Hancock's Inspirator

IS THE MOST ECONOMICAL APPLIANCE KNOWN for feeding boilers or pumping purposes on account of the great range of its duties, and its small expenditure of steam required for working it. It is intended to take the place of Pumps and Injectors and may be used in their stead to great advantage. It differs materially both in its

Construction & Working Qualities

from the class of boiler feeders known as injectors—inasmuch as it has one set of tubes for lifting and another set of tubes for forcing water—a combination entirely new, reliable and efficient. They are simple to operate, always ready for use and altogether a very reliable feed for boilers.

PAMPHLETS OF INSTRUCTION furnished on application, also testimonials if required. We guarantee every Inspirator according to recommendation or no charge.

—OR—

BILIOUSNESS

—FOR—

75 CENTS?

It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver and Kidneys.

Cleansing, Correcting, Regulating, ZOPESA gives energy and vim to the Brain, Nerves and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent Bottle of ZOPESA and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

LOVE'S REASONS.

Why do I love my darling so?
Good faith, my heart, I hardly know,
I have such store of reasons:
'Twould take me all a summer's day
Nay, saying, halt that I could say
Would fill the circling seasons.

Because her eyes are softly brown,
My dove, who quietly have flown
To me, as to her haven;
Because her hair is soft, and laid
Madonna-wise in simple braid;
And jetty as the raven.

Because her lips are sweet to touch,
—Not chill, nor fiery overmuch,
But softly warm as roses:
Dear lips that chasten while they move,
Lips that a man may dare to love
Till earthly love-time closes.

Because her hand is soft and white,
Of touch so tender and so light
That, where the slender fingers
Doth fall or move, the man to whom
The guards of Eden whispered "Come"
Beneath its spell might linger.

Because her heart is woman soft,
So true, so tender, that loft
Do marvel that a treasure
So rich, so rare to me should fall:
Where sole desert—so small, so small
Is loving without measure.

Ah me! what know or what care I?
Or what hath Love to do with why?
How simple I, the reason!
I love her—for she is my love:
And shall, while stars shall shine above,
And season follows season.

MANITOBA LETTER.

Another Missive From Hugh Patterson—Evils of Land Monopol,—Sir John's Blundering.

DEAR SIR,—I have written you some of the events and doings of this new country, where thousands are coming every week to seek and find what others told them of. The rains have done damage to Winnipeg, Emerson, and other places, besides washing away the railway track for many miles, and stopping all traffic for about two weeks. It would be needless for me to describe events, as you live on that side of the great catastrophe, and I have not got any mail for two weeks from the East; but the roads are beginning to be quite passable now, and I hope in a few days to be located where I can have the pleasure of reading the Whig once a week. We have a very backward spring, so all the old settlers say—about two weeks later than any in their memory. The snow always went away under the heat of the sun, without any rain, but this year it is very different. April ended with three days' heavy rain. For a few days we had a clear sky and springlike weather, but it turned cloudy with raw winds. On the 9th of May another rain came, lasting for two days, and the wind blowing raw and cold up to the 20th. Quite a flurry of snow fell, but it went away in a few hours, leaving us fine weather. It puzzles a great many of the weather philosophers, such a change in the season. Some of them think a passage has been found around the North Pole, and that one forgot to shut the gate after him. Land seekers line the leading roads from Brandon to the land offices, which are scattered through the country from fifty to one hundred miles apart, the country being principally without a settler and no roads. With so much rain falling, keeping those slews, as they are called, full of water, makes it hard and tedious to travel, and especially for those who would take their teams and implements with them to work with when they found a place to suit them. Some of them, perhaps, would travel from 100 to 800 miles. A description of some of the hardships of these travellers would not be believed. Some very serious accidents have occurred in different parts. One man was drowned a few miles from here last week, and every few days we hear of similar accidents. A very serious affair happened last week in Brandon, a young man having $300 taken from him. Being of a weak mind, and laying the matter to heart, he took a dose of poison which ended his life in a few hours. The great damage to the country in giving large tracts of land to men and to colonization companies is to be seen every day. Men are scattered like lost sheep all over the country, hunting land to work, whilst large tracks of land are unoccupied. The rush of emigration—and nothing being raised to supply the want in the country—made prices go almost beyond the reach of any one. Potatoes are selling for $2.50 per bush; oats are $1.25 per bush.; wheat keeps a moderate price, about 90 cts. per bush., and a great many are using it for feed for teams. Such as oats and potatoes, people want to plant. A great set back has been given to the country, settlers on the rail track being masked so that nothing could be got from the east for two weeks. This was felt a great deal by all classes, for the road itself, without any accident, can't bring the supply to meet the demands in the country. On account of the late spring they are just organizing their men for the extension work on the C. P. RR. I noticed in your last paper that a person was held over for trial for misrepresenting property in Manitoba. It puts me in mind of the new game of gambling which I have seen, and I believe I said something about it in a former letter. I know of several cities laid out and maps of them taken to Ontario and put in the market, and lots sold to the amount of $80,000 when a board has not been laid down to build with. And that is not the worst. The towns are laid out by some stream, in a low place, where they are flooded with water in the spring of the year. Here no person ever thinks of building. I have had the pleasure of living in one of these cities for the last five weeks. Its name, I presume, you have heard of, Souris City. It has two buildings partly finished, and about 800 acres laid out in town lots, some of which have been sold in Toronto for $300 to $400 each, and some of these lots have been flooded this spring from the main body of the Souris River. The water, which I often crossed in a boat, for about three weeks, has lowered. I had a great surprise party the other day. When all alone there came along between twenty and thirty Indians. I thought first of Sitting Bull on retreat from the States; but these were the Yellow Quill tribe, returning from their hunting ground up on the mountains. Each had a gun and large knife. These Indians are of a very large size, but appeared to be civil, and, I thought, rightly named, for they looked very yellow. Their hair was braided on each side, then tied and crossed on their breast.

Yours respectfully,
H. PATTERSON,
Turtle Mountain.

His Appeal to the Electors—What He Thinks of the Leading Questions Laid Before the Body Politic.

Gentlemen,—A large number of my friends having suggested that if I could manage to get into Parliament I would be in a position to better my fortunes I have, after carefully considering whether my business (that of a thimble rigger and confidence man) will permit of my assuming parliamentary duties, decided to offer myself as a candidate for your suffrages at the forthcoming election. I am not particular which constituency elects me, so long as I get in. Of course I am a supporter of the present Government, and promise, if elected, to give the leaders of that Government a support as steady, unreasoning, and slavish (if possible), as any of their late members have done.

I shall do what I can to maintain the National Policy in its present shape, believing as I do, that it is incapable of improvement. I shall, therefore, vote against any resolutions looking to the reduction of the taxes on coal, flour, or manufacturers' raw material, or in favor of the more general distribution of the burden of taxation, as I am convinced that it is just and right that the poor man should be taxed more heavily, in proportion, than the rich. If at any time Sir John A. Macdonald should propose any such changes in the tariff I will, of course, in that case, vote for them.

If elected, I will do my best to stand in with Tupper and the gang on all their little contract dickers, and anything I may have left over from session to session, I will use for the interests of my constituents, (after my own wants are supplied).

I regret to observe that the Liberal Conservative candidates don't come to the scratch in their addresses on the questions now before the people. They act as if they were afraid of these issues. I am not that sort of a wallflower myself. I'm a square cut and outer, and I tackle these points as follows:

The Gerrymander Act.—This measure I approve of all the way down to the ground. It was one of the smartest things that Canada's Greatest Statesman ever did, and it's going to knock the Grits into a cocked hat. The basis of Confederation, as I understand it, is that the Treasury belongs to the Liberal Conservative party, and it is therefore the duty of every loyal Premier to do what he can to prevent the Grits from getting into office. Besides no prudent Government would let the Opposition get in and examine their little pigeon holes if a Bill like this could be carried through to prevent it.

The Boundary Award—I heartily approve of the Government's action in refusing to sanction this award. In order that the fundamental principle of Confederation, as aforesaid, may be maintained, it is necessary that the Bleus of Quebec must be kept solid for John A., and, therefore, it is a stern necessity of state, that Ontario or any other Province must be fixed to suit the Bleus. By the addition of the awarded territory, Ontario would be as big as Quebec. This sort of thing must be sat upon.

Disallowance.—The fundamental principle aforesaid cannot be kept intact unless the Liberal Conservative party keep solid with their friends, and I consider it right and proper that Provincial Acts should be disallowed according to Sir John's sweet will, if thereby he can oblige any of his friends.

Pacific Railway Bargain.—I go the whole hog on this question. In the first place I think it was proper, decent, and clever for the Government to fix the whole business up on the quiet. I hold that it was decidedly cute of the old Chieftain to tell that whopper in Montreal, that the railway would not cost the country a cent, and I maintain that it was prudent, business-like, and an evidence of high statesmanship and honor to carry through the bargain rather than wait a while in order to save $9,000,000 or $10,000,000.

Monopoly.—I am a sincere believer in monopolies, and will heartily support the Government in creating and fostering them, especially such monopolies as the Canadian Pacific Railway Company, which, in addition to its usefulness is contributing funds to the support of the fundamental principle of Confederation, before mentioned, has the further advantage of being a foreign monopoly, which lends its aid in crushing out "Canada First" ideas by employing only Yankee workmen.

Contract Jobbery.—Being a practical man myself I have a strong taste for this branch of public life, and shall ardently support Tupper in his devotion to Onderdonk, Mackintosh, and other patriotic citizens. I hold it as a principle that the highest tender should always get the job providing he will whack up.

Trusting that these few observations may commend me to your regard, as at least the most candid Liberal-Conservative candidate now before you, and that you will therefore elect me by an overwhelming majority, I remain, gentlemen,

Your humble servant,
JEREMIAH MANDER.

The Smith O'Donoghue Compact.

(Toronto Tribune, Roman Catholic.)

The sectarian cry in this contest has been raised by Sir John and his unprincipled allies, not by the *Globe* and the Reform party. Let the schemers be punished at the polls.

The three henchmen of Sir John have issued an address to the Irish electors of Canada. Such presumption will be rebuked. The Irish electors are their own masters and capable of thinking and acting for themselves.

In 1879, just after the Local elections, the *Mail* indignantly asked: "Why is the Catholic vote an isolated factor, a marketable commodity in politics?" We have been trying for years to persuade the *Mail* that it was libelling the Catholics by the assertion which its question assumes for a fact. Now we might tell it that that assertion is little less than a thundering lie, as will be proved inside of twelve days hence at the polls. Perhaps the *Mail* will tell us how why Sir John Macdonald has again set about the purchase of that "marketable commodity?" There are a few unprincipled men who profess to control and dispose of that vote; but they simply sell themselves and only promise to throw in the Catholic vote, which they cannot do. That is precisely how the case stands, as the *Mail* will find out to its cost.

Useless Bright.

To worry about any liver, kidney or urinary trouble, especially Bright's disease or diabetes, as Hop Bitters never fails of a cure where a cure is possible. We know this.

The exemption of several individuals from typhoid fever, which recently prevailed very largely in a western town, was directly traced to the fact that they maintained an excellent state of health by the use of Dr. Carson's Stomach and Constipation Bitters. This medicine is purely vegetable, non-alcoholic, and may be had of all druggists. Price 50 cents. H. Wade, agent.

DAISIES.—Now-a-days not to use "TEABERRY," the new exquisite for the teeth and breath, argues not to be recherche; take a look at it at your drug store. 5 cent samples.

Sick headache, neuralgia, dyspepsia and constipation relieved and cured by the use of Dr. Carson's Stomach and Constipation Bitters. Try them. They are safe and effectual. Sold by all druggists. H. Wade, agent.
