FOR THE KIDNEYS, LIVER AND URINARY ORGANS

THE BEST BLOOD PURIFIER.

There is only one way by which any disease can be cured, and that is by removing the cause—whatever it may be. The great medical authorities of the Old Dominion that health among human is caused by deranged kidneys or liver. To restore these therefore is the only way by which health can be secured. Here is where WARNER'S SAFE CURE has achieved its great reputation. It acts directly upon the kidneys and liver and by purging them in a healthy condition forces disease and pain from the system. For all Kidney, Liver and Urinary troubles for the distressing disorders of women, for Malaria, and physical breakdown generally, this great remedy has no equal. Beware of imposters, imitations and concoctions said to be just as good.

BABY.

A prize arrayed in our city,
A lovely baby form,
A little clinging for our love
To shield and guard from harm.
Our hearts to fond more than and true,
And in the years to come,
Prepared, with winning smiles and play
To gladden hearth and home.

Sweet messenger of peace and love,
No moment and fair
May angels bright our blossom keep
From every chilling air
To watch us well thy steps to guide
In paths of truth and light,
May He who sent thee to our care
Direct our hearts aright.

Upon thy little baby face
Our fondest we impress,
Our eyes grow bright with hope and love
When meeting thy caress.
Our souls are filled with thoughts more pure,
Our hearts with peace and joy
As o'er thy cradle bed we pray—
God bless our baby boy.

Kate Cannon

AFTER THIRTY YEARS.

Return of a Kidnapped Boy to a Long Lost Relative—Romantic Story of a Wanderer.

(Montreal Witness.)

About thirty years ago an orphan boy named Demers, nine years of age, who was at the time living with his uncle, one Moses Durand, in this city, suddenly disappeared. He was sent on a message one morning to a grocery store, near his uncle's house, and never returned. Search was made for the missing boy, but without success, and after the lapse of a considerable time, his uncle, who was very much attached to his young relative, reluctantly gave up all hopes of his re-appearance. A few days ago, however, he was visited by a man in the prime of life, whose brown and bearded face and general appearance showed that he had seen a great deal of the world. The stranger seemed greatly affected at the sight of the old man and finally, with evident difficulty, stated to Durand that hearing he was a horse dealer, he had come to see if he could purchase a horse from him. Somewhat struck by his visitor's behaviour, Durand kindly asked him what was the matter, when he was unexpectedly astonished to hear from the young man that he was his long lost nephew. The scene that ensued can more easily be imagined than described. Demers after having satisfied his uncle of his identity, told a strange story in connection with his disappearance. He said that he was returning from the shop to which he had been sent he was met by an American planter from Tennessee who kidnapped him and took him to his plantation in the South. He was there set to work with the black slaves, and remained thus engaged until the outbreak of the American Rebellion, when he was drafted into the Confederate Army and fought through the campaign in various avocations and finally became a trader. He never forgot his Montreal home or his uncle, and whenever he met a Canadian in the course of his travels he made enquiries about his relatives. He invariably failed, however, in finding out anything of his whereabouts and finally came to the conclusion that he was dead. Circumstances prevented his prosecuting the search in person until a few days ago when he arrived in Montreal. He at once made enquiries with the result of finding that his uncle was a dealer in horses and an innkeeper and resided on St Lawrence Street. He then went to his house and disclosed his identity as related above. It is hardly necessary to state that the uncle at first failed to recognize in the full grown man before him the boy who had disappeared so mysteriously 30 years before.

Sore Feet.

Polson's Nervaline, the great pain cure, is sure pop every time. No need to spend a large sum to get prompt relief from every kind of pain, for 10 cents will purchase a trial bottle. Go to Polson's drug store for it. Large bottles only 25 cents at all druggists. Nervaline, the pain king, cures cramps, headache, neuralgia. As aching tooth, filled with batting, saturated with Nervaline, will cease aching within five minutes. Try Nervaline for all kinds of pain. 10 and 25c a bottle. Sold by all country dealers and at Polson's and King's Drug Stores.

The Opinion of All

Who have tried Polson's Nervaline, the great pain remedy, is that it is never failing in pain of every description. Neuralgia, toothache, cramps, pain in the stomach, and kindred complaints are banished as if by magic. Rapid and certain in operation, pleasant to take. Nervaline stands at the very front rank of remedies of this class. A trial bottle may be purchased for 10 cents, a very small amount in any case; but the best expenditure you can make, if a sufferer from any kind of pain, is a 25 cent bottle of Nervaline at Polson's or King's Drug Stores.

Perry Davis' Pain Killer taken internally, it relieves instantly the most acute pain. Used externally, it is the best Liniment in the world. Its effect is almost instantaneous, affording relief from the most intense pain. It soothes the irritated or inflamed part, and gives quiet and rest to the sufferer. It is eminently the people's friend, and every one should have it with them, or where they can put their hands on it in the dark if need be.

Mr. C. P. Brown, Crown Land Agent, Sault Ste. Marie, writes: "Two or three of my friends and myself were recommended to try Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda, in preference to Compound Syrup of Hypophosphites. We prefer your Emulsion, and think it better for the system than the Syrup," &c.

The Month of April is the time that the wise man takes a blood purifier. You can not get a better or safer medicine than Dr. Carson's Stomach and Constipation Bitters. Price 25 cents a bottle. Ask your Druggist about it.

Do not scatter your sick headache powders broadcast. It is not necessary. Carter's little Liver Pills will cure you. Don, one little pill. All druggists sell them.

TRIP TO YALE.

What a Traveller Sees by the Way—Railroading in British Columbia—Roughing It.

(To the Daily British Whig.)

DEAR SIR,—We left Kingston on the 19th March, and great praise is due to Mr. [illegible] for the goodness of our party as far as Chicago Junction, and to Mr Rice for our guidance of us to Omaha, also to Mr Harmer, who conducted us to Yale, fulfilling to the letter his contract. The journey was a tedious one. The country through Nebraska was barren, and along the Platte River we saw thousands of dead cattle, having had nothing to eat. To Cheyenne we went at the rate of 13 miles an hour 40 cars drawn by two engines. Through the Rockies we went at the rate of 10 miles an hour as far as Medicine Bow, gaining an elevation of 7,917 ft. from Omaha, having sunshine, every day. We saw at Grand Island, Neb., a large locomotive and engine works, machine and car shops, and similar works at Cheyenne, which is a fine city, lighted by electricity. At these western cities we found that carpenters commanded $4 per day, laborers $2.50 per day; eggs 40c. per doz., butter 50c. per lb.; other things equally high; board $35 per month. We saw some 30 mule teams carrying freight over the mountains. A good breakfast, which at Omaha cost 25c., in Wyoming cost 50c. and 75c. Here we saw lots of deer and antelope, and in the North Platte thousands of wild duck and geese. The mountains were covered with snow. At Fort Steel barracks the Yankee soldiers were out on parade, in full dress, and looked well. On Easter Sunday we

PASSED THROUGH UTAH

The scenery was grand. At the town of Echo, 200 population, the only place of worship was a school house in which Mormons, Methodists, Baptists, Presbyterians and Roman Catholics met, not at stated hours but just as the ministers or priests came along. The place is very nice, having a great mill, several small farms and many small gardens. At 5 o'clock we left Ogden, having made our last change of cars for San Francisco. We escaped four two hours at Wells, in Nevada, a dirty, unprepossessing place and principally populated by Chinamen. The small pox had broken out badly and carried off every one who took it. At this place a white man is not wanted, if he gets a job he will not keep it, and so the Chinese have a monopoly. Here we had a change of diet, receiving new potatoes (five for a dime) and new milk, and we appreciated them. In Nevada we saw many interesting things. At Lone Locks we saw the Indians in a war dance, and the Chinese beating their tom toms and playing foot ball. Here, too, we saw the first system of farm irrigation and heard much of the gold and silver mines. The busy western girls were welcomed on the cars with their new new milk, fresh eggs, highly flavoured coffee and sweet cake. Through the Sierras the scenery was grand, now a mountain, now a canyon, and in the latter beautiful gardens and orchards in blossom. Away

TO CALIFORNIA WE SPED,

and passed peach orchards, orange or chards, gardens with all kinds of vegetables well advanced, and banks and slopes covered with flowers. After leaving Sacramento we saw thousands of duck and geese, and ranches upon which there were thousands of hogs and cattle. At Port Costa we embarked upon a large boat 423 feet long, 117 feet wide, with engines 4,000 horse power. Her name is the Saiona, and is said to be the largest boat in the world excepting the Great Eastern. We remained at San Francisco awaiting a ship to convey us to Victoria, B.C., and finally embarked on one which had 800 passengers, while she had only accommodation for 150. Truly we were packed like herrings. We landed at Victoria on April 4th, and visited the government buildings, the grounds surrounding which are covered with [illegible] caps and dancers. Here there was no snow, and there appears to have been no winter. We saw two Chinamen tried for house breaking and sentenced to seven years in the penitentiary; we heard two debates in the Legislature, and attended service in the Salvation Barracks, and my friend and companion, Jonathan Bramley, promised an address on the Friday night following. Having to part we met and thanked God for His kindness and mercy and prayed for a continuation of His blessings. Bramley stops at Nanaimo. From Victoria to New Westminster we travelled by the steamer Princess Louise then we changed boats for Yale, paying $2 for a state-room. The fare a breakfast, and 50c for a lunch. Some 45 miles

DOWN THE FRASER RIVER

the boat tied up for the night, the water being low. The boys went ashore, lit a huge bonfire and stole a case of cognac brandy. At any rate it was missed in the morning, and many were sick and sleepy. We passed a boat used in dredging the river for gold. At Emory Bar there was a large delay, but finally we reached Yale, were divided into small quarters and set out for the work 35 miles distant, reaching it in time for dinner on Sunday. In the afternoon we put up tents for the accommodation of 12, and our's is about the best fixed in a camp of 150 men. Tally one for Kingston boys. A few are dissatisfied with the outlook. The cook is white, and the board good, but no whiskey is allowed in the works, and this catches some of them bad, but it suits me well. The men wanted here are such as are not afraid of work. The patent leather kind have no business here. It has rained every day since we arrived here, still the work goes on. The climate is good, the water is good, there is plenty of work at fair wages for industrious men. In New Westminster I saw a Kingstonian, who has gone into the painting business. In Yale I saw one Newly, who spoke about the Primitive Methodist Church, the Mission Hall and the Temperance meetings. He told me he had $50 due him for March. He likes the place well. I did not know his address, but he knows many in Kingston and especially in our Church. I was glad to see where his thoughts were centred. I also saw one John McKinsey (Mackenzie) who worked in the Cotton Mill. He is in Victoria. He left the mill, but talked of returning to it shortly. The wages in Victoria are not so good, and board is $6 per week. Altogether the railroad is the best for money making, though a good deal of roughing has to be done. It will be hard with some for a while.—Yours,

JOHN A. SALT.

They call it "Dunlap's Patent"
It's a big-eare crown, medium brought
With front and back to be slightly bent
It's the latest thing out think of that
And a very, very nobby hat
Did you want to see it, did you say?
Then kindly call on GALLOWAY

IMPORTANT TO STEAM USERS AND ENGINEERS.

How to Keep Boilers Clean.

FISHER'S PATENT AUTOMATIC BOILER CLEANER, when properly applied to a steam boiler, never fails to remove all

MUDDY DEPOSITS AND SEDIMENTS

from water before they become baked into scale. The Cleaner is noiseless and certain in its action, and will increase a new supply. A boiler kept clean saves a saving in fuel and repairs, as well as a reduced liability to explosions.

Having the agency for this section of the country, we are prepared to fit them up and guarantee them to be all the patentee claims for them.
