Holloway's Ointment and Pills.

A cure of abscesses, piles, fistula, and sores of every description. The very satisfactory results arising from the use of this invaluable Ointment, when the patients have been suffering from any of the above disorders, have induced the medical profession to introduce it into the hospitals and their private practice, and in many instances where the sufferer was considered incurable. Holloway's Ointment, in conjunction with his pills, healed the mean desperate cases. They are also unequalled for the cure of scrofula, scurvy, and all diseases of the skin, and the cures they effect are not temporary or imperfect, for by their purifying powers they bring about a marvellous and most beneficial change in the whole system, and enable it, with renovated powers to resist the approach of all future attacks of the same disease.

BASEBALL CONCERT.

A Lively Entertainment And a Good Sum Realized For Club Needs.

ODESSA, June 1.—George Hamm, accompanied by Miss H. Aylesworth and George McCombs, are visiting friends at Madoc. Miss Matilda Gardiner has returned home from a visit to Madoc. Little Albert Wright, aged three years, died on Thursday last. He was a sufferer from a complicated disease. The funeral took place on Friday to Catarraqui. The services were conducted by the Salvation army, of which the father is a prominent member. The township council met on Monday and transacted a large amount of business.

The baseball concert, on Saturday night, was a success. It was greeted with a full house. The programme was of a varied character and for about two hours the crowd was kept convulsed with laughter and delight. The musical part was grand; the choruses by the club, quartette by Misses Hamm and Schermerhorn and Messrs. Fred Schermerhorn and R. Chance were received with loud applause. The comic songs by R. Chance and Zy. Storms brought down the house. The literary part was well sustained by Miss Florence Walker, T. K. Morley, George Millsap and others. Misses Georgie Watts, Odessa, and C. Whitcher, Lanark, presided at the piano and fulfilled their parts with a grace and tact that won for them the favor of the audience. The presentation of amateur minstrelsy, by the boys, kept the crowd in good humor for about half an hour, their local hits being pleasing. The proceeds were sufficient to purchase all the paraphernalia necessary for the equipment of a first-class club.

The base ball match, on Saturday afternoon, between Odessa and Murvale ended in a disputed game. Odessa made objections to a play made by a Murvale boy and the umpire, who seemed to have a faculty of not seeing anything that was disputed by Odessa, was unable to give a decision. The Murvale boys are good players, and, above all, are gentlemen. It is to be hoped the next time they visit any place to play they will have the good taste to select an umpire that understands the game. There is considerable competition in the cheese industry in this township, and many are the claims that "we are the farmers' friend." The first payment of cheese money was watched with considerable interest, and as a result we present the following conundrum to the public for solution. The first correct answer handed in will be framed, the lucky one to receive a "whole cheese" for a prize. How is it that when we, the farmers' friend, sell our cheese for half a cent more at the board and pay an eighth of a cent less for making it at the factory, that the "other fellow" can pay the patrons one cent and four-fifths more on the pound for their milk. Answers to be in by next pay night. Let her go, Gallagher!

WOLFE ISLAND MATTERS.

A Pea Harvester That Will Work Wonders in the Field.

WOLFE ISLAND, June 1.—The Rathbun company is replenishing the stock in its lumber yards here. The sloop Idlewild and the scow Sovereign brought lumber from Trenton and Deseronto last week, while the barge Isis brought a load of shingles, lathes and cedar posts this week. W. L. Allinson, the energetic salesman, is rapidly booming the business. J. B. Murphy, proprietor of the City View park, was over this week making arrangements preparatory to his moving on the first of July. The addition to Mr. Costello's hotel is nearly completed and is quite an improvement.

The pea harvester invented by Alexander McLaren will be a valuable contrivance for the farmers. It is an attachment fastened to the mower for the purpose of throwing the peas out of the way of the machine. It has been tested and proved a success. The demand for it will undoubtedly be great. Mr. McLaren is already in receipt of correspondence from several manufacturers of agricultural implements relative to the purchase of the right. Messrs. W. Furlong and James Dawson left for Rochester last week. Miss Nicol, Catarraqui, has been engaged to teach at "Knapp's Point academy" during the summer. Miss Morgan is conducting the Ridge school.

A New Departure.

THE FATHER MATHEW REMEDY

Is a certain and speedy cure for intemperance, and destroys all appetite for alcoholic liquors.

It is at the same time a febrifuge, a tonic, and an alterative. As a febrifuge, it drives away the internal fever which consumes the intemperate, and gives him a craving for liquor; as a tonic it renovates a healthy action in the stomach and his liver, which are almost out of order, and builds up his nervous system; as an alterative, it makes a new man of him.
