STOERRINGTON ASSESSMENT.

An Official Makes an Explanation and Defends Her Action—The Facts of the Case.

The Editor, British Whig.

DEAR SIR,—I notice in your last weekly a horrible charge against the Assessor of Stoerrington, made by "Sufferer." Allow me, as the Assessor referred to, to show the unfairness, the falsehood and also the interested motives of the writer. He is perfectly well known to me. I have him in my eye. He is nothing of he is not severe, and his attack is only in keeping with past reputation. In contradiction of his charge I affirm that both the names and properties on the Assessment Roll appeared just as given in by those assessed. I am also charged with "not assessing improved farms of from 50 to 200 acres, the Township losing thereby the taxes which should have been collected on those properties." The truth is that there is but one farm (95 acres) which did not appear on the Collector's Roll, but which I did assess, as the Assessment Roll held by the owner thereof will go to prove. The taxes on the said property are paid and the statute labour performed, and I flatly contradict the charge that the Township lost one cent through my assessment.

In reference to "humiliating snubbing at the pens of tenants and farmer's sons," I would say that "Sufferer" or his prepared tool agents at the polls who administered Legislative Election oaths which did not apply to Municipal Elections at all and which "tenants and farmer's sons" strongly objected to.

Points all the "vexation and dissatisfaction" which, from a motive I perfectly well know, he tries to shift from himself to the Assessor. The only case of gross "negligence" and official "blundering" in the Municipal affairs of Stoerrington was when "Sufferer," in his official capacity, failed to attach the corporate seal to important public documents which greatly affected the interests of the people of Stoerrington and in the end cost the Township quite a sum to have legally corrected.

In conclusion I remind "Sufferer" that my work when finished was accepted and approved by the Council and paid for, the like has ceased enumeration some years ago.—Yours respectfully,

STOERRINGTON ASSESSOR for 1882.

Jan. 16. re-appointed for 1883.

The Editor, British Whig.

SIR,—The Assessor of Stoerrington, who was so unfairly attacked in last week's paper, was yesterday re-appointed, after submitting to an attack from the chair which he successfully rebutted. The newspaper letter did not affect his popularity in Stoerrington.

As Age Creeps on Apace, the various functions of the body grow weaker in their performance. It works wonders as a blood purifier.

Mr. John Magwood, Victoria Road, writes: "Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure is a splendid medicine. My customers say they never used anything so effectual. Good results immediately follow its use. I know from personal experience, having suffered for five years with Dyspepsia, and since using it dyspepsia goes in without that depressed feeling as well known to dyspeptics. I have no hesitation in recommending it in severe cases of indigestion, constipation, heartburn, or troubles arising from a disordered stomach."

H. A. McLaughlin, Norland, writes: "I am sold out of Northrop & Lyman's Vegetable Discovery and Dyspeptic Cure. It sells well and I find in every instance it has proven satisfactory. I have reason to believe it the best preparation of the kind in the market." It cures dyspepsia, biliousness and torpidity of the liver, constipation and all diseases arising from impure blood, remarkable complaints.

A Cure For Headache.

What physician has ever discovered a cure for headache? Echo answers none. But Burdock Blood Bitters by their purifying, invigorating, nervine properties afford a cure in nearly every case. The health giving principles are unequalled by any similar preparation in the world.

Consumption is a disease contracted by a neglected cold—how necessary then that we should at once get the best cure for coughs, colds, laryngitis and all diseases of the throat and lungs. One of the most popular medicines for these complaints is Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda. Mr. J. F. Smith, druggist, Dunnville, writes: "It gives general satisfaction and sells splendidly."

CHEESE IN CENTRAL NEW YORK.

The principal markets of the dairy region of New York are Utica and Little Falls. At the last meeting of the Utica Dairyman's Board of Trade for the season just closed, the Secretary, Mr. B. D. Gilbert, presented a report of the year's work. The season lasted from May to December. The cheese sold at Utica was 18,230,129 pounds; at Little Falls, 12,790,800. The average price was 11½ cents a pound.

The cheese industry, as represented by these two, the principal markets of the dairy region of New York, brought its patrons in seven months of 1882, $2,002,430.25. The total receipts in these two markets last year were $3,268,980; in 1881, $2,800,498. The falling off this year is attributed to the late opening, the cold spring, and dry summer.

TOLL EXEMPTIONS.

Revised Statutes of Ontario, chapter 184, section 2.

"All persons going to or returning from divine service on any Sunday or obligatory holiday, in or upon and with their own carriages, horses or other beasts of draught, and also their families and servants being in or upon and with such carriages, horses or other beasts of draught, shall pass toll free through every turnpike or toll gate on the turnpike road through which they may have occasion to pass."

Sunday exception is unquestionable, but the words "obligatory holiday" seem, at first blush, a little vague.

The Interpretation Act of Ontario shows what the word "holiday" indicates but the term "obligatory holidays," not being in regard to the statutory holidays, but having reference to some coercive religious tenets must be imperative, there being no such obligatory holidays in Ontario.

The right to take toll being by statute clear and positive the person claiming exemption must in all cases strictly appear within the exemption, or be subject to the remedies and penalties provided by law.

FITS A London Physician establishes an office in New York for the cure of EPILEPTIC FITS. From Am. Journal of Medicine. Dr. A. Hommedieu, late of London, who makes a specialty of epilepsy, has without doubt treated more cases than any other living physician. He cures them. Many have been accounted incurable. We have heard of no failure. Indeed, we have seen no case he has ever treated but was benefited. We believe he has a remedy for epilepsy. We know he is a gentleman of high standing. We know he is a scientist. We know he has published a work on the disease, which we have read, and which we know to be sound in principle. We know he is prepared to prove his claims to be more than mere pretension. We know he is willing to cure for a reasonable fee, and we know he is able to do what he promises. We know he is a man whose word is as good as his bond. We know he is a man who would not be here if he could not do what he promises. We know he is a man who would not be here if he could not do what he promises. We know he is a man who would not be here if he could not do what he promises
