"N. H. DOWNS'"
VEGETABLE BALSAMIC
ELIXIR

Is a sure cure for Coughs, Colds, Whooping Cough, and all Lung Diseases, when taken in season.

People die of consumption simply because of neglect, when the timely use of this remedy would have cured them at once.

Fifty-one years of constant use proves the fact that no cough remedy has stood the test like **Downs' Elixir.**

Price 25 cents and $1.00 per bottle. For Sale Everywhere.

Dr. Baxter's Mandrake
BITTERS

Will cure Jaundice, Dyspepsia, Liver Complaints, Indigestion, and all Diseases arising from Biliousness. Price 25 cents per bottle. For Sale Everywhere.

HENRY & JOHNSON'S

REMINDERS.

FRIDAY.

Concert of Collegiate Institute Club at St. Andrew's Hall—8 p.m.

CITY AND VICINITY.

PROBS.—Easterly to northerly winds, fair mild weather.

THE MART.—Sale of furniture, cook stove, large book case, etc., at 10 o'clock to-morrow.

MR. J. E. HUTCHESON has received notice of a large and very fine consignment of oil paintings, chromos, photos of statuary, &c.

RICHMOND & BOYDEN advertise having received their long expected stock of English floor oil cloths, also a large stock of Rouillon Josephine kid gloves in two and four buttons, black and coloured.

BODY FOUND.—The body of Jas. Manning, of Almonte, was found at one o'clock on Wednesday about 15 yards from where the body of Dr. Mostyn was grappled. The appearance of the body was very little changed.

LARGE EGGS.—Mr. J. McMullen, of Verona, has sent two eggs laid by a Bramha hen on the same day. The largest of the two measures 6½ inches in circumference and eight inches in length. The other is peculiarly shaped.

POLICE COURT.—This morning William J. Walt, B. Crawford, and W. Shovelbotham, for drunkenness, were discharged with a warning. John Rainor and Henry Bream were fined $1 each, or in default to receive ten days' incarceration in the county gaol.

CRUELTY TO A HORSE.—This morning a case of cruelty to a horse was heard at the police court. The animal was attached to a street car, and for balkiness, it was stated, struck with an iron rod. The case was dismissed, the conduct of the defendant not partaking of wantonness.

"DAVID GARRICK."—On the 25th inst., the Kingston Dramatic Company plays "David Garrick." As their performance will be for the benefit of the funds of St. George's Society, a bumper house may be expected. The dramatists are also rehearsing "Kathleen Mavourneen."

ERRATA.—The diocese of Quebec was erected in 1674, not 1774 as stated in a previous issue. The signature of the Secretary of the Land League, appended to the address, which had to be passed over at yesterday's reception, should have been D. Sullivan instead of Dr. Sullivan. The error was quite apparent to many.

THE LIQUOR CASE.—The hearing of Mrs. Hattie Graham's liquor case was resumed at the Police Court this morning. The evidence of two persons was heard, but upon its conviction could not be founded. On account of the absence of witnesses the case was adjourned until Monday. Several warrants for the arrest of absentee witnesses will be issued.

CHARCOAL WORKS.—Messrs. C. F. Gildersleeve, S. D. Mills, G. M. Macdonell, J. Muckleston and J. B. Carruthers returned to the city to-day, having been along the line of the K. & P. RR. seeking a site for the charcoal works. They could get plenty of hardwood at Sharbott Lake, but not so cheaply as at points further northward. No definite decision was reached.

VALUE OF HAY.—Capt. T. H. Radford left yesterday for Bowmanville, where he has several hay presses at work. The foreign demand for hay at present is very light, and in consequence the exports of it has greatly fallen of. Captain Radford has purchased hay at $8 per ton for which he had previously offered $12. He is shipping small quantities to Philadelphia and New York.

A PLEASANT EVENING.—Last night the basement of Queen Street Church was crowded. The children of the Sabbath School had arranged an entertainment which was carried out in a highly creditable manner. The programme was long and consisted of dialogues, recitations and music. The little boys and girls had been well drilled and acted nobly. All were pleased with the affair.

LAUNCH OF A STEAMER.—Capt. Rothwell launched on Thursday, the 6th inst., his steamer "Crusoe," which has been rebuilt and lengthened at Fairfield's mill, Bath Road. He first cut the ice outside of her. She went into the water beautifully. It was quite an event on the road, there being a large number of spectators; also the school children had a half holiday in honor of the occasion.

FINED FOR ABSENCE.—Yesterday afternoon His Lordship Judge Osler fined upwards of a dozen of the petit jurymen for absence from court while the balloting for a jury was going on. The men were off viewing the reception given to Bishop Cleary. This morning the delinquents appeared in court, made a public apology, and his lordship remitted the fines.

WIND WAFTS.

From Various Sources and on a Variety of Minor Themes.

—Pullman & Hamilton's circus is on the way. It will soon be here.

—The Picton market has been let to James O'Neil for $466 for the year.

—The Presbyterians are to erect a new church and parsonage at Desoronto.

—Buyers from Kingston were at the Easter cattle show in Guelph yesterday.

—The County Council of Prince Edward will meet on Monday next to elect another Warden.

—Nearly a dozen clergymen, bishops and priests, left for the east by day at 1 p.m. Those for the west left at 3.45 p.m.

—A witness in the Graham case made a serious charge against a policeman. It should not be allowed to pass unnoticed.

—The directors of the Orphans' Home thankfully acknowledge the receipt of provisions from L. O. L. No. 325, and the M. E. church.

—The military authorities in Ottawa are considering a proposition to make a grant to No. 3 Military District for camp purposes.

—In the case of Gananoque v Stanley Haverson obtained an order for the transmission of exhibits to the deputy clerk of the Crown of Kingston.

—The counting of the votes for the election of benchers was steadily progressing at Osgoode Hall, Toronto, today. The result will probably be made known on Monday.

—In the Waubuno case it has been decided by Mr. Osler, Q. C., of Hamilton, counsel for Mrs. Fisher, to have a new trial, which is expected to take place in June.

—A meeting of the Directors of the N. T. & Q. R.R. Co. will be held to direct the engineer in charge as to the location of the line, the employment of a staff and the grading of the road bed.

PERSONAL MENTION.

Mr. W. Collier, of Port Dover, is in the city on railroad business.

Hon. W. McMaster and Mr. D. McCarthy, of Toronto, are at the British American. They are interested in a case at the Assizes.

Dr. J. B. Murphy, of Belleville, a graduate of the Royal College, has been appointed physician to the Deaf and Dumb Institute of that city.

Mr. Robert McLean, Inspector of the British America Insurance Company, Toronto, has re-established its agency here. Mr. J. E. Hutcheson will be the new agent.

Mr. Roach, of the New York *Herald* accompanied Bishop Cleary's party to Kingston, and, no doubt, transmitted a glowing account of the reception to the great journal which he represents.

Dr. W. A. Lavell, of Kingston, will begin the practice of his profession at Newburg on April 11th. Dr. J. S. Grey, a graduate of Montreal, also intends opening an office at the same place.

It is said that Sir John Macdonald, who is considerably better, will accompany Lady Macdonald to New York on her next trip, whither she goes in connection with the health of her daughter.

Sir Charles Tupper though very weak upon his arrival in England, is improving. He has been under the very best medical attendance, and hope is expressed that he will now entirely recover. He is the guest of his son-in-law, Major Cameron, R.A., at Newbridge, county, Kildare, Ireland.

MARINE NOTES.

A vessel firm here has been offered 50c. a ton on iron ore from Belleville to Fairhaven. It was not taken.

It is now said that vessels have been offered in several places for grain at 2½c to Kingston or Oswego, but not accepted.

The ice was strong enough yesterday morning at Desoronto to allow a team of horses to cross the bay with a lumber waggon without breaking through.

The rate of wages for sailors is generally accepted as $1.25 on Lake Ontario. Masters of vessels count this too high with carrying rates as they are expected to be.

The Canadian schooner Manzanilla has been chartered to take 23,000 bush. of corn to Kingston; at a rate said to be better than paid to a Lake Ontario port prior to the opening of navigation for several seasons. It is said she gets 11c. per bushel. Buffalo rates are said to be better than 7c. and the impression is that 8c. will be paid before the straits are open.

The Late J. K. Oldham.

The funeral of this gentleman, who has contributed so much to the amusement and entertainment of the people of Kingston in the musical line, took place this morning from his late residence, King street. The members of Minden Masonic Lodge took charge of the body and in company with members of the other city lodges proceeded the hearse, in regalia, to St. Paul's Church, thence to Cataraqui. The services were read by Revs. W. B. Carry and Hy. Wilson. The choir of St. Paul's sang impressively two hymns. At the cemetery the last solemn rites of the church and the Order were performed over one who in the vigor of life spent hours of patient toil in their service.

For the Penitentiary.

Henry White, for robbery, was sent from London to the Kingston Penitentiary for 14 years. Martin Allen who was taken up from here swore strongly in favor of White. John McGuinn was found guilty at St. Catharines and sentenced to three years in the penitentiary for killing John Smith in Wellandport in February last.

RIVER LIGHT HOUSE.—The Jack Straw light and beacon, near Gananoque, has been moved a distance of 31 feet north from its previous position to a new pier three feet above its former level. This year it will show a fixed white catoptric light visible ten miles from all points of approach. Mariners may note that they must give the pier a wider berth than formerly, as stone "rip-rap" makes the water shallow for a distance of fifty feet on the channel side of the lighthouse.

SPRING ASSIZES.

Progress of the Criminal Business Recorded at the Cases.

QUEEN V. BREDEN.—Yesterday the case of Queen v. Breden was, by order of His Lordship, postponed until the next court. Sureties to the amount of $15,000 was given for his appearance. An important witness was absent.

QUEEN V. NICHOLSON.—The offence, rape, was alleged to have been committed upon a young girl named Gordon, cook on the schr. "Jessie Macdonald." The vessel was lying at Portsmouth and during one night the cabin was broken into and the outrage said to be committed. Two of the offenders escaped and have not been recaptured. The prisoner pleaded "not guilty." He was defended by Mr. T. H. McGuire. Many witnesses were called and examined. The outraged girl is a deaf mute. For the first few questions a Frenchman acted as interpreter. He was skilled in "lip articulation." The evidence was finally completed on paper. The counsel wrote down the question to which she replied. The trial turned entirely on a question of identity, and the only means of connecting Nicholson with the affair was that one of his legs is shorter than the other, which the girl and the mate both said was the case with the man who held the door of the mate's room, as seen by them through openings over their doors. To meet this it was pointed out that when the man was leaning against the door one leg would naturally seem shorter than the other, although they might really be of the same length.

When the case was about to commence a number of small boys entered the court and took seats, but were by His Lordship's direction immediately ordered out of court.

The jury retired and after a long confinement brought in a verdict of "not guilty." The prisoner was discharged.

The case of Luke Graham for assault and robbery has been going on to-day.

St. James' Concert.

Last evening a concert was given by the choir of the St. James' Church at the parochial school house, assisted by several kind friends and in aid of the Sunday School Library Fund. The room was well filled in spite of impropitious weather. The instrumental part of the programme was truly enjoyable. The violin solo of Mr. Oscar Telgmann was very fine and deserved the hearty encore. In merit his piano solo was a "good second," as was also the piano duet of Misses Goold and Smith. The clarionet solo of Mr. Trendall, Bugle Major of Battery "B," was artistic and well appreciated. Mr. Griffin, who has become the popular reader here, was recalled after he had "spoken his piece." Miss Wilson sang "Where is Heaven" beautifully, and it was most appropriate as well; Miss Bustin was warmly received and recalled; Mr. Keeley was also encored after a sentimental song, but somehow or other you are always expecting comicality from Keeley, and therefore, sentiment cannot be laid down even upon this precedent as his forte. Miss Bates is ever popular and pleasing, and was forced to sing again. A chorus by Mrs. Mills, Misses Wilson, Bates and Bustin, and Messrs. Birkett, Reyner and Keeley was very pleasing. It was "Way down upon the Swanee River" with guitar accompaniment by Mr. Keeley and Miss M. Wilson. It was a very pretty contribution. A duet by Miss Wilson and Mrs. Mills, as well as quartette by these ladies with Messrs. Birkett and Keeley, was well received. Altogether the concert was musically a treat. Miss Dupuis greatly assisted those whose names above appear in its management.

Riding School.

We are requested to state that Staff Sergeant Maguire, of "B" Battery, R. S.G., (late H. M. 18th Hussars) is prepared to give riding lessons to a certain number of ladies and gentlemen of Kingston. The number of first class riders he has turned out in Quebec and Montreal is in itself a sufficient evidence of this popular instructors abilities, and we should strongly advise our lady and gentlemen friends to avail themselves of this opportunity to learn the noble art of horsemanship. Sergeant Maguire may be communicated with at any time during the day at Tete de Pont Barracks.

Business Notice.

Z. Prevost (at the New York Clothing Store) has in stock this spring, rich patterns of Scotch, English and Canadian tweeds—for suitings—and he is taking orders rapidly. He guarantees a good fit and good trimmings.

CURRENCY.

—The Synod of Toronto and Kingston meets in Bowmanville on May 3rd.

—The United States revenue cutter "Manhattan" will be in commission on Lake Ontario this summer.

—The clergy of Quebec city are determined to oppose the new tax bill of the corporation.

—The warning of a plan to blow up the London custom house is believed to be a hoax.

—The loss by the burning of the Rimouski College is fully $100,000. The insurance is $28,000.

—The Toronto *Globe's* pair of whiskey Commissioners report that there is little liquor drank or to be got in rural Maine.

—The publishers of "Endymion" have so far lost $15,000. The circulating libraries are selling the book at half price.

—The Government has received about a dozen tenders for supplying 100,000 gallons of oil per annum for a term of years for the lighthouses of the Dominion.

—Yesterday was a busy one at the western cattle market, over 200 head of fat cattle having been bought by eastern dealers. The animals were in splendid condition.

—There is talk as to the approaching formation of an Anglican brotherhood in Toronto diocese, modelled according to the Cowley brotherhood. Its headquarters will be in Toronto.

—An extraordinary letter from Prof. Hind, addressed to the Governor-General, contains a series of charges against the Commissioner of Fisheries, Mr. Whitcher, whom Prof. Hind accuses of international falsification of the fishery statistics prepared on behalf of Great Britain, and on which the claim to an award from the United States was based.

HYPOCRISY.

An Inquirer puts the Question—Is it Right or Wrong?

To the Editor of the British Whig.

SIR,—As there is a number of pretty acute moralists in this city, I ask the foregoing question with the hope that when the Court is over and your columns become less crowded, some of them will discuss the matter, and it will afford us some light on the subject. It may seem at first blush a very absurd question, but to me it becomes more complex and interesting the more I think upon it and try to come to a satisfactory conclusion. Sometimes when I am a little dyspeptic and cannot sleep, weak, curious thoughts come crowding into my brain, and I cherish them and try to resolve the difficulties which they present both for the purpose of arriving at the truth and to cheer the loneliness that comes over me when lying awake while others all around me are sleeping. The question which heads this paragraph is one of those intruders that so lately popped in last night, and as I have not been able to dispose of it in a satisfactory manner, I have deemed it not amiss to thus publicly seek the opinion of others who may be more deeply skilled in questions of morality than myself. I want no controversy but a fair and unbiassed discussion of the matter which may lead to a just and honourable solution of the difficulties that seem to me to surround the question.

Yours truly,
INQUIRER.

April 6, 1881.

SCHOOL MATTERS.

To the Editor of the British Whig.

SIR,—In reply to "M" in last night's issue of the WHIG, I beg to say that it is not true that chemistry and philosophy are not taught anywhere else than in the public schools. Philosophy has been taught uninterruptedly in connection with the Collegiate Institute since 1862, and chemistry since 1876. Again, Major Kensington did not say that "trigonometry is needed to pass such an examination as the intermediate." He did say: "I consider a good grinding in trigonometry, together with the first principles of co-ordinate geometry, essential for a proper comprehension of philosophy." Professor Dupuis, of Queen's College, and Professor Bayne, of the Military College, are of opinion that chemistry cannot be advantageously taught in the common schools without "an outfit of appuratus costing some hundreds of dollars," not to speak of the cost of employing experienced and qualified teachers. The apparatus for teaching chemistry in the Model School at present consists of one syphon, valued at *three cents*.

"M" quotes figures very glibly. Will he kindly give statistics showing the citizens why chemistry and philosophy, English and mathematics, should be taught in both the public schools and high school, and paid for *twice over* to the tune of $1,500 per annum?

Yours, etc.,
N.

April 7th, 1881.

A Little Calculation.

To the Editor of the British Whig.

DEAR SIR,—Every writer who has touched on the question of economy has I think, lost sight of the proper place and way in which the $1,200 per year might be saved to the city.

In nearly every High School in the province the Classical master receives the highest salary, the Mathematical master coming lower, followed by the Science and English masters. On referring to a letter published in your columns some time ago the salaries were stated to be:

Science master	$1,800
Mathematical master	1,000
English master	800
Classical master	750
Total	$3,850

Following the example of other High Schools and Institute the salaries, taking the Classical master's as the basis, should be as follows:

Classical master	$750
Mathematical master	700
Science master	650
English master	600
Total	$2,650

thus being a saving of the $1,200 which "Economy" and others of that stripe have failed to touch on. Hoping that "Economy" and "Citizen" will see the point,

I remain, yours,
DAG.

Reminders

Bellmen were appointed in London in 1556, to ring the bells at night and cry, "Take care of your fire and candle, be charitable to the poor, and pray for the dead." We are constantly reminded by circumstances to take care of our health, and preserve in a proper way our bodies. This, alas! is too often neglected. The dyspeptic and bilious are induced to make trial of some drug or patent medicine, which often aggravates the malady. Be sure and provide yourself with Baxter's Mandrake Bitters; they are highly prized by all who have used them, as the most effectual cure for all disorders of the stomach.

A WONDERFUL DISCOVERY.—For the speedy cure of consumption and all diseases that lead to it, such as stubborn coughs, neglected colds, bronchitis, hay fever, asthma, pain in the side and chest, dry hacking cough, tickling in the throat, hoarseness, sore throat, and all chronic or lingering diseases of the throat and lungs, Dr. King's NEW DISCOVERY has no equal and has established for itself a world-wide reputation. Many leading physicians recommend and use it in their practice. The formula from which it is prepared is highly recommended by all medical journals. The clergy and the press have complimented it in the most glowing terms. Go to your druggist and get a trial bottle for ten cts., or a regular size for $1. For sale by all druggists.

DYSPEPSIA.—Strengthen your digestion, tone the stomach for utilizing and assimilating every atom of food you take. The body needs it for strength and vigor. ZOPESA cleanses the entire system, stimulates the liver, keeps you regular and able to eat ten-penny nails. Letters and postal cards come in daily extolling ZOPESA from Brazil. *Positive proof* of health and vigor it gives in a 10 cent sample. Sold by Heath & Gunn and Henry Wade.

REMEMBER
One Another!
AT EASTER.
IT WILL NOT COST MUCH.

T. McAuley
IS SELLING EASTER CARDS VERY CHEAP.
Call and secure one before they are all gone. Don't forget the place.
THOS. McAULEY,

THE TALK OF THE CITY
The Immense Display of Millinery at
The NEW DRY GOODS STORE
ALL THE LADIES who have visited our SHOW ROOMS since the OPENING have been delighted, and from the encouragement already received we anticipate a splendid season's TRADE, which we will make our endeavor to help on by giving the best possible Goods at the lowest possible prices. Strict attention to business, treating customers with the utmost courtesy, no pushing to sell what they don't want, but in every case we will try to please.
Just to hand 3,745 yds. Embroidery, 2c to 8c per yard, a great bargain.
