## CITY AND VICINITY.

REMEMBER to pay your water works account and save the discount.

THE sale of real estate announced for to-morrow, next to Cataraqui School, by Hutcheson, has been postponed.

PROBS.—High easterly to southerly winds, unsettled rainy weather to-day, followed by a cold northerly blow to-night.

DON'T FORGET the sale of furniture, stoves, china, &c., by Hutcheson, opposite the Custom House, at 10 o'clock to-morrow morning.

STEAMBOAT ACCIDENT.—While removing the yacht Marquis of Lorne from the ways at the shipyard the steamer City of Belleville got into the water and filling went over on her beam ends. She was soon straightened.

POLICE COURT.—Three cab cases were adjourned for further evidence. One of the cabmen could not attend having had a previous engagement to enter matrimony. An assault case was adjourned. Two drunks were discharged.

METHODIST EPISCOPAL CHURCH.—One of the attractions at the social to-morrow evening, at the M. E. Church, will be the encounter between Fitz James and Roderick Dhu, given by Messrs. McArdle and Wood. Tickets only 25c; doors opened at 6:30.

PROSTRATED BY PARALYSIS.—This morning Mr. J. R. Burke, while visiting the *News* office on business, was attacked with paralysis. He was taken to his home and considered in a critical condition. It is hoped he will rally. The paralysis extends up one side, deadening the leg but leaving him the use of his arm.

STUDYING PRISON DISCIPLINE.—Mr. Benson, Warden of Stoney Mountain Penitentiary, North-Western Territory, will act at St. Vincent de Paul for a few weeks, while Mr. Laviolette attends the Kingston Penitentiary to learn its methods. Mr. Mackay the acting Warden, goes meanwhile to Stoney Mountain.

STILL EXTENDING.—The Kingston Locomotive Works Company have very insufficient store house accommodation and no room to build upon the present block. They will, therefore, ask the Council this evening to grant them the use of the slip between Ontario Street and the water at the foot of Earl Street, provided the Local Legislature will sanction the closing of it.

A STUDENT HONOURED.—Mr. R. C. Murray, who has been engaged as a missionary of Metcalfe during the summer, before leaving to resume his studies at Queen's College, was presented with a purse containing $57, accompanied by a very flattering address expressive of the esteem in which he was held by the people amongst whom he laboured so zealously and with so much acceptance.

WHAT HENRY THINKS.—Henry Ward Beecher thinks the Methodists are making a mistake in throwing out Dr. Thomas, "a man of sweet nature, of fragrant piety, of peace, of purity. When they cast out such a man, I say they have cast out an angel to admit a devil." In the same sermon Mr. Beecher said he could not help believing that somewhere and somehow in the great future all would come under the all-conquering power of love, there would be none unreconciled and unsanctified and God would not be defeated.

A QUEER CASE.—Two prisoners were recently arraigned at a London police court charged with exchanging sentences of imprisonment by the simple and inexpensive process of exchanging names. What the consideration was did not appear. The London *World* remarks that this is not an uncommon thing in India, where, indeed, a native jailor has been known to allow a prisoner to go out of jail to get married, and spend his honey-moon in the city, he having a friendly substitute willing to endure incarceration in the meantime.

### Collegiate Institute Record.

The records of the Collegiate Institute for the past year is a creditable one. At the recent entrance examination to Queen's College the following honors were gained by its pupils:

Gunn Scholarship, $100—Miss Hooper.
Watkins, $80—Harry Folger.
Mackerras, $100—N. S. Fraser and Wm. Clyde.
Mowat, $50—Miss Maggie Spooner.
Tassie, $25—Alex. D. Cartwright.

None of these pupils went up for the Intermediate examination except Miss Spooner, who obtained a second class Grade A. Pupils know what pays best, both in honors and cash, and consequently many of them will not waste time preparing for the Intermediate examination as compared with college matriculation.

### WHAT'S THE NEWS?

Among those who have been invited to preach to the students of Queen's College during the winter are Dr. Potts, Rev. D. J. Macdonnell, and W. S. Rainsford, Toronto; and Canon Baldwin and Dr. Stevenson, Montreal.

### Fruit Festival at Battersea.

The young people of the C.M. Church, Battersea, held their annual festival on Friday evening, Oct. 14th, for the purpose of making the necessary improvements inside the church. Rev. Mr. Lawson, pastor of the church, was Chairman, and the evening being fine a large number were out to enjoy the feast. The programme, which was lengthy, consisted of the following:

Chairman's speech.
Speeches by Messrs. I. Holder and G. S. Vanluven.
Song—Reuben Knapp.
Solo—Miss Knapp. Miss Ida Vanluven playing the accompaniments.
Readings—Messrs. E. Corkill, I. Donnell, Y. E. Hughes, W. Morrison and L. Hoppins.
Instrumental music—Mrs. Merriman.

The choir, under the leadership of Mr. Holder, rendered several pieces in their own effective and popular style. Mr. W. Hoppins presiding at the organ. After singing "God Save the Queen" the audience dispersed at about 11 o'clock. The proceeds amounted to upwards of $21.—COM.

### A Relic of 1843.

A copy of the Kingston *Statesman* (Harcomb P. Gowan's paper) of November 29th, 1843, has been laid on our table, because of the peculiar interest it affords in its rejoicing over the downfall of the Baldwin-Lafontaine Ministry. Kingston being the seat of Government was greatly stirred up by this event. The St. George's, St. Andrew's, and St. Patrick's Society, proceeded to the Government House in a body to congratulate Governor Metcalfe on the stand he had taken. Bonfires were general, the city was illuminated and the members of the expired cabinet were hung in effigy. The saddest message that the paper conveys is one of the instability of life. Only four persons are alive out of the hundred Kingstonians mentioned in it: Sir John Macdonald, Sir Alexander Campbell, John Carruthers and John Shaw.

### Thanksgiving Services.

On Thanksgiving Day services will be held in St. Paul's Church, at 11 o'clock a.m., evening at 7:30. Special preacher, the Rev. Dr. Olm, Rector of Trinity Church, Watertown, N.Y., the successor in that parish of Bishop Brewer. Collections will be taken in the morning for the poor fund; in the evening for the debenture fund. The public are cordially invited to attend. Seats free.

The service at St. James' will be held at 11 a.m., with collection for domestic missions in Algoma and the North-West.

At 10:30 o'clock a service will be held at Queen St. Methodist Church, followed by a thanksgiving dinner in Victoria Hall.

There will be a union service to be attended by members of the three city Presbyterian congregations in Chalmers' Church at 11 a.m.

### COLLEGE EXAMINATIONS.

**Announcements to Saturday—List of Possum and Winners of Honors—Inaugural Lecture To-Night.**

As previously announced the Senate of Queen's College assembled at 3 p.m. on Saturday afternoon and intimated the result of the matriculation examination. As soon as the papers were posted on a blackboard they were surrounded by an eager throng who had assembled to see them. They were as follows:

### A BATTERY PRESENTATION.

**Staff-Sergeant Lavoie's Retirement—A Testimonial of the Affection and Regard in which he was Held.**

All the non commissioned officers and a large proportion of the gunners of "B" Battery assembled yesterday afternoon in the non commissioned officers reading room, Fort du Pont Barracks, to present Staff Sergeant Lavoie, laboratory foreman, with a watch and chain on the occasion of his leaving the battery to enter civil life in his native province of Quebec. Sergt. Lavoie has now been eight years in the battery, and had attained the position of laboratory foreman. His special duties consisted in superintending the making of all ammunition, and in lecturing on gunnery and ammunition. The presentation was made by the Sergt-Major, who on behalf of his comrades read the following address:

To Staff Sergt. Charles Lavoie—We, the undersigned non-commissioned officers and gunners of "B" Battery, R. S. G., cannot allow you to take your departure from among us, after eight years of service with the battery, without expressing our deep regret at losing one who was such a valuable instructor, so good a friend and genial companion and comrade. We wish you every prosperity and success in your new life, and feel confident that the numerous new friends you are sure to make in civil life will never drive away the memory of the many happy days we have spent together in the uniform of the Canadian Artillery. We beg your acceptance of the accompanying slight testimonial of our regard and esteem, and hope that it may serve to remind you of the many friends and well-wishers you leave behind you in "B" Battery, School of Gunnery.

(Signed) C. LAVIE, Sergt.-Major,
And about 60 others.

The Sergt.-Major then called for the customary honors, which were heartily given. Sergt. Lavoie thanked all present for their kind farewell and useful present. He would not forget the portion of his life spent in "B" Battery. Men speaking different languages and of different creeds were here living together not only happily but on terms of real affection and friendship, united by a sense of duty and that *esprit du corps* which the battery had always carefully tried to maintain since its establishment. He apologized for having to speak in a language not altogether familiar to him, but added that no language, however eloquently handled, could express his feelings at parting from so many old friends. Finally he wished his old battery every kind of luck and prosperity, and would ever watch their movements with interest.

After a general handshaking, etc., the meeting dispersed. The watch, a fine Waltham stem winder and dust proof case, and gold Albert chain, were purchased from Messrs. Smith Bros., Kingston.

### Railway Building.

Mr. H. D. Lumsden, Chief Engineer of the Ontario & Quebec RR., was in the city to-day, having just returned from Sharbot Lake where he was giving his attention to matters in connection with the survey of the branch connecting the Canada Central at Perth with the Kingston & Pembroke RR. The road has already been located from Perth to Maberly, and from there it will be commenced at once and continued, the prospect being that this part of the work will be completed by the end of December. During the winter the rock cutting will be done. The country to be traversed is said to be pretty rough, but the grades are not excessively heavy. The townships of Oso, Bathurst and South Sherbrook will be crossed, and Sharbot Lake at a point somewhere at Allen's, near the K. & P. RR. The engineering staff, beside Mr. Lumsden, is composed of Messrs. G. L. Cumine, W. E. Yarnold and D. G. Noble, and assistants, numbering in all sixteen. The road from Perth to Ottawa will not (at present) be built direct. There will be a kink in the line in order to take in Smith's Falls, but as it is the distance to the capital from Kingston will be about the same as via Brockville. Mr. Lumsden returned to Sharbot Lake this afternoon.

### Shipment of Explosives.

Quite a little sensation was created yesterday afternoon when a gang of men commenced to unload from a small vessel at the foot of Clarence St., some 135 cases of dualin imported by Mr. M. W. Drennan, and being transhipped per the Kingston & Pembroke RR. to the Mississippi. The men were at first employed to do the work at 75c per hour, but shortly after commencing service fear of explosion caused them to cease operations. Spectators made the situation more alarming by stating that the danger was even greater than it actually was. The unloading was conducted under direction of Harbor Master Smith and Mr. Kidd, of the Customs' Department. Twice the hatches were shut down, and the vessel was ordered into the stream, but Mr. Drennan's persuasiveness prevailed, especially when he increased his wages to $3 per hour. The offer was forced upon him of course. The explosives belonging to him were sent to the mines later in the afternoon by a special train; a small lot belonging to Messrs. J. S. Muckleston & Co., was hurried off to the powder magazine.

REMEMBER to pay your water works account and save discount.

Multitudes of people who have been in mortal dread of rheumatism, neuralgia and other painful diseases, now rest perfectly easy, knowing full well that St. Jacob's Oil will cure those troublesome ailments without possibility of failure.

### FOOT BALL AT MONTREAL.

**The Military College Cadets Defeated—A Lively Game with Decidedly Fine Results.**

The great football match of the season took place at Montreal Saturday, and resulted in the Montreal club holding the cup after a fierce assault upon it. The following were the teams:

Royal Cadets—Taylor, captain, 178 lbs.; Anderson, 170; Hooper, 148; Joly, 170; Skinner, 160; Weller, 155; David son, 180; Duffus, 167; Duff, 190; Woodman, 153; Strange, 150; Twining, 148; Stairs, 167; Campbell, 158; Carruthers, 150. Average weight, 155 7 10.

Montreal—H. Abbott, captain, 147 lbs.; Braithwaite, 154; Cains, 158; Campbell, 181; Campbell, 152; Drummond, 158; Grahame, 174; Guerrier, 165; Hamilton, 165; Lane, 170; Narres, 172; Sorley, 156; Stirling, 180; Thomas, 155; Walker, 140. Average weight, 158 1 10.

The *Mail* says on account of the heavy rain, which was falling at 2:30 p.m., many doubted whether the match would come off. The cadets were in readiness, however, and were only waiting in case they should receive word from their captain not to proceed to the ground. However, the captains had a conference, the result of which was that the game was started in the rain at 3:30. Montreal losing the toss played up against whatever little wind there was. Montreal kicked off, and followed up kept it near the cadets' goal. At first the cadets picked the ball up without ranging it, but as they got harder pressed they began to touch down in self defence. During the first three quarters the cadets ranged nine times, the Montreal only. Though the cadets would occasionally make

A GOOD RUN DOWN THE FIELD

with the ball, it was kept in the vicinity of their goal most of the time. Joly made some hard pushes, throwing off man after man, and Weller made a brilliant run, passing most of the Montrealers and bringing the ball near the Montreal goal. Davidson got a free kick just in front of the Montreal goal and the ball was placed for Taylor. Taylor's kicking ability being known, everyone thought a goal would be the result, but fate decided otherwise. There was some discussion about a touch claimed by Sterling at the very border of touching goal, but eventually it was granted. It was too far for a kick however. One of the cadets, meeting with a slight accident, was replaced by Von Strauubenzie.

A CHANGE OF GOALS.

Without allowing any time to intervene the sides changed goals. The Montreal men were forced to range twice before five minutes had passed. The ball soon fell into the hands of Abbott, who, winding his way down the field, got a touch-down. It was taken out and placed for Graham, who kicked a neat goal, the first and only one of the day. Later R. Campbell touched the ball in touch in goal. A put-out came, then a throw-on, and the ball was again in play. Some of the scrimmages were pretty earnest and were kept for several yards. The game then ended in Montreal's favour by one goal.

FRIENDLY CRITICISM.

The Montreal men have much improved in their style, playing with coolness and method, and remind one more of Harvard's style than any club we have yet seen play. They have taken to kicking, which is a decided improvement. The cadets play a good plucky game. They have not had the practice the Montreal men had in their matches this fall, but they understand the game and have good material. All they require is quickness. The play was with the best of feeling, and though rough was gentlemanly. The contending teams have met three times before and are personal friends.

ENTERTAINMENT AT THE WINDSOR.

After the match the cadets again assumed their uniforms and repaired to the Windsor, where the contending teams met at dinner. Lt.-Col. Whitehead, the popular President of the Montreal Club, presided, and Vice-President Thomas and Capt. Abbott occupied seats of honor. On the other side of the President sat Sergt.-Major Taylor and Sergt. Duffus. Lieuts. Sears and Hagan were also guests of the Montreal Club. Songs and speeches passed away a pleasant evening, and the party separated shortly before midnight, well pleased with the whole day's performance. The Montreal team proceed to Harvard on Wednesday and play the college boys there the following day.

### Land League Meeting.

There was a large attendance at the meeting of the Kingston Branch of the Land League held last evening. Mr. T. H. McGuire occupied the chair. Mr. W. Duffy, Secretary, was also present. The subject of the arrest of Mr. Parnell was discussed and the following motion passed:

"Resolved, that we, the Kingston Branch of the Irish Land League, view with the utmost indignation the injust, unwarrantable and cowardly action of Gladstone in arresting the true and patriotic Charles Stewart Parnell and his colleagues recently imprisoned, and that we tender them our warmest sympathies and assure them of our zeal and fidelity to the cause that they have temporarily lost their liberty in labouring to promote."

We may add that it is probable Mr. T. P. O'Conor, now in New York, will be invited to address the Kingston Branch shortly. The meetings are now getting more regularly attended as was seen by last evening's meeting. The members are actively engaged in soliciting new members and are having much success. The meetings continue throughout the winter on Sunday evenings.

EPPS'S COCOA.—GRATEFUL AND COMFORTING.—"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—*Civil Service Gazette.*—Made simply with boiling water or milk. Sold only in Packets and Tins (½lb. and 1lb.) labelled—"James Epps & Co., Homœopathic Chemists, London, Eng."—Also makers of Epps's Chocolate Essence for afternoon use.
