ST. JACOBS OIL
TRADE MARK
THE GREAT REMEDY FOR PAIN
SPRAINS, STRAINS, INJURIES.

It is an erroneous idea to suppose that great force is required to produce a strain or sprain. There are so many delicate muscles and tendons which hold together the ankle and foot, and direct the vehicle of locomotion, that a very slight thing often causes not only a painful, but a very serious sprain, which St. Jacobs Oil overcomes.

SURELY AND PERFECTLY.

Weak Spots.—A large number of cases is reported of accidents to the ankle or foot, more than to all the rest of the body. The knee is also a very delicate centre of action, and injuries thereto very frequently result in acute pains, enlargements, stiffness, and sometimes permanent stiffness, unless St. Jacobs Oil prevents, soon.

BEST CURES ALL "CHRONIC CASES."

Definition.—Sprains or strains to weakened, as a joint or muscle, by sudden and excessive exertion; to stretch muscles or ligaments without dislocation, and St. Jacobs Oil cures.

EASILY AND WITHOUT RECURRENCE.

Treatment.—Rub with St. Jacobs Oil freely and this easily the part affected. Protect the body from cold and draft.

I AM A MAN

"I have been treated by doctors, who had long lists of so-called cured patients, but they could not reach my case, and hope had been murdered in me by fair promises, but on first application of your magical appliance, hope and confidence came flocking in stronger than the combined powers of the four winds. I knew then that you would cure me, and now that I am a man and well again, I cannot thank you sufficiently for the cure. So again I say, use my name as reference whenever you wish. You nor any one else cannot use words too strong to express my sentiments in favor of so wonderful a treatment as that given by you."

Rupture.

POSITIVELY CURED by my patent truss (Guaranteed). Over 200 people in Central Canada including prominent members of the medical profession, endorse the above assertion. Infants, children and adults no matter how bad you may be, come and see me. I will fail to give you satisfaction. I will pay your expenses both ways.

The following testimonials are fair samples of what I am receiving from all parts of America.

TESTIMONIALS.

Ottawa, Dec. 18th, 1891.

J. L. ARMSTRONG, 704 Bank St., Ottawa.

DEAR SIR,—In my practice I necessarily meet with many cases of hernia or rupture. During the past 18 years I have had occasion to use trusses of many patterns with the usual results obtained from belt and spring trusses, viz.: very unsatisfactory. Until I recommended of your patent appliances, adjusted by yourself, all have been little better than useless. I am perfectly satisfied that several of my patients have been cured by you, therefore I voluntarily recommend anyone afflicted with hernia to apply to you at once and I have no doubt that every intelligent physician, as he becomes acquainted with your ability to cure rupture, will gladly recommend you to his patients. A. A. HENDERSON, M. D., 414 Albert Street.

Ottawa, Dec. 20th, 1889.

I have much pleasure in testifying to J. L. Armstrong's ability in the mechanical treatment of hernia or rupture. HE HAS very successfully treated patients of mine, ranging in age from a few months to 60 years. Most of these patients were afflicted with very troublesome and in hernia, which had failed to be relieved by all the trusses tried. The principle of his patent appliance seems to be perfect. The support is directed against the seat of rupture only, and can be manipulated to retain securely. I unhesitatingly recommend Mr. Armstrong to the consideration of the profession and the public. HENRY P. WRIGHT, M.D., 279 Sparks Street.

Ottawa, Dec. 6th, 1889.

To J. L. ARMSTRONG, Esq., 704 Bank St., Ottawa.

I voluntarily certify that I have more faith in your ability to cure rupture than any other man in America. You have been prior to me invariably successful in curing patients of mine. May you enjoy the extensive patronage you merit and deserve. ROBT. MARK, M.D., L.R.C.P.S.E.

If you've tried our 40c. tea you know what a delicious beverage it makes; if you haven't there's a treat in store for you. China never produced anything that surpasses it and China never will. A second rate article in tea is worse than none at all; you're infinitely better off without it. What is true of tea is true of coffee also. Good coffee takes high rank among the luxuries of life and bad coffee—well, the less that is said of that the better. If you want a cup of coffee which is matchless in taste and flavor try our best only 40c a pound.

WARM FOR HARTY.

The People of Kingston Township Are Thoughtful—They Do Not Forget.

CATARAQUI, Feb. 17.—The only excitement at present is political. The great question is who is going to be elected. At first there was a feeling against Mr. Harty, the reform candidate, but after he presented himself and addressed the electors in his peculiarly frank, candid and honest manner a great deal of that feeling has subsided. It must also be admitted that Mr. Drennan's nomination was not received by his party as favorably as would have been that of some other conservative. Mr. Drennan's appearance before the people, last night, did not remove that feeling. Many have expressed disappointment that he did not specifically deny the statement made in the WHIG of March 4th, 1891, that when told, by a gentleman, that the farmers were injured by the N.P. Mr. Drennan should have consigned them to that region where perpetual dog days are said to reign supreme. It may be that in making known his desires with regard to the farmers on that occasion, that he was actuated by that extreme kindness of heart—which the gentleman who suffers under the hallucination that "the mantle of Sir John A. Macdonald has fallen on his shoulders," referred to in his speech in the city hall at the nomination—that if they were not in a prosperous condition they might reach a climate where they would not suffer from the inclemencies of the weather, even if they were not able to indulge in fur coats and other expensive winter clothing.

There are many who, while they think there should be a strong opposition in the house, at Toronto, have come to the conclusion that this electoral district has done its share in furnishing that opposition, and that it is about time a supporter of the government was sent, so that "when we ask for bread we will not be given a stone." E. Riley has wagered a considerable amount that Mr. Harty will have 200 of a majority, and says he has lots more to invest in the same way.

He Had Great Success.

Phenomenal success has attended the opening of a Canadian house in Kingston for Miller's Emulsion of Cod Liver Oil with hypophosphites of lime and soda, the Carragenn process. Is made easy of digestion instead of difficult, therefore it is very superior to ordinary emulsions; over fifty per cent of Norwegian cod liver oil is retained, and yet it is mixable with water or milk, has no oily taste like other emulsions, and will not, a parate or spoil. With such fine qualities no wonder it is knocking some famed but old-fashioned emu sions out of the market steadily. Wade's drug store.

The Most Common.

The most common ailment which afflicts the mass of mankind is rheumatism, depriving many of work and support, and torturing them with acute pains. No remedy has been more successful in the prompt and permanent cure of this malady than St. Jacobs Oil. Physicians say so. Many of them use it in their practice.

It was very edifying to see the crowds of people going to and from the church from early morning until late at night. The tea meeting and social held last week, in aid of the Methodist church, was a grand success; proceeds amounted to $125. Mrs. Hiram Barker, ill for some time, is gaining.
