ELECTION OF MAYOR.—City Council for 1869 will meet at noon to-day, to organize and elect the new Mayor.

WEEKLY DRILL.—The right wing of the 14th Volunteer Rifles will muster at the Drill Shed this evening

ANSWERS TO CORRESPONDENTS.

"Enquirer" will receive the desired information by consulting Harrison's Municipal Manual.

"X.Y.Z." must be very ignorant of newspaper rules, otherwise he would not waste his time in writing anonymous letters to fill the waste baskets of editors—especially on such trifling subjects.

"An Indignant Subscriber" should not be offended at the silly special telegrams to the Montreal News, emanating from Kingston. We admit that they may be "very absurd and perfectly disgusting," but really we do not think them worthy of notice.

Election of Mayor.

To-day at noon the Mayor of Kingston for the present year will be chosen by the City Council, which will be assembled at that hour. It is utterly impossible for us to say upon whom the choice will fall, and all we hope is that the best man will be selected.

Agricultural.

On Saturday, the Annual Meetings of the two Agricultural Societies, (the Frontenac and the Electoral Division) took place at their different offices. At these Meetings it was a duty to elect one Member of the Board of Agriculture, and the choice fell upon Wm. Ferguson, Esq., the Sheriff, for many years a Member of the defunct Board of Agriculture At each Meeting Mr. Ferguson made an explanation of his conduct at the Sittings of the Board, in relation to the deficiency in the Treasurer's accounts, and his explanations were so satisfactory to both meetings, that he was elected unanimously. The after proceedings will be published to-morrow. It does not follow that Mr. Ferguson will be the Director from this District, because the other four Societies may make choice of another man.—We only hope he will, for he richly deserves the honor at the hands of the Agriculturists of this section of the Province.

The Alabama Claims.

A SATISFACTORY STATEMENT.

A treaty for the settlement of the Alabama claims, based upon the protocol, the principal stipulations of which have been given to the public within the past month or two, have been signed in London by Reverdy Johnson, the American Minister, and Earl Clarendon, the British Foreign Secretary. It will now come before the United States Senate for ratification, and if that body sincerely desires the continuance of peace between the two countries it will have no difficulty in disposing of a question which has proved irritating in the past and might, if left open longer, cause much trouble in the future. Lord Clarendon, in the interest of peace, has waived all the personal objections had to the acknowledgement of England's responsibility for the damage done by the Alabama; and if this attempt fails, to put an end to a long-standing dispute, it will be clearly be from no fault of the British government.—Leader.

The Burglary on Thursday Night.

(To the Editor of the British Whig.)

SIR,—The report furnished by the "Daily News" on Friday evening, relative to the burglary in my Brother's place, on Princess Street, is in some cases erroneous and unfair. 1st. They inform us that the robbery was committed in the store of James Parkhill & Co. As far as I am aware no such firm exists in this city. 2nd. The "News" would have us understand that Mr. Young is one of the firm of James Parkhill. This is certainly a new idea, and I am convinced exists nowhere except in the columns of Friday's "News." The other facts relative to the operations of the burglars, &c., are so well known that I will not occupy your valuable space with a repetition of them.

Your obedient servant,
JOHN YOUNG PARKHILL.

The Assembly on Friday.

A number of petitions were presented and received.

The Attorney-General moved that on and after Monday to the end of the session, there shall be, besides the usual sittings of the House, a morning sitting to commence at the hour of ten o'clock, and continue until the hour of 1 p.m.

The Attorney-General took occasion to say that the House would certainly be adjourned some day this week.

The House then went into Committee on the Whole on Mr. Richards' Mining Bill.

The Committee reported progress, and asked leave to sit again.

The House went into committee again on Bill to repeal certain enactments of the Legislature of Ontario.

The Bill was reported with amendments.

The House went into Committee of supply, and it was moved by Mr. Wood, that the sum of $1,645579 51 be granted by Her Majesty out of the consolidated fund of this Province. Carried.

The House went into committee on Bill to make provision for the selection of jurors for the county of York

The Bill was reported with amendments.

The House went into committee on Mr. Wood's resolution as to Tavern Licenses.

Mr. Wood moved the following resolution:—

That over and above the Municipal charge for licenses, the duty on tavern licenses be in cities, $20; in towns, 17 in villages and municipalities, 12, on bars on steamers, 20, on shop licenses, 12, and on all taverns not having the necessary accommodations for boarding, 25.

Mr. Wood said it was only fair to charge those who sold nothing but liquor a higher duty than hotel keepers who had to keep accomodations for travellers. He left it to the discretion of municipalities to charge more if they chose.

Mr. Ferguson said there was a limit to which taxation could be carried, and if that were passed, people would evade the law, and sell without license. He could not see why the Government should be so grasping when they had a surplus of funds in the treasury.

Mr. Boulton's amendment was lost, and the original resolution was carried.

The House went into Committee on bill respecting Taverns and Shop Licenses.

A long debate ensued.

Clause 10, of the bill, providing that a sum of not less $100 in cities, $80 in towns and $25 villages and municipalities, should be charged for tavern licenses in addition to the provincial duty, gave rise to a warm discussion.

It was moved by Mr. Rykert, that the tavern license for towns be reduced from $80 to $60.

The amendment was put to a vote, and carried.

Mr. Lyon moved in amendment that the tavern licenses in cities be reduced from $100 to $60.—Lost.

Clause 25, to change the hour for closing on Saturday evenings from 7 o'clock to 9 o'clock, was put to a vote and lost.

The Committee rose at midnight, and reported the Bill with amendments.

Attorney-General Macdonald introduced a bill to make further provision with reference to the district of Muskoka.

The House went into Committee on the bill to amend the act respecting the Court of Error and Appeal. Report adopted without amendments.

Bill No. 33 (Mr. Greely,) respecting titles to Union Houses of Religious Worship, was read a third time and passed.

The House adjourned at 12:30.

General News.

The Irish papers state that the celebrated author, Wm. Carleton, is in a precarious state of health. His recovery is hopeless.

Queen Isabella has created 519 Ministers of State, or one every twenty-four days; 700 senators, or one every sixteen days; and distributed 5,644 honors, or one every two days of her reign.

The reduction in the Naval and Military estimates of the Gladstone Ministry will have to be enormous, for Captain Vivian, the new "War Lord of the Ministry" recently assured his constituents that the expenses could be reduced to ten millions a year, without imparting the efficiency of the empire.

Much excitement has been caused among the Mexicans by the artful reports that treaties with the United States are intended to entrap the republic into acknowledgments of debts heavier than she can pay, whereupon in default of payment the United States will seize her territory and dismember the country.

A claim for damages caused by the breaking of windows during the recent election has been made by parties in Manchester (Eng.) The magistrates have decided against the claim, on the ground that, unless it can be proved the rioters intended to wholly demolish the buildings which they attacked—a very difficult matter—the claims cannot be sustained. The question is to be carried before the Court of Queen's Bench.

The Russian Government has decided upon assisting the starving Finns by sending them out bodily to colonize the Amoor regions. The emigrants will be carried by instalments from Bremen. Every man is to receive on his arrival 200 acres of ground, free of taxes for twenty-four years, together with the necessary implements, cattle, &c. This stock, as well as the expenses of the journey, is paid in eight years' time by instalments, to commence after the fourth year.

Kincardine Salt.

Kincardine, Jan. 15.

The Kincardine Salt Prospecting Company commenced manufacturing at their well in this village yesterday, with a block of 24 kettles. The result is most satisfactory. The brine is of great strength, and the salt equal to all respects to Goderich salt. They expect to turn out about 25 barrels per day.

DOMESTIC.

In the case of Hodder vs. the Telegraph, the Grand Jury at Toronto found a true bill for slander.

The Volunteer Relief Fund Committee held a meeting and voted $5,000 to complete the monument to the men at Ridgway.

The meeting of the friends of the Georgian Bay Canal in Toronto is thought generally to be an injurious affair. A scene so disorderly is calculated to deprive it of any influence.

The Orangemen of Toronto get ready about twenty cans of oysters, and a quantity of other refreshment, which were for a celebration supper; but when the bivalves were wanted they were not to be found, some one having made away with them. That was a spoiled supper, truly.

A child, seventeen months old, son of W. M. Neilson, of the Tariffe Examiner, has died from eating colored candy. The worst effects immediately followed, which undoubtedly caused its death.

Mr. John Robertson, conveyancer of Galt, who had been entrusted with considerable sums of money for investment, was discovered last week to have dishonestly squandered a good deal of it. Proceedings were about to be taken against him when he took French leave and departed for the the States. His misconduct is much regretted, as up to a recent period he was esteemed as an honorable and upright young man.

A French paper says that notwithstanding the official announcement that the Quebec Official Gazette would appear on the 12th inst., it will be practically impossible for it to do so, as tenders for the publication will only be opened on that day. It thereupon argues, fully carrying out the manly assertion of La Minerve, that the whole affair is a job of a very dirty kind—so badly concocted that the public cannot fail to see that the farce of soliciting tenders was a blind, and the office to be favored selected long beforehand.

BY ATLANTIC CABLE.

The Eastern Conference—Greece is bent on War—The Alabama Treaty Signed.

Paris, Jan. 14.

The conference held another session this afternoon. Mr. Rangabe, the Minister of Greece, was absent as before.

Paris, Jan. 15.

It is reported that the Grecian Minister has been entrusted by his government to announce that Greece is resolved to reject the decision of the conference if certain demands in the Turkish ultimatum are supported by that body.

All the indications are that Greece is bent on war. King George is preparing to retire to Napalia.

London, Jan. 15.

All the Great Powers except Russia have united in a demand upon Greece that, for the preservation of peace, she withdrew her formal objections to the conference as at presented constituted. The Powers have reason to hope that Prussia will also concur in this demand.

A treaty between the United States and Great Britain for the settlement of the Alabama claims has been signed by Mr. Johnson and Earl Clarendon, on the basis of the original protocol.

The final signing of the treaty excites favourable comments from nearly all the papers to-day.

A meeting of those favouring the ballot in Parliamentary elections was held in this city last evening. Able speeches were made by Milner Gibson, Charles Buxton, Edmund Beales and others. The assemblage was large and much enthusiasm was manifested.

Paris, Jan. 15.

The newspapers report that the Conference on the Eastern question held a harmonious session to-day, and adopted unanimously a conciliatory resolution. Mr. Rangabe was not in attendance. His continued absence is regarded as a refusal by Greece to recognize the Conference.

Distressing and Fatal Occurrence.

A WOMAN POISONED BY AN OVER-DOSE OF OIL OF CEDAR.

The Peterboro papers state that on Tuesday night last an extremely sad and tragic event took place in this town, which not only has cast a gloom and woe on the family immediately concerned, but has produced great excitement throughout the community. Mrs. Stinson, the wife of Mr. James Stinson, from an over-dose of oil of cedar, died suddenly after severe convulsions. The deceased was the mother of five children, and, as she was unwilling that her family should be increased, the oil of cedar was resorted to, to produce the desired effect. For the last two months the unfortunate victim had been undergoing a course of medicine towards the accomplishment of her purpose; when the dose which caused her untimely death had been recommended by some neighbor as a sure preventive against the matter at issue. Her husband procured the draught. She took an ounce of the oil, which produced a lamentably speedy effect, so much so, that she never spoke after a few minutes, and after several spasms died in about two hours. Medical aid was procured at once, but so completely had the poison done its work that all their efforts proved wholly unavailing.

The post mortem examination revealed that she had died of congestion of the brain, induced by this dose of Oil of Cedar, as there was a large quantity of it floating on the liquids in the stomach when opened. She was also enciente, but if not more than three week's existence.

This is a very trying case. The unfortunate woman who has so fearfully paid the penalty of dealing in drugs for such a purpose, leaves behind her five small children; and the husband, in the bereavement, pain of mind and body, and future remembrances of listening to her folly, will not much less suffer for his indiscreet act, not to use a harsher term. It is painful learn on good authority, that the dreadful effects of such nefarious drugs are of daily occurrence.

PHENOMENON.—A volcanic action on the posterior hemisphere of the moon has been observed by Mr. DeCrety, a French savant, at Sarah Island, opposite Acien, at the time of the solar eclipse which took place in the East. He observed, he says, three luminous protuberances on the moon unite; they were feebly illuminated and resembled the tops of mountains receiving light from the solar rays. Fifteen minutes later two-thirds of the sun disc having emerged from the moon, the same appendages were seen more strongly illuminated and better distinguishable from the lunar disc; their summit had the appearance of mental infusion. This is a phenomenon hitherto unheard of in the annals of astronomy.

Legislature of Ontario.

Thursday, Jan. 16

Certain returns were asked for by Mr. Lauder relative to the Court of Chancery, which were ordered after Mr. Blake had administered a correction for the criticisms on the court. The Attorney General deprecated the expense.

MEDICAL BILL.

Bill No. 30 (Mr. McGill) to amend and consolidate the Act relating to the profession of medicine and surgery.

Mr. Beatty moved in amendment that the Homœopathic and Eclectic schools of medicine be included in the bill. He stated as his reason for introducing the amendment that it would be well to protect the public from ineffectual practitioners, to whatever school they might belong, by admitting them to the same privileges as the Allopathic School, and granting them diplomas before allowing them to practice in the country.

A long debate ensued, which terminated in the motion being carried, and the amendment was inserted in the bill.

The bill was reported with amendments, and ordered for a third reading.

TOWNSHIP WARDS.

Mr. Currie moved that the House resolve itself into Committee of the Whole on Monday, to consider the following Resolutions:—

1. That it is expedient to amend the Municipal Law so that each Township shall be divided into four wards, and the Electors of each ward elect one Councillor.

2. That the Electors of the whole Township shall elect one Reeve, and the Council of any township having over one thousand names on its last revised Assessment Roll shall elect one Deputy-Reeve. Carried.

WILL OF SIR HENRY SMITH.

The House went into Committee on the bill to grant relief to Lady Smith, and to enable her to manage the estate of her late husband, Sir Henry Smith.

In Committee, Mr. Scott (Ottawa) moved an amendment, which was agreed to.

The Bill, as amended, having been reported, and concurrence moved.

Mr. Lauder said the amendment just agreed to was moved in the Private Bills Committee, but was rejected by the promoter of the Bill. It was due to the House that it should understand why he now accepted it.

Mr. Scott (Ottawa) said he accepted the amendment on the principle that self-preservation was the first law of nature. (Laughter). The bill made a narrow escape on the second reading, and he did not think it would be prudent to let it run the gauntlet the second time. The amendment, however, was not the same as had been moved in the Private Bills Committee. It simply amounted to constituting Lady Smith trustee for the minor children, as regarded their rights under their father's will; but she had full power to deal with the estate, and if she thought proper to sell it, and vest it in other securities.

Mr. Blake said he also might explain why he had come to the conclusion to accept the amendment. The principle announced by the promoter of the bill, that self-preservation was the first law of nature, if it held good with regard to the conquerer, held good a fortori with regard to the conquered. He had felt it his duty to try to get the bill as nearly right as he could.

The report was then concurred in, and the bill ordered for a third reading to-morrow.

TIMBER DUES.

In taking part in the timber debates, Mr. Calvin rose because the Government had no settled policy on this subject. The would not sell the land, timber and all; nor would they give a long license. Now, either course would tend to preserve the timber. As an old lumberer, he could state this. He believed the best policy of the Government would be to sell the land out and out; and he would not sell it for 50c an acre either. They ought to announce, say that next year they would sell a certain township, and by the time the sale came on, they would get a better price for it, and would be able to part with it a $1, or perhaps $2, an acre. He did not believe in the policy of selling just 200 acres of land to any person, and no more. A land jobber would be the best agent, for he was and interested one.

Angling for Canada.

Joseph Medill, one of the proprietors and editors of the Chicago Tribune, has written an article calling upon Gen. Grant to "say but the word," assuring him that in reply hundreds of thousands of his old warriors would "rally around the flag," and carry it to the invasion and conquest of the new Dominion of Canada.

That there is a strong feeling throughout the Union in favor of the annexation of this great British territory to the United States everybody who knows our people is well enough aware. It is not only a natural ambition on our part, but it is also a matter of public policy, and concerns very intimately both the trade and commerce of the country.

We have for many long years cast a loving eye upon the fur trade and cod fisheries of Canada, to say nothing of its vast lumber districts, its wheat and corn growing lands, its fine harbors and superb rivers. As the Dominion is ruled at present, it is ruled at a loss. Its immense resources are undeveloped, and the industry of the people is in consequence almost paralyzed. We want it, in fact and it wants us. Even the Canadians have no real objection to be cut adrift from the mother country, and to be joined in social bliss to the daughter and her nieces.

Mr. Medill writes with vigor, and cannot be accused of being mealy-mouthed in his propositions respecting annexation. He says truly that we owe the English nothing, not even the consideration due to an ally, after their treatment of us during the war, and their cold-blooded destruction of our once ubiquitous marine. We need not, therefore, according to Mr. Medill's showing, be squeamish in dealing with them about Canada. He suggests the purchase of the country by giving to Great Britain a receipt in full of the Alabama claims and $100,000 to boot. If she refuse to accept such liberal terms, then we are to take immediate possession, and so sweep away all our vexatious custom-houses and tariffs at a blow.

Mr. Medill has a very prompt answer to those who might question our right to deal this high-handedly with Great Britain, asking how this power got Canada away from France? how Prussia added one-third of Germany just now to her dominions? and how Britain obtained her East Indian possessions?

In one hundred days Gen. Grant may decide the question "Aye" or "No." If he says "Aye," then Mr. Medill thinks the Dominion will be ours. But is it worth while to make war about it? We think not.—N. Y. Sun

SHIPWRECK.—Washington, Jan. 14. The steam ship Gulf City, bound from Galveston to New York, went aground off Point Lookout, on Monday night, and in a few hours was dashed to pieces. Three of the crew were picked up on Wednesday. There were 25 persons on board the ill-fated steamer, and only three are known to have been saved.

Mr. Neil Shannon, an old and highly esteemed merchant, died yesterday.

Our exports in December were $753,901, against $545,909 the previous year.

The hardware store of W. & B. Francis, was broken open last night, and $100 taken from the safe. Lapointe, their storeman, was arrested, just as about to leave the city, and the money was found on him.

A soldier of the 69th Regiment, who took part in Doody's funeral last Sunday, by marching in the procession, was identified by a Sergeant of the 78th Highlanders, and is now under arrest, awaiting trial by Court Martial, for taking part in the supposed Fenian demonstration.

BREAKFAST.—A SUCCESSFUL EXPERIMENT.—The Civil Service Gazette has the following:—"There are very few simple articles of food which can boast of so many valuable and important dietary properties as cocoa. While acting on the nerves as a gentle stimulant, it provides the body with some of the purest elements of nutrition, and at the same time corrects and invigorates the action of the digestive organs. These beneficial effects depend in a great measure upon the manner of its preparation, but of late years close attention has been given to the growth and treatment of cocoa, that there is no difficulty in securing it with every useful quality fully developed. The singular success which Mr. Epps attained by his homœopathic preparation of cocoa has never been surpassed by any experimentalists. Far and wide the reputation of Epp's Cocoa has spread by the simple force of its own extraordinary merits. Medical men of all shades of opinion have agreed in recommending it as the safest and most beneficial article of diet for persons of weak constitutions. This superiority of a particular mode of preparation over all others is a remarkable proof of the great results to be obtained from little causes. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtile Maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."

REMARKS.

The market has continued fairly active, most Bank stocks showing an advance upon last week's prices, with considerable transactions at the higher quoted rates.

Bank of Montreal—Sales at 138¾ and 139. The latter price is still offered; sellers ask 140.

Bank of British North America—No supply of this stock in the market.

Ontario Bank—Is freely offered at par, at which there have been some sales.

Bank of Toronto—No stock whatever in market; buyers would pay 118.

Merchants Bank—Has advanced, with sales at 107½; offered to-day at 107½, with buyers at 107.

Gore Bank—Has been enquired for during the week; sellers held at 45.

Royal Canadian Bank—There has been a little better enquiry for this stock the past week. Buyers would now give 85.

Notice to Insurers.

THE BRITISH AMERICAN INSURANCE COMPANY is now prepared to Insure Dwelling Houses and other non-hazardous Isolated Buildings, for a period of Three Years on the payment of Two Premiums.

These advantages, coupled with the low rate at which this Company is prepared to Insure such property, must make the plan now proposed particularly acceptable to the owners and occupiers of the numerous private residences springing up in the vicinity of the cities and towns of the Province, as well as to Farmers, and the Trustees or Wardens of Churches, School Houses and other Public Buildings. All kinds of property, including Live Stock, Insured. Further particulars can be obtained at the Office of the Undersigned, Clarence Street, opposite the Post Office.

THOS. WILSON,
Agent.
