CHARLEY ROSS.

Which Thought at the Weight Outlets Discovery.

Christian E. Ross, the father of the lost Charley Ross, who resides in Philadelphia, has had little encouragement by the reports of a recovery while in Affinoth township, Ont. To a reporter he said, with a sigh, that he had to hope that the boy found among the Indians is his son. He had been in communication with persons in that neighborhood for several months, and the correspondence gave him but little encouragement. Any expectations he had entertained were well nigh dispelled by a letter he had just received from Peter D. McCallum, the Canadian farmer who had first called his attention to the matter. This letter was an answer to one of his, enclosing a list of questions to be asked the boy for the purpose of calling up any reminiscence he might have of his early life, but no satisfactory answers were returned. Now, you see, said the perplexed father, "this is the way with them all. They think there is money to be made and they all grasp for it. Then they exaggerate everything that tends to establish an identity, and ignore everything that militates against their theory." Mr. Ross was asked what course he meant to pursue respecting the Canadian clue. He said he did not yet know. He would take no decisive step for a few days. He would not go to Canada unless he got some more hopeful information. He said the case was exciting great attention in the region where the boy lived, and it was not impossible he might be brought to Philadelphia for identification. At this time, Mr. Ross would for the present await development.

EDITOR'S TABLE.

OCEAN TO OCEAN.—A. S. Barnes & Co., the extensive New York publishers, have sent us a pamphlet devoted to an interoceanic railway that will be completed probably in advance of the syndicate line, though both projects are essentially those of U. S. citizens. The Tehuantepec railroad will cross Mexico at the Isthmus of Tehuantepec, 918 miles further north than the Isthmus of Panama, an important saving of distance to travellers who takes the water and land route to San Francisco. The pamphlet is Alex. D. Anderson, author of "The Silver Country" and "The Mississippi Tributaries." The Hon. Edward Earned, of Massachusetts, has undertaken the project, and his energy promises its early accomplishment. Since Hernando Cortez contemplated 350 years ago making a highway across this wide belt numerous attempts have been made to undertake the work. Since 1842 particularly the Mexican Government have yearly granted or annulled some charter, until finally Earned resolutely undertook the work in 1879. The road is to be 160 miles long. The Mexicans granted the Company 2,00,000 acres of table land along the line. As a link to U. S. commerce and a political measure, the people of the United States warmly support the project, and well they may. It means a considerable advantage to their country.

KNIGHTS TEMPLAR.—We have received an exceedingly neat pamphlet from the proceedings of the sixty seventh annual Conclave of the Grand Commandery of the State of New York, held at Ithaca, N.Y. The standing of this body is well attested by its age, and its vitality is shown by the work recorded in these pages. Fifty three Commanderies were represented at the gathering. The Commander's address gives a record of all that was notable during the year, and many interesting decisions and important suggestions. The correspondence with the various Grand Commanderies suggests also many important reflections. The full statistics of the Order are also given. We regret to say that Canadian Knight Templar organizations are reported as only moderately prosperous. This is very true, and arises from the fact that while Good Templarism is made the acme of masonry in the United States, the Blue Lodge first, and the R. A. Chapter second, here precede it in fidelity, interest and attention. It would be no small honor to Ontario, however, to produce such a commandery as that of New York State.

"FOOD AND HEALTH."—The first number of this very neat weekly journal has penetrated into Canada. It is devoted to a scientific and practical review of subjects pertaining to diet and hygiene generally. It will be practically and ably conducted, since that well known food and dress reformer, Amelia Lewis, is its conductor and mainstay. The first issue displays a knowledge of successful journalism seen through the pith and shortness of its articles. *Food and Health* will be useful to its day and generation. No one could read it without instruction.

THE AMERICAN.—This Philadelphia weekly journal (Box 1600) is in the style of the *Canadian Spectator*, giving a weekly review of politics, literature, science, art and finance. It takes a sensible view of questions, and discusses them in an elevated tone. Therefore we are glad that it has reached so far in its first year as to be accounted a success. G. T. Langan, a graduate of the Canadian press, is one of its active contributors.

PHRENOLOGICAL JOURNAL.—This, the only American journal of phrenology, still keeps up its excellent character, notwithstanding it has a large field to itself. It holds a good position without being spurred into it by rivalry. This year it is more enterprising than ever.

DISTURBED IRELAND.

Events of Recent Occurrence—Bryce, Change of Public Opinion.

No tenants made a more determined stand than those of Lord Lurgan, in county Armagh. His tenants are under easy rules. They have all the benefits conferred by his predecessors before the Land League had extended its operations to Armagh county. These tenants had been offered an abatement of 15 per cent., but this was indignantly refused, and an immediate demand was sent to Lord Lurgan for a round reduction of 30 per cent. This he refused to grant. Then commenced scenes of outrage, meetings, memorials, and protests unequalled on any estate in Ireland. Lord Lurgan persisted in his first offer, and after holding out during nearly two months the larger tenants on the estate have paid their rents less the 10 per cent. reduction. The smaller tenants are holding out still, but they show signs of capitulation. Their surrender is only a matter of time. On the estate of the Earl of Mayo, in county Kildare, the people are curiously divided in their support of the Land League. The tenants, after making several attempts to bring their landlords down to Griffith's valuation, have, under threats of being served by writs, commenced to pay their rents. The experience on the estate of Lord Gosford, in county Armagh, has been somewhat similar to that on the property of his neighbor Lord Lurgan.

A REMARKABLE INCIDENT

occurred in Kilkenny some days ago. About 200 tenants waited on their well known and generous landlord, and offered to pay him their rents at the Government valuation if he would give them receipts in full. This he refused, but added that they need be in no hurry to pay their rents. He was very well off and could afford to wait a couple of years if necessary, but was certain to get his rents in full sooner or later. The tenants then left in a body, but they were sorely puzzled by the attitude and words of their landlord, who had the credit of being, what he is, a man of great sagacity. They held a consultation on the lawn, and at last deputed their oldest representative to return to "his honour" and ask an explanation of his words. The old man apologized for coming on such an errand. The landlord told him that he expected some of his tenants to come back, and then addressed him as follows:

"Look here, you have me down just now, and are not only kicking me but jumping on me. Mark my words, the day will come, and that soon, when you will be down, and by —— if I don't jump on you with all my weight you may take your farms rent free forever. Good morning."

A NOVEL VIEW OF FREE SALE.

Lord Rossmore's tenants on his county Monaghan estate held a meeting yesterday, at which a curious and instructive discussion took place. Lord Rossmore, who worthily ranks as one of the most indulgent and kind-hearted landlords in Ireland, offered his tenants free sale if they wished. This offer has been met with a demand, embodied, it is true, in a memorial for a reduction of 30 per cent., and containing a clause accepting free sale. One of the tenants at the meeting was under the impression that if he accepted free sale he would have to sell his farm at once, and he therefore refused the offer. This view of one of the "three F's" is rather novel, but its adoption would simplify one great branch of the land question immensely.

DAVITT'S CAREER.

Davitt, whose arrest in Dublin was the main spring to the late almost unprecedented performance, is a native of county Mayo, Ireland, where he was born in the terrible famine year of 1846. He is the son of a tenant farmer who occupied a small holding near what was once the village of Straide. In the general clearance made by the landlords after the famine the elder Davitt was ejected with hundreds of others and the family came to the United States and located in Pennsylvania, but afterwards removed to England, taking with them Michael, who was then but a mere lad, and settled in Rochdale where young Davitt grew up. On the charge of having furnished arms to the Fenians, Davitt was arrested in 1867 and sentenced to fifteen years penal servitude, spending about seven years of the term in prison in England. He was at length released on a ticket of leave, set at liberty and paid a visit to the United States. On his return from his second visit last November he landed in Ireland, which fact led to his arrest.

ROSSA'S DEMAND.

O'Donovan Rossa writes to the committee that reinajus of the "skirmishing kind," demanding five thousand dollars therewith to "strike the enemy to her knees." The absurdity of bringing England to her knees by the expenditure of five thousand dollars is so patent that we can only marvel at the audacity of the man who not only makes such a proposition, but has the same published in a New York paper.

THE ATTENTION of owners of Farm Property and Residences is invited to the above Pyramid, showing the uniform and rapid growth during the last seventeen of its 22 years of existence, of a fire insurance company whose charter limits its business to this class of property—the **Agricultural Insurance Company**, of Watertown, N. Y. The figures represent the amount set apart at the dates given for the PROTECTION of POLICY HOLDERS.

Twenty-seven years of patient toil has made this the strongest and largest Company doing an exclusive Dwelling Business in the United States, if not in the world. It now issues 35,000 policies a year. No other like Company can show such growth and increase.

The history of this Company proves that a farm business, well scattered, managed with prudence, can be done with a very small profit from each risk, and afford perfect security, which will grow stronger every year.

While nine-tenths of the Mutual Fire insurance companies, and many of the Stock companies have failed on account of reckless or extravagant management, or doing too small a business, the OLD AGRICULTURAL, by economy, energy and prudence, has every year added a substantial amount to its Assets, for the indemnity of its patrons, and now occupies a position in the confidence of the public second to no other Company.

From year to year it spreads the base of its Pyramid and gains strength.

EXTRACT FROM CHARTER.—*Article 2.* The Company is formed for the purpose of insuring Farmers' Dwellings, Private Residences, Barns and Outbuildings, with their contents, and other property not more hazardous, and is strictly confined to this class of property.

FIRST PRIZE AND SILVER MEDAL,

THE MEDAL OF HONOUR,

AND DIPLOMA OF MERIT,

MESSRS. WEBER & CO. in announcing their success at the World's Fair, would call the attention of the Canadian public to the fact that after the most searching examination by gentlemen eminent for their Musical talent their Pianos have been awarded the above prizes. These Instruments were not made for the Exhibition, but taken from stock, being a fair representation of their Pianos. This should be a proof to Canadians that Canada can produce as good Pianos as the best imported Instruments. ☞ PRICE LIST on application.

Dr. J. Collin Browne's Chlorodyne.

THE ORIGINAL AND ONLY GENUINE.

CHLORODYNE is admitted by the Profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best known remedy for Coughs, Consumption, Bronchitis and Asthma.

CHLORODYNE effectually checks and arrests, those too often fatal diseases, Diphtheria, Fever and Croup, Ague.

CHLORODYNE acts like a charm on Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Gout, Cancer, Toothache, Rheumatism, &c.

From W. Coulson Pedgrave, M.D., formerly Lecturer at St. George's Hospital, London. "I have no hesitation in stating that I have never met with any medicine so efficacious as an Anti-spasmodic and Sedative. I have used it in Consumption, Asthma, Diarrhœa and other diseases, and am perfectly satisfied with the results."

"Earl Russell communicated to the College of Physicians that he received a despatch from Her Majesty's Consul at Manilla to the effect that Cholera was prevailing to an alarming extent, and that the only remedy of any service was Chlorodyne. Sir James Clark, 1st December, 1859."

CAUTION.—*Beware of Prussic Acid Imitations.* "The public are informed on the authority of a government stamp having come to the knowledge of the Board of Inland Revenue, that a spurious article is being sold as Dr. Collin's Chlorodyne. The only genuine article is that of the inventor of CHLORODYNE. Hitherto the story of the exhibitant Chlorodyne has been true, which, he regretted to say, had been shown to be false. See Times, July 19, 1864."

Sold in bottles at 1s. 1½d., 2s. 9d., and its equivalent. Sole wholesale agent for the sale of Dr. J. Collin Browne's Chlorodyne for the Government Stamp: Crosby & Moxon, medicine merchants, 48 Cannon Street, London. Sole Manufacturer, J. T.
