# Ayer's Sarsaparilla !

FOR PURIFYING THE BLOOD.

This compound of the vegetable substances, Sarsaparilla, Dock, Stillingia, and Mandrake, with the Iodides of Potash and Iron, makes a combination of medicinal strength, unknown to other medicines, for the cure of a severe class of complaints which are very prevalent and afflicting. It purifies the blood, purges out the lurking humors in the system, that undermine health and invite dangerous disorders, eruptions of the skin are the appearances on the surface of humors that should be expelled from the blood. Several derangements are the determination of these same humors to some internal organ or organs, whose normal action they disturb, and whose substance they diminish and destroy. AYER'S SARSAPARILLA expels these humors from the blood. When they are gone, the disorders they produce disappear, such as Dyspepsia or Indigestion, Liver Complaint, Kidney Disease, Dropsy, Erysipelas and Eruptive Diseases of the Skin, St. Anthony's Fire, Rose or Erysipelas, Pimples, Pustules, Blotches, Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Coughs and Sores, Rheumatism, Neuralgia, Gravel, Blood Disease, Female Weakness, Sterility, Leucorrhœa, arising from Internal Ulceration and Uterine Tumors, Dropsy, Dyspepsia, Emaciation and General Debility. With their depressive health returns.

## APOSTOLIC SUCCESSION.

A Subject of Great Interest—Faithful Dead Praying for the Living Defining Powers.

*The Editor, British Whig.*

SIR,—I must confess that I was a little amused as I couldn't help it at the Scripture quoted by "Dispensator" in proof of Apostolic Succession. "Lo I am with you always even to the end of the world." These words are about as pertinent to Apostolic Succession, in the sense in which it is generally understood, as "Credo" is to Dr. Wild's pre-historic man. Any man with an ordinary degree of biblical intelligence knows that the Saviour's command and promise apply to the Church universal, which includes all true believers in Christ—as if he had said—though absent in the body my divine presence shall abide with you. The Rev. Waltham How, Canon of St. Asaph, in his exposition on the passage quoted, also says, "The command and promise are to the Church universal and to all its members."

What I understand by Apostolic Succession, as taught by some of the clergy of the Church of England is this, that they are the only true and rightful successors of the Apostles by divine appointment. I should like some of our high-toned Episcopalian friends who hold this view to trace back, in the columns of the Whig, their apostolic genealogy. I know of no subject more edifying to the public. I shall be delighted to follow the learned "Credo" or the mysterious "Dispensator" in his zigzag course though the historic mazes which intervene between him and the Apostles. But I would advise him, before he commences his perambulations, to step into the library of good old Bishop Hellson and he will find published in an old book there, on the cover of which the dust of generations has fallen, these words, mark them "Credo" and "Dispensator": "Apostolic Succession is as muddy as the Tiber." Such is the testimony of one of the most distinguished Bishops of the Church of England. The words of such a man ought to settle once and forever such men as "Credo" and "Dispensator." When a Master in Israel speaks students in theology ought to be silent. "Dispensator" says that the Church of England repudiates transubstantiation as repugnant both to Scripture and reason. He ought to have said part of her clergy teach the doctrine and part don't. In fact they can almost teach any thing they like. Some of them are about as orthodox as the late Theodore Parker, of Boston. Will "Dispensator" tell us what he means by the Real Presence in the sacrament and how he understands the passage he quoted, John vi. 55? Is Christ's presence in the bread and the wine? If so, how? There is such an obscurity about "Dispensator's" assertions that you can make them mean almost anything you like. Let us have a little more light on the subject. He also says, "On the subject of prayers for the dead the Church of England makes no dogmatic utterances (?) but she joins the faithful departed in her prayers for living." How does he know the faithful departed pray for the living? Will he please give us chapter and verse for his assertion? He quotes a verse of poetry to substantiate what he says, which is about as foreign to the subject as the star Jupiter is to the earth. He also states that the Church of England "teaches the power to bind." To bind what? And to absolve. To absolve what? Are we to infer from his remarks that the clergy of the English Church possess the gifts and power of the apostles? The apostles had the gift of tongues, the gift of prophecy, the gift of healing diseases. Have the Church of England clergy those gifts? If so, wherever were they manifested? Those I have met met with, many of whom I highly esteem, seem to me to be like other ordinary mortals, not overburdened with either gifts or graces. Will "Dispensator" define the power the Church of England possesses? What can she bind on earth? What can she in Heaven? Come, let us know a little more about the mysterious power she possesses. I would recommend "Dispensator" and "Credo" to brush up a little before they rush again into print. It will do no harm to remain at Jericho a little longer. It is not a bad place to stay at, especially for those who are in a transitory state.

Jan. 22. GARUS.

THE ENJOYMENT OF EATING AND DRINKING AND ITS PENALTIES.

We need not state that volumes have been written upon the above subject since the days of the renowned Lou Cornaro, down to the latest treatise designed to enable us to judge for ourselves in the appropriateness of our habitual eating and drinking. It is impossible to deny the great utility of such information; but, unfortunately, mankind in general lends a deaf ear to warnings when the tastes and the passions are in question. As the world wags, we fear the people would continue to eat and drink just according to their taste and humour for a long time yet to come, especially when they find that, by a timely recourse to some such medicine as Holloway's Pills, they can easily and readily get rid of all the constitutional disorders caused by over-feeding and intemperance a few of these Pills suffering in the majority of instances to set a man "all right" overnight to begin his day of labour, after having yielded to the temptation of what is "technically called "a thew out." No doubt your soda-water or citrate of magnesia may seem to be equally effective, but, unfortunately in very many cases much more requires to be done than can be effected by these otherwise very pleasant and saline libations. All over-feeding—every act of intemperance—must necessarily contaminate the blood, and the vitiated blood must necessarily impair every organ through which it flows. Now, in order to correct this effect, a radical remedy is required, and such is that invented by Holloway, whose Pills as we have stated, have superseded almost every other "corrective" or "alterative" of the old school. Perhaps the purifying agency, out also from their great and almost imperceptible regulating action—without any interference in the general routine of life—requiring no extraordinary precautions to prevent "catching cold" or morbid reactions. If report be correct, no medicine stands in higher repute at our fashionable clubs and officers' quarters than Holloway's Pills although very few of the patients can allow their gratitude to admit the fact in return for the benefit.—*The Editor.*

## VICE-REGAL TOUR.

Future Movements of the Party—Incidents of the Trip—Meeting Expenses by the Way.

His Excellency the Governor General, on the departure of the Princess Louise from Charleston, S.C., for Bermuda, will return home via New York, reaching Ottawa on the 6th prox., in time for the opening of Parliament on the 8th. Some 600 invitations will be issued for the first toboggan party at Government House, and the invitations will be extended every time one is held. Capt. Collins, A.D.C., will arrive at Ottawa on the 29th inst., and resume his duties on the arrival of the Marquis.

The following are among some of the incidents which transpired during the trip of the Vice-Regal party. The first tickets for their trip were purchased at Ogden, Utah, the Marquis giving a cheque for $2,200 on the Bank of British North America. Four cheques for similar amounts on the same bank were given before the party reached Monterey, California. While travelling through Missouri, a train which preceded the Vice-Regal train a short time was boarded, and the passengers robbed. The presence of an armed escort prevented the desperadoes from boarding the train carrying the Vice-Regal party. The incident occurred near St. Jo, Mo., the alleged place for a long time of the notorious James gang. Colonel Tourtelotte expressed great fears for the safety of the Princess while passing through Missouri. During their stay in Victoria the Marquis and party visited, among other places, Mr. Bunster's brewery, just outside the city. The ex notable was found in his shirt sleeves chopping kindling wood. The Richmond, Virginia people were inclined to think His Excellency, by his appearance, was a German. They placed his age at between 37 and 40. The Marquis visited Richmond before some seventeen years ago, when he called on General Lee. Her Royal Highness will leave Charleston on the arrival of Lady Harvey. The whole cost of the Vice-Regal trip will be between $25,000 and $30,000. A liberal amount was expended in "tips" to hotel servants, who will have no cause to forget the kindness of the party and suite.

Consumption is a disease contracted by a neglected cold—how necessary then that we should at once get the best cure for coughs, colds, laryngitis and all diseases of the throat and lungs. One of the most popular medicines for these complaints is Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda. Mr J F Smith, druggist, Dunville writes: "It gives general satisfaction and sells splendidly."

ADVICE TO INVALIDS.—Do you wish to enjoy good, refreshing sleep, free from headache, be free from nervous irritability, and endure the severest exertions of professional duties, intricate business, or family anxieties and troubles, without experiencing the slightest nervousness the next morning? If so, you will provide yourself with the celebrated preparation of the inventor, Dr. J. Collis Browne's Chlorodyne, which is universally recognized by the Medical Profession as the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the most wonderful remedy for Coughs, Consumption, Bronchitis and Asthma.

CHLORODYNE has saved a coming to Distribution, and is the only specific in Cholera and Diarrhœa.

CHLORODYNE effectually cuts short all attacks of Hysteria, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Pain, &c.

From Dr. Gibbon, M.R.C.S., Coventry, Medical Hall, Stoke, January 8, 1866: Dr. J. Collis Browne's Chlorodyne—I have much pleasure in bearing testimony to the great benefit I have derived from your Chlorodyne. I was attacked with Bronchitis, and was so ill I was obliged to keep my bed. I had tried many things without any good effect, when I took your Chlorodyne, which relieved me in a few days. I consider it my duty to make this known, that others may be benefited by a medicine so highly valuable. Sold by all Chemists, at 1s. 1½d., 2s. 9d., and 4s. 6d. per bottle.

CAUTION.—Vice Chancellor Sir Page Wood stated that the Dr. J. Collis Browne's Chlorodyne was undoubtedly the inventor of Chlorodyne, and that the claim of the inventor, Freeman, was fraudulently assumed. Each bottle bears the name of the inventor, Dr. J. Collis Browne, on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

CAUTION—Beware of Piracy and Imitations.
