BACK TAXES.

There is a good deal of misunderstanding in regard to the arrears of taxes of which a record is given in the auditors' report. Omitting the items for 1890 and 1891 and the balance of the taxes appears to be worthless. They run thus:

1879 to 1889	$ 3,724 53
1887	978 52
1888	1,245 00
1889	1,309 91
A total of	$ 7,257 97

Now the impression prevails in some quarters that these are simply unpaid taxes, not uncollectable as it is said they are. The finance committee will no doubt report upon the facts, it having been requested to write from the treasurer's books such sums as should not be called assets when they are irrecoverable. The correspondence on the subject is more or less misleading, especially as it concerns the auditors. They have nothing to do with the balance of taxes beyond reporting upon them, and in 1885 they said in their annual statement to the council: "We would recommend that the arrears of taxes for the years 1879, 1880, 1881, 1882, 1883 and 1884 be written off as they appear as assets when they really are not, being uncollectable. It may be asked, How did they know that these taxes were uncollectable? Did they make a personal examination into the facts? Not likely. They took the statement of some official who was presumed to know whereof he spoke and delivered himself with some authority. At the same time investigation is in order, and the finance committee will be justified in ascertaining if a special effort can lead to the collection of these old dues or any portion of them. Some years ago a special committee took hold of this work and it collected a lot of money which was supposed to have been lost to the city.

MODEL SCHOOLS.

The report of the committee appointed at the last meeting of the trustees' association to inquire into the working of the county model schools recommended that the number of model schools in the province be reduced to twenty-five; that the schools have a separate building or room set apart for their use, fully equipped; that pupils be drafted from the public schools every day for these schools, the schools being located where there is sufficient school population to furnish such pupils; that the qualification of master be raised to that of a university graduate of five years' experience in teaching, part of which must be in the public schools, or a first-class teachers' certificate grade "A"; that a grant of $9,000 be divided among the model schools, and that the balance required for the maintenance of the schools be levied on the county or united counties forming the district; also that there be two terms in each year, of four months each. The report was adopted, and the question follows, What will be its effect upon the educational system? That the recommendations of the trustees association will have some effect goes without saying. They may not lead to the results aimed at, but they should certainly bring about an order of things which will serve to preserve the efficiency of the model school work without detrimentally influencing the work of the public schools as it does to-day. The teacher of the Central school has for two or three months to abandon his class and spend his special energies upon the candidates for third class certificates, and it must be patent to any one that his substitute, however clever, cannot carry on his regular work with the desired success. The usefulness of a teacher is nowadays very largely estimated by results, and if the principal's class in the Central school is not characterized by special brilliancy the fault is not his but of the school system which divides his attention between two classes of pupils to the advantage of the one and the disadvantage of the other. The public schools and the collegiate institutes should be free of the interruption in their general course by the special training of candidates for teachers' certificates. This should be accomplished in some such way as that suggested by the trustees' association. It reflected the views it gathered from practical experience and the education department is not likely to look lightly upon them.

EDITORIAL COMMENTS.

Edmund E. Sheppard, the foremost young men's conservative candidate in Toronto for parliamentary honors, says the want in Canada to-day is A MAN to lead in political life. The government of Ottawa is, in his opinion, a combination of duke.

* * *

The Kingston paper that said that the Canadian conservatives were "free traders in the abstract will have occasion to revise its opinion. Experience has demonstrated that they are "free traders in the abstraction." And the term covers a multitude of sins.

* * *

Mr. McLean, M.P., having operated upon the York county council it passed a resolution in favor of a law making the maximum railway passenger rate 2c. a mile. This gives Billy encouragement and he assures us that "we shall be willing to 2c. a mile before another general election." We hope so.

* * *

The Toronto Mail says the NEW holds the same relation to the party which the late lamented Globe had towards President Garfield. On the contrary it seems to be no rather what it used to be, a party organ and keeper the unfettered expression of public opinion. The Empire is jealous of its influence and acts the part of the political assassin.

NO ENCOURAGEMENT.

The Man Who Invest Their Earnings Fined For It.

Toronto Ledger.

Those who are agitating for the single tax scheme of raising money for municipal and other expenses need wish for no better aid or argument than that which is afforded by the principle upon which presents taxes are levied and collected.

For instance, a man decides to improve the appearance of his house, possibly a frame structure, and encasts it with brick and put in a new front. He spends one or two thousand dollars. The assessor comes along and notes the changes, and promptly slaps on an increase of assessment equal to or above the amount of money laid out. And so the man is fined, or what amounts to the same thing, is taxed for his taste and enterprise.

The proprietor being probably in the receipt of a salary of say $1,000 or $1,500 per year has paid an income tax regularly on the greater portion of this sum for years, but by economy, care and self-denial has laid by enough to make improvements outlined above, and as soon as the money is put into a different shape and been paid out to mechanics and artizans for brick, iron work, glazing, plumbing, etc., he is fined for doing it, in the shape of taxes.

This is no way to encourage enterprise, thrift and public spirit.

A Correspondent Removes.

DONALDSON'S MILLS, Nov. 28.—Since last week's WHIG came out there has been many anxious eyes looking for the great comet. Some are greatly alarmed. S. Donaldson's men reported that they saw a bear in a tree on Saturday. They shot it but when it came to the ground it proved to be a large porcupine; it weighed fifty pounds. There is likely to be a large amount of timber of various kinds taken out in this vicinity. People have begun to draw already and piles of stuff may be seen along the track. Our teacher, Mr. Brown, leaves us soon. We are sorry to lose him. On dit that P. Bartreau and Stephen Peters, of this place, have taken to their keeping two of Snow Road's fair ones, the former Miss Annie Hughes, the latter Miss Pebbie Kelford. Who says leap year has no effect? Many of your subscribers and others are at a loss to know who your correspondent is for this place. But it is not worth their while to wonder about it as I must now leave them and return to Belleville, where I expect to spend the winter in college. I hope some one else will take up the work until I return. There is always something of interest to write and it is always a pleasure to contribute to anything good. I hope the WHIG may be as well represented here and at Snow Road in my absence as it is circulated, and I will read it with interest, as the WHIG will follow me as long as it keeps up the high standard it now maintains. A merry Christmas and a happy New Year to you all.

Athens Announcements.

ATHENS, Nov. 28.—S. Klyne occupied pulpit in the Methodist church Sunday morning and Rev. Mr. Service, of Mallorytown, in the evening. The Epworth league is preparing for a series of monthly temperance lectures. The high school literary society is to give the usual entertainments during this winter. These entertainments will be both amusing and profitable. Mrs. George Sharman is recovering slowly from a severe illness. Mrs. Robinson troubled for some time with tumor had an operation performed on Thursday, which we are sorry to say did not have the desired effect. She died on Friday morning. D. M. Wood, Toronto, formerly of Athens, is here on a visit. Mrs. Woods, Gananoque, is visiting her son. The R. T. of T. has organized a strong lodge. They meet every Friday night at 8 o'clock in Lamb's hall. The latest news of our town is that of a hog going skating. Charles Wilties was driving a hog on the road and it ran on the mill pond, fell and went through. It was a big loss as it is thought it would dress 350 lbs. A couple of venturesome boys skated over Wilties lake Thursday night. They say the lake is splendid. The new bank is nearly completed.

Buying More Land.

MOUNT PLEASANT, Nov. 28.—The late weather has hindered the farmers in their fall plowing; there is a good deal of plowing yet to do. It is rumored that we are going to lose our school teacher, Miss Thompson. She is an excellent teacher and the school section would do well to engage her for another year. J. Long, owner of the Frazer property, has bought the farm belonging to C. Jenkins. The last of the cheese made in the Palace Road cheese factory was sold, Nov. 19th, to Mr. Thompson, Napanee, for 10½c per lb. Mr. Gerow this fall closes up a successful business. B. C. Loyd is shipping apples to Michigan. He says the scarcity of apples there is great. Mr. Long, Gildersleeve farm, has sustained a loss of about fifteen head of cattle this summer from several causes. Albert Hawley is again attending the high school, Napanee. Miss Detlor, Napanee, is visiting her sister, Mrs. Wm. Shorey. E. Reid, Napanee, has been looking after Mount Pleasant school.

A Neglected Cold In The Head

Leads to catarrh, perhaps consumption and death. Why neglect with such a safe, speedy remedy as Nasal Balm at hand? D. All dealers or by mail post paid at 50c small and $1 large size bottle. Address G. T. Fulford & Co., Brockville, Ont.

Why Not Tell The Truth

With a revenue of $36,900,000 this current year, as compared with $38,579,000 in 1891, and a surplus of $250,000, together with cheap sugar and a free breakfast table, the government may well feel proud of its financial management.—Toronto *Empire*.

All but the cheap sugar and free breakfast table. This delusion has been repeated by the *Empire*, parrot-like, until it probably believes it, but no one else does. We cannot have free sugar on the breakfast table until sugar fit to be used on the breakfast table is admitted duty free.—*Canadian Manufacturer.*

The Black Pepsin Fraud.

The Albany *Cultivator* says the rascally device served the same swindler's purpose before. The author of black pepsin circular is James A. Bain, of Ohio, who in 1882 signed himself as secretary of a bogus "North American Poultry company," and offered valuable information about incubators which proved to be worthless. He has been in states prison for offences of the kind. The "black pepsin" was to be obtained for so many stamps of "The Concord Chemical Co.," New York, but it is found that no such company exists in that city, and that the postmaster has forwarded letters directed to the company to Ohio, to Bain's location in 1882.

That unrivalled cough mixture "Magnus Expectorant" has been in the market only a short time, but it has become the greatest favorite with the people, and is doing more good than anything else of its class. Only 25c a bottle at any drug store in town.

The heirs of the late P. Sprague, Prince Edward, are after the executors, claiming they failed to administer according to the will, as there should be about $2,500 in the executors' hands for the heirs on the death of P. Sprague's widow, which occurred about one year ago. The case is on.

Salvator Magnus is not a planet. It is not a patent medicine. It is not compounded by mysterious or supernatural agencies. It is not a fraud or a humbug. It is the most potent remedy for lung diseases ever produced. It dissolves tubercles, promotes expectoration, heals the lungs. It has given hundreds of undeniable proofs of its efficacy. It can be obtained at any drug store in town. Buy it. Try it. Price $1 a bottle.

It is not improbable that next year the construction of a branch to the Lake Shore house will be an accomplished fact. Steps are being taken by the circulation of petitions among the people of Athel and Hallowell, asking the legislature to grant the right of way across the beach from Wellington to the Sand Banks.

"It Cured Mother."

GENTLEMEN,—My mother was suffering from dyspepsia and had no appetite. Everything failed to cure her until one day, while visiting a friend's house, I saw a bottle of B.B.B. on the table; on inquiring what they used it for, I soon found out what it cured, and when I went home told mother that she should try it; she said she had no faith in anything and objected to try it. Notwithstanding her objection I went in the evening and brought home a bottle but it was in the house for a week before we could induce her to take it. At last, as she was getting worse all the time she consented to try it, and on taking half the bottle found it was easing her. Another bottle cured her, and we believe, saved her life. We are never without B.B.B. now. It is such a good remedy for headache as well. E. WESTON, 15 Dalhousie St., Montreal.

Ravages of Diphtheria.

DUNDONALD, Nov. 28.—Diphtheria broke out in Colborne lately, in the family of the Rev. Thomas Brown, pastor of the Methodist church on the Salem circuit, who had an interesting family of six little girls, ranging from one to eight years of age. Two of them have died and some of the rest of them are ill, but are not considered to be dangerously so. Rev. Mr. Watson, pastor of the Baptist church in Colborne, has also lost a child by the present visitation.

A Great Surprise

Is in store for all who use Kemp's Balsam for the Throat and Lungs the great guaranteed remedy. Would you believe that it is sold on its merits and that any druggist is authorized by the proprietor of this wonderful remedy to give you a sample bottle free? It never fails to cure acute or chronic coughs. All druggists sell Kemp's Balsam. Large bottles 50c and $1.

GRASPING, AVARICIOUS CAPITALISTS

IS WHAT OUR COMPETITORS CALL US.

GRASPING.—Because we want the trade of thee Earth! AVARICIOUS—Because we hang on to the almighty dollar. CAPITALISTS—Because we have the money to outbid them in the wholesale markets.

Well, you can see what it amounts to. Success always creates envy and distrust. If we were only half as successful we would only be feared half as much as we are.

Our push and principle alarm our competitors, our business grip makes them wince, our Big Sales excite their envy our popularity is what they cannot block and must put up with.

PHILLIPSVILLE PARAGRAPHS.

The Things That Are Noted Among the People of This Section.

PHILLIPSVILLE, Nov. 29.—Mrs. M. Curtis, Watertown, N.Y., is visiting friends and old neighbors here. Our cheese factory is still making from eight to ten cheese per day. L. L. Brown has returned to town again having spent the summer with J. E. Brown, of Delta. J. E. Brown has been repairing his cow-stable by putting new rails and putting in concrete floors. Wm. Tackeberry is wearing a very pleasant smile; a little stranger has come to stay. The steam thresher has retired for this year, having had a busy season of three months. C. Pennock and D. Wood went to Kingston last week with a load of poultry. Delorma Wood, of this place, attended the funeral of his aged mother at Athens last Friday.

R. Pope has rented the Lockwood farm, better known as the King farm. John Nowlan is tax collector for the Centre ward. Very little talk about the council for another year. Some new blood is expected to be introduced. As far as we are concerned we would return the old council by acclamation. A resident is said to have forged the name of one of our farmers to an order for seventy-five cents, and now the officers are after him. The trustees of the public school have employed Miss Copeland, Harlem, to teach the Phillipsville school for the coming year. Rev. Mr. Murdock, Athens, will preach in the Baptist church next Sabbath, Dec. 4th. A basket social at Roy Mr. Moyle's on Tuesday, Dec. 6th. A number of the members of the Phillipsville division of the Sons of Temperance have sent their names to Delta with the intention of joining the division at that place.

A Clever Act.

A story is told on the quiet about a man and his son who live near Charleston Lake who were caught raising nets by one of the inspectors. Not having licenses, the inspector gave them their choice—either a fine of $20, or their boat and nets; in reply they said he could not have boats or nets, and that he might go ahead, and the inspector left and later on the son entered a complaint against his father for illegal fishing, the old man was fined five dollars, and as one-half of fine goes to the informant—his son got two and a half dollars, and they go on their way rejoicing, having beaten the inspector.
