Proprietor.

JOHN OFFORD,
Assistant Business Manager.

CUNARD STEAMSHIP COMPANY.

SAILING FROM NEW YORK EVERY SATURDAY. Authorized agent, F. A. Folger, Ferry Dock, foot of Brock street Kingston.

THE DAILY WHIG.

"Opifer per Orbem Dicor."

A TRIBUTE TO LAURIER.

The Toronto "Telegram" pays a glowing tribute to Laurier. It is an independent paper, and speaks out its sentiments from a sense of justice and fairness. Hear it:

"The personal ascendancy which Wilfred Laurier has won in the Canadian house of commons is a conquest which the elements of strength in his character have wrested from the better qualities in the nature of the men around him.

"There are degrees and kinds of popularity, and popularity of the baser sort is seldom creditable to its possessor. Some great men study the frailties of their fellows and flatter their weakness to win admiration.

"Not by such processes did Wilfred Laurier bid for the love of friends and for the esteem of enemies at Ottawa. His slowly won personal strength came to him naturally. The much that was good in him appealed even to the little that was good in meaner men. The gentle manliness of the leader who is loyal to friend without being bitter to foe ripened the fruit which is always spoiled if it has to be reached for.

"Laurier is a clean man in an era that is not conspicuous for the cleanliness of its political characters. His kindliness is an exception where bitterness is the rule. Looking at him in the full light of his character, career and record, he must be regarded as a thoroughly admirable fellow-Canadian."

An Ottawa correspondent of a conservative paper set the foolish report in circulation that Mr. McCarthy was going to visit the maritime provinces during the summer, and that the grits will facilitate his movements and aid him all they can. The same crazy creature added the thought, the figment of his own brain, that "is not altogether impossible that Dalton McCarthy is being played as the successor to the present leader of the opposition." A very likely story, and just as credible as that Mr. McCarthy, being in better touch with public opinion, has been sent for by the governor-general and consulted with a view to his elevation to the premiership. Whatever Mr. McCarthy's prospects may be, and they have been immensely improved by his manly independence on the tariff and other questions, they do not include his elevation to the liberal party. For that position he has not the qualifications to start with, he is out of accord with the party, and he can never be a substitute to Mr. Laurier, who is without a peer in the house of commons. The suggested removal of him is a studied insult to the liberal party which it will be sure to appreciate.

EDITORIAL COMMENTS.

Toronto has reversed its vote of $10,000 for advertising purposes at the world's fair. It would have been a waste of money.

* * *

The "Empire" is doing its level best to discredit Dalton McCarthy. But it is simply advertising him and adding to his importance.

* * *

The Toronto "Star" would like to see Sir Oliver Mowat and Dalton McCarthy join forces and political fortunes. It says they would be a great team.

* * *

The census is getting a great riddling. It will pass down to posterity as the greatest deception of the age. As a work of fiction the record stands without a parallel.

* * *

The Toronto incandescent electric light company has decided on a reduction of forty per cent. in the cost of light to consumers. It formerly only charged one per cent. per hour for a sixteen candle light. A few months ago it reduced the price to 8-10; now to 6-10 per 16 candle light. The cost of gas in Toronto is $1.12½ per thousand feet, will be reduced to meet the cut by the electric company. Who wouldn't live in Toronto so far as the lighting of it is concerned.

* * *

The voting machines seem to have been used at quite a number of city elections and town meetings in New York state. It seems to take only from six to ten minutes to count the votes after the polls close. There were several places reported where the machine was used and with great satisfaction in every instance. A blind man voted at one place by the use of one, in thirty-two seconds, and best of all there can be no tampering with the vote, no duplicating it, no manipulating of it. When a man votes by the machine it goes right and registers every time.

Rich, Red Blood

As naturally results from taking Hood's Sarsaparilla as personal cleanliness results from free use of soap and water. This great purifier thoroughly expels scrofula, salt rheum and all other impurities and builds up every organ of the body. Now is the time to take it.

The highest praise has been won by Hood's Pills for their easy, yet efficient action. Sold by all druggists. Price 25c.

The steamer Dorelei, cost Capt. Joseph Dix just $2,300. In the agreement of purchase, the captain signed an agreement to run the steamer on the old route between Gananoque and Clayton next year. In 1894 he may put the little flyer where he chooses. Capt. Dix will master his own boat.

Hanson's Magic Corn Salve cures corns and bunions with three applications. 15c per box at Wade's drug store, Kingston.

Rev. Dr. Grant will lecture in Toronto on April 4th on "Around the World."

WHAT MUST FARMERS DO?

A GRAIN DEALER THROWS OUT SOME TIMELY HINTS.

He Advises the Sowing of Goose Wheat And Ensilage—The Land Has Been Too Much Exhausted to Produce the Best Barley—The Farmer Must be Well Underdrained.

The question agriculturalists are now asking is what will it pay best to sow? Great difficulty is experienced in obtaining a satisfactory answer. To a reporter a successful grain merchant stated this morning, that they used to say, "I will sow so much barley, and what ground is left, not needed for barley, will not be more than enough to cover my feed and wheat stuff."

"Barley has not been a profitable article for a number of years. The American duty has been increased entirely stopping the export trade, but this alone is not the reason that barley growing is not profitable. For a number of years the quality of the barley in this section has been deteriorating. Formerly we used to raise the best barley in Canada in the Bay of Quinte district and it was noted for its fine quality and great strength. Other sections of the country are now producing good barley, in greater abundance and of a better quality than ours. The land in our section has been cropped so long with barley that the particular virtue that has been so productive in the past has been exhausted in the land and now we find it difficult to raise either barley in abundance or of good average quality. Whether the duty is off or not it is very questionable whether this article will pay to raise."

"Fife wheat will not pay the farmers. We have tried it and we don't get over one good crop in four, and the farmer cannot afford to plant with this great uncertainty. If Fife wheat is not productive the question is, is there any other kind of wheat that it will pay to raise? Lately goose wheat has been in good demand. To-day it is worth within about 5c a bushel what Ontario spring is. The yield of this variety is fully as many bushels to the acre as a good crop of barley and will bring in any ordinary year 20c to 25c a bushel more money. The agriculturalists say our millers don't like goose wheat, that it will not make good flour, therefore we don't want to raise it. Does barley make flour? If not, what is the objections to raising goose wheat? It is not a question whether it will make flour or whether it will not; it is simply a question of what it will bring per bushel, and if it will pay us better to raise than any other article, then we should raise it. It has been tried to a small extent in the past few seasons, but the quality sown has been very inferior, being full of wild peas, vetches and other grains. This mixture is not a saleable article, and we are surprised that any one would sow it and expect to benefit by a seed of this kind. Good seed can be obtained perfectly clear from all foul stuff, and if sown and the season is at all favorable it will pay the farmers well to plant a few acres of it. The demand to-day for export far exceeds the supply. This wheat is used largely in Europe for mixing with many soft varieties, imported there, and it is just the article they want for that particular purpose, and we are not wise in letting our opportunities go by of securing a portion of this trade. Our local house in Kingston, had orders last week for 40,000 bushels for export, which it could not fill.

"Our country is becoming year by year more of a dairy country than a grain country. In the past when our soil was virgin, it was not difficult to raise a crop of any kind of cereal. To dairy to the very best advantage, it is necessary to be up to the times. A mill cannot run unless its machinery is the latest and the cheapest facilities are used to bring forth manufactured goods. The agriculturalist must do the same. He must find the cheapest ways of feeding his stock, and carrying them over our long winters, and to do this he must build silos and raise ensilage corn and other varieties of grain ensilage, and store away for the winter months. By doing so he will be able to keep double the number of cattle on the same acreage with very little more labor. Those who have tried this, pronounce it to be a success, and in some countries it has been tried for years.

"There is another important feature neglected with us, owing perhaps to dear labor and want of capital. Our very best lands in good seasons are non-productive because of improper drainage. The farmer claims he cannot afford to ditch and tile drain his land. In this he is altogether wrong, for he cannot afford any longer to do without tile drains and ditching. One of our best farmers states that there is not a clay mound on his farm he would not tile drain if he had the money to do it. If the knols are benefited by tile drains how much more benefit is reached from low lands. The labor-saving machines are the order of the day. It does not pay to ditch by the hand, but it pays to ditch by the machine, and if three or four in a neighborhood will join together and buy a ditcher the extra profits in two years would repay any expense they sustained.

"The farmer's crop should be generally goose wheat; sow a small acreage of barley; some red fern if it can be got clean. Be particular about the quality of peas. See that they are the best and brightest that can be had. Dark green peas are not wanted, and we are sorry to say that the quality here in the last few years has got to be very much inferior to what it used to be. Good white seed will yield better and more money will be gotten out of it. Oats are probably the most productive. They are of excellent quality and in good season will weigh from thirty-eight to forty-three pounds per bushel. It does not pay to sow rye unless on very poor land. Buckwheat has been a good paying crop within the last two or three years. This article is exported entirely to Germany. The silver-skinned buckwheat is not liked. It will not bring within five cents as much as the old black variety. Don't sow silver-skinned buckwheat. It may look pretty but the hull is very thick and the extract of flour is smaller than from other kinds."

APPRECIATED BY THE MOTHER!

Lactated Food is Now a Household Name!

There is a satisfaction and delight in knowing that honest efforts are appreciated. When those honest efforts are for the benefit of mothers and their babies, and when it is found that both are benefited and made happy, there is intense joy on all sides. The manufacturers of Lactated Food have catered for the baby's health and vigor and have done it successfully. They have also succeeded in making the mother's lot a happier one than it ever was before. In this way all are pleased and satisfied; and Lactated Food is now a household name in every section of Canada.

Lactated Food could not have attained its present prominent position without possessing great merit. That it possesses grand and rare merits is long ago an established fact. Lactated Food, possessing all the constituents of pure breast milk, has no equal in the world as an article of diet for babies who cannot be breast-fed. For weak, frail and puny children it is a diet of priceless value. It is always retained on the weakest stomach, and is the most easily assimilated food ever prepared for weak digestion.

Lactated Food is strongly recommended by physicians who make dietics a careful study. The honest family physician is daily prescribing Lactated Food, knowing it to be the best in every respect. To mothers who have not yet given this food a trial, we say, do not delay its use for your baby. One week's trial will prove that it is the only healthful and sensible food on the market.

Wade's mandrake liver pills, sure cure for biliousness and constipation. Wede's drug store, Kingston.

It has been practically settled that the world's fair gates will be kept open until 11 p.m. each day.

LETTERS TO THE EDITOR.

The Old Church All Right.

KINGSTON, March 21.—(To the Editor): About once a quarter an outburst takes place against the church of England and all the younger religions join in the attack with enthusiasm. For a church that apparently has every man's hand against her she is doing pretty well, even among the sects, it converts to her doctrines are a criterion. From out of the ranks of clerical brethren, who do most of the controversial writing, have gone of late very many, as a few details below indicate. What the church of England was two hundred years ago is not as important a question as what it is to-day, with its fresh vigor, growing parish extension and social activity in England and the United States, added to the noblest and most expansive foreign mission work the world has yet seen. Within twenty years the fresh spirit of advance on both continents, but especially in England, has been marvellous, showing a vast strength in the religion itself. Perhaps, if the clergy of the churches mingled more freely much of the hatred of the Anglican communion would disappear. Certainly two Kingston clergymen, who do mingle with the evangelical forces, are always spoken of with kindness. Let me remind writers that they would now-a-days run out of town men like the Puritans and self-righteous men of past centuries with their arbitrary laws, oppressions, witch burnings and cruelties. If "evangelicals" were so bad in the old days before civilization had enforced its noble influences, how can a wealthy, all-powerful church be expected to produce angelic history?—CHURCHMAN.

The bishop of Michigan lately held an ordination and out of four candidates three were: Ordained priests, Frederic Hall, teacher, agnostic; ordained deacon, Cassius M. Westlake, lately Congregational minister; William F. Jerome, lately Methodist minister.

The bishop of Maine recently ordained William F. Livingston, lately Congregational minister, and Leroy Bates, Ph.D., lately a Methodist minister and college professor.

Rev. Dr. Page, formerly Presbyterian minister, has been ordained by Bishop Potter, New York.

Rev. H. M. Curr, leading Baptist minister, of Parsons, Kansas, has joined the Episcopal church.

The bishop of Ripon, England, lately ordained James Hubbard, ex-Baptist minister; Rev. S. E. Lee, late R. E. minister.

The bishop of St. Asaph has admitted James Waring, R.C. priest, and T. W. Jones, Methodist minister, Beaufort, and Odell M. Fibe, Congregational minister, Tottenham, are seeking admission. Rev. W. F. Chambers has returned to the English church from the Roman creed. Revs. Dr. White, of the Presbyterian church, has applied for holy orders in the Church of England.

At a confirmation at Bleenawn, Wales, these entered the church: 43 Baptists; 20 Wesleyans; 1 Congregationalist; 10 Primitive Methodists; 4 Calvinistic Methodists; 1 Bible Christian, and 15 undenominational.

The "Congregational Year Book" laments a secession of nine pastors to the Church of England. Of these four have been ordained to the ministry: Rev. I. P. Blake, B.A., of Patley Bridge; Rev. C. H. Best, B. Sc., of Hopton; Rev. J. B. LeGassick, M.A., of Kirby Moorside, and Rev. W. Roberts, of Salisbury.

These paragraphs are extracted from church papers within the past month. What would a year's record be?

A Pigeon Foot And Number.

STELLA, March 18.—(To the Editor): At D. Caughey's residence, Amherst Island, I was shown a pigeon's foot with a ring on the leg and the No. 37 plainly stamped on it. Miss Allen found it in an outbuilding on the premises and says that the brightness of the metal drew her attention to it. She also states that appearances showed that the cats had intercepted the poor pigeon in its peregrinations. Any information you can give as to the meaning of that ring and number will be gladly received.—MRS. M. A. POMEROY.

THAT DESTROY BODY AND SOUL.

Paine's Celery Compound Has Saved Thousands From Evil Effects of Narcotics.

The use of narcotics has made terrible headway in our midst; the victims of these body and soul destroying drugs, are to day found in all classes of society. Morphine heads the list of the narcotics in use; then we have opium, chloral, bromide of sodium, hydrate of amyl, urethan, sulfonal, hypnon and a long list of other new-born destructive agents.

These narcotics, in the majority of cases are first used by nervous, sleepless, neuralgic and rheumatic people to procure rest and freedom from pain. Oh, the folly and madness of such a course that leads to destruction and death! An eminent medical professor acknowledges that physicians generally give too much encouragement to the use of narcotics. This noted savant says: "Many physicians lend their hand too willingly, and are ready with the injecting needle to check a pain that could easily be borne, not reflecting that it is immoral to encourage a dangerous practice, that of planting the morphine habit, a terrible poison that leads to physical and spiritual debility and to death."

Within the past few years Paine's Celery Compound has saved the lives of thousands of men and women. This grand disease-destroyer has saved from the opium, morphine and chloral habit a host of valuable lives. The nervous, debilitated, neuralgic and rheumatic find all their pains and woes removed by a pure and life-giving agent. No agent known to science has conferred such great benefits on the human race as Paine's Celery Compound. From day to day the work of this wonderful preparation commands admiration and respect; it is elevating and far-reaching in its mighty work, and cures as surely as day follows night.

Strayed Away.

Master Willie Foster, a bright schoolboy of Newboro, strayed up street one day recently, and it was not until late in the evening, after a thorough search by his guardian that he was found. He is beloved by all who know him, especially by his teacher, and all think strangly of Willie for straying away, although nothing happened him.

Progress.

It is very important in this age of vast material progress that a remedy be pleasing to the taste and to the eye, easily taken, acceptable to the stomach and healthy in its nature and effects. Possessing these qualities, Syrup of Figs is the one perfect laxative and most gentle diuretic known.

Carlyle's Letters.

Some unpublished letters of Carlyle, to appear in the April "Scribner," will present him in a different light from much of his correspondence. To David Hope, a Glasgow merchant, and the Rev. Edward Irving he writes with simplicity and directness, as friends who knew and understood his weaknesses and eccentricities.

Easter

Will be along very soon. Of course you want a new cape and jacket for that day. Come at once and leave your order, or select from our immense new imported stock of ready-mades. Every line new at Hardy's one price store.

Who Will Be Manager?

Collins' Bay cheese factory will, in all likelihood, be run during the coming season by Levi L. Gallagher, Wilton, Ont., who has recently bought out S. D. Clark, Odessa, and his prospective cheese factory at the well-known Five Mile house.

Dr. Spankie's Unique Nerve Tonic is the greatest, nerve tonic in the market. It gives marvellous results in nervous prostrations, and other nervous diseases and dyspepsia. $1 per bottle at Spankie's Pharmacy.

FROM TWO C. P. R. POINTS

THE NEWS OF NORWOOD AND HAVELOCK VILLAGES.

A Runaway on St. Patrick's Day and an Old Gentleman Injured—Death in Michigan —A Reeve at Last Elected—Improvements in the Handling of Coal.

NORWOOD, March 21.—The officers of the East Peterboro thoroughbred horse association are: President, F. Birdsall, Birdsall; vice-president, F. W. Fowlds, Hastings; secretary, Dr. McNaughton, Westwood; treasurer, J. Read, Westwood; executive committee, M. McGregor, Norwood; G. Blizzard, Villiers; P. Cuffe, Hastings; J. Wasson, Norwood. They have purchased the thoroughbred stallion Harry Cooper for $2,000. At the last meeting of the Epworth league of the Methodist church the following delegates were appointed to attend the county christian endeavor convention in Peterboro on April 5th: Messrs. C. N. Callander, E. E. McCay, W. A. Buchanan and Misses Scott and Lewis. A Sons of England lodge is about to be organized in this place. While driving home from church on St. Patrick's day, R. Walsh's horses became frightened at a dog and ran away. The old gentleman was dragged some distance, which effected a number of bruises on his body.

The Irishmen celebrated St. Patrick's day very quietly. The only signs of the day were sprigs of shamrock worn on the breast of followers of "patron saint." The evangelistic services in connection with the Methodist church came to a close on Friday. The number of conversions amounted to about seventy. Mrs. Dr. Cochrane and Master Charlie are visiting friends in Kingston. R. B. Livingstone, formerly of this place, died of consumption at East Saginaw, Mich. D. Booth, Campbellford, is about to open a photograph gallery here. Rev. Wm. Buchanan is to give an address at the christian endeavor convention at Peterboro. H. G. Buck intends making improvements to his flour mill. The estimated cost is $600. W. H. Dafoe was in Trenton last week. R. B. Richardson has taken the position of clerk in Richardson Bros.' store. J. Herring intends leaving in a short time to take up his residence in the county of Bruce. Miss Hammond, Orillia, is visiting her sister, Mrs. F. Fry. A gentleman from Aylmer, Ont., is about to start a woodenware factory in town.

HAVELOCK, March 21.—A. McAuley was elected reeve by acclamation on the 16th inst. Messrs. Bowes & Bisonette, of the new store, have a petition before the ratepayers to procure a shop license. Three deer were killed between Blairton and C. O. junction one day last week by a freight train. Driver Grant says they showed evidence of having been chased by dogs, and were unable to hold their own but for a short distance before the iron horse. The pay car arrived here on Monday noon and the merchants and hotel keepers put away the cash the same evening. The beautiful skating of the past week has been fully enjoyed by all who were not unfortunate enough to bump their heads. The sum of nearly $6,000 has been appropriated by the C.P.R. for the purpose of building coal sheds here, to be commenced as soon as spring opens. This will be a great improvement over the present method of coaling engines. It is understood that an additional $2,000 or $3,000 will also be used in improving the yard generally.

Messrs. James Lang, James Campnie and John Spinks have announced their intention of quitting their present occupation to twist brakes on the C.P.R. Johnston Brown, of Kingston, had the misfortune to have his foot crushed while braking here on Friday. Assessor Whitton is at work just now and judging from the number of dissenting voices for high assessment we think that the next court of revision will be a busy one. Now that the council board has secured a competent leader and have got down to business the west end club has disbanded and municipal matter will probably be allowed to pursue the even tenor of their way for the balance of the year.

They Got It At Last.

For many years scientists tried to concentrate the blood, flesh and bone making qualities contained in the oil of the Norwegian cod. They only partially succeeded. But by new chemical processes, rendered feasible by electrical forces, the life giving properties of the oil have all been captured, and are safely imprisoned within that famous remedy which is being talked about all over the country, known as "Miller's Emulsion of Cod Liver Oil." Physicians acknowledge that this is the greatest discovery, or rather the perfection of a discovery, ever given to the world. To say that it cures consumption by making blood, flesh and bone for the patient is quite enough. It is a remedy that positively needs no puffing. Many young people have been saved by its use. In big bottles 50c and $1.00 at Wade's drug store.

Molley's Perfected Worm Powders

Something new for the babies, do not require medicine afterwards and is guaranteed to do the work well. Try it and then you can see for yourself what it can do. It is the best in the market, and sold only at "The Pharmacy," 185 Princess street.

Dep. Sheriff Wheeler

Does Not Care to Live

If He Cannot Have

HOOD'S

Sarsaparilla

It would be difficult to find a man better known in the vicinity of Burlington, Vt., than Mr. R. D. Wheeler of Winooski Falls, the efficient Deputy Sheriff of Burlington county. He says:

"C. I. Hood & Co., Lowell, Mass.:

"Dear Sirs: If Hood's Sarsaparilla cost

$10.00 a Bottle

I should still keep using it, as I have for the past ten years. With me the question as to whether life is worth living depends upon whether I can get Hood's Sarsaparilla. I don't think I *could* live without it now, certainly I should not wish to, and suffer as I used to. For over ten years I suffered the horrors of the damned with

Sciatic Rheumatism

for if ever a man suffers with anything in this world it is with that awful disease. It seems to me, as if all other physical suffering were compressed into than one. I took about everything man ever tried for it but never got a dollar's worth of help until I began taking

Hood's Sarsaparilla

I have taken it now pretty regularly for ten years and have no more pain and can get around all right. I have advised a good many to try Hood's Sarsaparilla." R. D. WHEELER, Deputy Sheriff, Winooski Falls, Vt.

Hood's Pills Cure Liver Ills

"Seal Brand" Coffee At the World's Fair

CHASE & SANBORN have been awarded the mammoth contract for supplying all the coffee served inside the World's Fair Grounds against the competition of the largest importing houses in the country.

This tribute to the Excellence of the "Seal Brand" proves that it is the best Coffee Grown.
