BETWEEN.

He thoughtfully paced the dust-lined car
As it came thundering out of the West,
His eyes swept down the long line afar
And he silently said to his beating breast,
"This fifteen minutes seems long and hard
Before I shall meet her. But face to face,
The long years' absence shall reap reward
In the light of her smile at the old time place."

The trees and the grass, and the blossomy fields,
He gave them no thought as he hurried them past,
Only silently said to his beating breast:
"But fifteen minutes! at last! at last!"

She leaned far out on the garden gate,
And the trees bent over and touched her head
"There is fifteen minutes for me to wait—
Only that lies between us now, she said,
And she held her watch to her beating breast,
And the moon glowed brightly on the scene
"We both will watch, but I watch the best
The fifteen minutes that lie between."

A sudden swerve from the swaying track,
A wrenching and jarring that tore the air,
With fatal swiftness the night train sank
And left but the silence and moonlight glare.

How flushed grew her face at the garden gate;
How ghastly his own gazed out of the green;
Alas! who can tell thee how long to wait?
Or what an eternity lies between?

"German Syrup."

No other medicine in the world was ever given such a test of its curative qualities as BOSCHEE'S GERMAN SYRUP. In three years two million four hundred thousand small bottles of this medicine was distributed free of charge by druggists in this country to those afflicted with Consumption, Asthma, Croup, severe Coughs, Pneumonia and other diseases of the throat and lungs, giving the American people undeniable proof that GERMAN SYRUP will cure them. The result has been that druggists in every town and village in the United States are recommending it to their customers. Go to your druggist and ask what they know about it. Sample Bottles 10 cents. Regular size 75 cents. Three doses will relieve any case.

THE COBOURG WELL.

MEDICINAL WATER—GEOLOGICAL THEORIES EXPLODED!

A Cobourg paper says: Mr. Clark informs us that he has reached a depth of 480 feet. He says for the last eighty feet he has been passing through a sort of limestone in which there appears to be magnetic particles. The magnetism is so powerful that the tools are converted into strong magnets. The drill is capable of lifting a large wrench, and a pocket knife passed over the drill once was so charged as to be able to lift several pins together. The water that comes up in the pump is full of magnetic power. It effervesces like seltzer water, and when poured into a pail and a lighted match is touched to the bubbles that have gathered on its top they burn with a brilliant flash. The water is being kept, and several parties are using it medicinally, its action being laxative diuretic, and some profess to have received great benefit from its use within the past few days. Mr Clark says is only one other magnetic well on the continent, it being located at Thunder Bay. Should a large supply of water of the same character as that now being got, be secured, Cobourg would at once become a watering place for invalids, second to none in the world. Even now Mr. Clark thinks that fifty barrels a day might be secured. We are not posted in geology, but are informed that the strata found in this well quite knocks the accepted system of geology into 'pi.' It was expected that granite would have been found between two hundred and three hundred feet deep, but nearly five hundred are reached and no granite yet. The distance that the Council has order the engineer to sink the well is only forty feet, and the hopes of striking a flowing well for fire purposes are growing faint; but if we succeed in getting a medicinal water of a high quality the effort will not have been in vain.

A GREAT MISTAKE.—The generally entertained notion that if the stomach or any internal organ is oppressed, pain will be felt in the organ itself, is altogether fallacious. Many of the worst dyspeptics never feel any uneasiness about their stomachs. Pain is invariably felt in the weakest and most sensitive organ, and many an aching head, palpitating heart and oppressed brain are the result of a small slice of cake, or a few lumps of sugar, or a piece of pie or some other indigested or indigestible stuff that is fermenting in a stomach too much callosued by abuse to give direct evidence of the poisons it wishes to reject. Thus writes one of our most distinguished physicians who has made stomachic troubles his specialty for more than thirty years. And he is right. The proper thing to do is to use DR. HERRICK'S SUGAR COATED PILLS and infuse new life into the stomach, while expelling the debris lodging there. The most delicate stomach will retain them and they never fail to do their work. Try them.

THE ONLY ONE THAT'S THOROUGH.—It is a fact not generally known that the various cathartic medicines each attack only a special point in the alimentary canal. The only one that cleanses it throughout is Castor Oil, but the nauseous taste and smell of this invaluable purgative arouse, in most people, an invincible repugnance to its administration. Even those who best understand its mild yet thorough cathartic action and its marvellous healing powers, shrink from taking it, and yet Castor Oil is made not only inoffensive but actually palatable. You will find it so in Scott & Bowne's Palatable Castor Oil. Price 25 cents a bottle.

—Robert Held eloped with a Denver widow, and his own wife aided him in the exploit. The object of the Helds was to get the widow's $1,000; and after doing that Held deserted the widow and returned home.

—Mr. Martyn, a very eminent independent minister in the north of England, has lately joined the Episcopal Church, resigning valuable preferment. There have been many other nonconformist secession of late to the same establishments.

—A large number of the better class of emigrants arrived by one of the Dominion line of steamers at Montreal on 11th inst. They had with them $20,000.

ELECTRICITY! THOMAS' ECLECTRIC OIL! WORTH TEN TIMES ITS WEIGHT IN GOLD.—Pain cannot stay where it is used. It is the cheapest medicine ever made. One dose cures common sore throat. One bottle has cured bronchitis. Fifty cents worth has cured crick in the back, and the same quantity lame back of eight years' standing. The following are extracts from a few of the many letters that have been received from different parts of Canada, which, we think, should be sufficient to satisfy the most sceptical: J. Collard, of Sparta, Ont., writes, "Send me 6 dozen Dr. Thomas' Eclectric Oil, have sold all I had from you, and want more now, its cures are truly wonderful." Wm McGuire, of Franklin, writes, "I have sold all the agent left, it acts like a charm—it was slow at first, but takes splendidly now." H. Cole, of Iona, writes, "Please forward 6 dozen Thomas' Eclectric Oil. I am nearly out, nothing equals it. It is highly recommended by those who have used it." J. Bopford, Thamesville, writes, "Send at once a further supply of Eclectric Oil, I have only one bottle left. I never saw anything sell so well and give such general satisfaction." J. Thompson, Woodford, writes, "Send me some more Eclectric Oil. I have sold entirely out. Nothing takes like it." Miller & Reid, Ulverton, P.Q., writes, "The Eclectric Oil is getting a great reputation here, and is daily called for. Send us a further supply without delay."
BEWARE OF IMITATIONS.—Ask for Dr. Thomas' Eclectric Oil. See that the signature of S. N. Thomas is on the wrapper, and the names of Northrop & Lyman are blown in the bottle, and Take no other. Sold by all medicine dealers. Price 25 cts. NORTHOP & LYMAN, Toronto, Ont., Proprietors for the Dominion.
