THURSDAY EVENING, MAY 17, 1883.

CITY AND VICINITY.

Phoenix.—Moderate to fresh south easterly to southerly winds, fine weather, higher temperature.

RICHARDSON'S hair works have been removed to the rooms over Walsh & Stacey's, 106 Princess Street.

R. McFAUL is showing handsome patterns. All silk brocaded grenadines at 60c per yard, worth $1. All new designs.

ALL parties who bought goods at the British American must get them out at once or they will be moved and resold at their expense.—J. E. Hutcheson.

PURCHASED A TABLE.—The butchers have purchased one of the billiard tables from the British American Hotel, and will place it in their room, Golden Lion Block.

RAZING A BUILDING.—Workmen are at present razing the stone residence on the Gas Works property, Barrack Street. The house has been one of the oldest in the city and was at one time considered about the finest. The Company want more room for their coal supplies.

INDUCTED TODAY.—To-day the Toronto Presbytery assembled in the Carleton Street Presbyterian Church, Toronto, and inducted Rev. Andrew Wilson. For the Brock Street Church here a new and young pastor may be called from Scotland.

FOOT BALL MATCH.—A foot-ball match on the R. M. College campus, between the Cadets and Collegiate Institute youths, took place yesterday afternoon and was an easy victory for the Cadets. The game was according to Rugby Rules.

A NEW ELEVATOR.—Richardson & Sons are erecting a new elevator alongside their new warehouse at the foot of Princess Street. The new structure will be used in the loading and unloading of vessels. The firm have one of the best appointed warehouses in Eastern Ontario.

GARRISON BALL.—There was a large attendance of the elite of the city at the ball which occurred in Tete du Pont Barracks last evening. The dancing took place in the mess room, the appearance of which was very pleasing, and the supper reflected much credit upon the officers and their caterer.

A RUMOURED APPOINTMENT.—It is reported that Rev. T. Stanton, of Barrie-field, has been appointed Rector of the the Anglican Church at Deseronto. A correspondent in that village states that the new Rector entered upon his duty last Sabbath, and that a curate will be appointed to assist him in the two parishes.

EARLY CLOSING EFFECTED.—No trade in the city has so suffered from the slavery of long hours as that of the grocers, proprietors and clerks being alike restricted in their proper leisure by the competition for trade. At last an agreement to close early in the evening has been signed by the tradesmen, and we trust the public will aid them to a faithful adherence to their pledge. Grocers and their clerks need rest like other folks.

BIRTH IN PRISON.—This morning there was an unusual occurence in the King ston Penitentiary—the birth of a child. The mother, Mrs. Elliott, was convicted some six months ago of larceny and hails from Lindsay. In ten years not more than four or five births have occurred in the penitentiary, all children being kept in it until the expiry of their mothers' terms. Baby Elliott is said to be very pretty.

VERY COZY ROOMS.—The members of the Kingston branch of the Sailors' Union now meet in their new rooms over Capt. Lewis' store, on Ontario St. They have a very cosy place. The floors are neatly carpeted and the wall hung with the pictures most pleasing to the eye of a "salt." Thomas Paddon makes an excellent President and is to be congratulated on having fitted up such a comfortable retreat.

FAREWELL EVENT.—The many friends of Rev. Mr. Robeson, of Inverary, met at the parsonage on Tuesday evening and after enjoying themselves in a social capacity presented their pastor with a purse of about $25. The Inverary choir gave excellent music, as also did Mrs. Townsend and Mr. R. Morrison. Mr. Robeson and his brother, Rev. J. E. Robeson, of Aultsville, left for the Conference at Picton next morning.

A PRISONER FROZE.—About six weeks ago Mrs. Cullen, an employee in the Knitting Mill, had the misfortune to pierce one of her fingers with a darning needle. The needle must have had some poisonous matter upon it, for afterwards the wound became painful and the swelling extended to the arm. Mortification set in and parts of the bone came away. To save the hand Mrs. Cullen's physician will, in a few days, amputate the finger at the wrist.

HERE AND THERE.

Laconic Arrangement of Items of Local and General Interest—Gossip that is Readable.

Special meeting of the City Council to-night.

The market this morning was not large. Farmers during the fine weather are hard at work.

It is understood that ex-Speaker Blanchet will be appointed Collector of Customs at Quebec.

Abbie's photograph is to be found in a large number of drawing rooms. It's a pleasant face to look at.

Hon. A. Mackenzie and wife passed here yesterday. They will at once prepare for their trip to Europe.

After careful searching it has been found that Goliath was the first man to have a bang on the forehead.

The Dominion Quoiters' Association has been successfully organized. Kingston will probably officiate with it.

A large saw-dust drier, built on a new principle, has been purchased in Chicago for the Chemical and Gas Works at Deseronto.

Of course Dr. L. W. Davis will be relieved of the suspicion of having sought a cheap puff for the amputation of Tom Coffee's finger.

A writer has minutely described how the young ladies kiss in Nevada, but the thing that troubles the boys is how they kiss in Kingston.

The shin bone of Saxie Allen, Morton Distillery murderer, is said to be now used as a window prop in the house of a leading citizen on King Street.

The letter of "Bon Ami," will appear to-morrow. Our correspondence department is somewhat crowded, but it is popular and has our best encouragement.

A handsome young Kingston lawyer and methodist kissed a married lady in Toronto. The circumstance has had something to do with the separation of man and wife.

Tom Coffey reports a very sore tongue this morning. He is under the impression that after being chloroformed somebody wanted to amputate his tongue as well as finger.

"Ma," said a little four-year old Miss on Princess Street the other morning when it commenced to rain, "Has God got any water carts in hebin, and does he pull the string that lets the water out when the rain tums down?"

Capt. Sands, when in Dresden last year, had a pleasant chat with Rev. Josiah Henson, the hero of "Uncle Tom's Cabin," whose death has been announced. Capt. Sands says the veteran preacher and champion of his race was one of the most interesting persons he ever met.

Charleston Lake has been set aside as a preserve for fish. No fishing with nets is to be allowed. All foreigners desiring to angle will have to procure a license from Jas. Grier, at the outlet, or from Mr. Johnson, the Inspector for this lake at Charleston.

A city physician states that he has seldom known so much sickness to be in the city and country. The most epedemic diseases are the measles, scarlatina, whooping cough, chicken pox and inflammation of the lungs. The measles have about completed their ravages.

Last winter Collector Warren, Cape Vincent, seized a pair of horses that had been taken over from Canada without paying the duties. They were sold at auction yesterday and brought $250, the same man bidding them in that had brought them from Canada.

A woman named Nettie Neyland, on her way from Florida to Kingston, was taken sick at the railway depot, Rome, on Monday, and having no money was taken to the station house. Yesterday she was taken to the county house, where she will be cared for till her friends are heard from.

A NOVEL FIRE ESCAPE.

A mechanic in Gananoque named Stunden has invented a novel fire escape. It is highly spoken of by practical men. It consists of a bar of angle iron fixed along the front of the building, immediately under the eaves of the roof. On this bar moves a "carrier" so arranged as to traverse the entire length of the bar with very little effort. To this carrier is slung a simple pully over which passes a wire rope or light chain, to one end of which is attached a "basket," while the other end is carried in through the door or a window on the ground floor. Should a fire break out, all that is necessary is to release the rope, when with a very slight effort the basket can be made to stop opposite any window in the building. The great advantage in the machine is that by the man in charge of the rope standing on the opposite side of the street to the burning building the basket can be lowered to where they stand, thus conveying the person in the car down at a safe distance from the flames. The inventor claims that one man can easily manage the rope when two people are in the car. Judging by latest reports Gananoque needs to invent a burglar escape more than a fire escape.

A SPLENDID PERFORMANCE.

The Opera House audience last night was a small one when the Madison Square Company gave its second performance of "Esmeralda." The receipts were sufficient, however, to meet expenses. The play was as good as on the previous evening, every detail being faithfully carried out, every scene annoted with rare power and effect. "Esmeralda" is, in many respects, like "Hazel Kirke" and reminded us of that drama, but it is much more attractive and develops one's interest as it proceeds. The Company was the best balanced one visiting Kingston during the season now about to close, and of Dave, Esmeralda, Norah and the rest of its members the people will cherish a kindly recollection. In future when the Madison Square Theatre is represented here the public will know what to expect—performances dignified, elevated and perfect in dramatic art.

DIOCESAN COMMITTEES.

Important Meetings of the Mission Board—Warm Debate—Meeting of the Synod.

On re-assembling at 4:30 o'clock yesterday the case of North Hastings was taken up. Rev. J. W. Burke advocated the making of a grant.

On motion, the sum of $100 was put at the disposal of Archdeacon Bedford Jones to supply church services in the Township of L'Amable and neighborhood. A similar grant of $200 was made for the support of work in Madoc.

The parish of Newboro was inserted in Class 1, with an intimation that the grant would be discontinued next year.

A proposal was made for the establishment of a new mission with Lombardy for its headquarters.

The other arrangements of the classification were as a rule, carried out, making grants in all to the amount of $9,650.

At 6 o'clock the Board adjourned to meet again 8:30 o'clock. After some details of business were dispatched the report of the Sub Committee appointed to consider the advisability of employing a missionary agent for the collection of funds, was taken up.

Mr. Reynolds spoke in support of the plan, quoting the example of the Diocese of Huron, and the testimony of individual witnesses in favour.

Rev. E. P. Crawford, in seconding the adoption of the report, spoke at some length on its behalf.

Rev. Messrs. Bogert, and Nelles and Mr. Walkem spoke against the adoption of the plan. The discussion was continued in a strong speech of Rev. E. H. M. Baker, in favour of the Rev. Dr. Twing in the American church.

An amendment was proposed by Mr. Walkem, and the whole matter was referred back to the committee to report at the September meeting of the Board.

OTHER COMMITTEE MEETINGS.

The Book and Tract Committee and other committees also met last evening and furthered their work.

This morning the Episcopal Trust Committee met and considered its report and at 10 o'clock, the Executive Committee came together and continued its sessions until one o'clock. The work of the Executive consists largely in reviewing the reports of the other committees.

The date of the meeting of Synod was fixed for June 11th and after an interesting and important deliberation, the Committee adjourned.

PORTSMOUTH NOTES.

The best flag staff perhaps in the Province has just been hoisted by Warden Creighton on the brow of the hill in the Penitentiary garden overlooking the lake. It is 90 feet high and will float a flag on the 24th.

Last evening the Salvation Army band paraded through the streets en route to Portsmouth, in connection with the Army's meetings at which place it performed during the evening, proving a great attraction. The hall was crowded.

It is announced that Dr. Wilson will address the Salvation meeting in the Town Hall on Friday (to-morrow) evening.

The interest in the movement is continued, and the effect upon the village are very apparent.

Lieut. Atkins says many prayers in Portsmouth and Kingston are being sent up for the editors and reporters of the city papers who have been helping them "to roll the old chariot along."

YACHTING NOTES.

Mr. Offord's new yacht promises to be fast as well as comfortable. She will not make her appearance here until late in June.

The smaller boats belonging to our harbour fleet have been fitted out for the season, and some of them have done considerable sailing, but the weather is altogether too cold to enjoy yachting.

At least two yachts will go from this harbour and participate in the Gananoque regatta. The thing being "open to the world," of course the Emma, now of Toronto, is expected to go into the race with Dow Clans at the tiller.

"It is said," says the Montreal Witness, "that a Kingstonian is about to build a large yacht, and have another dash at the New York Yacht Club for the Queen's plate. Success to him. He will want all our good wishes, if he is to do any better than those who have gone before him."

PERSONAL MENTION.

Thomas Camm, of Newboro, died yesterday.

His Lordship Bishop Cleary held a confirmation service at Belleville today.

J. J. Buggee has been elected Secretary of the Catholic Mutual Benevolent Association in place of O. J. Cleary, resigned.

T. M. Fenwick, M.D., has been appointed medical examiner for the Sun Life Assurance Company, of Montreal. A. Waldie is agent.

H. J. Stevens, manager of the Bank of British North America here, has resigned and will take the management of the Winnipeg branch of the Bank of Nova Scotia. Mr. Stevens' successor here is Mr. Robertson, late of Hamilton.

MAKING A PRESENT

In the early part of April Rev. Father Fleming, formerly curate to Revd Father Stafford in Lindsay and now at Tweed, was made the recipient of a highly complimentary address and a splendid gold watch and chain valued at $250. The address referred in warm terms to the respect and esteem in which the rev. gentleman was held by his parishioners. Father Fleming made a suitable reply and thanked the friends who thought him worthy of such a costly gift. He would long remember the people of Tweed and he would wear the gift with pride. A bountiful oyster supper was then partaken of by those present. Father Fleming's many friends in Kingston will be pleased to hear of his popularity.

MARINE NEWS.

Large Cargoes—Late and Popular Appointments—Still Harping on the Regulations.

An appropriation has been granted for a new lighthouse at Deseronto.

The schooner Eureka cleared yesterday from Trenton for Oswego with posts.

Captain McKee has been placed in charge of the schooner Annie M. Falconer.

The steamer H. A. Calvin is doing the work that the burned Gardiner was engaged in.

The Inland Lloyds Register is out. It is a complete book. All the Canadian and American vessels are classed in it.

Hon. Alexander's Bay was crowded with vessels this morning giving the harbor a very business-like appearance.

Captain Taylor, Marine Inspector, comes out in carbon boots. Of course they are new and not the only pair in town.

Belleville harbor will be dredged, the Government having appropriated $6,000 for the work. The dredging has become a necessity.

There is a talk of the schooner Sam Cook, sunk near Brockville, being raised. Several insurance men are making an inspection of her.

The Hooney fleet are in from Ottawa with lumber. The schooner Greenwood and the steamhpage Norman are loading the same cargoes for Oswego.

The steamer Conqueror has not yet been raised, the Wrecking Company having to await the arrival of her owner, Mr. Ross, from Europe. As soon as he arrives work will be begun upon her.

Captain J. F. Taylor has been appointed Government Inspector of hulls for a couple of months. He left this morning for Toronto under orders. We hope the appointment will be made permanent.

The schooner Higgie, which arrived here yesterday with 31,000 bushels of corn from Chicago, was the largest craft which so far has passed through the canal. In order to get through the old aqueduct at St. Catharines she had to be lightened.

The steamer Rothsay was to leave here this afternoon for Ogdensburg, there to be docked for repairs. The officers of this craft are: Commander, Capt. Smith; Mate, J. Birchel (late of the Spartan); Purser, F. Robbin; First Engineer, J. Finucan; Second Engineer, M. Penfield.

The schooner Delaware on Saturday night ran aground on the bar off Ship Island. She was loaded with rye for Oswego. The Mary Foster was secured to enlighten the disabled vessel, and the tug Rover towed her into Belleville harbor, leaking badly. About 2,000 bushels of grain were damaged with the water.

The Belleville Ontario has nothing complimentary to say of Captain Larry Spafford, who will have charge of the life station at Poplar Point. He is not a sailor, it says, and his services even in a fishing craft have not been extensive. Captain Hudgins, in charge of Salmon Point Lighthouse, would have been a better appointee.

The steam barge Jim Sheriffs, now lying at the M.T. Co's wharf, has been visited by many, and they greatly admired her model. She is a fine craft, open-waisted, with raised decks fore and aft. Her cabin is aft, officers' quarters and wheelhouse in front. The barge is commanded by Capt. Macdonald, a Wolfe Islander, who, in 1866, when Capt. John Donnelly was a boy, was with T. Davis and sailed the schooner Carrier Dove. Canadians are always preferred for important commands because they are industrious and sober. Canadians sail the finest vessels on the Western lakes.

APPLICATIONS FOR LETTERS PATENT.

The Swan River Lumber Company and the Dominion Navigation Company, of Toronto, have made applications for letters patent. The incorporators of the latter company are Messrs. Samuel Crangle, William Alfred Geddes, John Valentine Trowell, of Kingston. They ask for powers to carry on the business of carriers of passengers and freight, for hire, between different ports and landings on the River St. Lawrence, Lake Ontario, Lake Erie, Lake St. Clair, Lake Huron, the Georgian Bay, and Lake Superior, and the rivers, canals, and water stretches connecting the same and the adjoining gulfs, bays, and streams, including ports on the American side.

MEAN BUSINESS.

The St. Catharines News declares that the detention of the Persia and other steamers at Kingston, for lack of papers, demands the severest censure. Our contemporary declares that the steamer Persia had her proper inspections but that the Inspector had not made out the necessary certificates. The Customs officials here have a duty to perform, and if the vessel had not her proper certificates it was their duty to stop her. We well remember the loud complaint that went up when it was learned that certain crafts, which went under water, were not inspected. If the Kingston officers were so negligent as some at other ports there would probably be few vessels carrying proper certificates. As the Government most heartily endorses the action of the Kingston officers in their efforts to enforce the law, we join with the St. Catharines News in hoping "that the Government will look into the matter."

ARRIVALS.

Schr. W. J. Greenwood, Port Hope, 6,100 bush. wheat.

Schr. Halstead, Chicago, 34,710 bush. wheat.

Schr. Sweepstakes, Toronto, 12,849 bush. wheat.

Schr. Homer, Chicago, 31,576 bush. corn.

Schr. Florida, Chicago, 19,38 bush. corn.

Schr. Erie Queen, Port Whitby, 14,428 bush. wheat.

Sch. barge Jim Sheriffs, Chicago, 37,845 bush corn.

Schr. F. B. Gardner, Chicago, 37,834 bush. corn.

The Montreal Transportation Company received fifteen vessels at their wharves yesterday, aggregating over 300,000 bushels of grain. There are more in the lake coming down.

SETTLED AT LAST.

The Second-hand Dealers Conform to the By-law—A Drunkard with Millionaire Friends.

Edward Wilson still shook from the effects of his drunken debauch. His eye was blackened and cut. This damage had been inflicted by men whom he did not know. He was charged with the larceny of a key, the property of W. McKenzie. Wilson said he was a fool to steal it, but he did not know what he was doing. He said he hailed from Montreal, and, if permitted, would leave the city at once for Brewer's Mills where he had originally lived. The Magistrate reserved his decision, telling Wilson that if he behaved himself he would hear nothing more about the charge, but if he appeared again in court he would suffer for this act. Wilson thereupon departed. He is a genuine tramp and his present condition is the result of drink. Some years ago he was a miller, of considerable ability and means, and the companion of men occupying high positions. He is of a good family, and has brothers in California who are reputed to be millionaires. Were he not such a hardened case he could live near or with them and be courted in society, but alcohol is his master and he hastens towards the end of all alcohol's slaves.

At last the junk cases have been settled. This morning the names of half a dozen second hand goods' dealers were called. T. L. Snook appeared for them and the City Solicitor prosecuted. A consultation occurred regarding the legality of the by-law passed some months ago for the government of "junk" dealers, and several modifications were agreed to. Articles will be detained by the purchasers for one day instead of two, and the dealers will not be compelled to keep a record of them. This was a thing that many of the dealers could not do anyway. Some of them were totally unable to write, and did not feel able to hire a clerks. It was also agreed that all searches for goods should be officially performed. When any goods are reported to be stolen and are to be looked up the work will devolve upon the police officials. The Magistrate was opposed to conceding the first point, that regarding the detention of goods, but the Council will probably make the change in accordance with the Solicitor's opinions. The counsel and defendants had a consultation and decided to accept the modifications. They, therefore, took out the necessary licenses, each paying the Treasurer $1. Several dealers "kicked," stating that they had paid considerable money before.

TESTIMONY.

Mr. George Sewell, of Memramcook N.B., writing from Moncton N.B., under date of May 7th, 1878, says:

"In January last I came to Moncton from Memramcook to consult a physician, as I was in the last stages of consumption. When I arrived here I had at once to go to my bed, and was so low I never expected to leave it. A physician was called who pronounced my case as hopeless; that I might live a week or two but not certainly more. As a last resort he recommended Robinson's Cod Liver Oil with Lacto-Phosphate of Lime. I purchased a bottle and after taking the first dose commenced to improve. It seemed after taking a dose as if I had eaten a good, hearty meal. I have continued taking it ever since and am rapidly improving. I am confident that had it not been for your Oil I would have been in my grave to-day. You are at liberty to use this in any way you wish, as I am anxious to let others, who are afflicted in the same way, know, in the hope that they too may receive the same benefit."

For sale by Druggists, $1 bottle.

"SPECIALISTS."

Anyone suffering from Consumption, Bronchitis, Asthma, Catarrh, Catarrhal Deafness, Laryngitis, or sore throat or any diseased condition of the head, throat or lungs, should lose no time, but at once avail themselves of the skill and experience of competent medical men who devote their entire time to the above diseases and who can cure you if your case is not already incurable. The International Throat and Lung Institute is the only one of the kind in America, and it is gaining an enviable and widespread reputation on account of the many almost miraculous cures made by the Surgeons connected therewith. Consultations free. Also a trial of the Spirometer, the wonderful invention of Dr. M. Souvielle, of Paris, ex aide Surgeon of the French army.

Those unable to come to the Institute, or use our surgeons, who visit all the principal towns and cities of Canada, can be successfully treated by writing, enclosing a stamp for a copy of our International News, published monthly which will give you full particulars and references, which are genuine. Address

International Throat & Lung Institute,

173 Church Street, Toronto,

or 13 Phillips Square, Montreal
