Paris, Jan. 23.

A Russian officer has discovered a gun which is said to fire two hundred shots a minute.

It is said that the Emperor, in view of conciliating Italy, has advised the Pope to renounce his claim to the Roman Territory in favor of Victor Emmanuel, and to keep only the city of Rome.

Hague, Jan. 20.

Negotiations are said to be going on between Holland and France for the cession of a small Malaisian island, of no value whatever to Holland, but of great importance to France, which has no naval station in that region.

London, Jan. 20.

A dispatch from Constantinople announces that the Turkish Empire is menaced by a most dangerous revolution. The Mohammedan clergy have risen in crusade against the Christians, and have unfortunately carried the population with them. The population is represented as being hostile to the Sultan and his ministers, who are accused of yielding to the suggestions of the Western powers.

Madrid, Jan. 23.

A proposition declaring all vessels engaged in the slave trade as pirates is under the consideration of the government and will probably prevail.

London, Jan 23.

It is said that the government has now under consideration a well considered plan of emigration, the funds for which are to be supplied by an appropriation voted by Parliament.

It is said that a number of extreme Ritualists who can not consent to conform to the recent judgment of the Judicial Committee of the Privy Council in the case of Martin vs. Marchonschie, are considering the propriety of an immediate secession with the view of the establishment of a Free Church of England. In the event of carrying out this course, they would select Bishop Jenner, who is returning from Dunedin, as their bishop, and a church organization would at once be complete.

General Items.

Colonel Ermatinger, of Montreal, is dead.

The bad feeling between the military and civilians of Quebec is extending, and leading to unpleasant consequences. The Quebec Skating Rink stockholders have refused to accept subscriptions of officers of the 53rd regiment, on account of their treatment of Mr. Lemesurier.

The Rev. Joseph Wild, who is especially engaged in raising money to free Albert College, Belleville, from debt, has obtained $4,000 of the $10,000 he had promised to raise, and hopes in a few weeks to have the whole sum.

Montreal gossips have got a new scandal to talk about. The Star says that an officer of the 60th Rifles attempted on Friday night to elope with Miss C., the daughter of an eminent magistrate of that city. They were on the 10.10 train, bound for Quebec, a sleeping berth engaged, when they were surprised by the lady's father, and the elopement was fortunately prevented. Further developments are awaited.

Charles Sumner has just been re-elected from Massachusetts; Hanibal Hamlin, from Maine; Ramsay, from Minnesota; Fenton, from New York; Schurz, from Missouri; Conkling, from Michigan; and Cumback, from Indiana.

"Shinplaster wedding" have been started in some of the Western States, to be given by newly married couples if they have lived together happily for a year. They are not of frequent occurrence.

Complaint is made that, unless some check is interposed, deer will soon be extirpated in the northern woods of New York. One hunter employs about thirty men to hunt for him during the season, and sends the products of their guns and skill to market. Thus far he has sent upwards of five hundred carcasses to New York and other cities. The price of deer's meat by the carcass is from twelve to fifteen cents per pound.

There is again serious complaint and a growing alarm because of the continued unusual cold in Florida. The orange, lemon, lime, citron, shaddock, guava, mango, pineapple, sugarapple, and all tropical fruit trees either been killed or seriously damaged, and great loss is inevitable.

The Effects of a Libel Suit.

The Chicago Tribune, having been mulcted in damages for libel, shows by the following remarks how the iron has entered its soul:

Under the latest exposition of the libel law, as expounded by an 'intelligent' jury, it is hardly safe for a newspaper to publish news unless it is hedged in on all sides by the word 'alleged.' For instance.

Police News.—An alleged man was brought yesterday before an alleged Justice at an alleged Police Court, on the alleged charge of alleged beating of his alleged wife. An alleged policeman took an alleged oath, and alleged that he caught the aforesaid alleged man attempting to violently open the alleged throat of the alleged wife from ear to ear, with an alleged razor. The alleged man was held in alleged bail in alleged $500.

Suicide.—An alleged woman made an jump from an alleged five-story window and broke her alleged neck. It is alleged she will recover.

Commercial.—It is alleged that an alleged dead pork is lively, and alleged live hogs inanimate.

Marriage.—It is alleged that an alleged man was married to an alleged woman by an alleged minister at an alleged church, and that the alleged man gave the alleged woman an alleged kiss.

Died.—An alleged oldest inhabitant gave up an alleged ghost.

Alleged.—It is alleged that an alleged man, dressed in an alleged suit of store clothes, alleged, yesterday, that another alleged man was alleged to have alleged to an alleged woman that her alleged husband was alleged to have been seen with an alleged woman who lived in an alleged house of alleged disreputable fame who alleged that it was alleged that she alleged that he alleged that that other she alleged that the allegation of an allegation alleged to have been alleged.

Despoiling Utah.

The empire of Brigham Young is to be despoiled of its fair proportions. A bill has been introduced in Congress and will probably pass into law, dividing Utah among the surrounding territories. One portion is to be attached to Colorado, another to Nevada, a third to Montana, and a fourth to Wyoming, leaving to the more Salt Lake city itself to the much-married Brigham. It is believed that by this means, in conjunction with the social changes which will be produced by the completion of the Pacific Railway, his authority will be overthrown without resort to repressive measures. Mormonism is now a political as well as a religious power, which is greatly strengthened by the presence of a territorial legislature in Salt Lake City—a legislature which is entirely subservient to the interests of the Mormon "church." If an end to put to its existence and the territory dismembered, Mormonism will have its strength, whatever it may be, as a peculiar form of religious belief to defend upon; and then it may fight its way as best it can. It is disgraceful that it has been allowed to exist so long, but heretofore the only measure which it was possible to take against it was one of force. It would hardly have been prudent to have resorted to that, for the Mormons would have called it persecution and perhaps have profited by it. With the advance of civilization and the growth of a Christian population in Utah, the vile thing will more readily yield to measures of reform which may be proposed at Washington.—Leader.

New York to Chicago, via New Orleans. It is a remarkable and very significant fact that there have recently been going through New Orleans heavy shipments of Malaga fruits, &c., from New York, to Chicago, Milwaukee and St. Louis. The railroad charges are so heavy that it pays to ship freight to the West by sea from New York.

NEWS OF THE DAY.

TUESDAY MORNING, JANY 26, 1869.

Soiree To-night.—We would remind our readers of the Soiree of the St. Vincent de Paul Society in the City Hall to night. From the extensive preparation made, there can be no doubt that this entertainment will surpass any held in Kingston for many years. The music is that of the R. C. Rifles, and the supper is provided by the Roman Catholic ladies of Kingston, which is saying all that could be said of it. We would advise all who wish for a night of pleasure to go.

Ontario Missions.—The annual missionary meeting in St. Paul's Church, Division street, will be held on Friday evening next.

This evening the missionary meeting will be held in St. Paul's Church at half-past seven o'clock.

Good Piano Forte.—'Hell is paved with good intentions,' so said old Dante, and he never said a truer word. The Piano Forte used by Mr. Meyerhoffer at Mr. Prume's Concert, was a particularly fine instrument, manufactured by Messrs Rappe, Weber & Co., and Mr. Meyerhoffer admired it so much, that he requested a special notice of its great merits, which the British Whig promised to make; but—the proverb is too musty to repeat—the promised notice was forgotten in yesterday's account of the Concert. Suffice it now to say, that the Piano in question is a very beautiful, highly finished seven octaves instrument, with tone both powerful and sweet. We are glad to say this, for Messrs. Rappe, Weber & Co. are hard working young men, striving their very best to keep their Manufactory afloat by making none but good Pianos. Messrs. Prume and Meyerhoffer have already published their opinion of this particular instrument.

14th P. W. O. Rifles.—No. 5 Company is required to meet at the Drill Shed this evening at half-past seven o'clock, to perform its weekly drill with the other companies of the left wing. As an instance of liberality, we may mention that Capt. F. Werner has generously purchased a number of tickets for Mr. Hindmarsh's Concert on Thursday evening next, one of which he will present to every enrolled member and intending member of his company this evening.

The Churches.—Through the holding of the anniversaries of the religious societies last week and the annual mission meetings this week, a number of clergymen have been gathered here, and on Sunday the pulpits of many of the city churches were filled by strangers.

The Rev Mr. Hammond, of Picton, preached in St. George's Cathedral in the morning

At St. James', the Rev. Mr. Moffatt resumed his weekly lectures on the Book of Leviticus.

The Rev. Mr. Jones, of Belleville, occupied the pupit in St. Mark's, Barriefield.

The Rev. Mr. Mulock resumed his duties in St. Paul's Church, having recovered from his late illness.

Lt.-Col. Haultain, who addressed the meeting on Friday evening last on behalf of the French Canadian Missions, preached in Chalmers' Church in the morning to a large congregation. In the afternoon, after free service in St. Andrew's Church, he delivered an address to the young.

In the Wesleyan Churches special sermons were preached in connection with the Wesleyan Mission Society. The Rev. Wm. Graham Campbell, of the Irish General Mission, a distinguished clergyman, preached in Queen Street Church at the morning service, and in the Sydenham Street Church in the evening. The Rev. D. Macdonald preached in Sydenham Street Church in the morning, and in Queen Street Church in the evening. The annual meetings, in connection with the same missions, are also being held—last evening in Sydenham Street Church, this evening at Queen Street Church, and to-morrow evening at Portsmouth.

Trotting Matches.—To-day a series of trotting matches is to come off on the ice near the city. Several sporting gentlemen, with commendable zeal, undertook to carry out the races, but it is to be regretted that they did not give them proper publicity, for as it now is very few persons beyond those particularly interested know anything about them.

Sad Accident at Napanee.—On Saturday morning a little boy of Mrs Trousdale, Napanee, widow of the late Dr. Trousdale, accidently got hold of a small bottle of oil of smoke, and swallowed about a teaspoonful. Dr. Shirley was sent for and did all that could be done, but the child died in a short time.

Police Court, Monday.—The bill of fare presented this morning to the Court loungers was not of that attractive or appreciable kind which the attendance in such weather merited. First one of the boys, John Rice, had so far departed from the path of sobriety as to lay himself open to a charge of drunkenness, and its almost invariable adjunct, disorderly conduct. He was fined $2, which was paid, and he departed, surrounded by his anxious friends. The other candidates for magisterial honors were four of the old stagers, whose faces are as familiar as that of the Court-room clock. Elizabeth Albert, Johanna Murphy, and Norah Conley, three nymphs du pave, and Ambrose Brosseau, a regular boarder at Castle Corbett, were all charged with vagrancy, and not being able to pay the customary fine, were all sent back to gaol for 60 days, with the exception of Albert who received a sentence of thirty days only. The prisoners were elated at the prospect of obtaining good living over the winter. Judging from their healthy appearance, prison fare has anything but an injurious effect on them.

The police on Saturday were informed of the robbery, through threats and intimidation, near the village of Yarker, of the house of a farmer named McDonagh, on Friday night. Two men, representing themselves as deserters wanting money to pay the expenses of their passage to Yankee land, entered the house at ten o'clock at night, and obliging McDonagh to hand over his keys, ransacked the whole house, while the family were too frightened to offer resistance. Having completed their search, they left unmolested, carrying with them $9 in bills and $100 in silver, a receipt of the Bank of Montreal for $500, and one of the Bank of British North America for a similar amount, and a note of a farmer for $30.—The watch-dog, which disputed the right of the robbers to intrude at such a late hour, met his death at their hands, like a trusty sentinel at his post, a martyr to the exigencies of the robbers' case.

FELLOWS' COMPOUND SYRUP.

A peculiar characteristic of Fellows' Compound Syrup is its power of decomposing the food in the stomach, rendering digestion and assimulation more perfect. This partly accounts for the rapidity with which patients take on flesh while using the article.

Diseases such as Consumption, Brochitis, Debility from Typhoid and other low Fevers, from excessive grief, study, or close confinement, and prostration of the vital powers, yield to Fellows' Compound Syrup sooner than any remedy ever before discovered.

The muscles of the stomach are strengthened, digestion becomes complete, the absorbant vessels take up nutrition, the blood becomes vitalized and pure—the nervous system vigorous, and the thin, pale or sallow complexioned become plump and hearty, and regain the ruddy tint of health.

Sold by Apothecaries. Price $1.50 per bottle, or 6 for $7.50.

Look to Consequences.—Remember that Dyspepsia is not only a terrible disease in itself, but the direct cause of a whole host of maladies. No human being is so susceptible to all unhealthy influences as the confirmed dyspeptic. Why, is the name of reason, does any one continue to risk the consequences of Indigestion, when a course of Radway's Regulating Pills will effect a perfect cure in any case, however aggravated.

PERUVIAN SYRUP.

A PROTECTED SOLUTION OF THE PROTOXIDE OF IRON supplies the blood with its LIFE ELEMENT, IRON giving strength, vigor and new life to the whole system.

If the thousands who are suffering from Dyspepsia, Debility, Female Weaknesses, &c, would but test the virtues of the Peruvian Syrup, the effect would not only astonish themselves but would please all their friends for instead of feeling cross, "all gone" and miserable, they would be cheerful, vigorous and active.

The Perfection of Prepared Cocoa.

Maravilla Cocoa.

Sole Proprietors, - - - TAYLOR BROTHERS, LONDON.

THE COCOA (or CACAO) of MARAVILLA is the true THEOBROMA OF LINNEUS. Cocoa is indigenous to south America, of which Maravilla is a favoured portion. TAYLOR BROTHERS having secured the exclusive supply of this unrivalled Cocoa, have, by the skilful application of their suitable principle and elaborate machinery, produced what is so undeniably the perfection of prepared Cocoa, that it has not only secured the preference of Homœpaths and cocoa-drinkers generally, but many who had hitherto not found any preparation to suit them, have, after one trial, adopted the Maravilla Cocoa as their constant beverage for breakfast, luncheon, &c.

"A Success Unprecedented."

[See following Extract from the Globe of May 4, 1868.]

"Various importers and manufacturers have attempted to attain a reputation for their prepared Cocoas, but we doubt whether any thorough success had been achieved until Messrs. Tylor Brothers discovered the extraordinary qualities of 'Maravilla' Cocoa. Adapting their perfect system of preparation to the finest of all species of the Theobroma, they have produced an article which surpasses every other Cocoa in the market. Entire solubility, a delicate aroma, and a rare concentration of the purest elements of nutrition, distinguish the Maravilla Cocoa above all others. For Homœopaths and invalids we could not recommend a more agreeable or valuable beverage."

Sold in packets only by all Grocers, of whom also may be had Taylor Brothers' Original Homœopathic Cocoa and Soluble Chocolate.

Polonius.—To thine own self be true, And it must follow, as the night the day Thou canst not then be false to any man. Hamlet, Act 1. Scene 3

Puffs are the known device of quacks and cheats,
Rapacious, striving by unscrup'lous feats
Of turgid boasting, deftly to deceive
Victims unwary who their tales believe.
Inform their arts, and vaunt no spurious ware—
Soundness in quality's my constant care,
In each transaction 'tis my anxious aim
O! MORRISON to keep the upright name
No custom's sought where value's not returned.
Such is my scheme. Adulteration's spurned!

M. MORRISON.
