

The Infiniti QX50 compact luxury CUV has been enhanced for 2016, with revised styling and first-class interior appointments.

Infiniti's QX50 CUV has the heart of a coupe

By Jim Robinson
Metroland Media

SAN DIEGO, CA: Infiniti describes the 2016 QX50 as having "the

body of a crossover, the heart of a coupe."

Infiniti was one of the first to recognize the growth potential of the small, luxury CUV segment,

which has mushroomed in Canada from about 15,000 sales in 2007 to a projected more than 50,000 this year.

It features revised exterior styl-

ing with the inclusion of LED fog and running lights and an updated take on the signature "double arch" grille, new door mirrors with LED turn flashers and a new

bumper with rear valance panel. The standard wheel is an 18-inch aluminum or model specific five-spoke 19-inch aluminum wheel.
