Daily British Whig.

Chapter xxv Urban Decr.

The hot weather may make some politicians more rabid than usual, but certain it is that the attacks of the Tory journals upon Mr. Mowat and his Government have of late been very bitter. The *Telegram* wisely observes: "But before a Cabinet is kicked out there are two things which the people have a right to be assured of—first, that there are some reasons for kicking it out, and, second, that there are better men at hand to take the places of those who are so kicked. So far, instead of being assured of both of these things, the country has been assured of neither.

Three of those accused of complicity in the assault upon the sailors of the schooner L. M. Higgie have been committed for trial, which will likely take place before the Assizes, the desire of all concerned being to have the case decided as quickly as possible. We do not mean to pronounce upon the guiltness or innocence of the prisoners—the Court must do that—but we must say that the good name of the city has been injured by the outrage, brutal and entirely unjustifiable in character, and it is hoped the offenders may be reached and such punishment meted out as will act as a preventative against the repetition of the piracy.

The Millers' Association have passed the following resolution: "That whereas there exists a demand for certain qualities of flour, made from a particular kind of wheat, which is not to be procured in this province, or only in a very limited degree, this meeting is of opinion that millers grinding wheat in bond should be allowed to export an equivalent in flour instead of the product of the wheat so imported, and further, that a delegation representing the milling interests of the country do wait upon the Dominion Government showing the necessity and equity of the change being adopted." It was stated some time ago that the millers had been engaged in the business in reference to which they now petition the Government, that the idea of asking permission to import wheat and export the flour, not the product of the wheat so imported, was suggested by the enforcement of the law even to the seizure of the goods of those infringing it. All the millers were not, in effect, defrauding the Government, but it is alleged that some of them were doing so, and their offences in all probability were winked at until after the election. Now we have another of the beauties of the national policy exemplified in an interesting manner. As the manufacturers are said to have things as they want them generally—being the Government's best friends—the petition of the millers cannot be refused.

TAXING THE MANITOBANS.

The Manitobans do not feel that the national policy has helped them as much as the thoroughbred Conservative organs of Ontario have represented. The Winnipeg *Free Press*, the leading organ of the highly taxed Province, says the people of Manitoba are unable to see that so far they have got one cent's protection in return for the impositions of the tariff to which they are obliged to submit. It continues: "The only real benefit conferred upon any one in Ontario has been upon those whose manufactures were not suited to the requirements of this country, while they have been in a measure forced upon it by duties on others which were suitable. This sort of 'fostering' is just what constitutes the great evil of the hide-bound protectionism upheld by the Conservative press." The receipts at the Winnipeg Custom House during the past fiscal year amounted to $2,000,000, enough, the *Mail* observes, to pay 4 per cent. interest on the cash subsidy to the syndicate. Such a fact is not one to cause rejoicing.

The $2,000,000 of revenue represents an import of goods valued at some $8,849,557. Omitting the calculation of imports entered at any other place in the North-West, and estimating the population at 120,000 (60,000 in 1880,) the average per head would be $73 against $20 per head in this Province and other parts of the Dominion, so that it will be seen to what extent the Manitobans are endebted to the Government for its enforcement of the present fiscal policy. A letter received from Winnipeg this morning says the outlook of that new country is not as promising as it was. The Syndicate, the Colonization Companies and the Government itself, by its injurious land regulations, have combined to check agricultural progress. Evils have been allowed to take deep root, and they cannot for a long time, if ever, be eradicated.

Sir John once thought that Manitoba could not be checked. He was ready enough to attempt it by not permitting railway enterprise simply because it threatened the Syndicate with competition and the business men, the emigrant, and even the tourist have suffered the results in a way which they will not shortly forget. The national policy may be a good thing for certain manufacturers, but these are not in Manitoba.

IRISH CONSTABULARY.

A cablegram announces that the Irish Constabulary are on the eve of a strike. They demand an increase of pay and a change in the system of promotion. These are not, however, the only things over which they have grievances. It is well known that for years there has been great discontent in this large body of men, numbering over 12,000. The chief cause of this lay in the indisposition of the Government to sustain the constables when they were driven to extremes in the enforcement of law. Sometimes a man was pushed into a fight and used his firearms as much in self-defence as in the display of authority, and, pandering to the pub ic clamor, he has been removed from the service by his superiors. He has been wounded and then dismissed, offered up as a sort of public sacrifice. It was not to be expected that such experiences could be frequently repeated without demoralizing effects. It is to be remembered, too, that the agitation of the past few years, the conflicts between the landlords and tenants, the agrarian outrages and the troubles produced by evictions, have put upon the constabulary duties of an onerous and dangerous character. Evidently they feel that their condition must be improved, and that without delay. A strike would precipitate a crisis, but such is likely to be averted.

There are about 400 officers to 12,000 men, an insufficient number, in comparison with the military service, a battalion of 800 men being allowed 45 officers. The Lord-Lieutenant appoints not a few of the officers of the Constabulary, generally the cadet officers, who are the sons of those holding good appointments and rendering long service. But many of these holding commands of various grades have risen from the ranks and are given preference according to their merit.

About twelve years ago the pay was increased, and is now in keeping with that of most men in the other branches of the public service in Ireland. A Third Sub-Inspector receives £150 per annum, a Second Sub Inspector £180, a First Sub-Inspector £220. County Inspectors are similar to Majors and Lt.-Colonels, their salaries ranging from £300 to £400. Assistant Deputy-Inspectors-General £2,000 per annum, all classes having perquisites like unto those granted in the army and commensurate with their classification. To the highest places men have been promoted from the ranks, but these advances are not so numerous as they ought to be. Many of the Stipendiary Magistrates, of which we have heard so much, have been members of the Constabulary, and they have made efficient administrators of the law.

A Pittsburg Accident.

On Wednesday Fred. Henderson, aged 15 years, son of Mr. James Henderson who lives on the Front Road four miles West of Gananoque, was returning home from a hunt, carrying in his hand a gun loaded with slugs. When entering the yard he noticed some sheep getting out of an enclosure, and ran to head them off. He stumbled at a drain and fell, and the gun was discharged, shooting him in the left leg between the knee and thigh. The shot narrowly missed the femoral artery. The wound was probed but no slugs discovered, and the doctor is inclined to think, says the *Reporter*, that the shot was a glancing one, the slugs passing out at the side of the leg. It is a coincidence that several years ago Mr. J. B. Parke lived in the house now occupied by Mr. Henderson, that one day a son of Mr. Parke, returning from hunting, came to the house through the orchard. He reached up to knock down an apple with the stock of his gun, when the charge exploded. The shot entered his groin, from the effects of which he died in a short time.

A Lamentable Death.

One of the saddest deaths that has occurred for some time, producing widespread sorrow and bereavement, occurred this afternoon, that of Miss Etta McIlroy, a teacher of the Model School. Of all those connected with the Public Schools of the city none was more highly accomplished, having been not only thoroughly educated, but possessed of the faculty to impart her knowledge to others and the power to preserve discipline in an agreeable way. In pursuit of her chosen occupation she contracted a cold which settled upon her lungs and ended fatally, after several weeks' illness. One of the Trustees alleged at the last meeting of the Board that Miss McIlroy's illness was due to the defective school room, defective in regard to ventilation and heating. Whatever the cause she has, by the inscrutable workings of Providence, been removed, and hundreds will drop tears of sadness when they reflect upon her amiability, modesty and goodness. She was as rare in character as she was in mental gifts and attainments.

The Schr. Higgie Trouble.

Boullette, who was re-arrested yesterday for complicity in the harbour outrage, was brought before the Police Magistrate, arraigned, and dismissed, there being no evidence to warrant his committal. He had forgotten everything he said to the P. C. Nesbitt about Cassidy being the ringleader. Roach and Griffith are now in the County Gaol. Cassidy was released on bail to the ex- of $2,000. To-day the prisoners were brought before Judge Price and elected to be tried summarily. Capt. Thompson and Moore left the city this morning by boat for Oswego where they rejoin their vessel. Ellis went West for Chicago. He said he was through with sailing. The absence of the Crown witnesses will probably postpone the trial for a time.

NOT AMERICANS.—Some days ago a number of ladies and gentlemen, wearing peaked hats, spent the day in Kingston, and were of course the objects of much attention. Our contemporary editorially and sarcastically went for them, believing them to be Americans. It now turns out that the company were members of the "Peaked Club," of Montreal.

BUSH FIRES.—The bush fires broke out about this time last year and devastated vast timber limits. Persons should be extremely careful in setting bush fires, and railway engineers should endeavour to prevent as much as possible, the sparks from flying upon ignitable property.

SOLD OUT.—Messrs. John Allen & Sons have purchased, at Sand City, K. & P. RR., the store and stock of Mr. W. D. Mace. Mr. Mace will content himself with the business of his extensive establishment at the Mississippi.

ELECTRICITY is nature's own remedy for disease. It cures easily and simply. No nauseous medicines to take; no bitter pills; no, the belts are to be used as directed, and new vigor, new life pervades the exhausted system. A cure guaranteed in 99 cases out of a hundred. Only obtained at the Pharmacy, Heath & Gunn's old stand. See advt. in another column.

KING STREET ESPLANADE.

Additional Subscriptions of the Public to This Work—It is Bound to Go On.

The gentlemen who are canvassing for the King Street Esplanade have so far met with considerable success, and there is every probability of the scheme being shortly accomplished. When the esplanade has been completed it will be one of the pleasantest places either for a walk or a drive in the city. The names of the subscribers are:

PRESS ASSOCIATION TRIP.

An Excursion Which Promises to be Unusually Pleasant—Attractive Route

The projected trip to Winnipeg has caught the popular wish of the Press Association, as the applications for places in the party are more numerous than any of the annual trips of late years have brought forth. Therefore, there will be a lively excursion. Independent of the desire to see the North West, and the great cities on the route, there is a pleasant feeling among the press men that they are going on a pilgrimage to a far off land of their own, a land whose future they have been long actively advancing. Their interest in it will be sharpened by a personal acquaintance with its natural richness and breadth of resource, and with the phenomenal enterprise of its people.

The excursion cars (Pullman's, engaged for the round trip) will leave Toronto at noon on Tuesday, August 22nd, immediately after the annual meeting. The route will be via Credit Valley, Canada Southern, Michigan Central, Chicago and Rock Island, St. Paul, Minneapolis & Manitoba, and Canada Pacific Railways. The cars will be detached from the express trains at several places en route, including Chicago and St. Paul, so that the monotony of the long railway trip will be broken and sight seeing promoted. The Association's trip this year has fallen on happy lines.

Dominion Exhibition Notes.

The Secretary of the Provincial Exhibition Association states that the entries for the show at Kingston are being freely made, and numerous applications are being made for space. It is expected that the approaching Exhibition will be in ever way successful. Among other exhibits the Ontario Experimental Farm will exhibit, but not for premiums, the the following:—Four two year old short horn grade steers, fed for experiment on corn, peas and oats, in which will be shown the exact age of each, the kind, quantity and and cost of food consumed, the cost of production, the daily rate of increase during various periods, and rate of increase from the different kinds of grain fed, with the value of manure obtained, and the net value realized from each. A shorthorn heifer, weighing about one ton, as an example of a high rate of increase during the fattening process. Six pair of Leicester, Oxford, Down and Merino grade fat shearing wethers, ranging from 150 to 290 lbs per head, by which will be shown the standing of each in regard to the profit and character of the wool.

Military District Camp.

The Cobourg *Sentinel-Star* gives the following: "Col. Villiers, D.A.G., was in town the other day inspecting the grounds for the military camp, which takes place on the 5th of September. The rifle range will be on ground leased by Mr. M. Tunney. Mr. Tunney, when asked for his land said, "Certainly, if the Government grant anything, I wish it to be distributed as prizes among the men. The volunteers have not half consideration shown them."

Cavalry and Artillery camp consists of the following: 4th Regiment of Cavalry, Lieut.-Col. Duff; Kingston Field Battery, Capt. Wilmot; Durham Field Battery, Capt. McLean.

Infantry—40th Battalion, Lieut.-Col. Smith; 45th Battalion, Lieut.-Col. Cubitt; 49th Battalion, Lieut.-Col. Brown; 57th Battalion, Lieut.-Col. Rogers; 16th Battalion, Lieut.-Col. Ross.

Staff—Col. Villiers, D.A.G., Brigade Major, Major Henry Smith, 47th Batt.; Assistant Brigade Major,——; Orderly Officer, Capt. Hodgins, Queen's Own Rifles; Supply Officer, Major Gordon, 14th P.W.O. Rifles; Camp Quartermaster, Major King, 14th P.W.O. Rifles; Musketry Instructor, Capt. Bailey, 47th Batt.; Principal Medical Officer, Surgeon Bristol, 47th Cavalry Regiment.

No Trouble to Swallow

Dr. Pierce's "Pellets" (the original "little liver pills") and no pain or griping. Cure sick or bilious headache, sour stomach, and cleanse the system and bowels. 25 cents a vial

The most wonderful curative remedies of the present day, are those that come from Germany or at least originate there. The most recent preparation placed upon the market in this country, is the GERMAN INVIGORATOR, which has never been known to fail in curing a single case of impotency, spermatorrhœa, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangements of the nervous system. For sale by druggists, or sent free by mail on receipt of the price, $1.00 per box, or six boxes for $5.00. Address J. G. King, Sole Agent for Kingston, Ont. Send for circular.

Through the present month of July the stomach and bowels are very liable to become deranged. The proper preventive is Dr. Carson's Stomach and Constipation Bitters, for by their use the digestive organs are invigorated the bowels kept regular and the blood rendered pure and cool. Sold in large bottles at 50 cents by all druggists. H. Wade, agent.

WAR IN EGYPT.

THE DIFFICULTY IN SOME RESPECTS INFINITELY INCREASED—ENGLAND'S ADVANCE.

Arabi Bey and His White Flag—A Hot Engagement Now Progressing—Firing on the Enemy on Three Sides.

London, Aug. 4.—General Allison is somewhat in the dark as to Arabi's movements. It is now thought that he is making frequent demonstrations in order to cover his retreat upon Tel-el-Kebr, an important stragetic point half way between Cairo and Ismalia, where he is throwing up heavy earthworks, and apparently intends making a determined stand. This is an important point, as it commands the source of supply of the fresh water canal, and also the railway and Suez Canal, and is the nearest suitable point for a base of operations on Cairo.

From Cairo comes the alarming rumour that the European quarter has been fired, and a general European massacre commenced. There is a strong probability, however, that this report will fortunately prove incorrect.

POSITION OF THE PORTE.

The keynote of the Porte's suspicious conduct and evasive replies to England's demands has been sounded. It now declares that the proclamation of Arabi as a rebel must depend upon his conduct after Turkish troops have landed in Egypt. This is in direct defiance of England's oft repeated demands, and unless a more conciliatory tone is adopted a conflict between Admiral Seymour's fleet and the Turkish transports containing the Turkish contingent is imminent.

The divergency of opinion which exists between England and Russia appears to be daily increasing, and may probably break up the Conference without any tangible results having been attained. The complication would therefore be greatly increased.

MOVEMENT OF TROOPS.

Gibraltar, Aug 4.—The transport Orient, with the Duke of Connaught and Scots Guards, passed here to-day. All well on board.

The troopship Tyne, with the engineers, from Halifax, has arrived.

The troopship Orontes is embarking the Cameron Highlanders (79th Foot) and the Derbyshire Regiment (95th Foot) and will proceed to Alexandria to-morrow.

The steamship Batavia with the second battalion of the Grenadier Guards, arrived to-day and proceeded on their way to Egypt.

Malta, Aug. 4.—The steamship Dacca, with marines and a company of engineers has arrived here.

Southampton, Aug. 4.—The transport Tower Hill has sailed hence for Egypt with a battery of artillery.

A SURPRISE TO ITALY.

Rome, Aug. 5.—The action of the British in occupying Suez surprised every one here.

ENGLANDS PRESTIGE RISING.

A correspondent at Vienna states that the new occupation of the Suez has produced a deep impression. England's ascendancy is now practically acknowledged. Her calm energy and honesty of resolutions, are making themselves everywhere felt, and her prestige stands on a far higher level than it has done for some time past. The Austrian Cabinet is using its influence to bring about an understanding between England and Turkey.

Alexandria, Aug. 5.—Major General Graham will command the British brigade at Ramleh.

A SERIOUS ENGAGEMENT.

Alexandria, August 5, 6:35 p.m.—At 5 o'clock this afternoon the British troops, with a number of field guns, reinforced by sailors, attacked an advanced guard of Arabi near Ramleh, between Mahmoudieh Canal and the Cairo RR., firing upon the enemy's position from three sides. The engagement, which is serious, still continues. Arabi sent 14 men with a white flag to the British camp this morning. The party was received by Major Pringle, but the interview was without result

DIPLOMATIC PERPLEXITY INCREASING.

London, August 5.—The diplomatic perplexity regarding the Egyptian affairs is increasing throughout Europe.

On Sunday morning all Cairo was moved. Crowds rushed about the streets in great excitement, congratulating each other and shouting with joy. The cause was the arrival of a boy of seventeen, Midshipman De Clair. He was conveyed in a close carriage, through whose blinds could just be distinguished the blue and gold of a British officer's uniform. The thousands of natives who surrounded the carriage and would have it that it was Admiral Seymour, who had been captured by Arabi Pasha, and made the air ring with their cries of, "The Sultan is victorious! The Infidels have been driven off!" The youngster enjoyed the scene immensely, and still more their disappointment, when, on his alighting, they discovered that he was but a beardless boy in a round jacket, and not the important capture they thought had been made.

On Tuesday a quarter of a million pounds was collected in the Provinces in obedience to orders from Arabi Pasha. Arabi has 20,000 Bedouins who will be sent to various parts of the coast. A Sheikh says Arabi is in communication with the false prophet and when beaten he will not retire to Cairo but to Wahed-Dakhel.

Hanlan's Intentions.

Toronto, Aug. 4.—Hanlan, speaking to the Locomotive Engineers last night, said he had been ill this year and not fit to show he could do, that he had never yet put forth all his strength in a race, but next year he was prepared to make as many matches as there were scullers, and wished to get on a big match with Ross for $5,000, or as much as he could raise.

A Pertinent Inquiry.

London, Aug. 5.—A confidential circular has been addressed to the County Inspectors throughout Ireland, requesting them to report whether any large numbers of persons from their districts are arranging to visit Dublin on the occasion of the opening of the exhibition and the unveiling of the O'Connel statue, and whether the leading Land Leaguers or Fenians are expected to be there.

Indians v. Cowboys.

Fort Keogh, Montana, Aug. 5.—The Crow Indians are very restless. Many people fear trouble with them. They are stealing cattle and recently had a fight with the Cowboys on Sweet Grass. Two Cowboys were killed and four wounded. It is supposed that the Indians' loss is six.

A Wise Proceeding.

London, Aug. 5.—A correspondent at Berlin says the greater part of the German press, referring to the occupation of the Suez by the British, acknowledges, that England has acted wisely in occupying the positions which now are of great importance to her.

Destructive Storms.

Denver, Aug. 5.—Storms have raged during the past two days in several sections of the state, causing floods, landslides, loss of life, and great damage to property.

CONDENSED TELEGRAMS.

The Gist of Various Telegrams on Various Themes.

The survey of the Tay Canal route is being pushed forward.

A petition to unseat Mr. Cuthbert (Tory) in Berthier county has been filed.

The Permanent Under-Secretary of the Colonies has left England on a special mission to the Marquis of Lorne.

The whole of the Canada Atlantic Railway will be ballasted within a week, and arrangements will be made for its immediate operation.

As an acid is to an alkali so is St. Jacobs Oil to rheumatism. Of course the one would neutralize the other. St Jacobs Oil is the great neutralizer of the age.

The Executive Committee of the Harmony Mills Operatives Union have refused to accept the terms upon which the mills re open on Monday.

The authorities have found it necessary to again proclaim Limerick city under the Repression Act. Yesterday Postmaster General Fawcett's life was threatened in a letter. The Conservatives are divided upon the question of insisting on the acceptance of the Lords' amendment to the Arrears Bill. In the Clerkenwell investigation it is reported that the existence of a plot to dispose the Queen will be exposed.

Disaster to the Railways.

Columbus, Ohio, Aug. 5.—The trains on the Ohio Central RR. are not running further south than Moxahalia. The loss by water spouts on Thursday were much greater than at first supposed. From three miles North of Corning, and down to South Bend and up the western branch of the Ohio Central to Buckingham. Eighteen miles of track are almost entirely destroyed. For miles it cannot be observed where the rail road was located. Most of all the live stock in the two valleys has been swept away. It is believed that the loss to the railways and mines and private induals will approximate half a million.

More Kissing and Hugging.

Canton, Ohio, Aug. 5.—Rev. D. C. Hanselman, of the Disciples Church, is on trial before a Committee of preachers charged by three female members of the congregation with hugging and kissing them, and attempting other improprieties. One woman says that after Hanselman performed the funeral services of her husband he called at her house, suddenly kissed and embraced her several times. Hanselman alleges blackmail, and produces letters from the husband of one of the accusers offering a settlement for $300.

Telegraphers' Strike.

New York, Aug. 5.—There was considerable excitement among the telegraph operators here on Thursday, owing to the prospect of a general strike of the operators of the Western Union Company in consequence of a strike at Denver City. This is the headquarters of the Executive Board of United Telegraphers of North America, and the Brotherhood of Telegraphers numbering altogether 18,000 operators. After considerable discussion, they postponed the general strike, but it was decided to sustain the Denver strikers.

First Irish Railway.

DEAR SIR.—In response to inquiry of your correspondent, in last evening's paper, regarding the first railway between Dublin and Kingstown, I quote as follows from the General Directory of 1860: "It was opened 17th December, 1834, the cost being upwards of £63,000 per mile, the length being 6 miles viz., from Westland Row, Dublin, to the Victoria Wharf, Kingstown. It was for many years the only railway in Ireland."

Yours, G. T. S.

Saturday morning.

PREVOST'S $11 wool English serges at $11 a suit—made to order—are the best value in the city. Also his all wool Halifax tweed suitings, made to order, at $12. Are as well made and are as good a fit as his high priced goods.

THE ELEGANT—Little plated screw top on "TEABERRY" makes it the cheapest, most perfect, and most recherche of all toilet exquisites. Get a 5 cent sample.

Tickets, good for two days, $1.50

W. J. BURNS, Sec. to Com.

Aug. 3

BE WISE

And SECURE YOUR BUILDINGS and contents from the effects of lightning, so prevalent in this country, by erecting thereon the LONDON GLOBE PATENT COPPER LIGHTNING ROD, the safest and best known to scientific men, as shown by the late practical test in London, made by W. M. CAIRNS, ELECTRICIAN LONDON, MANAGER DOMINION TELEGRAPH COMPANY, and also during the month of August last when in or about $75,000 worth of property was destroyed by lightning in the County of Middlesex alone, as well as in many other places throughout the Dominion, yet not one case occurred where these rods were set up, although thousands were in use all over this country. The COMPANY HAS OFFERED $500 to any person who can prove otherwise, and the DOMINION INSURANCE CO'Y. OF HAMILTON, will now insure property where these rods are erected for ONE-TENTH LESS, when application is made by this Company or their authorized agents. One or two good reliable agents wanted. Apply to J. BROKENSHIRE, *Head Agent for Kingston District.*

N.B.—A good variety of WELL PUMPS of the most improved kinds kept on hand. FELT ROOFING also done on the shortest notice.

J. BROKENSHIRE.

July 19.

TENDERS,

ADDRESSED TO THE UNDERSIGNED, and to be marked "TENDER CITY PARK" will be received up till 12 O'CLOCK NOON of

Wednesday, 9th Day Aug. inst.,
