Pic-nic.—The Christian Brothers' School will have a pic-nic at Channel Grove to-morrow, June 29th. A large attendance of parents and friends is expected. Tickets at 25 and 15 cents. Boat leaves ferry wharf at 10 a.m. and 2 p.m.

Companies Incorporated.—The Dominion Abbatoir and Stockyard Company, of Montreal, the St. Lawrence River Steamboat Company, of Kingston, and the Imperial Loan and Investment Company have been incorporated under letters patent.

Attempted Suicide.—Ann Durnee, wife of William Durnee, Cape Vincent, attempted to commit suicide by taking Paris green a few days ago. The attempt was frustrated. Mrs. Durnee entertained a horrible suspicion of the unfaithfulness of her liege lord.

Ability Recognized.—The C. P. R. Syndicate have recognized the advantages of the education received at the Royal Military College, by appointing three of the students who have recently passed examinations at that institution to positions on their engineering staff.

Knitting Factory.—Samples from the knitting factory are on the market, and the reports of various mercantile agents are extremely favorable. The goods will undoubtedly take well. At present the employees at the factory number 35. Additions will be made shortly.

Work Progressing.—The work at the Ironside iron mines, near Ottawa, is going on briskly, and upwards of 120 tons per day is being taken out and made ready for shipment. On Saturday afternoon one barge, with 200 tons aboard, left the canal basin *en route* for Kingston.

Applied for Letters Patent.—Messrs. C. F. Gildersleeve, Henry Cunningham, J. S. Muckleston, G. M. McDonnell, J. B. Carruthers, Sir Richard Cartwright, G. A. Kirkpatrick, M.P., and others have applied for letters patent under the title of the Kingston Charcoal Iron Company.

Saving a Life.—It is reported that yesterday when the storm was roughest, Captain Courson, of the schooner "Forest Queen," and several sailors succeeded in saving a soldier, who resides in the shoal tower. He was rescued not a moment too soon, having been immersed for some time.

Strawberry Boom.—There is a panic in the strawberry market. Recently prices dropped from 15c. and 20c. to 8c. per box. House keepers "passed" anticipating a still greater decline in rates. It did not follow. On Saturday 10c. per box was demanded, and to-day from 12c. to 15c. were asked and generally paid.

Purchase of Property.—A short time ago Capt. Carter purchased the Molson property, on King Street West, for the site of a new residence. Learning that the McLeod estate was offered for sale, he bought it also, and now has one of the most desirable properties in this city. The estate consists of over ten acres.

A Picnic Spoiled.—Yesterday afternoon the pupils of the Congregation de Notre Dame went out to Lemoine's Point to spend a few hours in picnic exercises. The rain storm sadly spoiled the amusement, and the girls arrived home in the evening with garments soaking wet. The pretty white dresses which some of them were looked anything but handsome.

Deserted Child's Death.

A couple of months ago a woman from Belleville, calling herself Matilda Fraser, emerged from the General Hospital here with an infant, and farmed it out with the wife of a citizen. She paid one month's board, left town, and has not since been heard from. The child was left on a poor woman's hands and she was much perplexed about it. On Sunday, however, the death of the little one sadly ended the difficulty.

Loitering on the Streets.

The Chief of Police has received official notification regarding a number of young men who persistently loiter upon the corner of Clergy and Earl Streets, using obscene and profane language much to the annoyance of the residents of that locality. The following were to-day reported by a policeman for the offence: Thomas Little, James Little, James McBride, Samuel Agnew, James Agnew and one Walker.

MATRIMONIAL UNION.

Marriage of Mr. O. H. Schulte, Jersey City, to Miss M. J. McColl, of this City—Happy Event.

In no event of the kind has more interest been taken than in the marriage of Mr. Otto H. Schulte, of Hasbrouck Institute, Jersey City, to Miss Mary J. McColl, daughter of Mr. Evan McColl, of this city, which took place last evening and was attended by the usual congratulations and rejoicings. Both bride and groom have been for years engaged in literary and educational pursuits. Her pen has been an active one, its productions finding favour with her American as well as Canadian friends. It is not long since her "Bide-a-Wee" was issued from the press, containing poetic gems which elicited the admiration and eulogy of those who appreciated their beauty of sentiment and expression. Mr. Schulte is a graduate of Williams College, and when at a youthful student distinguished himself as an athlete, an oarsman, and a scholar. Intellectually the twain have been drawn towards each other, and the union, just consummated, promises to be one of enduring happiness. The ceremony was performed by Rev. Dr. Elliott, assisted by the Rev. E. C. W. McColl, of Quebec. Mr. A. F. McColl acted as groomsman, and Misses Helen and Flora McColl as bridesmaids. All the members of the family were present, some coming long distances to participate in the festivities of the occasion. Such a delightful reunion of friends has not occurred for years. The bride's presents were very numerous and varied and decidedly handsome. They came from admirers in various parts of Canada and the United States. Few ladies have, by their accomplishments, obtained a wider acquaintanceship. The bridal party will linger for a time in Canada, thence proceed to Jersey City via the White Mountains.

A Dissipated Life.

A youth, whose name we did not note, made application to the Mayor for a "pass" to Belleville, for which place he left, a day or two ago, under an engagement, at $2 per week, to act as guide for a blind man, who made his living by selling "appeals," slips of poetry, the concluding verses of which ran:

Remember, too, that while on earth
You cast your blessings round,
They'll yield a rich and heavenly fruit
On God's own gracious ground.

And oh, how great will be the joy
That unto us is given!
When the blind man shall see and bless
Your entrance into heaven.

The boy said his master had made a great deal of money, his receipts yesterday amounting to over $5. But, said the youth, he was fearfully dissipated, and after the day's perambulating was over drank and caroused for hours, and in his jollification last night dismissed him (the guide), leaving him penniless and in a strange city. Blindness to this man is evidently not an affliction, but a convenient excuse for the imposition which he is practicing upon the public.

Police Court.

A sextette of prisoners sat in the Police Court dock this morning awaiting sentence. The majority of them were happily dealt with. They appeared to have received a thorough wetting, inwardly and outwardly, last night. The first to interview the magistrate was Michael Johnson, an Indian. He had only been released from gaol yesterday, but for drunkenness was again arrested. He pleaded to be set at liberty, promising to remove to Gananoque. His desire was granted. John Leadbeater promised to leave for Collinsby, where his vessel lay. He was allowed to go. Michael McNulty was asked to contribute $2 and costs. Two strangers were allowed to depart, the former without expense, the latter at a cost of $1 and costs.

Trenton Notes.

Buildings are being already erected on the burnt district on Front Street.

Population of Trenton, according to census, is over 3,000; in 1871 it was 1,800.

Gilmour & Co. have put on a force of men to clear away rubbish from the site of their burnt mill in order to rebuild. Gang saws have been put into the mill built last winter, and over 80,000 feet of lumber is cut in every 24 hours. Two hundred men are employed constantly by the firm.

Trenton's grain merchants are preparing for the expected rush through the good crops. Two large elevators are to be built this summer, making six in all there. The P. E. Co. RR. Company will also build a siding to the docks and elevators to facilitate winter shipments.

Village of Robertsville.

The village of Robertsville, named after one of the principal lessees of the iron mine, is growing and will soon be larger than older places along the line of the K. & P. RR. Already there are eight large double tenement houses erected and a large boarding house in the village, and Mr. Snowden, of this city, with a staff of ten men, will to-morrow commence upon four double tenements and a store 32x28, two stories high. The store will be on Railway Avenue and the dwellings on Broadway Street. The village will soon be seeking incorporation. So mote it be!

Her Long Rest.

Mrs. Rose O'Rielly, of Wolfe Island, mother of the Deputy Reeve, has passed to her last rest, ripe in years and rich in the performance of kindly, charitable acts. Her whole life was peculiarly pleasing, taking and giving no offence and winning the friendship of young and old. She took a merciful view of all things, and none heard her utter sentiments which she could have desired to recall. She was a model mother and a rare friend. May her soul have that repose which the nobility of her life has merited.

—The Napanee *Standard*, remarking that there is a famine among the Kingston lawyers of clients, says, no doubt, according to the old motto, "Satan will soon find work for his legal proteges."

MARINE NOTES.

Sale of a Yacht—Wolfe Island Canal Open Last Night's Gale—The Incoming Fleet.

agent at Cape Vincent for the new line of steamers.

The str. Armenia remained at Stella Point all night, as there was a tremendous sea in the upper gap.

R. Davis wants to sell his new sail boat, 30x30 feet, about 7 tons. She can be seen at the Kingston foundry.

The Pierrepont made the first trip of the year through the Wolfe Island Canal yesterday. Steamers can now run through it easily.

The Pierrepont took to Cape Vincent to-day a dozen excellent horses bought up the Bay of Quinte and brought here on the steamer Hero.

The steamer Magnet made preparations to-day to leave the city on her first trip. She looked extremely well, floating all her flags.

The captain of the Corsican reports that there was not severe weather on the lake last night. It rained, but the wind did not blow unusually hard.

The str. Hero left Kingston last evening at 4.30 o'clock in a heavy gale, for Belleville and intermediate ports, making the run to Picton in four hours. She encountered some heavy weather in the gaps, but went through like a duck. She is the favourite in any kind of weather.

Capt. Estes, one of the veteran navigators of the Utica line of steamers on Lake Ontario and the St. Lawrence River, is to command the new and elegant first-class steamer Flower City, owned by John H. Barry, of Rochester, which will commence running to the Thousand Islands after July 15th.

Challenge Accepted.

A marine man has called upon us and states that, although he is not a betting man, to decide the question as to the carrying capacity of the barges John Gaskin and Huron he will wager $25 that the John Gaskin will carry at either 9ft., 10 ft. 6in., or 11 ft. more than the Huron. The winner to donate the $50 so won to the House of Industry.

Law Suit Ahead.

Yesterday morning about six o'clock the tug Conqueror, passing down the lake with a tow of rafts, called at Port Hope and took two drams of timber belonging to Mr. Maxwell and attached them to her tow. Late in the day the tug W. T. Robb, with two drams of timber, also called for Mr. Maxwell's raft, as she had been chartered to take it, but the Conqueror had got the start of her. It is probably the affair will result in a law suit.

Death of Mr. N. J. Taft.

In the Fulton (N.Y.) *Patriot* we read of the death of Mr. Nathaniel J. Taft, which took place on June 16th. Writing of the event his son, Rev. J. N. Taft, (formerly a student of Queen's,) says:

"A brief appropriate service was held at his late home in Taberg, N.Y., Rev. Chas. Phelps officiating. We then conveyed his remains to Fulton, N.Y., where he had lived the most of his time since his marriage and reared a family of seven boys and two girls. Here a short service was held at the residence of his son, Mr. W. S. Taft, the Rev. E. C. Bruce, of the M. E. Church, officiating. The exercises throughout were of the most appropriate character, and the friends of the deceased hereby tender their thanks to all who so kindly assisted on this sad occasion. The remains were deposited in Mt. Adnah Cemetery. Our loved father's demise was not an unlooked for event. He had been declining a long time. It would have been a comfort to us had he been conscious at the last of his approaching end, and retained the use of all his faculties, but Heaven ordered it otherwise, and we bow to the rod. Ten years ago in his own family circle father laid his burden at the Saviour's feet, and found the peace of Jesus, the rest of faith; and now through our tears, even, we rejoice, for we 'sorrow not as those who have no hope,' and look for a reunion in the 'sweet bye and bye,' where there shall be no pain, nor tears, nor death."

Major-General Luard at St. John's.

A correspondent writing from the camp at St. John's says: Gen. Luard arrived this morning and subjected the men to a a scathing inspection. He was very severe on the officers, some of whom were disgracefully dressed. He asked one of the captains of the 11th Battalion to resign, and the captain promised to do, so. Several officers had civilian caps, many of them had cavalry sabres, some of the mounted infantry officers had cavalry saddles, and those of the battalions had no slings to their rifles, and none of them had canteens or water bottles. He was, I believe, pleased with the physique of the men, but it was evident that that he was writhing at the appearance of many of the officers. I have just, too, learned that the instructor of musketry is to condemn all the rifles as being unfit for service. General Luard evidently means to continue speaking his mind, and if politicians do not interfere he will improve the service yet.

FRIDAY'S REGATTA.

Course Indicated—Rules Prepared for the Government of the Races—A Guide to Competitors.

The Regatta Committee met last night and held another meeting, of which the programme for Friday was drawn up and adopted as follows:

SECOND CLASS RACE.

The course will be from a buoy off Swift's wharf to a buoy at the head of Garden Island and back to starting buoy, from thence to a buoy off George's barn and back to starting buoy; from thence to a buoy off Four Mile Point and back to starting buoy; thence to Four Mile Point again and back to winning buoy. First prize, $75; second, $50; third, $30.

THIRD CLASS RACE.

From a buoy off Swift's wharf to a buoy off Garden Island and back to starting buoy, thence to a buoy off George's barn and back to starting buoy, thence to a buoy off Four Mile Point and back to winning buoy. First prize, $25; second, $10.

RULES TO BE FOLLOWED.

No restrictions as to ballast in either class. Each yacht must bring back the same number of men and same amount of ballast as in starting or be ruled out.

All yachts of 12 tons and under in second class to carry not more than eight men. In third class not more than five men.

All yachts above 12 tons to be allowed 10 minutes.

All buoys to be rounded on the starboard side.

All boats on the starboard tack to have the right of way.

Boats running free must give way for boats by the wind.

No "planking out" allowed in either class.

All entries to be made before 8 p.m. on Thursday previous to the race, at the Secretary's office, 186 Wellington street.

The race must be finished by 6 o'clock p.m., or sailed over as the Sailing Committee may direct.

If only five boats start in the second class two prizes instead of three will be given.

In the third class four boats must start or no race.

All protests must be made in writing to the Secretary before 7 o'clock p.m., day of race.

Positions will be drawn for at the British American Hotel on Thursday evening previous to the race.

All boats must be in position at 9.30 a.m.

All winning yachts to have 10 per cent. deducted from the prize.

Hop Bitters Race.

Some $600 have been raised, towards the purse which will be offered as a bonus to the Hop Bitters Company for locating in Belleville, the race which they intend to bring about. Mr. H Mottashed, of the Dafoe House, wrote to Mr. Soule, the President of the Company, guaranteeing a bonus of at least $800 if the race took place at Belleville, and setting forth the advantage of our bay as a racing ground, and of Belleville as a racing centre. On Saturday he received a letter from Mr. Soule stating that the representations contained in his letter were worthy of consideration and investigation, and that he himself would come to Belleville to inspect the course here, the travelling facilities, etc. He will probably be in town some day this week, and, it is to be hoped, will be well entertained during his visit. There is some talk of having a match between the "Atlanta" (which will probably be finished by that time) and the other first-class yachts of the Belleville fleet take place in connection with the rowing regatta, either on the same day or the day before. We may add that in case satisfactory arrangements cannot be made with Mr. Soule, a strong effort will be made to secure a regatta here any way—one in which all or nearly all the prominent scullers now in the field will be induced to take part.—*Intelligencer.*

Grateful Women.

None receive so much benefit, and none are so profoundly grateful and show such an interest in recommending Hop Bitters as women. It is the only remedy peculiarly adapted to the many ills the sex is almost universally subject to. Chills and fever, indigestion or deranged liver; constant or periodical sick headache, weakness in the back or kidneys, pain in the shoulders and different parts of the body, a feeling of lassitude and despondency, are all readily removed by these Bitters.—*Courant.*

A healthy man never thinks of his stomach. The dyspeptic thinks of nothing else. Indigestion is a constant reminder. The wise man who finds himself suffering will spend a few cents for a bottle of Zopessa, from Brazil, the new and remarkable compound for cleansing and toning the system, for assisting the digestive apparatus and the liver to properly perform their duties in assimilating the food. Get a 10 cent sample of Zopessa, the new remedy of Heath & Gunn, or Henry Wade. A few doses will surprise you.

In hot weather the digestive organs are specially liable to get disordered, causing a sickly feeling at the pit of the stomach, nausea, want of relish for food, &c. A few doses of Dr. Carson's Stomach Bitters will at once effect a cure. In large bottles, fifty cents. For sale by all druggists.

Two Farms for Sale at a cheap rate also, one spring waggon, one buggy, one sleigh, and one cutter. The foregoing will be sold at a bargain, as the owner is going to the west. Apply to the owner, William David, broker, Princess Street, Kingston.

A Great Smash Down on watch crystals at the store of Wm. David, broker. He will supply the public with watch crystals at 10c. each.

Hundreds of keys can be had at William David's, opposite Parkhill's, Princess St. Bring on your locks.
