SPECIAL NOTICES.

MASONIC.

The Regular Meetings of the City Lodges will be held as follows:

Ancient St. John's Lodge, No. 1, on Thursday, May 6th, at 7:30 p.m.
Rideau Lodge, No. 424, on Monday, Sept. 3rd, at 7:30 p.m.
Cataraqui Lodge, No. 31, on Wednesday, 12th Sept., at 7:30 p.m.

The Regular Meetings of the Ancient and Accepted Scottish Rite of Freemasonry are held in their Hall, corner of Brock and Wellington Streets. Kingston Lodge of Perfection, Second Friday, and Rose of Sharon, Sov. Chap. Rose Croix, first Wednesday in each month.

A. O. U. W.

LENNOXVILLE LODGE, No. 91, Ancient Order of United Workmen, meets on the second and fourth Thursday of every month in the Odd-Fellows' Hall, over Wilkinson's Store, Princess Street.

I. O. FORESTERS.

COURT "FRONTENAC," No. 39, Foresters, meets on the first and third Wednesday in every month in the Orange Hall, Princess St., Kingston.

KINGSTON ACADEMY,

Brock Street, between Barrie and Johnson Sts.

CLASSES RE-OPEN MONDAY, 3rd September at 9 a.m. Boys prepared for Entrance Examinations. Vacancies for a few pupils. Fees—$3 per term.

W. SPANKIE, B.A., Principal.

JAMES REID,
Funeral Director and Embalmer,
Princess Street, Kingston, Ont.

CITY AND VICINITY.

See the heavy all wool blankets sold cheap at Hardy & Murray's.

PROB.—Moderate winds, continued fine weather; slightly higher temperature.

WANTED.—Two strong boys to learn the business and one salesman not afraid to work at Hardy & Murray's.

ORE FOR CALIFORNIA.—A large party are arranging to leave for California with the excursion on the G. T. R. on the 18th. Letters with remittances for tickets have been received from all parts of Ontario.

LOST A FINGER.—This morning Miss Lizzie Kelly, of Gordon Street, had her forefinger bruised in a knitter at the Hosiery Factory. Dr. Fenwick amputated it below the first joint. About a week ago she had another finger so damaged that she lost the nail.

THE VAGRANT GANG.—Jane Greenlow, an English woman, was arrested last night. She was dismissed this morning. John Summers, a vagrant somewhat demented, was sent down from the court on remand. He was a sad looking object and was evidently suffering severely.

A TRIAL THIS TIME.—Ellen Casey says she has laid information against Ellen Burns for attempting to "bate her with a big stick. She said she would lay me out and have my life." The date of the aforesaid sanguinary encounter was Monday last. The case will probably be heard to-morrow.

JACK COULTER ARRESTED.—Yesterday Jack Coulter was released from the Central Prison after having served two years and received thirty lashes for attempting to outrage a young girl here. This morning Jack was found sleeping on the Ferry wharf with a stick of wood as a pillow. He was very drunk. He now rests in the calaboose.

A HEAVY TAX.—Napanee is heavily taxed. The Council have just brought down their budget. They require $20,801 to carry on the municipal machine. To raise this amount a rate of two cents on the dollar has been imposed. Kingstonians think they are severely oppressed when they pay only 16 mills in the dollar.

A STRANGE ANIMAL.—Dr. Bigham, of Cataraqui, has a grey stallion that promises when aged to be a fine racer. Though but three years old he is beginning to show remarkable speed. Yesterday a number of gentlemen visited the driving park and watched the little equine go around, as some assert, in 1:18. The quarter was passed in 38 seconds.

SHE'LL BE HERE.—The following is going the rounds: "It is probable that Mrs. Langtry will give a performance in Belleville, although she will give Kingston the go-by." There is no truth in the statement. Mrs. Langtry will appear in the Kingston Opera House on November 19th without fail. Mr. Martin, two months ago, received the contract, signed by herself and duly reported.

NEW ORDERS.—Ashley's Shirt Factory has been re-opened by one of the Messrs. Ashley, upon Brock Street, and those who remember the comfort they formerly extracted from the ordered work of the factory of old, will be very glad it has been resuscitated. The present quarters are but temporary, for the firm will soon require much larger ones.

BELLEVILLE TO BE ATTACKED.—Capt. Ward has left for Belleville, there to arrange for an attack by the Salvation hosts. It is rumored that Metropolitan Hall will be engaged. In connection with the station the name of Lieut. Nellie Ryerson is spoken of as Captain. Kingstonians would much regret to part with this efficient officer, but her promotion would be pleasing to them.

WHERE'S THE DELAY.—The papers in this district are calling attention to the way the mails are transmitted from one point to another, especially between Belleville, Kingston and Brockville. The Brockville *Recorder* states that on Saturday last the Wave of the 4th September reached their office. Somebody must be to blame, and inquiry ought to be made as to where the blame lies. We are also often left without our exchanges though they are always reported to have been sent from the newspaper offices.

LORD CARNARVON'S VISIT.—The Earl of Carnarvon will arrive in Kingston on Saturday and become the guest of Sir Richard Cartwright at his summer residence, "The Maples," Portsmouth. On Monday His Lordship will leave for Montreal to attend the banquet given in his honor. The Earl was Colonial Secretary at the time of Sir Richard's visits to England as Finance Minister, and they have, therefore, met quite often. Kingstonians will give the visitor a full share of a hearty Canadian welcome.

HERE AND THERE.

Laconic Arrangement of Items of Local and General Interest—Gossip that is Readable.

"Hygiene's" letter to-morrow.

The Cobourg camp breaks up on 22nd Sept.

J. Richmond moved up from his island home to-day.

A big pic-nic is occurring at Lindsay's Point to-day.

The Marquis and Princess desire to visit Queen's College.

"Who'll be Mayor for 1884?" is a question looming up in discussions.

The Methodists of Delta had a successful harvest dinner last Thursday.

The Gananoque Lacrosse Club wants to meet the Maple Leafs again. Agreed.

All the boys are bound to go to the pic-nic at Inverary on the 17th inst.

The cold weather in Nature's plan of relieving the streets of bad smells and corner loafers.

A father and son in Bedford have been carrying on cross actions in the Division Court at Verona.

The Salvation Army leader is going to send a detachment to Goderich. Mayor Horton has promised to protect them.

The new Attorney General for Manitoba, Judge Miller, is said to add great weight to the ministry—about 250 lbs., in fact.

A parody on "The Charge of the Light Brigade," appearing upon the first page, is another contribution to the Army discussion.

During six weeks vacation at Cape Vincent, William Cooper, of Orange County, N.Y., captured 772 bass, weighing 612 lbs.

Building lots are held pretty high on Barrie Street, facing the City Park. A man who thought of building was asked from $35 to $40 per foot of frontage.

Accommodation has been secured at the Burnett House for a number of those attached to the suite of the Governor General during his visit here.

A large excursion party arrived to-day from Sackett's Harbor and spent an hour in the city. The Maud passed down the river afterwards with the party.

Peterboro' is energetically practising lacrosse. The Maple Leafs should take their best team west and we are confident the Gildersleeve cup will come back here.

The Wave seems to have been the only paper in Canada to worm out the secrets of the late Cotton Convention. The Kingston Directors were excited about it.

The Kingston Women's Medical College is but spurred up by every attack of the Toronto papers. These papers will learn yet that their tactics are urging them.

The smallest county newspaper does more for its neighborhood for nothing than many a high official does for his munificent salary. Take Sergt.-Major Bell for instance.

Dr. Thos. W. Fenwick has bought the brick house on Barrack Street adjoining his own, besides ten feet from the lot beyond for a depth of 132 feet for a gateway. He now owns a large and valuable block.

The first number of the *Argus*, a well edited, newsy and handsome paper, has arrived from Rat Portage. It is to do justice to Ontario's interests and the Province need never be ashamed of the advocacy.

The 14th P. W. O. Rifles band played last evening in the Park and were listened to by a large number with approbation, shown in applause. We hope the band will frequently favor the citizens with their excellent music.

Michael Kenahan is not the offender this time, reports to the contrary notwithstanding. We are informed that he charged Joseph McMullen before a Justice with using abusive language. McMullen was fined $1 and costs.

E. W. Johnson and Duncan C. Ross, of Canada, were present at the games of the New York Caledonian Club, attended by 15,000 spectators. The standing jump, standing high jump, tossing the caber and putting the light stone they won, first and second prizes.

The sheriff of Waterloo has consigned to the penitentiary a Pole named Fritz Ratatski, sentenced to three years' imprisonment for larceny. Any keeper who wishes to pronounce his name must attend an elocutionary class. The prisoner might feel insulted if called Rat's sky.

A TOUGH CASE.

For several days there has been wandering about the street a wretched specimen of humanity. She bears the form of woman but her modesty has been dwarfed to such an extent that she is a positive disgrace to her sex. She drinks and uses language of the foulest character. The police should lock her up and save the place from being disgraced by her presence. The creature has spent her life on the water as a cook and in that capacity she became what she now is. It is about time that journals of respectability should join in a protest against the custom of having female cooks on vessels. It is most demoralizing.

FUNERAL OF MR. HICKEY.

This morning the funeral of the late Edward Hickey took place from his residence on Princess street. It was very largely attended business men of the city, and friends from a distance. The funeral cortege proceeded to St. Mary's Cathedral where a solemn Requiem Mass was sung by Father Kelly. The full choir, of which deceased was a member were in attendance. After the *Libera*, the mourners proceeded to St. Mary's Cemetery, where Father Twohey said the last prayers for the dead. The following gentlemen acted as pall-bearers:—Jas. Swift, Wm. Harty, Isaac Nolan, Owen Tierney, John F. McDermott and John Halligan.

THAT MEETING.—Last week it was stated to us that the Salvation Army was prevented holding a meeting in Battersea, though a large audience had assembled. Another correspondent at Battersea writes that the Army did not try to hold a meeting on that occasion, and have always been treated to the best of order.

THE D. D. CALVIN.

Launch at Garden Island of the New Steam Barge—Honoring the Head of the Firm.

Calvin & Son's new steamer "D. D. Calvin" was successfully launched yesterday afternoon. The vessel glided gracefully into the water and looks very well indeed. She was towed around the harbor by the steamer "Chieftain" for inspection by the citizens and returned to Garden Island about 5 p.m. She was built by the old veteran, Henry Runey, who has been upwards of 30 years in the same employment. Seeing him dodging in and out from under the vessel, inspecting everything before giving the final command, "Let her go, boys," one would think he was good for thirty years more.

The steamer is named after the ex-M.P.P., D. D. Calvin, Esq., the senior member of the firm; although he has built and owned scores of vessels, this is the first one that bears his name. If she succeeds in business as well as the "Governor" (as he is familiarly dubbed by the employees) she will do.

The vessel is 180 feet long, 32 feet beam, 13 feet hold. She is very strongly built of the best quality of white oak and thoroughly salted throughout, and is to be commanded by Captain A. H. Malone (the Commodore of Calvin & Son's fleet) who has a one-fourth interest in her. She will probably be used in the pine timber trade between Lake Superior and this port, and besides carrying a cargo herself, will tow three or four schooners. Her engines were designed by J. F. Pankhurst, and were built by the Globe Iron Works of Cleveland, Ohio. They are of the fore and aft type of compound, with 27 inch high-pressure cylinder, and 50 inch low-pressure cylinder, with a stroke of 36 inches. The cylinders are of the best charcoal iron with the exhaust pipe from the high-pressure cylinder connected direct to the steam chest of the low pressure cylinder. This pipe is on the back of the engines and out of the way. The cranks are set diametrically opposite, thus avoiding the necessity of a receiver. The engines are reversed by steam with an auxiliary engine of peculiar construction, and so positive in its motion and so powerful, that the engine can be stopped and reversed instantly under full steam. The crank shaft is built up with forged cranks and steel pins, fitted so that it can be easily taken apart in case of a broken pin. Both cylinders are fitted with cut-off valves, working on the backs of the main valves, and are adjusted to any point of cut-off by a sword-arm.

The boiler is of Siemens-Martin steel plates and calculated to resist a pressure of 162 pounds to the square inch. It will be fitted with the Ætna patent shaking grate. Both boiler and engines were built by the Globe Works, Cleveland, under the superintendence of Mr. John Hazlett, of this city, who will be engineer of the new steamer. Mr Hazlett says it was amusing to hear the remarks made by some of the Americans on the extra strength of the boiler. "Say," said one fellow, "did you see that boiler and engine made by the Globe Works for that Canady feller. Gewhittaker, aint she a buster?"

The steamer will probably leave here to-morrow evening for Cleveland in tow of steamer Chieftain, to receive her machinery.

SCHOOL ACCOMMODATION.

The School Board meet for consultation to-morrow evening and there is evidence of a lively session. The question of school accommodation will come up and there is little doubt that it will be discussed with freedom. It is said that the Folly scheme has been knocked in the head, and this being so it will be necessary to cast about for another site. Several assert that what the city requires is a central school, at which the older pupils could be properly graded. The ward schools would remain the resort for the youthful children. The distance from any point to a central school would not be great, so that there could be no objection on that ground. "I am informed," said a trustee, "that $8,000 would build a good comfortable school, but to build a block in keeping will the city, and to meet the requirements of the future, about $15,000 would be required. I wish we could educate the people to give that sum. Debentures could be issued to extend twenty or twenty-five years, so that the expense to the ratepayers would not be much. It would be far better to build a block that would answer for the next twenty years than to build a structure that would require additions every five or ten years." That school accommodation is required is a matter of fact and the sooner the Board agree on that point the better for the education of the rising generation.

A CALL TO DUTY.

This is the heading of a document being circulated in the city for the purpose of forming a society to be known as "The Good Samaritans." The announced aim is the unitine of its members on one common platform, and by the holding of a meeting weekly, to cultivate brotherly love and a knowledge of duty to God and man, as contained in the Holy Scripture. The "Good Samaritan" will be expected to give relief to those in distress, to visit the sick, the aged and infirm, and devise ways and means for their assistance. Ladies are invited to attend.

VERONA VOICES.

The heavy frost has done considerable damage to the gardens and late grain around here.—A desperate attempt was made to revive the temperance society here last Sunday. The movers in the matter deserve better success than crowned their efforts.—It is stated that the Saved Army have started work around this place. The Salvationists will have to bestir themselves or they will be surrounded. Why don't they send their soldiers out? They would get a warm welcome here.—Several young men have gone home to "soldiers it" for a few days at the Cobourg camp.

DISMISSING POLICEMEN.

The Decisions of the Police Commissioners—New Appointments—Two Removed.

The Police Commissioners did not hold a session yesterday, consequently no decision was arrived at, though the Board have all the evidence before them. A prominent official told a representative of this paper that "Denmark is rotten," by which he meant that the police force was not as proper and capable as it might be, or as it was thought to be before the Wine exposed the condition that Sergeant-Major Bell's inefficient supervision has brought it to. With such a small force he believed that there should be only a Chief and no subordinate officers. The men should all be on an equality. A stripe on an understrapper always led to jealousies. He would endorse the re-organization of the entire force on such a basis. From all his communications with and knowledge of the force he positively held that there were two classes represented, one pulling against the other. He saw no necessity for a Sergeant-Major. He was about as necessary as an additional tail to a cat. There are two vacancies in the force; these should be filled at once. Resignations are not in favor. The citizens hope that they are not put in to prevent the publication of the evidence presented.

LATER.—The Police Commissioners met this forenoon and came to a final decision regarding police matters. The evidence heard by them will not be published and the intelligence given is:

The resignation of James Nesbitt is accepted.

The services of P. C. Thompson are dispensed with.

The services of P. C. Campbell are dispensed with after December 1st.

The appointments to the police force are: James McGarry, John Tuttle and Orlando Burnett.

The information is not satisfactory to the public. The people pay the expenses of keeping the men on the force and they should know also why they are discharged. It is currently reported that evidence of a damaging character was given against P. C. James Nesbitt. If his resignation prevented his discharge the Commissioners have erred. All should have been given the privilege of resigning. The removal of Thompson and Campbell was for offences that the Commissioners say they could not overlook. The appointees are men of weight and height. McGarry was on the English constabulary and measures 6 feet high. Tuttle, a Salvation soldier, towers in the air 6 feet 7½ inches. He will be the tallest on the force.

One of the Commissioners says that the evidence against P. C. James Nesbitt was most conclusive, and it was agreed several days ago that he would be discharged. Probably getting wind of the intention of the Board he sent in his resignation, which was accepted.

AN INFORMAL MEETING.

Yesterday afternoon at 4 o'clock an informal meeting of the City Council occurred. Those present were, the Mayor, Alds. W. Wilson, Redden, Creggan, J. Wilson, Smythe, McIntyre, Whiting, Shaw, Law, Allen and R. J. Carson. A short conversation ensued as to the reception to be given to His Excellency the Governor General, Princess Louise and Prince George. It was decided to telegraph Capt. Bagot, A.D.C. to His Excellency, and enquire if an address would be received by the Royal party on their arrival here. If a favorable answer is received the Mayor and Alds. McIntyre, Smythe and Whiting were named a Committee to prepare the address.

A reply from Capt. Bagot, A.D.C., states that His Excellency will receive an address, and that he will arrive here at 1:30 o'clock on Friday.

The 14th P.W.O. Rifles, with band, will furnish a guard of honor at the Royal Military College during the afternoon.

THE SHOVELLERS' UNION.

Captains are discussing the question of grain shovelling, now causing so much anxiety to the forwarders. "The papers, I see," said one Captain, "say that the forwarders have agreed to pay the shovellers the advanced price, but I would like to know what the forwarders have to do with the matter. I wish you would say that the vessel owners are the ones that pay the piper. They have to stand the cost of the shovelling. It all comes out of the freight, and at the present rates we don't feel satisfied to pay the price. I would be very glad to trade my vessel off for a small share in an elevator." The boys think that the forwarders might reduce the cost of elevating, and that would equalize the shovelling. The Captains think the forwarding companies, on the shovelling question, are like the Sailors' Union, because the vessels in both cases have nothing to say about that which concerns them most.

NORTH FRONTENAC MISSION.

A fair correspondent at Plevna corrects some late Anglican Church news having reference to this mission. It is Mrs. Elkington, at Plevna, who has collected money for the church shortly to be erected there. There is a good choir at Ompah and Mrs. J. R. Dawson kindly lends an instrument; but the choir and organ alluded to are at Plevna. The parsonage is as yet merely the four bare log walls without doors or windows and with little prospect of completion this year. The school at Plevna is not a church school, though it was chiefly organized by the lay members of the Anglican Church, while that at Ompah is entirely in the hands of the laity.

BAND ON THE WHARF.

By the kind permission of the Commandant and officers the Band of "B" Battery will play on the Queen's wharf this evening at 7:30 (weather permitting):

Quadrille—Fun of the Fair—Williams.
Overture—French Comedy—Robert Bells.
Valse—Fairies—Rosenkranz.
Selection—Iolanthe—Sullivan.
Valse—Southern Dream—Metzler.
Polka—Primrose—Holland.
Vive la Canadienne—God Save the Queen.

MARINE NEWS.

Lifting a Propeller—General News Around the Harbor—Plenty of Passengers.

The Persian is supplied with a first class metallic life boat costing $300.

The schr. Annie Falconer, open for charter, is unloading coal at the K. & P. RR. wharf.

The schr. St. Louis is on her way to Port Dalhousie with lumber from Trenton at $1.25.

It is rumored that another yacht race for third class crafts will occur next Saturday afternoon.

The tug D. G. Thomson with four barges has cleared for Montreal with 40,000 bush. grain and 320,000 feet of lumber.

The schr. Acacia is *en route* to Kingston with wheat from Detroit at 5c. She has been on the upper lakes for two months.

The str. Princess Louise has made her last trip to the Thousand Island Park. In future she will only run to to Gananoque.

Capt. Taylor inspected the steam barge Rowlatt at Deseronto a few days ago and she classes A 1. She is the finest craft yet built in Deseronto.

The Captain of the Flora Carvett says he has made more money on the lakes this season than any other vessel. He doesn't belong to the Salvation Army either.

Capt. Scott, of the prop. Persia, was smiling handsomely this morning when he landed on the wharf. He was bound for Montreal and had 103 passengers on board.

The steamers of the Royal Mail Line are carrying many passengers. The westbound boats are generally well loaded. The cost of going to Toronto and return is $4. These special rates continue until the end of the month.

In the second class race of the Toronto Yacht Club the Emma and Iolanthe had a contest. The former won by half a minute in 15 miles. The first prize was $30; the second $25.

Capt. Merryman is rushing the work of raising the prop. Prussia. A tug and two schooners from here have gone down to the scene of the wreck. They will be placed on each side of the craft, chains will be put under the Prussia and she will be "jacked" up and pumped out.

WESTERN MARINE NOTES.

The str. City of Toronto is making arrangements to get on Muir Bros'. dry docks, Port Dalhousie, for general rebuild as soon as the Cuba is off. The Inspector refused her permission to carry passengers.

The str. Empress of India calls at Niagara both ways between Port Dalhousie and Toronto. She is making much better time than when she first came out, but will require considerable alterations to her boilers yet before she is a success.

Neelon's new iron frame steambarge, under construction at Shickluna's shipyard, St. Catharines, will not be ready before next spring. She will be full size St. Lawrence Canal and will be a steamer very much like the Miles. George Thurston is master builder, and Ollie, of St. Catharines, puts in the machinery.

They have telephonic communication between Port Dalhousie, St. Catharines and Thorold.

The wreck of the prop. Glenfinlas was sold by public auction yesterday. The hull, boiler and machinery sold for $960 to Capt. Jas. Murray, of St. Catharines.

LIEUT. WOOD HURT.—As the Salvation Army was marching along Louisa street Toronto, on Sunday night it was attacked by a gang of young men. A number of stones were thrown, one struck Lieut. Wood, who was leading the detachment, felling her to the ground and inflicting a severe wound on the head. Unfortunately it was too dark for the processionists to identify their assailants. Toronto is an unlucky place for the soldiers. It was only on Friday last that Lieut Kaiser fell in a swoon upon the platform, owing to taxing her physical energies.

☞ Any kind of goods or fancy article can be dyed any color in a few minutes by Triangle Dyes. A child can use them with perfect success. All the popular colors. 10c.

COME and BUY your WORKING SHIRTS of W. REEVES & CO. King St., near Princess St., Kingston. Knitted Shirts, only 50 cents.

WHAT WE CLAIM.

To all who desire to increase their flesh and strength, enrich and purify their blood, invigorate their mind and body, we claim that for general and extended complaints, we confidently assert that the hot-pressed preparation of FLAX SEED combined with PHOSPHORUS, the best nerve food and tonic known, will throw upon any and perfectly accomplish these important results than any other combination ever used. For hundreds of years it has been known that Flax Seed (or even crude oil cake) is the best fat-producer we have, in addition to its nutritive properties. In Flax Seed Mucilaginous Compound all the FAT-PRODUCING, SOOTHING and HEALING properties of Flax Seed are obtained in the most easily digested form and united with the most easily assimilated compound of Phosphorus (making a most elegant and reliable preparation); even the most sensitive and delicate can take it, and at the same time be assured it contains just the elements the deranged system demands when it calls for a proper diet effective medicine. Ask your druggist for Compound. Read the following testimonial:

Bath, Ont., Feb. 2nd, 1883.

Flax Seed Emulsion Cpd. Co.

Gentlemen,—Having bought many different kinds of medicine for my wife's daughter, we are pleased to state that we find your so much good as Flax Seed Emulsion Compound.

Yours &c. JOHN HOGAN.

For sale at Wade's drug store, corner King and Brock Streets, and the Pharmacy, W. J. Wilson, (successor to Heath & Gunn) 183 Princess Street.

Mineral Waters
For Liver and Bilious Affections.

THE BETHESDA WATER acts immediately on the Liver, restoring it to a healthy action in a few days. Bethesda Water will cure Biliousness in the use of it. The writer cannot say too much in favor of this water. It has cured his wife of Biliousness of the worst form, of long standing, after all other means had failed. It operates the bile more freely, allowing the liver to become sound and healthy. I have seen hundreds of them cures effected.

FOR DYSPEPSIA.

With no inconsiderable list of dyspeptics, brought on by indigestion we find this Bethesda Water the most efficacious remedy we have for it even if it is of many years standing.

☞ W. J. WILSON has been appointed the Agency of this Water for Kingston.

W. J. WILSON,
The Pharmacy, 183 Princess Street.
