it is not, get on a train and visit one of the great cities. As you near your destination you will think there is no blue sky above it, and when you feel your lungs cracking open you will swear that somebody poisoned the air. By the way, do you smoke? We will tell you how to get a box of cigars for nothing. Spend at OAK HALL eight dollars of twelve you intended to pay somebody else for that suit, and you will have as good a suit as you intended and a good four dollar box of fifty cigars. What are they? Havana brown, of course. Not the cigars—the SUITS are Havana Brown, with small checks in them. They are twisted Yarn—WEARERS—color holders—fitters. We have so many good things to tell you about them that it is hard work not to say too much. Better Suits still for $10, $12 and $15.

Suits That Fit.
