PITHY PARAGRAPHS.

Hawaii's Trade.

As Kingston has now a Vice-Consul for the Kingdom of Hawaii, it may be interesting to know the extent of its trade. In 1882 it exported 53,972 tons of sugar, 221,236 gallons of molasses, 12,169,473 pounds of rice, 120,653 pounds of paddy (not Irish), 8,151 pounds coffee, besides bananas, hides, tallow, pulu and wool, making a total value of $1,[illegible]

A Strong Opinion.

In a recent speech John Bright fitly characterized temperance as "a great cause more intimately connected with the real advantage of the people than almost any other public question." The license question is being carefully considered by the leading public men and newspapers of Great Britain. Mr Bright favors local option, pure and simple.

A Specimen Brute.

Each perusal of the English papers calls forth fear or at the evidences of cowardly brutality in the lower classes towards women. Among the latest acts reported was one at Thornton heath. Croydon. James Coles, who has been many times in prison for violent assaults, murdered his youngest girl, aged three, by catching it by the legs and dashing its head against the wall. Hanging is a punishment too refined for such a brute.

A Large Order.

The facility with which churches and societies in America are consolidated speaks volumes for the administrative success of their leaders and the capacity of the people for organization. The Sovereign Grand Lodge of Oddfellows, now holding its 39th annual session at Providence, R.I., reports during the last year a net gain in membership of 18,000, total revenues $3,025,940, total relief given $1,882,449; number of lodges, 7,314, with 433,997 members.

A Late Discovery.

People who have known two well known brothers in Kingston for years fail to distinguish Isaac from Henry when they are not together. But this has never been as serious a loss of identity as that we are about to relate. Melinda Pape, of Genessee, Wisconsin, married last week to William Conning, is seeking divorce on the ground that she meant to have married his brother, but was deceived, as they look exactly alike.

A Great Discovery.

The Marquis d'Abeuse, one of the most distinguished of the French emigres, was really the founder of the English salad. He did not consider he dishonored his crest by becoming a salad maker, and he was called from one house to another as the "fashionable salad maker," and received $25. In order to satisfy all his customers he was obliged to take a carriage and keep a servant. Now for a long search after the inventor of the boiled potato!

Catch Shows.

When a Toronto paper acknowledges a local failure it is a pretty bad still, especially in connection with Canada's Great Show, which is boomed up as never was show boomed before. The Globe boldly declares that the people who visited the Exhibition have been disappointed, both in regard to the electric railway and the exhibition of boats in the water. Last year they were caught by a silly show, the tame and inefficient bombardment of a vessel, and they ought to have been cautioned thereby.

Education of Women.

Doors are opening on every side to women who want work. The Lieutenant-Governor of Bengal wishes to see qualified women practising in India having the same thorough medical culture as male doctors. A woman who highly distinguished herself in a medical examination at London University, last summer, was received by the Queen at Windsor. This lady had lived at Madras for some years before coming to England to enter college. She has taken gold medals and many honors in England and has returned to India to alleviate greatly the condition of the native women.

A NEW ORDER.

"Waiter," he began, "you may bring me a spring chicken, a piece of lamb, a choice cut of—"

He was interrupted by the appearance of a friend, who chatted with him for three or four minutes, and then left.

"Waiter, how far had I got?" asked the gentleman.

"You were going to order a choice cut."

"Ah! yes. I was then under the impression that the West was enjoying fine weather, and the wheat was being harvested in nice shape. My friend says it has been raining every day for a fortnight, the harvest is delayed and the wheat is being badly damaged. Waiter!"

"Yes, sir."

"I'll make a new order, based upon a falling off of 12 per cent. in the crop. Bring me a dish of pork and beans and a glass of milk!"—Wall Street News.

PROVINCIAL SYNOD.

The Work of the Fifth and Sixth Days Epitomized—The Closing of The Meeting.

A pleasing feature in the sixth day's proceedings was the visit from Karl Carnarvon. His warm and hearty speech, in which he tendered the affectionate sympathy and friendly greetings of the Mother Church in England to her Canadian daughter, was well received by the Synod. The speech was reported in yesterday's issue.

The Bishop of Ontario, as Chairman of the Joint Committee on "Discipline of the Laity," reported that, on account of the late hour in the session and the great importance of the canon, it was impossible to deal with it during the present session.

The greater portion the day was taken up by the debate on Mr. L. H. David son's resolution re Montreal and the Metropolitan See, which was at length, and it is to be hoped, for ever, disposed of by the House adopting, by a large majority, Chief Justice Ritchie's amendment.

The Missionary Canon was adopted, with some slight amendments. The Domestic and Foreign mission work will henceforward be conducted by the Central Board of Missions under this Canon, while certain other work will be carried out by the Diocesan Boards under the Central Board. A night session, prolonged until 11 15, enabled a good share of business to be got through with on the sixth day.

WEDNESDAY'S PROCEEDINGS.

The first important work was the presenting of the report by Canon Cormichael on women's work in the church.

1st. Women may be profitably employed with official recognition either as deaconesses or as members of sister bands, provision being made in either case for efficient supervision by the Bishop in whose diocese they may be employed.

II. No such organization shall be formed in any Diocese without the sanction of the Bishop, in writing under his hand.

III. That a Deaconess shall be formally made and set apart for the performance of certain ministrations by the Bishop and ought not to abandon this office unless with the written approval of the Bishop in whose Diocese she may be ministering when wishing to resign.

IV. No one shall be made a Deaconess under the age of 21 years.

V. Testimonials as to character and proof of qualification by examination or otherwise after a period of probation shall be required previous to the making of a Deaconess.

VI. The House of Bishops shall be requested to make a form for the making and setting apart of Deaconesses.

VII. No Deaconess shall be appointed to minister in any parish or mission of congregation without the consent of the incumbent, but this shall not prevent the temporary employment of any Deaconess, or sister, for any special or individual case, such as the attendance on the sick of any particular family, or association, for the purpose of mental help and encouragement. The rules and regulations must be submitted to and approved by the Bishop of the Diocese in which they are locally instituted, in writing under his hand.

The full discussion had to be laid over until next Synod, as so much prior business pressed itself upon this session.

A committee was appointed to confer with the House of Bishops as to what business could be taken up during the remainder of the session and as to the hour of adjournment. The result was that the Metropolitan decided to prorogue the session at 5 o'clock on Wednesday.

A resolution of Chancellor Hemmier as to what business could be transacted at any session other than the regular annual session was referred to the Committee on the Revision of the Constitution and Rules of Order, to report next session.

A DECIDED PREFERENCE.

"I'd rather give a man $50 than be swindled out of $5," said Gillyflower the other day. "Well, that's strange. What's your reason for such a conclusion?" "You see if I give you $50 that's put down on the books for charity. That looks well. The angels look over the bookkeeper's shoulder and smile sweetly as the words 'to charity' are entered. But if I am swindled out of $5 the angels go off behind the barn and laugh, and the bookkeeper heaves a sigh as he enters 'To blamed old fool who will never learn anything.$5.'"

LIQUOR CONVICTION.

A man named McDonald, resident in Hallowell, Prince Edward, was recently convicted and fined for having sold liquor without a license contrary to the Provisions of a Provincial Act. A motion was made on Tuesday before Chief Justice Wilson to quash this conviction on the ground that the Canada Temperance Act is there in force, and consequently the provisions of a Provincial Act do not apply. Judgment was reserved as to whether or not the Dominion Act is in force there or not.

The "Myrtle Navy plug" correctly represents the whole plan upon which its manufacture is conducted. There is not a fractional part of a cent expended upon it for mere appearance. It is neither wrapped in tin foil nor worked into fancy shapes, nor put in any fancy cases, nor subjected to any kind of expense merely to please the eye or captivate the fancy. The manufacturers rightly believed that tobacco was not purchased for ornament, but for smoking, and therefore all extraneous expense was avoided and added to the quality of the tobacco. The public have testified in its case that they prefer paying their money for a high quality of article then for ornament out of place.

Bucklen's Arnica Salve.

The greatest medical wonder of the world, warranted to speedily cure Burns, bruises, cuts, ulcers, salt rheum, fever sores, tumors, piles, chilblains, corns, tetter, chapped hands and all skin eruptions; guaranteed to cure in every instance, or money refunded. 25 cents per box. THE NEWS GATHERER.

What Our Exchanges Are Telling as Our Scissors Steal O'er Them.

The C. P. R. track is now laid 24 miles west of Calgarry, 98 miles from the summit of the Rocky Mountains.

The French expected a military promenade in China. They may have it yet, with John Chinaman close behind them.

Dr. Mary Walker is happy at last. A wealthy old crank who died in Springfield, Mass., the other day, left her $2,000.

In justice to Mr John Shields, it must be admitted that there are limits to his bribery. They are timber limits.

Talmage says the coming sermon will be short, "popular," more like a rifle charge than a lullaby, and will be reported by the press.

"Eugene L. Didier accuses Tennyson of plagiarism. Tennyson? We have heard of Didier, but who in the dickens is Tennyson?"

Lorne is the name of the new country which it is proposed to carve out of Ontario. Simcoe and Muskoka and Orillia is to be the country town.

Two of the Sion converted of participation in the massacres in Alexandria were hanged yesterday.

There is a movement in London to erect a memorial to Charles Dickens. It is proposed to erect a statue; also to place plaques on the houses in which he resided.

The Duke and Duchess of Teck have left England to live in retirement in Germany, where they can economise. Their apartments in Kensington Palace have been placed at the disposal of the Marquis of Lorne and the Princess Louise.

The late marriage of the Pope's nephew, Count Pecci, took place on Sunday. There was no music, no singing, no flowers, no bridesmaids, and not even a best man.

Mrs. Hanning, the only surviving sister of Mr. Carlyle, has refused to permit the publication of a large collection of her brother's letters which she possesses. Mrs. Hanning has been settled in Canada for about forty years.

Charles E. Lang is the most multifarious tradesman, having mastered twenty-two distinct trades, and being what is still more strange, a first-class workman in every one of them. He is not yet 70 years old, and is vigorous and hale. Boston owns him.

In Alaska, as soon as an Indian girl marries she is entitled to wear a silver or bone peg in the hollow of her lower lip. The peg is useful as well as ornamental; it is sometimes used to button up their mouths with.

A Baltimore lady says her husband will sit on a barbed wire fence to see a ball match and never move a muscle, but when he goes to church he can't sit in a cushioned pew for fifteen minutes without wriggling all over the seat, and changing his position forty times.

A shocking suicide took place at Birmingham Barracks, where a troop of the 11th Hussars is now stationed. Private Lambert went into his room smoking a cigar, and discharged his carbine into his mouth. He pulled the trigger with the spur on his boot. The discharge almost blew the man's head to pieces.

A touching story comes from Belgium. The wife of a gentleman was attending her husband's duty when her little boy strayed in front of a fast train. The mother sprang across the rails, and, seizing her child, tossed it upon the bank the very second before she was caught by the locomotive and killed. The child escaped with a few bruises.

GOOD LIGHT.

With the long evenings before you good light becomes a positive necessity. Every person recognizes this and for this reason Polson & Co., Princess St., the well known druggists have purchased a full season's supply of the celebrated water white American oil. Price same as common Canadian oil sold by other dealers. Remember the name, Polson & Co., the druggist.

Visit to Kingston.—Specialists.

From the International Throat and Lung Institute 173 Church St, Toronto, will be at the City Hotel, Kingston, two days, Sept 3 and 4.

The surgeons will have with them a supply of Spirometers, the invention of M. Souvielle of Paris, ex-aide, surgeon of the French Army, for the cure of Catarrhal Deafness, Bronchitis, Asthma, and Consumption. Consultation and a trial of Spirometer free. Don't fail to see the surgeons while here, as they make a specialty of diseases of the Head, Throat and Lungs, and are curing thousands of cases every year that have been given up to die by the doctors in general practice. Crowds are visiting them in every town and city. For information write 173 Church St., Toronto, or 13 Philips' Square, Montreal.

Testimonial.

W. J. Wilson, Toronto, March 2nd.

Dear Sir,—For the past I have been troubled with rheumatism in my knee-joint, at times so bad that I was very lame. I have been for the last three weeks using a pair of your Electric Insoles and have much pleasure in stating that the pains have entirely left me, and I am now quite well. I highly recommend it to all suffering in like manner.

Yours truly,
A. O. Andrews, 117 Yonge Street.

W. J. Wilson, Agent, Kingston.

McGregor's Speedy Cure.

From the many remarkable cures wrought by using McGregor's Speedy Cure for Dyspepsia, Indigestion, Constipation and Affection of the Liver and from the immense sale of it without any advertising, we have concluded to place it extensively on the market, so that those who suffer may have a perfect cure. Go to Chown's Drug Store and get a trial bottle free, or the regular size at fifty cents and one dollar.

W. J. Guppy, druggist, of Newbury writes:—"Dr. Fowler's Wild Strawberry is just the thing for Summer Sickness. I sold out my stock three times last summer. There was a good demand for it." Dr. Fowler's Extract of Wild Strawberry is infallible for Dysentery, Cholera, Sick Stomach and Bowel Complaint.

Five Cent Cerenos prevails throughout the world, and that is so strongly in favor of Perry Davis' Pain-Killer, that no other article ever attained so wide spread popularity.

Miscellaneous.

Oh, my Back!

Is there a miserable, weakening pain in the small of the back? Is urination painful? Do you have palpitation of the heart? Do strange, indescribable feelings creep up your back and sides? Does the least exertion weary you? Does your urine show brickdust or albuminous deposit? Does any sudden fright cause an intense, sharp pain in the small of your back? Do you have an aching in the groin? Is your memory impaired? Is your breath short? Are there shooting pains about your vitals? Are you becoming dropsical?

These are all symptoms of kidney diseases. Be on your guard against them. If let run it may end in Bright's Disease, which is sure death.

Your best course is to procure at once a bottle of SUTHERLAND'S IRON BITTERS (using only one). It will cure any form of Kidney Complaint, except Bright's Disease, it will relieve the symptoms and cover the secondary complications.

SUTHERLAND'S IRON BITTERS is a medicine, a tonic, a nutritious, a harmless water. The world has at last found a hospital cure for diseases which attack the kidneys and for those diseases which result from impure blood. It is of more value than any medical compound known to the medical faculty.

IMPORTANT TO STEAM USERS AND ENGINEERS

How to Keep Boilers Clean.

FISHER'S PATENT AUTOMATIC BOILER CLEANER, when properly applied to a steam boiler, never fails to remove all

Muddy Deposits and Sediments

from water before they become baked into scale. The Cleaner is automatic and certain in its action, and will outwear a new boiler. A boiler kept clean became a saving in fuel and repairs, as well as a reduced liability to explosion.

Having the agency for this section of the country, we are prepared to fit them up and guarantee them to be all the patentee claims for them.
