There is no excuse for suffering from
CONSTIPATION
and a thousand other diseases that owe their origin to a disordered state of the Stomach and Bowels, and inaction of the Digestive Organs, when the use of
DR. HENRY BAXTER'S
MANDRAKE BITTERS
will give immediate relief, and in a short time effect a permanent cure. After constipation follows Biliousness, Dyspepsia, Indigestion, Diseases of the Kidneys, Torpid Liver, Rheumatism, Dizziness, Sick Headache, Loss of Appetite, Jaundice, Apoplexy, Palpitations, Eruptions and Skin Diseases, etc., all of which these Bitters will speedily cure by removing the cause. Keep the Stomach, Bowels, and Digestive Organs in good working order and perfect health will be the result. Ladies and others subject to SICK HEADACHE will find relief and permanent cure by the use of these Bitters. Being tonic and mildly purgative they
PURIFY THE BLOOD
by expelling all Morbid Secretions.
PRICE 25 CTS. PER BOTTLE.
For sale by all dealers in medicine. Send address for pamphlet free, giving full directions.

### MASONIC.

The Regular Meetings of the City Lodges will be held as follows:
Minden Lodge, No. 259, on Monday, 3rd August, at 7:30 p.m.
Ancient St. John's Lodge, No. 3, on Thursday, 4th August, at 7:30 p.m.
Cataraqui Lodge, No. 36, on Wednesday, 9th August, at 7:30 p.m.

### A.O.U.W.

LIMESTONE LODGE, No. 91, Ancient Order of United Workmen, meets on the second and fourth Tuesday of every month in the Oddfellows' Hall over Wilkinson's store, Princess Street.

### INSURANCE.

J. H. ROBINSON, General Insurance Agent. Insurances against fire in Phœnix, of England, and other good Companies. LIFE ASSURANCE under greater advantages than in any other Company. Office: British American Block.
Railroad Tickets for all points West sold very cheap.

### REMINDERS.

SATURDAY.
Oca Pleasure Party at the Opera House at 8 and 8 p.m.

## CITY AND VICINITY.

PROBS.—Light to moderate variable winds, fair, warm weather, and higher temperature.

THE BAPTISTS have their Sunday School pic nic at Channel Grove on Monday. The boat leaves the ferry wharf at 8 o'clock sharp.

TO-NIGHT special offerings in hosiery, gloves, corsets, parasols, umbrellas and dress goods; also bargains in ties, shirts, collars, braces, etc., at Hardy & Murray's.

MARKET ATTENDANCE.—To-day's market was very large, and vegetables, dairy produce and meats of all kinds, in abundance, were offered for sale. Prices continued to range high.

POSTPONEMENT.—The steamer Max will has been specially engaged for Tuesday next and cannot give her proposed attractive cheap excursion on that day. It has been fixed for Tuesday following, August 1st.

DREDGING AT GANANOQUE.—The services of the steamer Watertown, and two men in addition to the ordinary crew, are paid for at the rate of $50 per day in connection with the dredging of the Gananoque River.

MUSIC IN THE PARK.—Owing to the band stand having been painted the music this night will not occupy it this evening, but will take up a position to the southwest of it. The music will sound none the worse for the change.

CORRECT THANKS.—The St. George's Society acknowledge the receipt of $5 from Mr. W. T. Norris, towards the prize fund, to be awarded as follows: $4 for girls' race, under 12 years; $1 for boys' race, under 12 years; $3 for an Englishman's race.

A PLEASURE PARTY.—Last evening there arrived here on the steam yacht Minnie the following: Messrs. J. N. Plumb and A. Plumb of Islip, N.J.; R. G. Shepard, D. W. C. Whalen and C. L. Whalen, of New York. They lodged at the British American Hotel during the night.

A GOOD COMPANY.—Mr. T. J. Herndon writes from New York city that he has been successful in organizing a first-class theatrical troupe, all of whom will be new artists to the public of Canada. They will appear about the middle of September. Mrs. Herndon is still a resident of Kingston.

BEGINNING WORK.—On and after Monday Capt Middleton will be ready to receive the citizens' dues to the Corporation. All the tax notices will by that time have been distributed. This year the taxes will total $87,000. We hope the Captain will be as successful as he was last year in his collections.

A BAD PLACE.—In the vicinity of the Windsor Hotel there is a pest hole which the Magistrate has ordered Mr. McLaughlin to remove. It is emitting smells of an abominable character. If the cause of the nuisance—(piggeries)—is not removed, the Magistrate will impose the greatest fine allowed by the city ordinances.

INTRODUCING SALMON.—Collins and Loughboro are two of the finest fishing lakes in this vicinity, but they could be vastly improved were salmon ova to be introduced into their waters. Fish of this quality would thrive, and in a few years the lake would teem with them. We hope that the Government Fishery Inspector will this fall "plant" the above named lakes.

HEAVY HAIL STORM.—Yesterday a severe storm passed over Cataraqui. Considerable hail fell. Cabbages were cut in two, much of the barley and other grain was flattened down and injured. The storm was much more severe at Cataraqui, than in the city. We only got a taste of it. In other sections of the Township of Kingston hailstones could be picked up in measuresfull.

PROVED "NOT GUILTY."—Some time ago a young man named John Wingfield, well known here, was accused of a heinous crime at Union Springs, N. Y., but he has fully established his innocence. He has been discharged from custody, all proceedings against him have been discontinued, and the reward for his arrest withdrawn. The young man has joined a circus in the west.

CAB INSPECTION.—Yesterday the cabs were inspected by the Police Magistrate and Chief of Police. There are thirty cabbies in the city. The vehicles were reported to have been clean, and numbered, as required, upon the back. Hereafter, upon the front of the horses' heads there will also be numbers, so that it will be an easy matter to identify the cabman upon enquiry at the police office.

THE COMMONS SPEAKERSHIP.—There is an evident impression abroad that Mr. G. A. Kirkpatrick, M.P., of Frontenac, will be the next Speaker of the House of Commons. In consequence there is a prospective row amongst the Quebec *Bleus*. They claim that that honor belongs to their Province, in that Quebec sends the largest proportion of members to support the Government. They even go beyond that point and demand that a clause should be added to the constitution, giving the position of Chief Commoner to Quebec for all time to come. It is to be hoped that this demand will not be granted.

### "OUR PLEASURE PARTY."

**A Company of Exceptional Merit—Excellent Presentation of "Our Boys" at the Opera House.**

The audience at the Opera House last evening was a fairly good one, it was certainly attentive and appreciative, but we regret that it was not larger and equally demonstrative, for such the standing of the Company and the merits of the performance really deserved. Who are the pleasure party? Gentlemen and lady members of various other organizations, who, after months of travel and close application to their profession, have banded themselves together to spend the summer vacation upon our river, admiring the scenery that has constituted the theme of many a poem and story, breathing the healthy bracing air of the grand St. Lawrence, and cementing still more the friendship which has brought them together and made their touring so far for the season so very enjoyable. They have chartered a steam yacht to take them from place, and play theatricals at times to their mutual advantage and profit. So we find them in Kingston and meet them, some perhaps for the first time, and sigh for more of their acquaintance. They promise to "come again" to old Kingston, and we hope they will.

"Our Boys" has been played in Kingston before, but not so effectively as last evening, and for the reason that such a rare combination of talent has not, for Canadian service, been brought together before. All the performers are capable of taking good places in the metropolitan theatres. The comedy is fully well known—how two sons are sent to College and to travel by fathers of a very opposite nature, one aristocratic, one uneducated, how they return from abroad, follow courses the reverse of those marked out by their parents, how they quarrel and separate because bound to marry whom they please; how they suffer for their perverseness, come to want, are found, reclaimed, and, all round, made completely happy. The piece abounds in laughable episodes. We submit the cast:

| | |
|---|---|
| Perkyn Middlewick, a butterman | F. M. Wills |
| Charles Middlewick, his son | H. Murray |
| Sir Geoffrey Champneys, a baronet | J. Chapman |
| Talbot Champneys, his son | F. Raymond |
| Mary Meltrose, a poor relation | Miss Markham |
| Violet Meltrose, an heiress | Miss Barker |
| Clarissa Champneys | Mrs. C. Thompson |
| Belinda | Miss E. Williams |

We do not particularize, but merely add the comment that the reputations of the members of the Company have been made; that these they well sustain; and that our citizens will be doing themselves and the visitors an injustice if this evening's play, "My Mother-in-Law" is not well attended. To a good house, at the matinee this afternoon, "Everybody's Friend," was played.

### WHAT'S THE NEWS?

**Laconic Arrangement of Items of Local and General Interest—Gossip that is Readable.**

The letter of "J. S." will appear on Monday.

The Kingston cricketers had a match with the Cotton Mill Club this afternoon.

The dust was again blinding, thanks to the neglect of the city to put the water carts in commission.

Many of the mechanics are looking forward to a part holiday on Wednesday, the date of St. George's pic-nic.

Good butter, owing to scarcity, in spite of good grass for cattle, advanced to-day from 20c to 25c. per pound.

O. Kennedy has painted his hotel a buff with a cardinal border at the bottom. O. K. is quite æsthetic, you know.

Excursion to Alexandria Bay, under the auspices of the young ladies of St. Mary's Cathedral, on Tuesday July 25, by steamer Maud.

The Governor General and Her Royal Highness caught, on the Cascapedia River, in ten days, 76 salmon, weighing from 26 to 33 lbs. each.

Mr. D. F. Armstrong has been disporting himself upon a bicycle at Perth and creating a sensation. The young men of Perth have caught the fever.

Mr. George Osborne's yacht, the George Frederick, has been hauled out at the ship yard and will undergo changes calculated to make her a faster sailer.

The western Canadian Mutual Insurance company which has failed and left the farmers of Frontenac, is a fire company and must not be confused with any life company.

The residents surrounding Collins' Lake have been disturbed by the fishing excursions of "B" Batterymen on Sundays. If the practice be continued prosecutions will follow.

The show people were unfortunate in having a rather small attendance at the performance of "Our Boys" last evening. But on such a pleasant night the young men could not refrain from taking out "Our Girls."

### PERSONAL MENTION.

Mr. G. M. Kingborn is in the city.

Messrs. T. J. Donoghue and T. H. McGuire have reached the prairie city.

Rev. J. P. Dumoulin, of Montreal, has been definitely offered the Rectory of St. James' Cathedral, Toronto.

Mr. H. F. Gardiner, editor of the Hamilton *Times*, passed east yesterday afternoon for Nova Scotia, where he spends his vacation.

Hon. and Rev. C. E. Glyn, M.P., Vicar of Kensington, has been married to Lady Mary Campbell, sixth daughter of the Duke of Argyle.

Mrs. Boyd Caldwell, Miss Caldwell and Miss Becky Caldwell, of Lanark, have left for Old Orchard Beach, Maine, to spend the heated season.

Another change is taking place in the local branch of the Federal Bank. Mr. R. E. Kent goes to Petrolia, and Mr. Harvie takes his ledger here.

Hon. Mr. Chapleau has not yet sailed for Europe, and there are no Government changes in Quebec. Several changes are contemplated in the Dominion Cabinet.

Miss Parnell, who lectured in Montreal last winter, sister of Mr. Parnell, leader of the Land League, with which she also was connected, died at her home near Springfield, Mass., the other day.

W. D. Howells, of the Philadelphia *Press*, author of "Helen's Babies," one the most popular of modern fictions, passed down the river yesterday on the steamer Passport. He had been paying a short visit to his father, the United States Consul at Toronto.

### MARINE INTELLIGENCE.

**Extensive Repairs to a Prescott Ferry Boat—Arrivals of Grain Cargoes—Modelling a Yacht's Model.**

The schr. M. J. Cummings, 22,108 bushels wheat, has arrived from Chicago.

The prop. Nashua has arrived from Toledo and discharged 12,000 bushels of wheat.

The sloop Ferry from Sackets' Harbor unloaded 401 bxs. of cheese last evening on the G. T. R. wharf.

The prop. Alma Munro, from Toledo, yesterday discharged 200 barrels test oil and 6,150 bushels wheat. She cleared for Montreal.

The schrs. Canada and Edward Blake have arrived at Garden Island. The first has pine timber from Cheboygan, and the latter oak from Toledo.

When the steamers Corinthian and Rothesay were passing Brockville yesterday they were racing. Both were running very fast, the Corinthian slightly in advance. The Corinthian had the Brearly excursionists from Detroit aboard.

The demand for vessels to carry wheat from Chicago to Kingston was again urgent on Wednesday, and a fleet of five craft, all that could be got, were chartered at 6c., an advance of ½c. The following secured cargoes: Schr. Mystic Star, 23,000 bu. wheat; American, 29,000 bu. wheat; W. I. Preston, 19,000 bu. wheat; Mary L. Higgie, 22,000 bu. wheat; Pewaukee, 22,000 bu. wheat.

Some time ago the steamer Transit, which carries cars across the St. Lawrence from Prescott to Ogdensburg, arrived here for repairs. She was placed on the ways at Power's yard. Yesterday her improvements were completed. She has had a new frame fore and aft, new keelsons, bilge streaks, hanging knees on each side fore and aft, new stern post and several streaks of new plank outside. She has one diagonal breast hook, similar to those used by vessels in the Greenland trade. It is for breaking the ice during the winter. Her joiner work has been thoroughly overhauled and everything fastened in a substantial and workman-like manner. Besides the repairs she has had two new cylinders, a new wheel, and been sheeted with iron from above the load line to the flat of the bottom, from end to end. In every way she is better fitted for traffic and in better shape than at any time since she was built. The repairs and new machinery cost $5,000. The steamer left this afternoon for Prescott, where she will resume her business.

On Thursday evening late, the tug Glide, with the barges Senator and Toronto, of the M. T. Company cleared from Oswego with coal for Montreal. There were indications of fine weather, but the Oswego *Palladium* reports that when some six miles from the harbor, a heavy dead sea, from the westward, struck the tug and barges, followed by an alarm of danger from the barges. The tug made for Oswego again. Near the piers it was found that much water had been shipped, in fact, it was but a quarter of an inch below the grate bars of the Glide. The tug let go the tow and steamed for port. The tug Redford brought in the barges. As soon as the sea struck the barge Toronto she rolled heavily, and her mast and cabin (which was built around the mast), carried away. The captain's wife and five children were taken from the fragments of the cabin. With the exception of the captain's wife, who had her arms bruised, and one little boy who bears a black stripe around his eye, the family were uninjured. Their clothes were all carried away and the captain's contained $63 in money. The barge Senator had her deck cleared of 50 tons of coal, but was otherwise uninjured. About $400 will cover the loss to the Toronto and $150 the captain's personal loss. He believes the barge is uninjured.

### THAT ESPLANADE.

**A Movement in its Behalf—A Reasonable Proposal—Let the Rest of the City Do its Part.**

For several years past an esplanade on King Street West has been yearned after by every citizen of pride. Until this month no decided action was taken in the matter. Some years ago a breakwater was built part of the distance, between the Grove Inn and the Grand Trunk Brewery, to prevent the road from being washed away by gales during the spring and fall months. This, however, has done its duty nobly, and now begins to show signs of decay. To visitors from a distance this portion of the city presents a neglected and disreputable appearance, whereas, by a little trouble and expense, it might be made very attractive, especially during the summer season. With this end in view Alds. Clements and Craig are canvassing the city for subscriptions, and hope the citizens generally will show by the amounts they subscribe that they desire to have the scheme successfully carried out. The estimated cost is two thousand dollars, and it is proposed to raise half that amount by private subscription, and ask the city to pay whatever balance may be required. There seems to be a general impression that this work should have been done by the Corporation long ago, and nearly all the amounts subscribed are to be paid only on condition that at least an equal proportion be added from the city treasury. The amounts promised up to date are

| | |
|---|---|

### KINGSTON'S TELEPHONE SYSTEM.

**Results Accomplished in a Year—The Telephone in Many Houses and Manufactories.**

A year ago Mr. R. Freeman, of Brantford, introduced here the telephonic system which had been so successfully adopted in larger places. At first our business men did not take kindly to the scheme, but the gentlemen who had private lines were well pleased with the invention and allowed the manipulation of the wires to be placed under Mr. Freeman's control. After several months of hard canvassing a sufficient number of citizens were induced to have telephones placed in their business houses to make the scheme worth trying, and on July 15, 1881, the lines were ready for operation and an office established on Ontario street. Amongst the first to introduce the telephone were the British American, Windsor and City Hotels, Mr. G. A. Kirkpatrick, M.P., and Chown & Cunningham. Gradually the list of subscribers increased until at the close of a year it numbers about 80.

A VERY USEFUL AID.

The merchants and business men of all classes have found the telephone indispensible, and transactions can be done more successfully over the wires than by the old system of a boy and note. In many places boys are not now required. The facility with which business men can talk and discuss affairs is really remakable, and the frequent calls given the operator in the central office demonstrates clearly that the telephone is very largely used. The office is open daily from 8 a.m. to 10 p.m. There is every probability that in a short while there will be all night operators. Connections are had with all the leading dry goods and grocery establishments, manufacturing companies, wharves, Government institutions, printing houses, hotels, banks, telegraph and law offices, and many private residences. During the past month Mr. Freeman and his staff have been engaged in erecting new lines, and the most recent connections are: Rockwood Asylum, Kingston Cotton Mill, R. C. Carter's house, Rathbun's lumber yard, Beverley Street; Rathbun's office, Queen Street; Sabre Bros., Hay Market; John Muckleston's house, Stevenson & Co. and Burnett House. A number of fresh orders are expected next week.

EQUIPMENT OF THE COMPANY.

At present the Company have upwards of 85 miles of wire strung. The poles, numbering many hundreds, are to be seen in all parts of the city, and near the central office there is a perfect cloud of wires. Besides those on the poles many wires are carried over the housetops to the central office. The wires enter the operating room both from the front and rear. The switch first put in the office has been filled (50 wires) and within a few days a new switch, manufactured by Gilleland & Company, of Indianapolis, Indiana, has been introduced. It has a capacity also of 50 wires. It is of modern pattern and altogether different from the first in regard to the key board. Aerial cables have also been brought into requisition. They are impervious to air, sun, and water. These cables consist of thirty-six small copper wires, rolled together, and used principally in bringing the wires from the window of the office connecting with the line wires on the poles. When the new switch is ready for service the number of operators employed will be increased to four.

IMPROVEMENT IN THE BUSINESS.

The rapid advance made in the business during twelve months shows that Kingstonians approve of the improved method of communication, finding it accurate and very useful. Each merchant makes it a part of his business equipment. A man can now converse quite readily in his office with another a mile or more away, whereas before he was subjected to either a long walk or drive. The Manager reports that Kingston, according to its population, will have more than the usual number of subscribers. In another year he expects to have over 100 telephones in use here.

### Difference in Sentences.

On Tuesday last we referred to the apparent disparagement between the sentences imposed by the Police Magistrate of Belleville and Judge Wilkison of Napanee, upon men implicated in tampering with the Tyendinaga switch of the G. T. RR. We took from one of the Belleville papers the decisions in both cases, and it stated that the offenders were guilty of the same offence. Since then we learn that the fellow sentenced by Judge Wilkison was charged with and sentenced for burglary. Our conclusions, therefore, so far as they related to these particular cases were erroneous. However, it makes little matter, as we merely used the circumstance to show how criminals felt on the inequality of sentences. The Napanee *Express* concurs in our remarks and says they were just but wrongly applied in this instance, while a person knowing the working of the prison here emphatically endorses our comments in the following words: "You have a very timely article in Tuesday's WHIG on 'Differences in Sentences.' I don't know where you got your information but it is 'dead straight.' I may give you a few facts about sentences later on."

### A Prosperous Company.

Mr. Burrows, of Belleville, General Agent of the Ontario Mutual Life Assurance Company, is in the city looking after its interests. He reports that the Company is doing a very flourishing business. Up to date a larger new business has been done this year than during the same period in any previous year. Economical management, large annual cash dividends, and promptitude in paying claims are making the Company very popular.

### Band Programme in the Park.

The band of "B" Battery will play in the City Park this evening, weather permitting, at 8 o'clock. The pieces are to be:

| | |
|---|---|
| Overture—Banditen Streiche | Suppe |
| Valse—Man Azzi | Gapner |
| Finale—2nd Act William Tell | Rossini |
| Valse—Flower show | Coote |
| Selection—Manola | Lecocq |
| Polka—The Artista | Coote |
| Vive La Canadienne. God Save the Queen. | |

The Maud carried the usual crowd to Cape Vincent to-day.

### ST. LAWRENCE TRAVEL.

**Exodus to the Seaside—A Steady Flow of Visitors From the South—Delighted With the River.**

On the invitation of Mr. G. Leve, General Passenger Agent of the St. Lawrence Steamboat Company, the writer joined a party of American excursionists bound eastward, on Thursday, the 20th inst., Boarding the palatial steamer Rothesay at Thousand Island Park, at 6:30 a.m. we found a party of about 300 tourists enjoying the sail down the river, having embarked at Clayton half an hour previously. All were through passengers *en route* to the White Mountains, Portland, Me., and the leading cities of the east, and were in charge of Mr. Roche, Passenger Agent of the Chesapeake & Ohio RR. Every state in the West and South was represented, quite a number coming all the way from Georgia and Alabama. Many of the excursionists had never seen the St. Lawrence before, and all were loud in their praises of its magnificent scenery and health-giving breezes.

During the present month excursions of a similar nature to this one are of almost daily occurrence, this line having connections with the principal railroads of the United States and ticket offices in all the large cities of the Union. A special summer excursion train is run daily from Niagara Falls, N. Y., connecting at Clayton with the Rothesay. A special steamboat train also leaves New York city daily for Clayton, making close connection at the latter place with the St. Lawrence Steamboat Co. Special rates are advertised, and the consequence is, a huge immigration northwards, most of the excursionists being persons of moderate means attracted by the unprecedentedly low price of tickets. A gentleman from Louisville, Ky., informed the writer that he purchased his ticket at the latter place for Portland, Maine, by way of Niagara Falls, St. Lawrence River and White Mountains, and return by an all rail route for $34. These tickets are good for an entire season, and allow the traveller to stop over at all interesting points.

One of the noticeable features of the St. Lawrence Steamboat Co. is that it is officered largely by gentlemen employed on Southern routes during the winter. The season for travel on the Florida routes lasts about eight months, while the season of summer travel in the North does not exceed three months. It was remarked by Mr. Adams, purser of the Rothesay (who has been engaged in the passenger traffic in the South for eight years past), that the same people are repeatedly met on both the Northern and Southern pleasure routes, thus instancing the remarkable fondness of the American people for travel and sight seeing.

All the People of the Dominion of Canada are Concerned.
Here are some more of the many hundreds of the leading people in the Dominion of Canada, who have been cured of Catarrh, Bronchitis, Asthma and Lung Disease by Dr. Souvielle's Spirometer and instrument, which conveys medicinal properties direct to the seat of the disease. Read and judge for yourself:—
"Several of my family and friends have been cured of bronchitis, asthma, and catarrh by using the Spirometer." John P. Whelan, Manager of the *Post and True Witness*, Montreal. Mr. C. Hill, Montreal, catarrh and bronchitis. Mr. De Boucherville, of the Indian Department, Ottawa, catarrh of many years; now cured. Mr. Geo. Ager, Ottawa, catarrh and lung diseases; cured. Mrs. Smith, London, wife of Medical Detective, cured of catarrh. Geo. Maguire, Toronto, 482 Adelaide St. West; daughter cured of asthma. Geo. Willis, Exeter, Ont., catarrh and bronchitis. J. D. Armstrong, 186 Yonge Street, Toronto, catarrh and catarrhal deafness. Thomas Telfer, 12 Melinda Street, Toronto, asthma; cured. Mr. Benj. A. Drake, St. Urban Street, Montreal, for many years suffering from bronchitis and asthma; now cured.
Also the no less surprising cure of Mrs. Benoit, 114 Cathedral street, daughter of Mrs. David Perrault, who suffered from Asthma and bronchitis for over eight years, and who is now perfectly cured.
Mrs. Adamson, of Belleville, cured of bronchitis, and her sister cured of bronchites and lung disease.
I have no hesitation in saying Dr. Souvielle's will cure catarrh and bronchitis. Spirometer John C. Fleming, Editor of *Post and True Witness*, Montreal.
The above is sufficient to convince the public of the merits of the Spirometer. The instrument will be expressed to any address.
Call or write, enclosing stamp, to M. Souvielle, ex Aide-Surgeon of the French Army, 13 Phillip's Square, Montreal. Physicians and sufferers can try it free.
PROTECT YOUR EYES!
A NEW assortment of BLUE SMOKE and GREEN SPECTACLES and EYE GLASSES to suit everybody. Children and Ladies can be fitted with our new glasses. In the strong sunlight, it is well known, if the eyes are not properly protected, in many cases it will entail suffering in after years. Then protect your eyes by buying our eye glasses. We guarantee them to be the best made.

Call and see our ELECTRIC BELTS. We show and explain their working with pleasure.
W. J. WILSON
(Successor to Heath & Gunn).
THE PHARMACY.
NB.—Medicines obtained at any time during the night, or on Sundays, when not open, by ringing the bell. July 19.

July 6.
To the Medical Profession, and all Whom it may Concern.
Phosphatine, or Nerve Food, a Phosphate Element based upon Scientific Facts, Formulated by Prof. Austin, M.D., of Boston, Mass., cures Pulmonary Consumption, Sick Headache, Nervous Attacks, Vertigo and Neuralgia, and all wasting diseases of the human system. Phosphatine is not a Medicine, but a Nutriment, because it contains no Vegetable or Mineral Poisons, Opiates, Narcotics, and no Stimulants, but simply the Phosphatic and Nitric Elements found in our daily food. A single bottle sufficient to convince. All druggists sell it. $1 per bottle.
LOWDEN & CO.,
