GENERAL LUARD.

A Plea in His Favour—What Was He Brought to Canada For?—A Friend in Need.

To the Editor of the British Whig.

SIR.—As the press of this country has made a dead set at the General commanding the militia, will you permit me to say a few words in justification or if not that at least, in extenuation of his late conduct. In the first place it seems to me that people altogether mistake the matter. What, I would ask, is he here for? Is it not to teach and to maintain discipline? Now what are the facts of the case? The regulation provides that every man's kit should contain certain articles. In the instance which caused the arrest of Major Scott a certain article was missing, and the want was about to be supplied by another officer going for it. In my opinion the fact of the fault having been committed by an officer was an aggravation of the offence. If everything belonging to an army, even to the smallest thing, was not accurately and minutely attended to, and every neglect and omission promptly punished, an army would be no army at all, but a disorderly mob. It is related of the Duke of Wellington that once when his army was on the march in Spain a soldier, on a very hot day, left the ranks and went to a house by the roadside for a drink of water. He got the drink and came back to his place in the ranks, when the Duke immediately ordered him to be shot. That was pretty stern conduct in the Duke you would think, but it was necessary, for if every man had done the same where would the army have been? Now, if the Canada militia is to be licked into shape and made to bear some sort of resemblance to the British regular army it will not be by carelessness and neglect on the part of the men and especially of the officers, but by care and strictness, by having a place for everything and by having everything even the most trifling, in its place. According to this view of the matter the General commanding did nothing but his duty, and in our opinion does not deserve the severe and indiscriminate blame that has been heaped upon him.

Yours truly, MARTINET.

PROCLAIM it far and wide that Dr. Van Buren's Kidney Cure not only immediately relieves all kidney diseases, but what is more important to the unfortunate sufferer, will ultimately cure him effectually.

The safest, best and cheapest medicine in the world is Dr. Carson's Stomach and Constipation Bitters. Sold in large bottles at 50 cents by all druggists H Wade, agent.

"Men must work and women weep
So runs the world away!"
But they need not weep so much if they use Dr. Pierce's "Favorite Prescription," which cures all the painful maladies peculiar to women. Sold by druggists.

THE Rock on which many a constitution goes to pieces is Dyspepsia. The loss of vigor which this disease involves, the maladies which accompany it, or which are aggravated by it, the mental despondency which it entails, are terribly exhaustive of vital stambina. Its true specific is Northrop & Lyman's Vegetable Discovery and Dyspepsia Cure, which likewise overcomes bilious maladies, female ailments, and those coupled with impurity of the blood.

THE statesman, financier, railway king, speculator, stock gambler or business man, when the "delirium of greatness" fastens itself upon him, is in great danger of falling from over stimulation and over-working of the brain, and, sooner or later, the wear and tear must show itself in impairment of power of the great organ which controls the frame work of the body. The remarkable restoring power of WHEELER'S PHOSPHATES AND CALISAYA has saved many notable cases suffering from atony of the brain.

Personal, To Men Only.

The VOLTAIC BELT CO., Marshall, Mich., will send Dr. DYE'S CELEBRATED ELECTRO-VOLTAIC BELTS AND ELECTRIC APPLIANCES on trial for thirty days to men (young or old) who are afflicted with nervous debility, lost vitality and manhood, and kindred troubles, guaranteeing speedy and complete restoration of health and manly vigor. Address as above. N.B.—No risk is incurred, as thirty days' trial is allowed.

Puttner's Emulsion.

Pugwash, N.S., Feb. 10, 1882.

Dear Sir,—I take the opportunity of congratulaing you upon the widespread reputation your justly esteemed Emulsion or Cod Liver Oil has earned for itself throughout this extensive country. As a remedy of general utility in the household, it is inestimable, and in cases of over taxation of mental or physical labor, to which the clergy are exposed in the ordinary performance of their parochial work, no one can have an idea of its efficacy before giving it a trial.

Suffering from extreme debility for a length of time, after trying a number of other remedies, I was induced through persuasion of my clerical brethren, to try one bottle of your Emulsion. Its controlling power was so surprising that I continued its use as prescribed for a few weeks, and am now enabled to undertake and go through as long journeys with almost as little inconvenience as I experienced when I entered upon ministerial duty, thirty-five years ago. Being thus fully convinced that sufferers from exhaustion, brain weakness, or rheumatic attacks will gain speedy relief from the use of your Cod Liver Oil Compound I feel it a duty to make known to such its remediable effect upon the system.

I am, dear sir, yours respectfully,

R. F. BRINE,

Rector of the United Parishes of St. Andrews, Wallace, and St. George, Pugwash, N. S., Cy. Cumberland.

Ask for Puttner's Emulsion of Cod Liver Oil, with Hypophosphites, etc. Price, 50 cents.

"Golden Medical Discovery" has been used with signal success in consumption of the lungs, consumptive night-sweats, spitting of blood, shortness of breath, weak lungs, coughs, bronchitis, and kindred affections of the throat and chest. Sold by druggists.

THE ASIA'S LOSS.

Breaking the Law—Negligence for Which Some One Must Account—Prosecution Commenced.

As regards the Asia the following information has been obtained from Messrs. Risley and Meneally, of the Steamboat Inspection office. She belongs, or did belong, to the Great Northern Transit Company, and was originally inspected by Mr. Risley, pronounced seaworthy, and chartered to ply between Windsor and Duluth, but was not authorized, on account of her space and equipments, to carry more than forty passengers, or to sail on the Georgian Bay. On the 24th of July last Mr. Beatty, of Thorold, General Manager of the Company, applied to Mr. Risley for such an amendment of the charter as would empower the Asia to carry 150 passengers, while the Company to which the boat was leased requested about the same time that the Asia might be permitted to carry 400. Mr. Risley, according to the revised Marine and Fisheries Act, is empowered to grant authority to steamboat owners to sail on a different route from that described in their charter, but not to give authority to carry more passengers than the charter allowed; and he therefore wrote in reply that if the Company added a 17 feet yawl, 130 life preservers, and have a fire engine placed amidships, he would forward their application to the Minister of Marine and Fisheries, though certainly not for more than 130 passengers. It is just possible, therefore, that the Company took it for granted their application would be given, and acted accordingly, which action was of course illegal, always supposing the report that about 100 people perished is found to have been correct. In fact the Department has telegraphed Mr. Risley to employ a lawyer at once, who will initiate proceedings against the Great Northern Transit Company. So particular is the law on this passenger question that the character of the vessel is required to be posted in the most conspicuous place on board, so that he who sails may read; but we need hardly say this is not always done, or that even the best regulated steamboats do not scruple in taking more passengers than the law allows. When the Company applied for the amendment they forwarded their charter to Mr. Risley; so that when the ill fated vessel went down she had none posted in a prominent or other part of her.

Smith & Davis report a risk of $1,500 on the ill fated Asia and an additional risk of $2,500 to take place at noon on the day she went down. The question to be settled is whether she foundered before or after noon.

The Asia was of the same model as the Lake Erie, of Hamilton, lost on Lake Michigan last year, and the Persia, now on the line between Montreal and St. Catharines. She was regarded as a safe boat, and next to the iron steamer Campana apparently the best fitted to encounter a sea.

JOSEPH RUSAN, Percy, writes: "I was induced to try Dr. Thomas' Electric Oil for a lameness which troubled me for three or four years, and I found it the best article I ever used. It has been a great blessing, to me."

Joyceville Gleanings.

Threshing time having arrived and there being natural anxiety to know the quantity of bushels of grain thrashed, the following rule will give a pretty close approximation: Multiply the number of feet in length by the width, and then by the height, multiply by 4 and divide the product by 5 and the quotient will give the number of bushels. Example, a bin 10 feet long and 10 feet broad and 5 feet high will hold nearly four hundred bushels. There are 2,250 cubic inches in a bushel.

Father DeShaniac is having the stones quarried for the belfry and addition to St. Barnaby's Church, Brewer's Mills. One of the congregation at his death bequeathed $400 for the purpose of buying a bell, and the bell being purchased it was found quite necessary to have a place to put it.

The Kingston Mills having been thoroughly repaired and overhauled is doing splendid work. The young ladies are in love with the millers, the old ladies with the flour, and the men with the good yield. Mr. Hughes made a reputation for himself while at his former mill, and his friends and customers are following him, and all speak in high terms of the quality of the work done. Mr. Thompson, his assistant, comes to the mill with very high recommendation.
