## DISTRICT DASHES.

Much Marrying and Giving in Marriage—The Railroad Situation—Enterprises.

The Salvation Army continues to attract great crowds in Napanee.

D. Craigen has been appointed bailiff of the 7th Division Court, Barrie.

Dr. Yourex, of Hastings, has taken up his abode in Tamworth in partnership with Dr. Knight.

The headmaster of the Bath school is forming a literary society. It is being well patronized.

Two new stores opened at Tamworth lately—Hinch & Hinch, of Centreville, and J. A. Fraser, of Napanee.

On Wednesday last, Clarence, youngest son of Alex. Henry, dislocated his left arm at the elbow by falling off a fence at Napanee.

Building operations in Tamworth have not been extensive this season. It might have been otherwise had the people been sure of the railroad being finished.

Work on the N. T. & Q. railway is not progressing very rapidly because of delay in arrival of rails. Fencing is, however, being rapidly pushed. Ties are arriving in large quantities.

On the 18th inst. Judge Price disposed of a number of appeals made by the Reeve against the assessment of about forty of the rate-payers of Barrie. The increase in the equalization was only a few hundred dollars.

Peter Vanluven, of Moscow, has purchased a large interest in the steam grist and saw mills enterprise. The retiring members are Alvin and Truman Jackson, who are investing their capital in farming property.

At Napanee's new Opera House the wood work will be completed this week and the frescoing commenced. The opening will take place in November. Mrs. Langtry may be engaged for the opening.

Burglars entered R. Dominon's store in Napanee and stole a small amount. They then went to his residence, but were alarmed while dragging a trunk from under the bed. $45 was taken, though in their flight Mr. Dominon's pants with $100 was dropped.

Miss Clark, of Camden East, left on Wednesday for Jamaica, West Indies, to become the bride of A. D. Cadenhead. She was accompanied as far as Kingston by numerous friends; numerous presents indicated high esteem.

The nuptials of W. N. Irish and Minnie Amey, daughter of Mr. Hiram Amey, were celebrated at Morven on Thursday. The company were entertained over night and next day accompanied the happy couple to Napanee. The bride was the recipient of many presents.

On Wednesday Napanee lost Miss Tillie Walker. R. K. Holland, of Montreal, was the fortunate young man. The ceremony took place at the residence of the bride's father and was very quiet. The bride was supported by Miss Davison, of Picton, while R. J. Dickson of Kingston, was groomsman.

Abel Yates, of Napanee, has been suffering from his right eye and his medical advisers, fearing for the sight of the other eye, performed the operation on Tuesday. Dr. A. Stewart of Belleville, and Drs. Ruttan and Ward were the surgeons. Mr. Yates bore up bravely and is now feeling better, the pain having entirely disappeared.

Rev. Mr. Roberts' moonlight excursion on Friday night last from Emerald was a popular affair, but at Stella a serious accident took place. William McGuinness while engaged in taking the rope off the post on the wharf fell headlong into the water, and the darkness being intense the small boat was lowered only just in time to save his life.

On the 12th inst. a large company of young people gathered at the residence of Benjamin Wemp, in open manifestation of sorrow at the departure of his son, Wm. Wemp, who intends removing to the North-West. He was presented with a gold ring.

The residences of Jacob Crook and Stewart Wilson, sr., Picton, were burglarized. Crook lost about $130 worth of silver, and Wilson $50 worth. Mrs. Wilson woke and gave the alarm, but the man made his escape with the plunder. The horse, buggy, and harness of A. Harrison, about a mile west of the town, was also stolen.

Lard—11 to 12c.
Bacon—12½ to 14c.
Ham—14 to 15c.
Cheese—9½ to 10½c.

## OUR WESTERN HERITAGE.

Progress of Settlement—A Gratifying Report — Honour to a Dead Journalist.

DEAR WHIG,—The starring events of the past year have formed an important crisis in the history of the Canadian North-West. Fourteen months have elapsed since the writer reached Winnipeg, the gateway city of the land of promise. The famous land boom had quite subsided, the immigrants that had filled the city to overflow during the Spring and given an impetus to trade had gone West in quest of land and broader fields of enterprise. Still the city seemed full of people, thousands were living under canvas, many being compelled to do so for want of suitable accommodation and others owing to the enormous high prices asked for house rent. The whole city seemed like one errand work shop, any kind of workmen could find ready employment at good wages. From every point of the compass the noise of a thousand busy hammers rang out above the din of business the live long day and frequently broke the stillness of night. Not even the hallowed hours of the Christian Sabbath could stay the hand of enterprise and greed, and thus the city grew space. In the marts of business, men wore an air of independence; they solicited little or no favour; money was plentiful; customers paid whatever prices were named and said nothing. The broad streets of the thriving city presented a lively aspect while the immense volume of business astonished a stranger. Everything seemed to be moving; men who were poor a few months previous to the boom, now drove by in fine style with flashing diamonds, and ladies trailed their silks in the mud with utter indifference.

MOVING WESTWARD.

we found the same business activity characterized Portage la Prairie and Brandon, 130 miles distant from Winnipeg. Following up the great railway were hundreds of people plying their trades or anxiously awaiting opportunities for speculation in land. "Where shall the central city of this vast prairie country be located was the important question of the hour." Finally on the 23rd August the rains having crossed the Wascana, the ancient "Isle of Bones," Regina was born and being a proper child, christened "Queen City of the Plains" the future capital of Assiniboia. "Oh! then there was war." Somebody had blundered. The Winnipeg press denounced the site as a fraud and a delusion; the location was not to be compared to the picturesque Qu'Appelle or the far famed Moose Jaw. The water supply was inadequate for the wants of a great metropolis of the future. Amid the war cry, however, the ship was launched, spectators rushed their gold bag prices were asked and paid for town lots. The city must boom and boom it did, for a time the little one become a thousand. From a few canvas tents and a small telegraph office in August winter found Regina a stirring city of 1,200 people, with two banking institutions, a post office and a printing establishment sending out the *Leader* backed by the able pen of Nicholas Flood Davin of literary fame.

Early this Spring the Canada Pacific RR. removed the end of the division from Regina to Moose Jaw, 43 miles further West. This made more dissatisfaction but everything is going smoothly now and there is evidently ample room for the rival towns to flourish as this one of the finest agricultural sections of the fertile West.

THE BUSINESS OUTLOOK.

That reaction would necessarily follow the booming and wild land speculation of the past two years in this country was no surprise to any one who looked a little below the surface of the sweeping tide of prosperity, now subsided for a time, the scene has greatly changed; last year where labourers were scarce and received from $2.25 to $3 per day, this season have been plentiful and glad to work for $1.30 to $1.75 per day. Winnipeg, as well as all these Western towns, have outgrown the country, men begin to find they must soil their hands with honest toil and not depend upon speculation; the land must be cultivated, the country developed in order to back up our overgrown towns, and this is only a matter of time. Soon matters will find these level and the country starting on a sure foundation will march forward to a still greater success.

GENERAL CROP PROSPECTS.

The reports received by the Board of Agriculture indicate that a very large acreage is under wheat and other crops. From the best information now obtainable, one may place the total yield of wheat in Manitoba and the North West at about nine or ten millions of bushels. This will give the country a surplus of from two to three millions of bushels. The rainfall has certainly been insufficient this season, especially in the North West, and has greatly retarded growth. We had no rain here in June and only a limited amount in July, but the superior quality of our soil and its adaptability to withstand drouth gives settlers every confidence in the future of this country. Fine golden harvests are to be seen on the virgin prairie wherever the seed was sown.

Thousands of acres of prairie are being broken and prepared for seeding next spring, and, judging from what we have seen this season, the harvest of this great country in 1884 will silence all croakers and convince the world of the rich agricultural resources of our western heritage.

THE RAILWAY ENTERPRISE.

Of the wonderful rapidity with which the Canadian Pacific Railway has been pushed forward everybody is fully informed; the feat performed is one unparalleled. The line is now in full operation from the great Lakes in the east to the Rocky Mountains and within a short time the steam engine will have formed another iron pathway through the snow capped Rockies and an outlet to the sea washed shores of the Pacific.

In our rambling notes we must not overlook the press town, Pense. Here we are having rather a dry time of it, owing to want of water supply; the C. P. R. people are now drilling a well and hope soon to obtain the needful. The settlers are all in good spirits and making rapid improvements; building is going forward in the town and through the country. The site of the future city has just been surveyed and lots will soon be for sale. One of the principal streets will bear the name of "Ekhier" in honor of the late Hon. Wm. Ekhier, Provincial Secretary of New Brunswick and Editor of St. John *Telegraph*, who was among the distinguished party here a year ago. Your correspondent has proposed that other streets of this prairie town bear the names of Ontario, Quebec, New Brunswick and Manitoba in honor of the recent press visitors from the various Provinces.

C. T. LEWIS.

Pense, N. W. T., Sept. 17th, 1883.

Hereford's Acid Phosphate

Beware of Imitations.

Imitations and counterfeits have again appeared. Be sure that the word "Hereford's" is on the wrapper. None genuine without it.

The Greatest Healing Compound

is a preparation of carbolic acid, vaseline and cocoa called McGregor & Parker's Carbolic Cerate. It will cure any sore, cut, burn or bruise when all other preparations fail. Call at Chown's Drug Store and get a package. Twenty cents in all it costs.

## PECK'S BAD BOY.

He Tampers With the Grab Bag and the Trouble the Little Wretch Caused.

"Your father'll kill you some day. But what about that fuss at the social at the deacon's night before last?" asked the grocery man, as he picked the fly specks off from a lot of maple sugar he was putting away for "new maple sugar" next spring. "I heard the whole church was made at each other over a grab-bag, and the presiding elder had all he could do to quiet things down."

"That don't amount to much," replied the boy. "There's always something turns up when the sociable season first starts. You see, ma was appointed a committee to fix up a grab-bag. Me and my chum were digging bait that morning to go fishing, when pa came up and said, 'Hennery, I believe you put up that chicken job on me, and I don't believe anything but hard work will reform you. I want you to spade up the ground under the currant bushes.' I asked him if he wanted a hump-backed, disfigured boy, made so by hard work. Pa said he would risk the hump, and told me to pitch in, and then went down town. My chum said he would help me, and we and him got the job done before 2 o'clock. When we got done I come in and found ma had finished the grab-bag and had it all loaded, with the top fastened with a puckering string, and hung on the back of a chair. Ma was up stairs getting her Sunday clothes on to go to the sociable, so it didn't take me and my chum long to empty the bag and get first choice. Then I got our mouse trap and took it to the barn and caught two nice big fat mice and put 'em in a collar box with holes cut in it to give 'em air, and dropped that in the bag. Then my chum remembered a big snapping turtle he had in the swill barrel, and me and him got that and wiped it as dry as we could, and tied it all up but his head, and put that in just as the deacon's hired man came to take the bag over to the sociable. Me and my chum went down to the house and waited till the people got over to the sociable and then we went over and got up in a tree where we could see through the open window, and hear all that was going on. Pa he stood over by the bag and shouted, 'Ten cents a grab, don't let anybody be backward in a good cause.' Three or four had put up their 10 cents and made a grab, when an old maid from Oshkosh, who had been to the springs for hysterics got in her work on the collar-box. When she got the cover off one of the mice that knew his business, jumped on her shoulder and crawled down her neck, and the other dropped down on the floor and started around to meet the other one. You'd a died to have seen her flop and show her stockings and scream. The deacon's folks thought it was another attack of hysterics, and pa and the deacon got her on the sofa and held her while they poured paregoric and cayenne pepper down her. When she got home she screamed all the harder. Then one of the other women saw the mouse and got up on a chair and shook her skirts and asked the new young minister to help her catch the mouse. The poor fellow looked as though he would like to but he failed. Just then the bottom of the chair broke and he her fall over on ma and tore her bangs all down. Ma called her a 'hateful thing' and told her she ought to be ashamed of herself. Finally they got things in order, but no one wanted to tackle the bag, and as there was where the profits came in pa braced up and said he'd like to know why everybody acted so suspicious, he'd like to see a grab bag that would give him the hysterics, and said 'women are always gettin' scared at nothin'.' He then put down 10 cents and jammed his hand way down in the bottom of the bag, but he didn't keep it there long. He give a jump and yanked his hand out, yelling 'thunder!' Then he swung it over his head to shake it off, and brought it down on the deacon's head and smashed his specs. Then he swung it the other way and struck the woman president of the sewing society in the stomach and knocked her down in the deacon's lap. After pa had hollered himself hoarse and thumped half the people in the room, the turtle let go, and pa said he could lick the man who put that steel trap in the grab bag. Then pa and ma got mad and everybody began to jaw and they all went home. There's been a sort of coolness among the members ever since. I guess pa won't have a hump backed boy, but I'll get even with him, you just see if I don't."

And the boy went out and took a sign "Warranted Fresh" from the fruit stand and hung it on a blind horse that was hitched to a garbage wagon in front of he store.—*Peck's Sun.*

Kram's Fluid Lightning.

is the only instantaneous relief for Neuralgia, Headache, Toothache, etc. Rubbing a few drops briskly is all that is needed. No taking nauseous medicines for weeks, but one minute's application removes all pain and will prove the great value of Kram's Fluid Lightning. 25 cents per bottle at Chown's Drug Store, Princess street.

*Holloway's Pills.*—Health or Wealth.—No man pers.n would hesitate an instant in the choice between these two conditions. Now is the season to secure the former either by restoring or confirming it. These Pills expel all impurities from the system which fogs, foul vapors, and variable temperatures engender during winter; this medicine also acts most wholesomely upon the skin by disgorging the liver of its accumulated bile, and by exciting the kidneys to more energetic action; it increases the appetite for food and strengthens the digestive process. The stomach and liver, with which most disorders originate, are fully under the control of these regenerative Pills, which act very kindly yet most efficiently on the tenderest bowels.

Dr. McCrimmon, of Lancaster, writes that he has suffered with inflammatory rheumatism, more or less, from childhood, and had tried nearly all advertised remedies with but temporary effect. Burdock Blood Bitters have radically cured him, and he authorizes us to say so.

For Sore Throat, Sudden Colds and Diphtheria, no remedy has ever been discovered so powerful to cure as Davis' Pain-Killer. As a Liniment it has no equal in curing Rheumatism or Neuralgia, Burns and Bruises, and wounds of every description. It is the cheapest and best remedy ever offered to the public.

Be Alive to time, and do not allow what may appear to you as a simple bad ache now, to run into a disease of the kidneys, which invariably proves fatal in the end. Dr. Van Buren's Kidney Cure will at once ease your pain and positively prevent these unfortunate results. Take it at once. Any druggist will have it.

Samson lost his strength with his hair. Thousands of men and women lose their beauty with theirs, and very large numbers restore the ravages of time by using the famous Cingalese Hair Restorer. Sold at 50 cents per bottle by all druggists.

Dr. Fowler's Extract of Wild Strawberry will never fail you when cholera morbus, Diarrhœa, Cholera Morbus, Sick Stomach, or any form of Summer Complaint. Relief is almost instantaneous; a few doses cures when other remedies fail.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, etc., I will send a receipt that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. JOSEPH T. INMAN, Station D, New York City.

Medicines.

**A GREAT PROBLEM !**

TAKE ALL THE

**Kidney & Liver** Medicines.

**BLOOD** Purifiers.

**Rheumatic** Remedies.

**Dyspepsia** And Indigestion Cures.

**Ague, Fever,** And Bilious Specifics.

**Brain and Nerve** Force Revivers.

**Great Health** Restorers.

IN SHORT, TAKE ALL THE BEST qualities of all these, and the best qualities of all the best medicines of the world and you will find the HOP BITTERS have the best curative qualities and powers of all concentrated in them, and that they will cure when any or all of these, singly or combined, fail. A thorough trial will give positive proof of this.

**A CURE GUARANTEED**

MACK'S

MAGNETIC MEDICINE.

For Old and Young, Male and Female.

Positively cures Nervousness in all its stages, Weak Memory, Loss of Brain Power, Premature Night Sweats, Spermatorrhœa, Leucorrhœa, Impotency, Sexual Debility, Impotence, Loss of Power, Impotency, Sexual Weakness, Impoverished Blood, Pain in the Back, Dullness, Loss of Power, Premature Decay, Nervous Weakness, Sleeplessness, Dyspepsia, Hypochondria, Hysteria, Epilepsy, Fits, and Brain Weakness, Sexual Weakness, Impotency, Diseases of the Urinary Organs, Spermatorrhœa, Impotence, Premature Decay, Loss of Power
