WEDNESDAY EVENING, APRIL 4, 1883

CITY AND VICINITY.

Probs.—Moderate to fresh winds, mostly south to south east; fair to cloudy mildew weather, with light rain in some localities.

Banquet.—Capt. Abbie Thompson has secured the Ontario and City Halls for a grand "banquet to the Lord" to be given on Tuesday next. The demonstration will be undoubtedly of a very unique character.

Lots to Come Down.—Two large boats were sent up from Tarbet the other day to the Fourteen Island Lake, to be ready for the driving of ties and cordwood down the river as soon as the ice disappears. There are enormous quantities of timber, logs and other stuff to be sent down the stream.

An Upset.—This morning, while a cab load of passengers was being driven in from the station, the sleigh mounted a snow bank and upset. The occupants were piled in a promiscuous heap and injured. Miss Hudson, of Ernestown, had her shoulder cut. Her head was considerably swollen this morning.

Barnum Should Get Him.—Westport, on the Rideau Canal, is becoming noted. It has a policeman and a railroader, who in their respective spheres cannot be eclipsed, but a greater than these now appeareth, in the form of a beardless boy, aged 17, who towers into the air 6 feet 7 inches and still grows.

He is Coming.—Major Moore, the chief Commissioner of the Salvation Army in America, will arrive here on Saturday and remain several days. The converts intend giving him a warm reception. They promise to make a good appearance. Dozens of them have given orders for uniforms to be ready for Saturday.

Arrived Here.—Pat. Rooney and his Company have arrived and are at the Windsor House. This evening they perform in the Opera House, and the indications are that there will be a full attendance. The performance will be principally specialties. The members of the Company are all experts. They had an overflowing house in Ottawa.

Retain the Cup.—The Peterboro Lacrosse Club have reorganized and intend to put a splendid team in the field this season. The Club are determined to hold the Goldsticks cup this year, which will then become their absolute property, with the championship of Central Ontario. Cannot Kingston organize a Club to wrest these trophies back again?

An Ultimatum.—The Council of Portsmouth are not willing to transfer the use of the long wharf to the Montreal Transportation Company unconditionally. One gentleman says that if the Company will give the Council documents to the effect that all the repairs and rebuilding of barges shall be made in the village there is a probability of the transference being handed over to them, not otherwise.

Proved His Point.—Peter Dougherty, accused of assault and attempt to rob before the Police Court, was honourably acquitted this morning. The boat-ing house keeper testified that he arrived home on the evening in question about 8 o'clock. The assault upon Coffee occurred later in the night. Peter will resume his work of shining up old brass gold and silver until you can see yourself in it.

Spring Millinery.—The windows of the chief millinery establishments of this city are gorgeously decorated. No passing eye can escape their fascination. The hats and bonnets are marvels of workmanship, and if the Kingston ladies do not look "too scrumptious for anything" it's not the fault of the makers of head gear. Spence & Crumley had a grand opening to-day, and their establishment was crowded with ladies.

Nearing the Grave.—Mrs. Elizabeth Beran this morning stated that her daughter injuring on eternity. She is now unable to speak and death must soon come. Several doctors have held examinations and say that there is no hope. Mrs. Beran is terribly grieved over the case and no wonder. The cruelty with which the daughter was treated in police hands does not seem to give them any concern.

Curtain Screen.—Last evening several members of the Curling Club met by invitation of Mr. Jas. Stewart, hear of a late match, to partake of an oyster supper. A very pleasant evening was spent by those present, listening to the amusing stories of the military hero of so many hard earned victories on the ice field. Another match was arranged for to-morrow morning, which will probably be the last of the season.

Paper Goes up.—The Owego Morning Post has been buried in the hole it dug for itself. After a brief existence of four months it peacefully expired, and its bright face will be seen no more. The financial part of the business Messrs. Hall and Walkup found the hardest to manage, yet they walk up like men and pay every dollar. They hope to establish a weekly if they can secure encouragement enough. Judging by the many failures in that line, Owego is not a good spot for new journals.

HERE AND THERE.

Laconic Arrangement of Items of Local and General Interest—Gossip that is Readable.

The gravel on the streets is peeping up. Sleighing is very poor.

E. W. Rathbun & Son will erect a new desk at Oswego this summer.

Warm weather came as predicted, and now rain is promised. The ice holds out heavily.

The Chief of Police in Hamilton has ordered the Salvation Army to walk in the middle of the street in future.

Three vagrants were before the Magistrate this morning. Arthur Fitzgibbon and Gilbert Hudson were discharged, but W. Garrigan was remanded for a week.

A large locomotive has been received at the G. T. R. St. Thomas. It was built in Kingston and is calculated to draw forty loaded freight cars over the Air Line Division.

As soon as the poles are secured the proposed telephone extension will be made from Kingston to Cobourg, Trenton, Deseronto, Napanee and Belleville will also be connected.

There is a scarcity of small bills as well as of copper change in the city. People carry around with them bills with too large figures on them to suit the convenience of trade.

Capt. Ward Plumb, of Ogdensburg, will command the steamer Armstrong, of Brockville, this season. He is an old mariner, and formed the first cars over west across the river at Prescott.

The King of the Sandwich Islands lacks himself up when he gets drunk. When our sovereigns of Ontario Street get drunk they have no occasion to lock themselves up. The policemen attend to that.

The Maple Nook Club, assisted by Mr. Ensley and a number of ladies, give a concert at Rockwood Asylum this evening. Prof. Smith has carefully selected the programme, which promises to be a success.

Dan Irons, the ex convict who made a murderous assault on Police Officer Sanson, of St. Thomas, has been arrested. He pleaded "guilty" and now awaits the result of the officers injuries before sentence is imposed.

PERSONAL MENTION.

J. W. Gillespie, of Grand Rapids, Mich., is at the Burnett House.

W. C. Caldwell, M.P.P. for South Lanark, is at the British American Hotel.

R. W. Meek, of our staff, has been confined to his bed since Monday by sudden indisposition.

P. H. Ryan and R. C. McHenry, of Brockville, are at the City Hotel, en route for Sharbot Lake.

Colonel King-Harman, of the British House of Commons and formerly of this city, measures 6 feet 3 inches in height.

Hon. Mr. Mowat declares that with a majority of eight staunch Reformers he can carry on the Government. He has got them, too.

We are told that the Rev. T. W. Jolliffe will be in the city on the 20th to be present at the Oddfellows entertainment in Cataraqui Lodge.

Mr. Gunn, M.P., will enquire of the Government if they intend to remove the 10 per cent. differential duty on tea imported from the United States.

C. J. Starling, R. Taylor and Dr Tracey have been appointed Health Officers of Belleville. The salary is not a magnificent one but the honour is immense.

James Mitchie left $4,000 to the Temperaltion Fund of the Presbyterian Church and $4,000 to the Widows and Orphans Fund, besides his legacy to Queen's College.

The papers recognize Mr. Gunn's ability, even though he is not a great speaker. One journal says he furnished Mr. Paterson with the figures to combat the Finance Minister's budget speech in regard to sugar.

THE R. & P. RR. BILL.

The R. & P. RR. Bill has not been put through the House yet. On Monday when the Bill came up in Committee of the Whole it was found that an amendment proposed in the Committee of Railways and Canals, for the purpose of protecting the town of Renfrew, which had given the road a bonus on condition of the main line running through the town, and which amendment it was believed had been accepted by promoters of the Bill, they now refused to agree to.

Mr. Blake suggested that the Bill should be referred back to the Committee to take evidence.

The Speaker, Mr. Kirkpatrick, advocated the passage of the Bill as prepared.

Sir Chas. Tupper thought Mr. Blake's suggestion should be adopted, and the Bill returned to the Committee on Railways and Canals.

Mr. Peter White spoke to the question. Considerable amusement was indulged in at his expense by Mr. Mackenzie calling across the floor that the Government should refund the bonus to Renfrew, as had been done for Pembroke in his (White's) constituency when the elections were pending. The Bill was sent back to the Committee.

COMMITMENT OF BODIES.

The body of W. H. Tom, who suicided in Scotland, was embalmed in that land and shipped to New York, whence it was conveyed to Thorens, his old home. The remains arrived there last Thursday and were buried with marked feeling by old friends.

The body of J. C. James, late Chief Engineer of the Canadian Pacific Railway, has been removed from Mount Royal Cemetery and forwarded from Portland per SS. Dominion, to be interred in the family vault at Ottarburn, Northumberland, England.

Shortage of Coal.—The weather has been mild for the past few days so that the shortage of coal is not alarmingly felt. Should a cold snap arrive there would be sorrow in households. The G.T.R. were out of coal at Brockville and Belleville, and it was difficult to run trains. Coal trains were despatched speedily for those points.

HE IS INTERVIEWED.

What the Superintendent of the K. & P. RR. Thinks of the Railway Bill—Defeated at Last.

The Railway Commission Bill over which there was so much anxiety has been defeated in the Railway Committee by a vote of 76 to 12.

Mr. Gooderham, of Toronto, claimed to be the largest shipper in Canada of sperm. His firm held railway bonds to the amount of $1,500,000. He did not want to be injured by any such legislation as was proposed. Mr. Blake also opposed the Bill. R. W. Folger, of Kingston, while in Ottawa yesterday, was interviewed and gave his objections to the Bill. He said he opposed it in the interests of the railways, the public and himself. The Bill would be injurious to the public interests, unfair to the railways and would interfere with vested rights. "How will it effect the public?" said Mr. Folger, "well, for the reason that an inexperienced Commission cannot make rates as cheaply and pay the roads and serve the public as well as men that have spent their lives in the business, and are equipped by their information to take advantage of every detail. For instance, the commission fix a rate for a certain distance. The occasion is very sure to arise, whereby water competition or parallel foreign roads, as in the case of American roads competing with the Grand Trunk, will require a change of rate on a moment's notice. If the roads cannot secure through business they will be obliged to charge higher local rates."

"Do you not think that the Government and municipalities that have given subsidies should have some voice?"

"Certainly, and they have their rights. These are the conditions of the charter. They have as much reason to ask that the subsidies should be returned as that the conditions should be changed. An agreement between the Government on the subject should be as binding and kept as honorably as a bargain between individuals. The charter is an agreement that should not be interfered with except by the consent of both parties."

Mr. Folger held that the commission would not benefit small roads. Large corporations could influence Commissioners where small ones could not. To prevent the idea being thought that the Commissioners could be bought Mr. Folger explained. "It is natural that the Commissioners who have no knowledge of the business would commit some one, and it is most likely to be those connected with the larger corporations. I think no three men (even though they are all ordained with "common sense.") should be entrusted with such vast power. The appointment of a commission would prevent the building of new roads. People will not invest in property they cannot control, nor could money be raised on bonds of a road hampered by the restrictions of a commission. If railways are treated in this manner, it makes capitalists timid of other investments based on a charter from the Government, not knowing when it may step in and make changes. Too much legislation kills business. Men who have put their money in and have taken their chances, built the roads and opened up the country, should be more entitled and better qualified to run them than a commission."

Very properly, therefore, has the Bill been ignominiously rejected in Committee.

STEALING A BOBBY'S WATCH.

This morning a Kingston policeman and friend were returning from a western trip, and while the former was conversing with a conductor his friend abstracted his watch and chain. He did not miss the time-piece until he arrived in the city and was asked the time by his comrade. He appeared greatly astonished at the loss and formed all manner of conjectures as to its disappearance. Each face in the car was remembered, but he could not decide who was the culprit. Next he imagined he lost it when the cab he was in upset, and he was about to return and hunt around the spot, when his associate handed it over, remarking that he was a queer fellow to let him take it from his clothing. Even policemen have not a gift of mind reading when a fellow is after their watch.

THE SUICIDE HISTORY.

N. H. Buchanan, the bank clerk who drowned himself at Brockville, was aged 22 years. He had influential connections in Quebec, the Manager of the Molson's Bank at Montreal being his uncle, and Senator Hamilton, of Quebec, a near relative. His father died some years ago; his mother is a resident of Quebec. His accounts at the bank are straight. Since arriving in Brockville he kept company with young men whose salaries far exceeded his, and through borrowing money he got himself into debt. Being desirous of paying his indebtedness he wrote to relatives at Quebec for funds. They did not come, and he committed the act which ended his troubles. On Monday the money to clear all his liabilities arrived. "A day too late" is the sad verdict.

S. S. No. 5, SHERRINGTON.

The following is the honour roll for March:

Fourth Class—John Dochrill; Annie Harris.

Third Class, Senior—Burrows Knapp; Benjamin Knapp and William O. Jamieson, equal.

Third Class, Junior—Matilda Jarvis; Harmon Keeler.

Second Class—Jane Shapps; Alice Harris.

First Class—Minnie Harris; Levi Shapps.

Life Saving Station.—The life saving station at Charlotte has been opened and the men ordered out. The salaries paid are: Capt. Doyle, $600 a year; John Woods, No 1, $60 a month for eight and one-half months. The others are volunteers, receiving $30 each for each time the crew goes to a vessel in distress. Besides this there are two practicing days per month, for which they receive $2. The salaries at the proposed Canadian stations are not probably to be so high.

THE LIQUOR QUESTION.

Meeting of the United Templars—One Speaker Would do Away with Saloons Next Year.

Within the past few months the advocates of temperance have been quietly working until now there are a number of societies in the city whose aim is to create a good sentiment, and reclaim the drunkard to usefulness and honor. The work of religious evangelists, now so keen in the city, has had the effect also of stimulating the temperance workers. The two sisters, temperance and religion, are figuratively walking hand in hand.

Last evening a meeting of the United Templars occurred in Sydenham St. Methodist Church, but owing to want of proper advertising was not largely attended. A. Chown occupied the chair, and after the usual singing and prayer he gave an outline of the standing of the association since its organization. In its whole history only one was known to break his pledge, and he was man enough to tell on himself. He thought there were a great many who should join the society even if it was only to set a good example.

THE WISE SPEAKER.

Dr. Skinner said he was placed in a difficult position. He felt as if he were standing up in college and telling those who were at the top of the ladder of learning how to spell words with one syllable. His audience were probably as conversant with temperance as he. There were not many voters present, although there were some who have influence over voters. He did not think women should be allowed to vote on all questions, but they certainly should on the question of preventing the intemperate habits of the community. A liquor vendor the other day told him that sales were much less than some years ago. Statistics showed that the sales of ardent spirits had decreased 41 per cent. during the last two years. Beer stood about the same.

WORLD SHOULD SALOONS.

He would like to see a movement to do away with the saloons and rum-rooms, and thought that enough moral influence could be brought to bear to have them all closed by January next. For instance, aldermen might be elected who would pass a by-law to do away with them. He was also opposed to shops selling liquor. If such could not be accomplished surely the latter objects could. Some Conservatives would always vote Conservative, and some Grits go Grit to the end. Now, this should all be thrown aside and good men elected, who would vote for temperance and take some interest in the moral condition of the community. The ladies could canvass and thereby do their share in the good work. All their meetings would amount to gas if they did not take some such step as this. Three-fourths of the rowdyism is created in saloons and, therefore, let us close them up! Hotels, as a general rule, do not encourage rowdyism. He pointed out the many different ways in which saloons tempted the youth into vice. He hated liquor as he did the devil and, therefore, he could take no credit for being temperate. But how many knew the curse of it? He would like to produce in others a feeling of hatred such as he had for it and the saloons would have to close up. He also was very strong in condemning cigars and tobacco in all forms.

A PRACTICAL COMPARISON.

After a humorous opening Rev. Mr. Madge settled down to business in earnest. He agreed that prohibition was the thing most required but he would like to see it much stronger and it must be had. The question is, how can we get stimulation to remove this trouble and curse. Some object to the liquor traffic on the grounds of political economy; philanthropists for the sake of fellowmen; patriots for the sake of country; others for moral elevation and still higher curse object because it ruins the soul. He thought if proof could be given as to political economy it would be convincing. In the United States $900,000,000 are annually thrown away on drink; in Britain $18,000,000 and in Canada $6,000,000. To show the vastness of the amount he said if it were piled into waggons in the shape of 25c. pieces and added up into a procession it would reach from Kingston to miles beyond Westbrook. If in the shape of bread it would pave a way 20 feet wide one loaf deep, commencing at Sarnia, from Sarnia to London, from London to Toronto, from Toronto to Montreal, from Montreal to Quebec, backing Montreal out by way of Ottawa thence hundreds of miles beyond Winnipeg. It amounted to more in three days than was given to missionary work in a year. He read a report of the wonderful Committee at Ottawa in the year 1872, which showed an expenditure of $50,000,000 annually for liquor. This would build 60,000 churches such as he wanted at Williamsville, and pay ministers to the same number of ministers and send 60,000 missionaries out to the heathens. It was

THE MOST WASTEFUL THING

in God's creation. He also showed how many it brought down to the grave. Four-fifths of the crimes committed in Ontario he attributed directly and indirectly to drink. The reasonable men in each ward should join together and vote for men who would help on a still stronger prohibitory law. Intemperance is a sin and encouraging it is disobeying Christ's second great commandment, "Love thy neighbour as thyself." He concluded by reciting the poem, "Am I my Brother's Keeper."

ANOTHER SERMON ADDRESS.

Rev. Dr. Elliott was no politician but to advance pure scriptural temperance the plan of Dr. Skinner would have to be carried out and men who will vote for abolition of saloons be returned to the Council. Somewhat in effectiveness to models in the temperance cause, but if any person saw another going to drown or to poison himself would he not do his utmost to prevent it? It is doing justice to one self and conscience to keep his neighbour and friend from intemperance. He agreed with John Wesley, that the property of a liquor seller did not descend to the other generation. Some say they sell liquor to support their family. But a man cannot support his family any other way, he surely takes a low way. Every other business gives some labour and value for what is received; in the liquor traffic no value is given. Some went into the business because if they did not somebody else would. But two wrongs do not make a right.

Mr. E. Chown, in a short address, praised the work of the Salvation Army in the temperance cause, and votes of thanks closed the meeting.

THE ACCIDENTAL SHOT.

G. H. Clarke, proprietor of the Bay of Quinte Temperance House, and a nephew of Lewis Clarke, turnkey of the Kingston gaol, went up to that town yesterday for the purpose of seeing his uncle, who on Monday last accidentally shot himself. From Mr. Clarke we learn the circumstances of the tragic affair. Lewis Clarke is aged about 47 years, was born in Kingstown Township, and for fifteen years has been the turnkey of Kingston gaol. Several days previous two tramps were placed in gaol and two revolvers taken from them. On Monday Mr. Clarke left the gaol for his home for breakfast. He took one of the revolvers with him, and after eating a hearty meal said he would go out and cut some wood. He had only stepped out of the door when he noticed some pigeons flying overhead. He drew the weapon and fired one shot. He attempted to fire a second, but the cylinder would not turn. Taking the cocked pistol in his right hand he grasped the cylinder with the left, placing the barrel towards his breast. As he attempted to turn it, it went around quickly, the hammer fell and the cartridge pierced his breast a few inches below the heart. He fell to the ground and was discovered a few moments afterwards. He exclaimed when assistance arrived, "I'm shot!" After he was taken inside he was able to tell the circumstances. Doctors were summoned, but they have up to the present time been unable to locate the ball. He is in a critical condition, but can speak a few words. Only one person is allowed in the room with him at a time, and conversation is strictly prohibited. There is little hope that he can recover.

Mr. George Sewell, of Memramcook, N.B., writing from Moncton, N.B., under date of May 7th, 1878, says:

Brock Sir.—In January last I came to Moncton from Memramcook to consult a physician, as I was in the last stages of consumption. When I arrived here I had to cease to be my bed, and was so low I never expected to leave it. A physician was called, who pronounced my case to be hopeless, that I might live a week or two, but not probably more. As a last resort he recommended Robertson's Cod Liver Oil with Lactic Phosphates of Lime. I procured a bottle and after taking the first dose commenced to improve. I continued taking it from, as if I had taken a good meal, ever since, I have continued taking it ever since and am rapidly improving. I am confident that had it not been for your Oil I would have been in my grave by now. You are at liberty to use this in any way you wish, as I am ready to testify to it when called upon in the same way known in the hope that they can may receive the same benefit.

I remain, dear sir, yours respectfully, &c.

Prepared solely by Hannington Bros., Pharmaceutical Chemists, St. John, N.B. For sale by Druggists and General Dealers. Price $1 per bottle—six bottles for $5.

The mind depends for its health very largely on bodily conditions. The gloomy fears, the desponding views, the weariness of soul that many complain of, would often disappear were the blood made pure and healthy before reaching the delicate vessels of the brain. Ayer's Sarsaparilla purifies and vitalizes the blood; and thus conduces to health of body and sanity of mind.

Personal to Men Only.

The Voltaic Belt Co., Marshall, Mich., will send Dr. Dye's Celebrated Electro-Voltaic Belts and Electric Appliances on trial for thirty days to men (young or old) who are afflicted with nervous debility, lost vitality and manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N.B.—No risk is incurred, as thirty days' trial is allowed.

A Secret.

The secret of beauty lies in pure blood and good health. Burdock Blood Bitters is the grand key that unlocks all the secretions. It cures all Scrofulous Diseases such as the Blood, Liver, Kidneys, Skin and Bowels, and brings the bloom of health to the pale cheek.

Perry & Clark, Druggists, Renfrew, date of June 3rd, writes—"Burdock Blood Bitters, though comparatively a new preparation, has taken the lead in this locality as a blood purifier, our sales of it being equal to that of all other medicines used for the purpose during the last year."

Myrtle Navy.—The success which the Myrtle Navy tobacco has attained with the public is because it is composed of the very finest Virginia leaf grown, and is manufactured with the most scrupulous care at every stage of the process.
