THURSDAY

Sale of McIlwraith's property on Pine Street at 2 p.m.

Performance of Jack P. Wade Rifles at the Drill Shed at 7:30 p.m.

Special excursion for steamer leaves and steamer returning to Toronto until noon.

CITY AND VICINITY.

Prospects.—Moderate to fresh south-west to west winds generally fair warm weather, with a few local thunder showers.

Fine Cattle Business.—Messrs Hunter & Lockett, the enterprising boot and shoe dealers of Bath-ville, Kingston and Trenton, state that their sales since the 1st of January, have been larger than for the corresponding months of any year since they commenced business, 20 years ago.

Second a Wife.—This morning the Mayor was notified by wire that Mary and James Cornack intended to sue the city for damages for injuries received by Mrs. Cornack in Ontario Ward owing to a defective sidewalk. The case will be tried at the fall Assizes unless previously settled.

Swimming Bath Again.—There is an agitation for the erection of a bathing house. The City Council could give the $300 it voted to the Dominion Day celebration, and this amount could be supplemented by $400 or $500, collected from the citizens. Shove the scheme along, Ald. Redden.

Letter From the Widow.—Chief Horsey has received a letter from the widow Pendleville, Hamilton, asking about the value which her recreant lover stole from her. She wanted it sent to Hamilton. She hopes that if Scobell is caught he will be severely punished. The Chief will write to the widow, telling her how matters now stand.

Caught a Lunatic.—John Pawbey, a lunatic, had been absent from Rockwood for two days. He was spied by a citizen this morning and followed, though he made a great attempt to escape. A policeman was summoned and the demented fellow arrested. He said he had been laboring for the Queen. He was returned to the Asylum.

The Gang's Arrival.—The Bell Telephone Company dispatched a gang of workmen from Montreal yesterday to assist in building the line between Kingston and Belleville. The men began work this morning under the superintendance of R. Freeman. The poles only are now being erected. The men camp out along the route.

Teachers Resignations.—Two of the teachers in the Collegiate Institute have resigned—Mr. D. A. Givens and Miss Phillips—their retirement to date from the advent of the summer vacation. Both are experienced teachers, and the close of their connection with the Institute must be deeply regretted. The Trustee Board will have some difficulty in fittingly replacing them.

Married in Pembroke.—W. H. Bland, son of Rev. H. F. Bland, was married last Saturday to Miss Louisa Guppy, of Pembroke. Rev. Mr. Bland had the pleasure of performing the interesting ceremony. On the Wednesday evening previous the friends of Miss Guppy presented her with a gold watch and chain in appreciation of her services in the Methodist Church Choir and Sabbath School.

Going to Brockville.—The officers of the 14th P.W.O. Rifles met last evening and decided that the battalion shall go to Brockville on Dominion Day. The expenses of the trip will be paid out of the Company funds, created by the payment into it of the men's Government allowances. Arrangements for transport will be made with either a steamboat Co. or the Grand Trunk Company. A special train may be run to accommodate the military and their friends.

ELECTION OF OFFICERS.

On Monday evening Hiram Lodge, A. F. & A. M., Wolfe Island, had an election and chose the following officers for the ensuing year:

W.M.—W. R. D Angus.
S.W.—R. O. Minchock.
J.W.—W. C. Wills.
Treasurer—S. Unthsch.
Secretary—James Keyes.
Chaplain—Thomas Keys, jr.
S.D.—David C. Pyke.
J.D.—W. Greenlaw, jr.
D. of C.—W. Gillespie.
I.G.—William R. Clark.
Tyler—John McCaul.

NARROWLY ESCAPED.

Yesterday afternoon the children of Mr. Wilson, Manager of the Cotton Mill, went fishing off the mill wharf. They were attended by a maid. One of them, becoming dissatisfied with the sport, started for the mill, but while proceeding along the wharf fell into the water. The accident was noticed by hands from the mill, the alarm was given and one brave fellow jumped in to the rescue of the child, but could not find it. Finally Harry Tomlins, with a grip, succeeded in bringing it to the surface, more dead than alive. Dr. Fenwick was summoned and succeeded in resuscitating the child. The escape from drowning was very narrow.

HERE AND THERE.

Lacrosse Arrangement at Toronto of Local and General Interest—Gossip that is Readable.

The pic-nic season holds back bitterly.

A Port Hope society lady is to enter a convent.

The Crossen Car Works are not to be moved from Cobourg to Toronto.

Napanee has organized a Lacrosse Club with James G. Gallagher, an old Kingstonian, as Captain.

There will be an excursion to Desoronto on Dominion Day. The celebration there will be worth seeing.

The daily Royal Mail line will be complete after to-morrow morning, east and west, Mondays excepted.

The Public School examinations are close at hand and the platforms will be strewn with actually new adjectives.

The Insurance Companies will appeal against the decision of the counties judges in regard to the assessment of their profits.

There is grumbling in Manitoba at the appointment of a Kingston man to the charge of the Custom House at Portage la Prairie.

Virginia has had a long drought, and its farms are a barren waste. If rain showers were transferable we could afford to do quite a trade with Virginia.

Mr. Shearne has made his annual purchase of furs at Pointaupelouche. The quantity this year is not as large as usual. Last year the stock was valued at $12,000, the year before at $18,000.

New H. Harris will conduct an open air meeting on Thursday evening at the corner of Karl and Division Streets, also on Ellis Street on Saturday evening, each meeting is to commence at 7:30 o'clock.

We don't wish Drs. McCammon and Gray any harm, but several of the news papers frequently in Ontario would be glad if the International Throat and Lung Institute did make a little pot of money.

There is a sensation near Yarker which may be vindicated in the courts. A farmer is accused of slandering a neighbour's family, more especially the wife, with whom he charges criminal intimacy.

Again the season has returned when the school book publishers to save the expense of advertising, send out a few advance sheets of new readers, and requests a notice worth $10 as a friendly compliment. There is a point where literary favour ceases, however, and downright business sets in.

PERSONAL MENTION

Rev. Mr. Allan has arrived at Ottawa.

Capt. Abbe is said to be visiting Chatham.

Thomas Briggs and W. Paul have arrived in Winnipeg.

W. D. Gordon went West this morning. He establishes a new encampment at Barrow.

James Day, of Syracuse, a novelist arrived here, and will take a spin over over our country roads.

E. R. Wilson and family, of Albany, N.Y., and V. B. Brewer and family, of Lamberton, N.C., are at the Windsor Hotel.

Mr. Alexander will not assume the duties of his new position as Collector of Inland Revenue until July 1st.

Rev. John May has resigned the Inspectorship of the County of Carleton Public Schools. He was formerly Principal of an Academy here.

Dr. Coleman, one of the Victoria University Professors of Cobourg, has plans of a cottage that he intends having built on a small island below Gananoque.

Rev. A. S. Chambers, leaving Quebec for Montreal last night, was presented by his congregation with a gold watch and address, and Mrs. Chambers with a well filled purse.

Mr. Smith, of the Post Office Department, Ottawa, son of Sir S. Smith, was to-day married to the eldest daughter of Mr. T. A. Winn, Superintendant of the Rideau Canal.

James H. Harper and family, of New York, were at the Burnett last evening. They were en route for Alexandria Bay where they will spend the summer. Mr. Harper is connected with *Harper's Magazine*.

SHOEBURYNESS TEAM.

The team for Shoeburyness will assemble at Quebec about the end of this month, and sail for England July 21st. The Shoeburyness meeting will commence on 4th August and last for two weeks, during the latter part of which our men will compete. At present several members of the team are here undergoing training. The Government have authorized a grant of $2,000 in aid of the necessary expenses, and the additional expenditure, about $1,800, will be borne by the Dominion Artillery Association. Subscriptions are asked and may be sent to Lieut.-Cols. Montmainbert, Irwin, Cotton or Macdonald.

THE LAND SECURED.

The corporation is now possessed of all the land necessary for the extension of Bagot Street to the Artillery Park. The James lot was secured by arbitration for $925, and the lot owned by P. Bagan, and upon which was to be erected the Salvation Army barracks, has been purchased for $1,800. Mr. Bagan has also been allowed $130 towards expenses, preparation of plans, &c. The street will at once be opened, the old buildings being torn down. Half of the Bagan lot will be afterwards sold by the City. It is 197 feet deep and can be divided into fair lots for building purposes.

PRESENTATION AT OTTAWA.

Previous to leaving for Kingston the congregation of the Dominion Church, Ottawa, presented Rev. Lolley Hooker with a warmly worded address and a purse containing $200. Mrs. Hooker was also surprised with an address and a purse of $60. During his residence in Ottawa Mr. Hooker has proven himself to be a deep thinker and a zealous Christian worker.

QUEEN'S COLLEGE.

Reading of the Annual Report—Statement of the Finances—Loss of a Grant.

Rev. Principal Grant presented the report of Queen's University and College at the General Assembly. He called attention to the fact that the revenue had been $22,694, but of this they only received $2,751 from the common fund. This small proportion of revenue received from the Church was for the reason that as a Church it did nothing for the University as a faculty of arts and science. He contended that the Church had done very little to support the College. They only asked the very moderate sum of $4,000, and yet they had never got much more than half. The number of students in Queen's studying for the ministry was 62, of whom 42 were in arts and 20 in theology.

In view of the little the Church had done for the College Dr. Grant said it was somewhat singular to hear occasional murmurs as to the burden in the western section of the Church of the theological faculties. The fact was that the General Assembly had been asked for little and had given less. As far as Queen's was concerned by no possibility could its theological faculty do with less than the $4,000 a year. Since the union Queen's had lost revenue instead of having gained. The Colonial Committee of the Church of Scotland had withdrawn its grant of £800 sterling, a grant that had been given for the salary of the Principal, who also acted as Professor of Divinity. Other sums had been lost since the union, and no very large contributions had yet been made by any of their friends. The Trustees could not have appointed their third Professor had not a number of benefactors pledged contributions for five years.

Mr Colin Macdougall, Q.C., moved the adoption of the report and expressed his great pleasure at the growing importance of the institution and the attachment evinced by the graduates of the Alma Mater. The motion contained a reference to special contributions for five years to provide a chair of Evidences Criticism and Christian Apologetics, to to which they had appointed Rev. Donald Ross, M.A., B.D.

Hon. Mr. Vidal supported the motion and gave expression to the relief that the reports had given him.

POLICE COURT WEDNESDAY

Bridget Shields, formerly a resident of Gananoque, yesterday became intoxicated and got into a fight with a neighbor. The police arrested Bridget, but the other woman sought shelter in a house. This morning Bridget was discharged.

Timothy McCarthy, a sort of crank and a peddler of smoothing irons, entered a residence on King Street, and after wandering through it finally reached the kitchen and collared an opera glass. He was ordered to drop it by the landlady, who had detected his movements. A policeman was called in and Timothy put in durance vile. Before the Court he pleaded guilty to the offence and declared that he never took anything before. "Indeed," said he, "I did not." He wept, or at least attempted to weep, and the Court officials weakened at the reporters. The man said he was from Cornwall, and if released would never steal a ha'penny's worth again. He had $54 in his possession, and the Magistrate kindly informed him that he had the option of paying a fine or undergoing imprisonment. Damages were assessed at $20 and costs. The crank dried his tears and wanded the Magistrate to reduce the fine. His pleading was ineffectual.

A hotel keeper was fined $20 and costs for an illegal sale of liquor. This was his first offence.

WON'T SCARE WORTH A CENT.

At the recent General Sessions in Napanee, at which Judge Price presided, the indictment against the editor of the *Express* was not submitted, though Mr. O'Beirne had given bonds to appear there. The *Express* says: "It is said in explanation that the General Sessions is not a competent court and that the commitment should have been made to the Assizes. It is also said that both the County Attorney and Mr. E. J. Hooper, Mr. Roe's counsel, experienced considerable difficulty in getting up an indictment that would hold water, and failing they decided to leave the matter over the Assizes for the Crown Counsel to deal with. The only thing that seems to be settled is that the bonbonsen are released and the editor is at liberty to go where he pleases. But we can assure all concerned that we have no idea of taking advantage of the liberty accorded us. We intend to remain in Napanee and fight it out on the old line if it takes ten summers. We can substantiate every statement we have made and defend every action we have taken in this matter and no man, be he as big as a mountain, clique or party can scare us worth a cent."

PIONEER CATTLE DEALER.

J. Lingham, of Belleville, was in the city last evening. He has lived in the city on the bay since 1835, and soldered in the Rebellion of 1837. He was the pioneer in the cattle trade between America and Europe; but the business is now carried on by his son, who is one of the largest shippers on this continent. One of the family resides in Chicago, and makes extensive purchases. Mr. Hugh Elliott, of this city, resides in Baltimore, where many of the cattle are shipped, and Mr. Lingham speaks very highly of his services. Mr. Lingham has 3,000 head of cattle on the ocean at this moment.

HAND ON THE WHARF.

By the kind permission of the Commandant and officers the band of "G" Battery will play on the Queen's wharf, this evening at 8 o'clock (weather permitting), the following programme:

March—Prince of Wales ..... Coote
Polka—Pizzicato ..... Gung'l
Selection—Bride of Seaford ..... Planquette
Cornet Solo, Lucia in Lammermoor ..... Donizetti
Polka—Gaby Bells ..... Jacobs
Quadrille—Tales from the Opera ..... Jacobs

J. W. Traynor, B.M.

THE OLDEST FIREMAN.

An Associate of George Stephenson—Standing Beside His Engine in the City of Chicago.

Joseph Whitehead, a prominent Canadian and an extensive contractor, was from Fort the Burnett House this morning. He is a gentleman of large proportions about 70 years of age, yet quite active in his movements. He has but recently returned from the Chicago Railway Exposition, which he had been especially invited to attend by the Company having the management of the affair. At the Exposition, still open, there are shown all the ancient and modern locomotive appliances. There are several locomotives built between 1830 and 1853 including No. 1, "Shaw" engine, No. 2, "Samson," No. 3, "Pioneer," No. 4, "Arabian," No. 5, "John Bull," No. 6, boiler of the "Stourbridge Lyon," No. 7, "Locomotion." It was ascertained that Mr. Whitehead was a

FIREMAN ON THE "LOCOMOTION,"

and so his presence was particularly desired and his expenses paid. From Mr Whitehead we learn that the "Locomotion," is the oldest engine in existence. It was built by George Stephenson in 1823 and ran from Sheldon to Stockton and Middlesboro, in Durham County, England. It was used in drawing coal cars. In 1827 Mr. Whitehead served as fireman upon it. It stood on four wheels, and was worked with a cross head like some of the engines on steamers now-a-days. A hogshead was used as a water tank. Mr. Whitehead said that as he stood by the old machine many reminiscences rushed through his brain. Things that occurred when he tired the "Locomotion," were recalled as if they had only transpired the day before. While in Chicago, where he remained for a fortnight, he was well entertained. He may return to the great city in a few days in order

ATTEND THE CLOSING BANQUET

in connection with the Exposition. Mr. Whitehead met Mr Wm. Galloway, who is said to be oldest locomotive engineer in the world. He was born in 1804, and although having railroaded it for fifty years has never drawn a cent of pay from any other Company than the Baltimore & Ohio. Since 1840 he has acted as driver, and boasts of never having lost a serious accident occur on any train that he controlled in that length of time. He ran the engine "Arabian" for forty years. The "Arabian" was the successor of the "Stourbridge Lyon," the first locomotive run in America, only the boiler of which now remains, but the former is still in running order, and was seen in Chicago on the track with the venerable William Galloway at its throttle. Mr. Galloway is yet as active as many men of fifty, and bids fair to live another decade. The engine "Samson," the next oldest to the "Locomotion," was also on the track, and driven by John Davidson, who had handled the throttle for fifty years. Amongst other veteran engineers met by Mr. Whitehead were John McAlister, Travelling Engineer of the Baldwin Locomotive Works, George Pickerrell, Travelling Engineer of the Pittsburg Locomotive Works, J. H. Moore, of Providence, R.I., Travelling Engineer of the Rhode Island Locomotive Works, D. Pasho, Travelling Engineer for the Brooks Works, and Edward Osborne, of the Shaw Works. Edwin Parsons, of Paterson, N.J., Travelling Engineer for the Cooke Locomotive and Machine Company, was the youngest engineer in the crowd.

IMMIGRATION INFORMATION.

Mr R. Macpherson, on being interrogated in reference to immigration matters, said he had during the past month placed over 1,300 persons in situations in his district, and that the arrivals were totally insufficient to meet the demands. Most applications are for farm laborers, and of such immigrants there appears to be a particular scarcity. At any rate the requirements of this vicinity have not been nearly met, and the outlook does not seem to improve. A great many immigrants reached here last week, and they were picked up as soon as they were known to be in the city. Yesterday it was intimated that ten immigrants were coming, and three farmers remained at Mr Macpherson's office in order to engage some of them. But one of them knew anything of farming, and the question was, which of the three waiting applicants should have him. Neither of the three desired to forego his claim, and it was suggested that he should be awarded to the one offering the highest bonus. Eventually the difficulty was compromised, and the immigrant set out for his new home with a pretty large opinion of his own importance. Mr. Macpherson also announces that he cannot fill all applications he gets for domestic servants. The few that come are engaged by persons on the look-out for them, and so those residing at a distance have not and cannot be served.

EQUALIZED VALUE.

The equalized value of the townships composing the counties of Lennox and Addington has been fixed as follows:

Adolphustown	$ 317,269
Amherst Island	394,033
Bath	193,094
Camden	1,796,313
Denbigh, A. and A.	39,917
Ernestown	1,796,313
Fredericksburg, N.	625,208
" S.	643,072
Kaladar and Anglesea	70,398
Napanee	625,000
Newburg	125,041
Richmond	830,833
Sheffield	378,780
Total	$7,837,744

TOBY ANGRY SQUEALS.

The *News* is welcome to print anything it finds in the exchanges uncomplimentary to the Whigs. It will do so anyway. We have had our differences of opinion with other papers, but only from the *News* have we heard "angry squeals" when "we are compelled to prick it occasionally in the performance of our duty."

☞ "Your Skin Cure is unprecedented. It in fact curing my daughter's frog worm, which has spread all over her body." Mr. E. D. Merriam, Blue Hill, Me. Dougall's hair dye, $1 per package.

ENTERPRISE AND ENERGY.

Mr. Macalister's Success in Manitoba—His Splendid Farm and Lime Kilns—Stock Stables.

In the last correspondence from Manitoba to the Toronto *Globe* we find the following reference to the success of a Kingstonian, a son of the Surveyor of Customs. Mr. W. W. Macalister left Guelph a few years ago and came to Manitoba, very much as Horace Greeley arrived in New York. But he had indomitable pluck, which always overcomes adverse circumstances, and is now one of the leading men of the Province, both in business and farming. After seeing Benson's bears and buffaloes, including several hair breeds, or a cross between a cow and a bison, black and brindle in colour, with long, wavy hair, very beautiful and rare, we turned our steps towards Mr Macalister's stables, passing the school house and a large stone hotel nearly finished, to see his fine thoroughbred stock, of which he has about 100 head, the best herd I have seen so far in the North West. He has a regular village of excellent stone stables, admirably laid out for feeding and other purposes. I never saw anything to compare with it in the East, except Bow Park, and one thing struck us as extremely odd and original. The upper or third flat of the main building is fitted up and furnished for a dancing and concert hall, as well as a hay loft, and everything about it is as tidy and clean as a new pin. A flowing well, bored into the solid rock over 80 feet, supplies all the stables with pure water, and a fire proof room is provided with a large sugar kettle and other utensils for boiling feed. He showed us through the whole place with good natured courtesy, and then led us beyond the range to his lime kilns and stone quarries. Four large kilns are constructed in one block in the face of the hill, and the average output is 6,000 bushels a week of lime. It is different from the American kiln, and consumes less fuel, which is a great advantage here. The farm is situated at Stoney Mountain. It is only about 12 miles from Winnipeg on the Stonewall Branch of the Canada Pacific RR., but a mountain in Manitoba simply means any kind of elevation above the surrounding prairie. Stoney Mountain is only about 200 feet high. It is shaped like a mammoth horse shoe, with a gradual rise from the two arms to the rounded ridge in front, where it terminates abruptly in a perpendicular bluff. The material is fossil furnous limestone of the finest grade, and laminated into layers of every thickness from an inch to four feet. The rock crops out all over, and on the highest ridge it is barely covered with coarse gravel and earth, and thousands of boulders of every size and shape are scattered on the surface. The depth of the ledge has never been ascertained yet.

BUILDING A CHURCH.

When Rev. Dr. Elliott arrives in Pembroke he will find an elegant Methodist Church in course of erection. Rev. H. F. Bland, the new pastor of the Queen St. C. M. Church, is known as a successful church builder, and in Pembroke has had a church started, the foundation stone being laid on Monday, June 11th. The ceremony was performed by the first oldest lady members—Mrs. John Hamilton, of Alice, Mrs. D. B. Warren, sr., of Allumette Island, Mrs. James Rowan, and Mrs. John Dunlop, of Pembroke Township. The President of the Conference made an excellent address.

☞ I'm happy to say Dr Benson's Skin Cure has cured my Eczema of the scalp of four years standing. Jas. A. Andrews, A.M.'s at Law, Ashton, Ill. $1 at druggists. Endorsed by physicians.

☞ Why, Angelina, where did you get those beautiful fast colors on your bonnet? "Aint they lovely? I dyed them with the Triangle Package Dyes." 10c

Consumption.

From H. R. Smith, Esq., a prominent Merchant of Bentinckville, Kent county, N. B., under date June 8th, 1877

Dear Sir—I have suffered for some years past with Cough from Affection of the Lungs, Spitting of Blood, Weakness of the Chest, and Want of Appetite, and have tried nearly so called remedies but without any effect whatever until I commenced using Robinson's Pneumonator. Everyone I have now taken 8 bottles, and find this quite equal to what it is represented to be, for it has woven like a charm, and I can cordially recommend it to all who are afflicted as I have been, as I feel it is going to make a perfect cure of me. I shall continue it, and I must say I never took anything equal to it. If you wish to make any use of this for the benefit of yourself and the world at large you can do so, for I think it should be known. I remain, yours truly,

(Signed) H. R. SMITH

Thousands Say So.

Mr. T. W. Atkins, Girard, Kan., writes "I never hesitate to recommend your Electric Bitters to my customers, they give entire satisfaction and are rapid sellers." Electric Bitters are the purest and best medicine known and will positively cure Kidney and Liver complaints. Purify the blood and regulate the bowels. No family can afford to be without them. They will save hundreds of dollars in doctor's bills every year. Sold at fifty cents a bottle by J. George King.

Life Saving Present.

If you are suffering with low and depressed spirits, loss of appetite, general debility, disordered blood, weak constitution, headache, or any disease of a bilious nature, by all means procure a bottle of Electric Bitters. You will be surprised to see the rapid improvement that will follow; you will be inspired with new life; strength and activity will return; pain and misery will cease, and henceforth you will rejoice in the praise of Electric Bitters. Sold at 50c. a bottle by J. George King.
