boring Republic, particularly when it is well known that he and his company were citizens of that country.

We beg leave to tender our thanks to Mr. Stanton, H. M. Printer for a copy of the Provincial Statutes, passed in the third Session of the eleventh Provincial Parliament.

We notice that our friends of the Chronicle have enlarged the size of their paper, and have partially altered its title, that Journal now being known as "The Kingston Chronicle and Gazette, and Weekly Commercial Advertiser," the appearance of which is highly creditable to the proprietors; and we hope their subscription list will be enlarged proportionably.

Messrs. Connor & Cooke of New York, have issued "Proposals for publishing by subscription the complete works of Sir Walter Scott, with a biography; being the first American (and only) edition, which contains the author's last additions and illustrations, arranged upon their respective pages"—in seven vols. at $3 per vol.

The early rising and peaceably inclined part of our inhabitants have been annoyed some few mornings past by the collection of large numbers of laborers and mechanics en masse or in procession for the purpose of witnessing, in or near Town, pugilistic matches, or "*Treats to the fancy.*" We are happy to learn, however, that our constabulary force were in array, yestesday morning to disperse such a mob, had it collected, and stop such brutal "amusements."

We have been informed that during the thunder storm which took place on Sunday night, the west end of Mr. Ellerbeck's barn was struck by the lightning which flashed with the most awful splendour for about two hours. At the same time a pair of Cart wheels belonging to Mr. Donnelly, were bereft of their tire, and the iron thrown some distance from the wood-work

For the flag of Royal "Truth"
'Tis their duty to knock under.

The Public are respectfully informed that an additional Prospectus may be expected for "the Alembic of Truth" to be connected with JEFFERS' MAGAZINE.

Died.

On Thursday the 27th ult., George Alfred, third son of Mr. William Wilson, aged 2 years and 8 months.

At Salem, N. Y. on the 15th ult., Mr. Henry McKay, in the 27th year of of his age.

Montreal, Monday morning, 9 o'clock.

A shocking accident occurred yesterday afternoon on board the Canadian Patriot, when entering Laprairie on her second trip, by the bursting of the cannon from which the usual salute is fired. The pieces into which the gun burst struck two of the crew, one of whom, it is said, died instantaneously, and the other was so severely wounded that his death was every moment looked for.—[Mon. Gaz.]

By the Canada steamer, which arrived during the course of the evening, we have received our Quebec papers of Saturday.—Only two additional arrivals are mentioned, but several are announced at Telegraph.—The Canada reports 1300 settlers at Gross Isle, the most of whom had engaged to come up in the British America and St. Lawrence, both to leave to-morrow evening.—[ib.]

The arbitration on the subject of the proportion of duties payable to Upper and Lower Canada, was brought to a close on Wednesday afternoon. The result will not, of course, transpire till the Provincial Parliament meets. The Hon. Ward Chipman, accompanied by his friends, Mr. and Mrs. H. Bowyer Smith, and Mr. R. F. Hazen, left town Thursday afternoon on his return to New Brunswick, visiting Saratoga on his route. The Hon. Mr. Markland left town for the States on Friday, and will also stop at the Springs a few days, ere he returns to Upper Canada.—[Ib.]

YORK ROAD.—We learn that the work of Macadamizing the roads near York agreeably to the Act of last session, was commenced on Monday, on a mile of road in Yonge Street, adjoining the Town. The Work is conducted under the Superintendence of MR. CULL.—[Ib.]

LITHOGRAPHY.—Our friend Tazewell, we are happy to say is closely engaged under the patronage of His Excellency the Governor, Capt. Hurd the Surveyor General, and the Honorable Peter Robinson, in works of the highest utility to the Province generally and to Emigrants most especially. He has now under hand a variety of Maps of Townships executing in admirable style, with which it should be the care of Emigrants to provide themselves, which we understand they can do for as little as 1s 3d. each. No person in the Province should be without a map of the Township in which he resides, or in which he holds land. We have now one lying before us, comprising the Townships of Sunidale, and Vespra, as they are bounding by Nottawasaga, Mulmer, Tosorontio, Flos, Oro, Ess, and Innisfil, and showing parts of Lake Huron and Simcoe, together with an account of distances from York and cost of transporting passengers and baggage. The utility of such a map is strikingly apparent.—[Patriot.]

ROBBERY OF THE OFFICE OF THE UPPER CANADA BANK AT COBOURG.

The unpleasant duty devolves on us this week of noticing a very serious robbery, which was committed in this village on the evening of Wednesday last, the 19th inst. The Office of the Bank of Upper Canada, which is in the same building with the Post Office, was entered between the hours of 9 and 10 o'clock, P. M. during the temporary absence of the Clerk, and property stolen to the amount of £1,500, consisting of Cash and Bank Notes. The entrance in all probability was effected by creeping under the stoop of the building, and getting over a partition into the cellar, communicating with the office. The villains then opened a Bureau in which was the key of the Iron Chest, and by that means got ready access to the money of the Bank. Having stripped the Iron Chest of all but about £50 of silver, they locked it again, and replaced the key in the Bureau, which they also locked; so careful were they to disturb nothing in the office, calculated to excite the suspicion of the Clerk; and it was not till 10 o'clock next morning, that the robbery was discovered. Every means have been used to find out the delinquents, but as yet nothing has transpired that is likely to lead to a discovery of them.

About 11 o'clock, on the evening of Thursday, a part of the stolen notes (about £500) was thrown in front of Mr. Jas. G. Bethune's house.—(Cobourg Star.)

SINGULAR CALF.—On Monday last, a cow belonging to Mrs. Kay, of this town, brought two good sized calves, one of them had only *two legs*. The calf is apparently full grown, and in perfect shape every way, except the want of the two front legs.—Mrs. Kay gave the calf away to a man who is going to try to raise it.—[Cornwall Observer.]

THE CANAL.—It is reported in this place, that John Macaulay Esq. of Kingston, has succeeded in obtaining a loan of *fifty thousand pounds*, for the purpose of making the canal from this place to the head of the Long Sault. If this is the case, it is very probable the work will be commenced soon, as we have been informed that the survey is nearly completed.—[ib.]

DEATH BY DROWNING.—On Sunday morning last, James Caffrey, while bathing in the Black River, a short distance above this village, incautiously ventured beyond his depth, and not being able to swim, was drowned. The deceased was a House Painter, and not long since from Brockville, Upper Canada, where, as we are informed, his wife still resides. The body has not yet been found.—[Watertown Reporter.]

DEATH BY SOMNAMBULISM.—On the evening of the 1st. a short time after the steamboat Niagara had left this place on her passage up the lake, one of her passengers, named Samuel Jeffers, who was sleeping on the upper deck, rose in his sleep and deliberately walked off the side of the boat. Efforts were immediately made to regain his body, but without success. The deceased was a resident of Sangerfield, Oneida county N. Y.—[Erie, (Penn) paper, May 23.

PRESCOTT STEAM FOUNDRY
AND
ENGINE MANUFACTORY.

THE subscriber having erected a Foundry, to be conducted by *Mr. Samuel Hulbut*, as Engineer and Agent, who is highly recommended by *Mr. Avery* for skill in his profession, would inform the public that he is now ready to make

STEAM ENGINES

Of as large or small sizes as the country may require, for Boats, Saw Mills, and other purposes, either High or Low Pressure.—High Pressure Engines in Distilleries, where grain can be ground with the same steam that would be required to run the charges, if ground otherwise. Boilers, without Engines, for Distilleries, &c. Also, Castings, of almost any dimensions; Mill Castings, of all sorts and sizes, turned and finished if required; clothiers,' and small screws for raising mill stones, and screws generally, of double or single threads square or sharp.—All kinds of Turning and Finishing done in as good style as in the United States or Canada.

Mr. Hulbut has also paid particular attention to MILL GEARINGS, and those who favor me with that kind of business, may rest assured that their work will be done on the most approved plans.

Ploughs and Plough Castings, Sleigh Shoes, Andirons, of various Patterns, Brass Castings, Bells, &c.

Having experienced workmen, he feels confident that he can give satisfaction to all who may favor him with their custom.
