Worth Reading

We offer this week a Patent Rolling Out Pin Butter, which makes the bottom dough just touch the bottom and consequently leaving it dry. We also have Cook Oil Cloth made the same way at popular prices.

The Celebrated Egg Beater, the Best on the Market, a bargain at 14 cents, usually sold at 35 cts.

Coppers & Pennies wanted. We will pay 3 per cent. premium on the Dollar. To children we will give a present for every Dollar's worth they bring.

CUTLASS—In this we claim to have one hundred styles, many of which we think are our best sellers. Our Knives and Forks are of the best makes, and our prices we do not allow to be offer than others charge for inferior goods, which are fully of as good value as the lowest competitor. A full line of 8 holes, black, white and brown mottled, cuddies, bedroom and nursery commodes, sheet iron goods, 2 quart pitchers for 50.

Blacking Knives, black, white or brown, polished handles, 6 inch blade, best steel, at 14 cents each.

SCALPS—In this department we still continue most of our old popular brushes, besides other new and useful ones. We are now selling more Toilet Soap each month than we did during the entire year of 1882, and we think this fact speaks well for quality and price. Most of our soaps are sold at 4, 5 and 7 cts. a cake, but we have many other very fine Scented Soaps at 10 cents a cake, usually sold at 20 & 25c. We also sell 8 bars fine Laundry Soap for 25c.

THE CHINESE WASHER, the best and most convenient Soap for washing goods ever introduced. Any is an wholesome process.

We have a large assortment of SPONGE BRUSHES, which we offer so cheap that no one will afford to buy and let all your children go to school.

Goods plainly marked, sold at one price, and being that other merchants can be proved to. The amount of our sales convinces us that our goods and our prices are satisfactory to us as well as those who buy.

CITY AND VICINITY.

Fresh—Strong winds and gales, generally mild weather with show areas, higher temperature.

No begin clearing out sale at Burgess & Sill's, but call and see the prices at which they are selling goods and you will be convinced that they meet hard times.

EXCELSIOR, AS FORTH.—The Evangelistic Alliance is arranging for an exchange of pulpits on Sunday next. The announcement announcements are hearty & feeling that it is among the preachers.

WEATHER THEORY.—The cold weather has been general and our telegraphic accounts say it has ranged from 24° to 52° below zero. It was 34° at Port Colborne, 32° at Dundas Village, Que., it was 22° at Ottawa, K.C.

MOST ELEGANT PERFUMES.—Parties intending to purchase Christmas Presents will find the most elegant perfumes and toilet articles, presently advertised, at Mr. Wm. Dyde's, Drug Store, Princess Street.

Mr. Kilbock, of Belleville, General Agent for the Ontario Mutual Life Assurance Company, is in the city looking after the interest of his Company and reports it as having issued 1,340 policies last year, being a larger number than any one was issued in any one year before. John Patton is the agent for this city.

A GOOD MILL.—The grist mill of Mr. R. J. Kilbock is doing a good trade. This morning he turned out his first corn meal. It proved to be a prime article. During the past few weeks Mr. Kilbock has been manufacturing much crack feed, composed of pure grain. It seems to have already won popularity. Mr. Kilbock is also grinding feed for the farmers.

CHINA WEDDING.—Old Holiday night last the fifteenth anniversary of the marriage of Mr and Mrs George Moore, Pittsburg, was celebrated at their home. The occasion was termed a "china wedding," and numerous elegant presents were given to the couple. The company present had a good time, and the hours of the meeting passed pleasantly away. Mrs. Moore was a daughter of Mr. John McLean.

DISTRESSING ACCIDENT.—During the late fall William Preston, of Amherst Island, left his overcoat at the American Hotel, receiving a check therefor. When the check was presented the garment was given. No settlement was reached. Mr. Bourque desiring to know how far he was responsible to Preston for the value of the overcoat, the Division Court yesterday and a verdict for $20 given for the plaintiff. Mr. Bourque was declared to be responsible for the safe delivery of the coat after issuing a check.

CHEESE MEETING.—Recently a meeting was held in Gloworth in the interest of cheese factory enterprise. Mr. Robt. Gibson, who always takes a leading interest in agricultural improvements, was called upon to preside. A company was formed and the patrons, who produced the milk of 125 cows, resolved to allow Joseph Cranmer (who has a truly professional name for a cheese maker) 8½c. per lb. for making, he to pay all expenses. Patrick Smith and James Gibson were elected a factory Committee and George Bennington was appointed salesman and Secretary and Treasurer.

THE GRAIN YIELD.—The grain trade has flattened out completely. The farmers are bringing in very little of their crop; prices are so low that they will not sell. The only article for which there is demand is oats. They are worth 35c. Mr. Kilbock has a contract to deliver 10,000 bushels to a Toronto firm, and is carrying the order the pr'ces are kept up. The local supply appears to be considerable. The merchants state that they are selling the grain for less than they paid for it. The figures paid now are: Barley, 40c. to 45c. per bushel, wheat, 85c. to 90c.; rye, 55c.; peas, 70c.; oats, 35c.; corn, 70c.

HERE AND THERE.

Laconic Arrangement of Items of Local and General Interest—Easily Read & Readable.

The western mail was over an hour late to-day.

Mr. John Williamson, jr., has returned from Manitoba.

Rev. E. P. Crawford has been appointed High School trustee for Brockville.

The atmosphere was very cold to-day. Vennor's predictions have certainly come true.

The Ballotters of Belleville will be addressed by Mr. Wm. Paterson, M.P., this evening.

Belleville has 4,800 ft. of good serviceable hose. Kingston has considerably less.

Henry Wade, the druggist, is sending forth a shower of Vennor's almanacs for 1883.

The Bertram Bros. are doing a rushing business in cutters and sleighs at Harrowsmith.

The Richardson Bros. the Brockville bressers, are to decorate the R. C. Church at Napanee.

Andrew K. Gordon, of Toronto, is at the Burnett House. He is connected with the Meteorological Department.

The road to the islands across the ice, has been staked. The crossing at the city is at the foot of Gore street.

The Rochester Democrat and Chronicle of New Years greeting, is the handsomest piece of printing we have seen for some time.

Officer James Neal has made application for the $40 weekly given by the county for the capture of horse thieves.

A charge against an old lawyer of selling liquor within prohibited hours was dismissed at the court this morning.

Col. Wylie has been for 35 years a member of the Brockville Public School Board. He has been Chairman for over 20 years.

The C. M. Church, Hillsmith, will be re-dedicated on Sunday, the 21st inst., and a tea meeting and lecture the following evening.

The proprietor of McCarthy's hotel, Prescott, has secured Johnson Whalley as his representative on the Kingston and Quebec.

The letter of complaint regarding the assessment in Storrington comes from a Conservative, so that party feeling is not in the least the controlling motive.

Two communications have been held over until to-morrow. One is a reply to Dr. Wilson, on Paradise, and the other deals with worship in the Opera House.

It is understood that the Evangelical Alliance will debate the propriety of conducting religious services in the Opera House. The clergy are not at all on the question.

The cut of Kingston Asylum, appearing annually in the Ontario Bee book, is a gross libel on the institution, and a penny subscription should be taken up to purchase and destroy it.

Mayor Gaskin is no ordinary Bella. He has at last struck a fashion that is not only superb in its pure imagination but colossal in its impudence as well. The character that cannot be attacked without such a dishonorable resort need not feel disturbed.

The annual missionary meetings for Ontario Diocese in North Frontenac will be held: Parham, Tuesday, Jan'y 23rd; Oliden, Jan'y 24th; Roseby, Jan'y 25th; St. Paul's, Ops, Jan'y 26th, each evening at 6.30 p.m. The Rev. F. W. Kirkpatrick, Rural Dean, is to attend.

SQUARING THE ACCOUNTS.

Doing the County—The Government Settling Very Old Claims—A Statement.

We learn that the County Treasurer, T. F. Vanirven, has received a notification from the Ontario Government that the $1,021.36 has been allowed the County as the Government proportion of certain accounts connected with the administration of justice, and which, by some strange oversight, the late Treasurer had neglected either to charge to the Government or give the explanation required prior to the proportion being credited to the county. It will also be within the memory of most of our county readers that about twelve months ago Mr. Vanirven called the attention of the Warden to the matter. He was advised to collect all the accounts he could of the character and attend a Committee meeting which was to take place the following day. The Treasurer placed the matter so plain before the Committee that they felt justified in taking immediate action. The County Council then appointed a Special Committee, consisting of Mr. D. J. Walker, the Treasurer and others, who, following a thorough examination, prepared a statement of the facts, which when presented to the Government by a deputation consisting of the Warden (Mr. Fair), Messrs. Walker and Vanirven, resulted in a pledge that if on a thorough examination on the part of the Government the parts as stated by the deputation were borne out, the Government would do substantial justice in the matter, and which pledge as above stated has been carried out. This sum may be further supplemented by some hundred, as quite a number of the accounts have been laid over for further explanations. Much praise is due to the Warden and the Committee having this matter in charge as it is great owing to their exertions that the County Treasury is richer to the extent of $1,000. The County Clerk and Treasurer should also be complimented for the zeal they manifested in making out the detailed statements when the records were so confused.

STOCKS IN 1882.

Cotton stock, though showing little change from week to week, experienced considerable fluctuation during the year. Canada cotton ranged between 130 and 138, closing at 135; Dundas cotton, between 105½ and 107, closing at 120; and Montreal cotton, between 130 and 140, closing at 138. Richelieu was most unreliable, beginning at 75½, mounting to 95, relapsing to 45, and finishing the year at 65½.

MARRIED YET SINGLE.

A Joke Played Upon a Storrington Blacksmith—So Near and Yet So Far.

Storrington has harbored a practical joker, which, if it be not a new idea, was very successfully carried out. Love, it is said, inspires at locksmiths in its determined mouts; in its playful hours it pokes fun at blacksmiths.

A blacksmith of one of the prosperous villages of this township of lakes and strong politicians, who has lived the allotted age of man, turned his wife a few months since, but felt that a tender regard for her memory is not inconsistent with the proverb—it is not good for man to be alone. Therefore he set his cap, or most to a very unpicturesque night cap in his case for several young ladies in succession, with discouragements which would have dampened the ardor of 999 widowers out of every 1,000, and driven a few to suicide because they felt so alone that they could not bear to wait until a hired male could kick them to death.

A young lady engaged to one of the leading farmers of the township, was the object of a desperate siege by this son of Vulcan. But the head of the house very sensibly gave him the "grand bounce," and the oft disappointed lover gave way to tears. The outward exhibition of his sorrow brought friends in place of the sneering acquaintances of rich, and he relied implicitly on their offers of mediation. All sailed smoothly at this latter day Miles Standish court ship, to the venerable lover's view, and he responded in a wedding appointment, engaging an orchestra and providing cake and wine for the traditional feast. In due the eventful hour came a flood of tears, the ceremony proceeded and he had a fresh rosette tint for that poor old man. But at the latest stage it was prudent not to allow the veil to proceed even as a joke. It was disclosed to him that his bride was a boy in disguise, and that the minister was but a layman, indeed the son of the farmer who was expected him, and who felt that he was taking a privileged step that he might secure the young lady of the house from further disagreeable intentions.

Doctor Jer felt very weak indeed over the exposure, but it is certain that he will no longer seek after any captivating May in Storrington, for the jeers he encounters keeps him in doors. The same trick was recently played elsewhere in Ontario, and may seem a strange one to be successful. But in this latter case it is an over true tale, and truth is ever stranger than fiction.

VIRGILY TIT-BITS.

My unforeversable temper!—Whoever saw me mad?—John Maldmay.

A second time that man Gaskin has cut me.—Tom Doolan.

Me too.—Inspector Glidden.

Just imagine a 225-lb. Alderman sitting down to a 4-pound turkey.—Billy Tobin.

I wouldn't submit to it.—Economical John.

So say we all of us.—Returing Council.

I'm getting a new frock out for the inaugural.—C. Livingston.

And I'm making a pair of caribou socks.—W. Allen.

1882 was a very dry year.—Stonewall Jackson.

I die like Moses, within sight of the promised land, but if I'd had Moses' rod and split the rock at McCammon's corner Princess Street would have been watered.—Ald. Depain.

When lawyers are going into the soft soap business it's time for me to get out of it.—W. Little.

A soda fountain is a mighty poor thing in a water election.—Dr. McCammon.

Ma, look at him!—The new pappa.

ART ENTERTAINMENT.

On Thursday, Friday and Saturday, and on the afternoon of the latter day, there will be entertainments in the Opera House which should here, as elsewhere, command the support of all classes in the community. These entertainments consist of Prof. Charles Richardson's art illustrations. The *Dominion Churchman* says of them:—"The scenes were, indeed, of extra merit, and shown with great skill, and explained with good taste. The views of Trafalgar Square, Cleopatra's Needle, Somerset House, the Thames Embankment, were particularly good, and in the views of the choir and altar of Westminster Abbey and St. Paul's, the effects were exceedingly fine and reflective. The song of "London Bridge," by Mr. Reed, brought tears to many eyes, while that well-known structure was being presented to the view of the audience. Frequent applause told how well Prof. Richardson and Mr. Arthur Richardson were worthy the regard performed their parts. The apparatus and scenes were imported direct from the London Polytechnic, several other sets and lectures being in preparation."

SEELEY'S BAY BOARD.

Mr. Richardson, M.P.P., returned to Toronto last week.

The Queen's Hotel has changed hands. The present occupant intends going to Irish Creek.

Mr. Gainford is doing a large business in lumbering. He has a number of men at work in the woods.

The Seeley's Bay brass band, lately organized by Prof. J. W. Davy, had an oyster supper and concert on the 2nd inst. which proved very successful.

The members of the English Church have lately purchased carpeting and other fittings for their church.

The Enterville tea meeting took place on New Year's night, and was a very successful affair.

Mr. Chauncy Chapman has lately returned from the North-West, and has disposed of his personal property with the intention of returning soon.

Mr. Robt. Hughes has also returned from the North-West with a favorable opinion of the land of "milk and honey."

Mr. Will Campbell has sold his farm to Mr. M. Murphy.

Mr. Fred Dupell, one of our old friends, paid us a visit last week. We were glad to see him, as were also his lady friends.—Times.

WORKING THE MINES.

The Prospects for This Year—Large Outputs—The Quantity Shipped Last Year.

A short time ago Mr. R. Macpherson, the Immigration and Crown Lands Agent, visited the rear of the county for the purpose of inspecting the mines, etc., in order that he could report to the Government what had been accomplished in the way of developing our mineral resources. The Ribbertsville mine was first inspected. Here about 70 men were found employed. The ore appeared to be very rich. An expert, who had no interest in the mine, said that it was equal to the best Norway or Swedish ore. The deeper the shaft was sunk the better the quality of the ore taken out of it. It is about 60 per cent. metallic. The shaft is now 173 ft. deep and the ore vein 60 ft. wide. It has been opened for a distance of 500 ft. The mine will be more extensively worked than heretofore, and this year the Company expect to double the output.

The Bethlehem Company's mine, in Lanark, is going into operations on an extensive scale. They have a fine mine and hope to do a great work this this year.

The Caldwell mine, alongside, is being simply prospected.

The Glendower mine, now owned by a Zanesville, Ohio, Company, will shortly be developed on a large scale. The best machinery will be put in and the mine worked to its fullest capacity.

The Caldwell and Gildersleeve mine near the present terminus of the K. & P. RR., has two pits of 25 feet each sunk. This mine will be sunk during this year to a depth of 100 feet.

The Redlechurst mine, in an adjoining lot, is being developed. The steam drills are now at work. The quality of ore taken from it is said to be good.

The Calabogie mine, owned by gentlemen in Perth and the States, has been opened to a depth of 20 feet. The latest one are that an enormous quantity of iron ore will be mined this year.

The K. & P. RR. will be kept busy bringing the ore to the front for shipment. There will have to be an increase in the rolling stock.

A beautiful mine of white mica has been discovered between Palmerston and Clarendon Township. It is valuable and owned by an American firm. They propose to develop it in the spring. Another mica mine is situated in Levant, but the layers are of a dark color.

During the past year about 5,000 tons of phosphate have been shipped from this port. There is mined, lying in North Burgess, about 1,500 tons more of the same mineral. About 900 tons of soapstone came to Kingston from Buckingham, Quebec. It was taken to Montreal, where it is manufactured into roofing. During the year about 40,000 tons of iron ore was handled at this port.

MEETING OF SCHOOL BOARD.

To-morrow night, according to the card issued by the Secretary, the old School Board meets. A difficulty has, however, arisen and it is doubtful if the meeting will occur. The by-laws say the new School Board must meet to-morrow at 8 o'clock, the second Thursday after the election. The election was held on Wednesday, Jan'y 3rd, and in consequence to-morrow night the inaugural meeting should take place. The old Board, according to the by-laws, is then defunct. There is some little excitement over the election of Chairman. There was a rumour to-day that the supporters of Dr. Fee had agreed to support Robert Shaw and that the contest for Chairman would be between him and Mr. Waldron. We give the rumour for what it is worth.

The new Board have been notified to meet to-morrow evening at 8 o'clock at the Council Chamber to elect a Chairman, etc.

RESIGNATION TABLED.

The Presbytery of Kingston met Monday night in the Presbyterian Church, Trenton. Rev. Mr. Young, of Napanee, Moderator. The only business was that connected with the resignation of Rev. Mr. Matthews, pastor of the Trenton congregation. A very tender and general sympathy for the afflicted pastor was expressed both by the session and congregation, on which Rev. D. Mitchell, seconded by Rev. M. W. McLean, moved that the resignation lay on the table until the meeting of Presbytery in March, and that in the meantime pulpit supplies be granted. This resolution was unanimously carried. Rev. Mr. McLean was appointed interim Moderator of this session and afterwards a resolution of sympathy with Mr. Matthews was unanimously passed, and the clerk pro tem (Rev. D. Mitchell) instructed to send to her a copy of the same.

WEEK OF PRAYER.

Last evening the service in connection with the week of Prayer occurred in the First Congregational Church, Rev. S. N. Jackson, M.D., in the chair. The speakers were Rev. W. W. Madge, B.A., and Rev. F. McCuaig. The subject discussed was "Humiliation and confession; of unfaithfulness to Christ, divisions among the Lord's people, and want of brotherly love; of pride, self-will, and worldliness; of national sins, especially intemperance and licentiousness; the desecration of the Lord's Day, the spread of skepticism and infidelity, and the prevalence of disorder and violent crime."

NEAT IN GAS LIGHTING.

A novelty in electricity has just come to light. A city plumber asserts that he can ignite gas without the aid of artificial light. He bet the oysters for a party of six the other evening that he could do it. After a few preliminary remarks, in reference to the relative merits of gas and electricity, he doffed his hat on the counter, turned off a gas jet, ran his fingers rapidly through the hair of his head, applied their tips to the burner, when, presto, the gas was lit.

"RED RIVER JIM."

How He Knocked Lepine, a Rebel, Out of Time—His Discharge—The Crank's Appearance.

James Johnson, or "Red River Jim," as he is familiarly called, has made himself known to the public again. The last time he was heard of he had addressed the citizens from the Police Court steps during the Sullivan-Gunn election. This morning he was a prisoner, and when the Magistrate asked him how he came to be charged with vagrancy he replied that Kingston was a very hard place in which to secure permanent employment. He had never been before a justice before, except when in Red River under General Wolseley. He was arrested, he said, for knocking over the rebel Lepine. He promised to either get employment or leave the city, and the Magistrate discharged him.

SOLICITED BY HIS MASTERS.

The reporters, scenting an item, chased the shivering mortal into the hall, cornered him and asked for a history of his adventure with the rebel. "It was in 1871," he said. "I was in Fort Garry on her Laboroche. I had just enlisted for another six months and was lying in a hotel one day when I heard a row out side. Jumping up I saw about 40 rebels in the act of attacking two soldiers. Lepine, Riel's right hand man, was there. He carried a plank, and was ready to swipe the boys. I rushed out, used a little strategy and getting near him blinded him with a handful of sand. I wrenched the plank from him, struck him three blows and sent him to earth. The 'boys' shouted

SO YOU VE KILLED HIM.

'All right, says I, 'I'll give him twelve more licks for luck.' We left him for dead. The row ceased. I was arrested for murder by an officer named Villiers. I went and got a drink and then to the police headquarters. The place was under martial law at the time and I knew I had no right to be arrested. Soon a Sergeant and his men appeared and demanded my body. I was turned over to them and taken to headquarters. Macdonald, the commander of the forces, said I had better clear out, as the rebels would pay me off some night. I was allowed to leave and on my arrival in Toronto was discharged. Lepine was not killed but he has since died. That's why I'm called Red River Jim. My right name is Johnson. I gave the police a false name. Just say that Red River Jim was before the Court and that will do. Its awful dry here, here. Have you a nickle? I'm dying for a drink. The item was worth the money, he got it and left remarking, "Boys I'm true blue, I am."

Joseph Ray, the crank, who was remanded for a week, again appeared in Court to-day. He said he was too sick to offer any defence. He had eaten very little food for several days and his head was confused. He was sent to gaol for another week.

THE HAY TRADE.—There has not been a boom in hay so far this season. The receipts for city use about equal the demand. The Messrs. Sabre Bros. are doing a quiet business, but their anticipations are that the fodder will now arrive in large quantities. The roads are in good condition and the ice is capable of bearing heavy loads. The prices range from $8 to $10. It is not probable that there will be an advance. The chief markets for hay are all well supplied, indeed there is an overplus that cannot be worked off for some time. Straw for local purposes brings from $4 to $6 per load.

DEARER NOT SHALL THINGS.—That slight cold you think so little of may prove the forerunner of a complaint that may land you in the grave. Avoid this by taking Ayer's Cherry Pectoral, the best of known remedies for coughs, colds, catarrhs, bronchitis, incipient consumption and all other throat and lung diseases.

IN THE PUBLIC are hasty and hatefully dealt with they will come to appreciate it sooner or later. This fact is well illustrated in the experience of Messrs. Tockett & Son, with their well known "Myrtle Navy" tobacco. Throughout the manufacturers of T. & B. have stood firmly by their original idea to give the public the best article possible, at the lowest possible price, and in the large demand for their tobacco the public have manifested their appreciation.

BEAUTIFUL HANDS!

May be Obtained by Using

"GLYCERINA"

An exquisite preparation for softening the skin, curing and preventing chaps and all other roughness of the hands and lips. Money will not purchase a better article if on trial the preparation is not as good as represented. One trial will convince anyone that this is the best mixture that they have ever used. Sold wholesale and retail by

DR. AUSTIN'S Phosphatine!

Cures all Nervous Diseases.

NEWMARKET, Ontario 19, 1882.

Messrs. LOWDEN & CO., Toronto,

Gents,—I have taken the bottle of Dr. Austin's Phosphatine, mentioned to the Bearer of this, and have received great benefit from it. I believe that after taking five or six bottles I shall be quite free from a complaint which has troubled me since I was 18, and now I am the vigorous one years of age.

Yours truly,

J. B. WETHERELL.
