COOKS' FRIEND

No other is genuine. Retailed by all respectable Grocers.

Manufactured only by

W. D. McLAREN,
55 College Street, Montreal.

☞ The Trade liberally dealt with. Aug 8th

Hancock's Inspirator

IS THE MOST ECONOMICAL APPLIANCE KNOWN for feeding boilers or pumping purposes on account of the great range of capacities and the small expenditure of steam required for working it. It is intended to take the place of Pumps and Injectors and may be used instead to great advantage. It differs materially both in its

Construction & Working Qualities

from the class of boiler feeders known as injectors, inasmuch as it has one set of tubes for lifting and another set of tubes for forcing water—a combination entirely new, reliable and efficient. They are simple to operate, always ready for use and altogether a very reliable feed for boilers.

PAMPHLETS OF INSTRUCTION furnished on application, also testimonials if required. We guarantee every Inspirator according to recommendation or no charge.

BE WISE

And SECURE YOUR BUILDINGS and contents from the effects of lightning, so prevalent in this country, by erecting thereon the LONDON GLOBE PATENT COPPER ELECTRIC LIGHTNING ROD, the safest and best known to scientific men, as shown by the late practical test in London, made by W. M. CAIRNS, ELECTRICIAN, LONDON, MANAGER DOMINION TELEGRAPH COMPANY, an island during the month of August last when in or about $75,000 worth of property was destroyed by lightning in the County of Middlesex alone, as well as in many other places through the Dominion, yet not one case occurred where these rods were set up although thousands were in use all over this country. The COMPANY HAS OFFERED $500 to any person who can prove otherwise, and the DOMINION INSURANCE COY., OF HAMILTON, will not insure property where these rods are erected for ONE-TENTH LESS, when application is made by this Company or their authorized agents. One or two good reliable agents wanted. Apply to J. BROKENSHIRE, *Head Agent for Kingston District.*

NOTE.—A good variety of WELL PUMPS of the most improved kinds kept on hand. FELT ROOFING also done on the shortest notice.

Ayer's Cherry Pectoral

FOR DISEASES OF THROAT AND LUNGS, SUCH AS COUGHS, COLDS, WHOOPING COUGH, BRONCHITIS, ASTHMA AND CONSUMPTION.

The few compositions which have won the confidence of mankind and become household words, among not only one but many nations, must have extraordinary virtues. Perhaps no one ever secured so wide a reputation, or maintained it so long as AYER'S CHERRY PECTORAL. It has been known to the public about forty years, by a long continued series of marvelous cures, that have won for it confidence in its virtues, never equalled by any other medicine. It still makes the most effectual cures of Coughs, Colds and Consumption, that can be made by medical skill. Indeed, the Cherry Pectoral has readily robbed these dangerous diseases of their terrors to a great extent, and given a feeling of immunity from their painful effects, that is well founded if the remedy be taken in season. Every family should have it in their closet for the ready and prompt relief of its members. Sickness, suffering and even life is saved by this timely protection. The prudent should not neglect it, and the wise will not. Keep it by you for the protection it affords by its early use in sudden attacks.

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.,

Practical and Analytical Chemists.

Sold by all Druggists and Dealers in Medicine.

ROSS, 21 Lamb's Conduit Street High Holborn, London, England. Had through all chemists.

Daily British Whig.

FALL OF THE LEAF.

Far in the wood those golden days,
Some leaf obeys its masters call;
And through their hollow aisles it plays
With delicate touch the prelude of the fall.

Gently withdrawing from its stem
It lightly lays itself along
Where the same hand hath pillowed them.
Resigned to sleep upon the old years throng.

The loneliest pitch is brown and sear,
The farthest pool is strewn with leaves
Which float upon their watery bier.
Where is no eye that sees no heart that grieves.

DOMINION EXHIBITION.

I WALK AMONG THE EXHIBITS—FEATURES OF THE SHOW AS BY OUR REPORTER

Its Success in Some Respects Unprecedented. The Live Stock a Specialty. Cattle That Cannot be Seen in the World.

During yesterday Kingston assumed a holiday appearance. The unpropitious weather had a bad effect, however, and there is little doubt that hundreds were detained from visiting the city in consequence of it. Very many came, notwithstanding. The trains from the east and west deposited crowds at the station, while the various boats were heavily freighted with excursionists. The palace grounds were the objective point of all the visitors, and the street cars were unable to carry all who desired to ride upon them. Delays were of frequent occurrence as at every switch the cars had to cross. Balky horses in the traces made matters worse and at times quite interesting.

The people who had wares to exhibit worked vigorously to get them into shape before nightfall and in most cases they succeeded.

The machinery came in so quickly and in such quantities that before noon the ground in front of the Palace was fully occupied. The reapers, mowers, threshers and other agricultural implements were at once set up, and the farmers given an opportunity to descant upon them.

EFFECT OF THE RAIN.

Up to 3 p.m. the weather was fine, but the lowering clouds predicted another storm and soon it came. The clouds swept across the heavens, but the wind was in such a direction that its fury was not spent on the ground. However, it prostrated several tents and demolished a tabernacle in which was a fat woman, several Indians in full war paint and various curiosities. Upon these the wet canvass flopped and it was really ludicrous to notice them emerge and race about in the storm. They found refuge in an adjoining restaurant. The showman postponed the performance until the tent was re-erected.

A VERY SERIOUS DISAPPOINTMENT.

Just as the rain began to descend "B" Battery band arrived, and all the preliminaries had been arranged for the inaugural of the Exhibition, but they were not carried out, and for a good reason the Honourable the Minister of Agriculture did not turn up. About 3 o'clock a telegram is said to have been been received by Mr. Geo. A. Kirkpatrick, M.P., to the effect that Hon. Mr. Pope found it impossible to attend, but the Association officers received no notification whatever of the circumstance. They patiently awaited his arrival, and a general disappointment was felt when he failed to keep his engagement. The address was useless, and the dinner likewise. "If we had only been notified," said a Director, "we would have been saved all this expense." Hon. S. C. Wood was on the ground for a short time, but he was not asked to open the exhibition; in fact he would have declined had he been approached on the subject. There is little likelihood of an inaugural taking place at all. During the afternoon the band rendered several fine musical selections in the palace, afterwards upon the ground. The programme was as follows:

March—Boccaccio	Suppe
Waltz—Bergeuse	Waldteufel
Overture—Die rrfahrt ume Gluck	Suppe
Polka—Tout a la joie	Fahrbach
Selection—Patience	Sullivan
Valse—Plaie D'or	Waldteufel
Ballet Music	William Tell
Galop—Eldorado	King

About 5:30 o'clock the visitors began to disperse and the gates closed shortly after six o'clock. The paying public totalled probably 1,000.

THE FUR DISPLAY.

Furs hold a prominent place in the Palace. George Mills & Co. show goods of the richest character. Suspended from the roof of the palace are numerous robes, which set off his exhibit admirably. His stock is valued at $3,000. He has two fine cases filled with all manner of furs, including two handsome seal sacks, two Persian lamb sets for ladies, and a gentleman's coat of the same material. He has the only set of silver fur on the grounds. The robes consist of musk, ox, yak, bear, buffalo, Japanese wolf and Hudson Bay wolf. He exhibits a combined muff and satchel for Misses' wear, something unique. He has some Canadian products in beaver and mink. Squirrel tail bows, five yards long are to be seen. The exhibit of Mills & Co. is certainly an evidence of enterprise. They are not inclined to be behind the age in the fur line.

Adjacent is the display of Mills Bros., of Kingston and Peterboro. Their enterprise is also apparent. Their goods are tastely arranged and consist of white yak, Japanese wolf, black bear, Hudson Bay wolf, a variety of robes. A lady's silk circular, trimmed with Siberian squirrel and silver lynx, worth $125, and a squirrel belly plate circular of brocaded silk are very attractive. Several South Sea and Persian lamb jackets are on exhibition. Fur coats for both ladies and gentlemen are seen to advantage. Raw furs ready for manufacturing, two sets South Sea seal, three Persian lamb sets, two Canada mink, one set of greeb and one of tiger, and an assortment of felt, silk and fur hats complete the lengthy list.

SEWING MACHINE DEPARTMENT.

In the Palace the sewing machine section is a busy scene. Embowered in lace curtains and gaudy trappings are to be found the manufactures of C. W. Williams' Manufacturing Company, Montreal, (seven in number) and good for any kind of work. Adjoining this is the Singer sewing machine. The section occupied by them is also neatly trimmed, and there are six machines in active operation.

Mr. W. Simpkins, of Newburg, has another class of entries, viz., knitting machines, two ribbers and one plain and 2¼ inch World Star knitter, used in the production of small sized hose.

HARNESS—CLOTHING.

In harness D. A. Waddell makes a good show. He has sets of double and single carriage harness, gold and rubber trimmed; a set of working harness; saddles, collars and horse blankets.

George A. Rudd, of Brockville, also exhibited some very fine specimens of his handiwork, in double, single and team harness.

Mr. Z. Prevost has on view a stock of clothes noticeable for their cut and finish.

A MISCELLANEOUS COLLECTION.

In the palace is a great collection of novelties, placed on exhibition to interest and add to the attractions of the fair.

There are spectacles and eye glasses, of the Pebble kind, from a New York house.

Jewellery is entered by another enterprising American firm.

Patent medicines are shown by Geo. C. Briggs & Sons, of Hamilton, who also show the strength of their Star cement by suspending a box of stones to a piece of plate joined by it.

The Leg and Arm Company, of Toronto, show what they can do to meet the necessities of maimed humanity.

The J. H. Stone Manufacturing Company, of Hamilton, have an attractive collection of cages.

The Rawbone Company, Toronto, entry of skates, gun implements and rifles.

Dr. Curtis contributed a curiosity, a ship within a wine bottle. It has a place in the case of John Henderson & Co., which contains books, stationery, novelties, etc.

The Aylmer Canning Company have a large collection of canned fruit, vegetables and other edibles. They have two silver medals taken at the Industrial Exhibition Company, Toronto.

Miss Ferguson shows very fine scroll work—a large and beautiful artist's easel of black and white woods. She has an inkstand of attractive design and other articles manifesting artistic work.

Mrs. and Miss Richardson have a very choice display of hair work.

The Hamilton Cotton Company have the largest collection of manufactures on the ground, viz., yarns, denims (plain and fancy) cottonades and cotton warps.

COTTON AND WOOLEN GOODS.

The Dundas cotton mills send a vast collection of checked shirtings. They are as good looking and as durable as the favoured Oxford grades.

The Glen Tay firm, of Morehouse, Dodds & Co. have an assortment of tweeds, very choice.

William Parks and Sons, of St. John, N.B., show cotton yarns, hosiery, cotton warps, shirtings, &c. The display shows that the manufacturers in that Province are not behind those of Ontario.

McCrae & Co., of Guelph, have knitted goods in profusion and yarns, especially made for manufacturers. The reporter was shown yarn spun so fine that a pound would measure 30 miles. This is probably the finest yarn ever spun in Canada and was simply drawn out in order to see to what fineness it could be reduced. The delicate thread is like a platinum wire, and is made of Canadian wool.

Jno. Fisher exhibits porter, pale ale, &c., the product of his Portsmouth brewery.

Hart Bros. and Lazier, of Picton, show a nice array of flower pots, vases, water filters, &c. They look well.

Mr. Simon Oberndorffer has a capital collection of cigars, tobaccos and cigarettes. He has made the space allotted to him very attractive.

DISPLAY OF PIANOS AND ORGANS.

The soothing effect of music was evidenced in the palace yesterday. The rain drove the band inside, and it gave numerous selections. They had not a monopoly, however, for the pianos were manipulated by expert musicians. Messrs. G. M. Weber & Co. have considerable space taken up by their entries. They shew a cabinet grand piano, exquisitely carved, and having the latest improvements. It very much resembles a Steinway in appearance, but is not over half as costly. It is remarkable for its extraordinary power and sweetness of tone, has been admired by all musicians visiting the palace, and pronounced the best piano on exhibition. It is the largest upright made in Canada. The same firm exhibit several other uprights of excellent tone, finish and touch. All the pianos are in rosewood cases. Mr. Wm. Cunningham, organist of Chalmers' Church, will perform on them during the week.

Stevenson & Co's pianos are alongside. They have a large grand square valued at $700, two uprights, one fancy and the other plain. The uprights are valued at $650 each. The exhibit is a fine one. Mr. G. Creeggan is the musician in attendance.

D. W. Karn, of Woodstock, shows, through their Kingston agent, five organs, parlor and church. These are very handsome and the sales by this firm demonstrate their popularity.

The exhibits of R. McDowall, of Kingston, consists of one square piano, from Wing & Son, New York, 7¼ octaves. This piano has the patent reflector attachment in the table, a great improvement. He also exhibits one square piano from the factory of Hartman & Co., Toronto. In organs he shows one each of four distinct classes; a powerful instrument containing six full sets of rods, with two ranks of keys, manual couplor, and grand organ stop; one English model church organ, ebony and gold case, with imitation pipe top; one parlor organ, with a melatic action, grand organ stop and double octave couplor, all from the factory of Mr. Bell & Co. of Guelph. He also shows, fine toned English and German concartines and accordeons, some with stell reeds.

THE CATTLE SHOW.

The exhibits of cattle vary in size from a single animal to a carefully selected herd of seventy, eighty or one hundred. The number of entries is unusually large, and we believe there are more varieties than at any previous Provincial Show. Some of the animals have never before been surpassed, and are capable of holding their place with those of any country under the sun. The largeness of the exhibit has been attended with some inconvenience, on account of which, however, the animals do not suffer in any way, the attendants making up in extra attention for the deficiencies in accommodation. The building near the middle of the grounds not being large enough to hold all the exhibits, those last to arrive were assigned to stalls at the west end. The leading exhibit is that of the Experimental Farm, which has been already described in articles reprinted from the Toronto papers. There are four short horn grade steers, a short horn heifer, and some very fine sheep, all of which were last week at the Industrial Exhibition. Of short horns there is a large number, all very fine animals, including those shown by Messrs. Hunter, of Elora; Groff, of Elmira, and Mott, of Salem. The judges will have a nice time in discriminating between them, but Groff's in our estimation, seems to have about them most points of excellence. The Herefords, which are not numerous, claim as much attention as the Shorthorns, and the leading exhibitor in this class is Mr. Stone, of Guelph. He has a large herd, and next to him comes Mr. Boyd, of Bobcaygeon. Then we reach the Devons, very numerous. Those of the Messrs. Woods, of Islington, and Curtis, of Darlington, claim special attention. Of Ayrshires there are many entries. We mentioned Mr. Nicol as one of those deserving of prominence on account of his local relations. Messrs. Gray & Son, Oshawa, also show many Ayrshires, including the cow which took first money at the Toronto Exhibition. Mr. McCrae, who recently imported some very fine Galloways, makes the same exhibit here that he did at Toronto. His saddleback, distinguished by a peculiar band around the body, is admired by every stock fancier, but all his animals, pure bred, are well spoken of. To Mrs. Jones, Brockville, we have already referred. She has "de best, de very best on top de earth" in Jersey's and that is saying a great deal. 'Mistletoe' gives milk which produces 30 per cent of cream, while a mate, 'Flora of St. Peter's' has furnished milk from which over 16 lbs. of butter have been made in a week. In Mrs. Jones' herd is bull, 'Rival,' a brother of 'Flora of St. Peter's,' a prize animal.

Mr. Whitefield, of Rougemont
