COUNTY NEWS.

INTERESTING LETTERS FROM OUR STAFF OF CORRESPONDENTS.

A Budget of News and Gossip.—Personal Intelligence.—A Little of Everything, well Mixed up.

DELTA.

Mr. White, the revivalist, is conducting a very successful meeting here now. Rev. Mr. Rilance is working with him and by their united efforts great results are hoped for.

Business is booming, thanks to the snow.

Messrs. Copeland and Bell have completed their course in the Brockville Business College. Clate has been very ill since his return. Will, after having his life insured, is doing business with his father.

Miss M. Gardiner was the guest of Mrs. Estella Brown part of last week.

Misses Day and Bellamy were in Delta. Came by train to visit at Mr. R. Whaley's. When did they return?

ELGIN.

Saturday, Feb. 22.—Miss Dargavel has gone to Brockville on a visit.

Mr. H. C. Chisholm has returned from Peterborough where he has been engaged in the Singer sewing machine business.

Rumor says one of our townsmen is about to fall into a large fortune.

The young people attending the concert at Morton, Friday evening, spent a very pleasant time.

The Valentine party held at Miss Pennock's was a success. Each person in attendance mailed, also received, a valentine. The evening was spent in playing various games which afforded lots of amusement. Refreshments were served towards the close of the evening. Some of the valentines were read aloud, affording great laughter, and to the surprise of everyone we found a poet in our midst. It is really a pity that "they have hid their light under a bushel so long," but then, "Full many a flower is born to blush unseen and waste its sweetness on the desert air."

ELBE MILLS.

Monday, Feb. 24.—Mrs. E. Haskins is seriously ill.

Mr. Jas. Weaver has been re-engaged by Messrs. Bates and Brown, as cheesemaker.

Mr. and Mrs. Wesley Tackaberry lost their only child, by death, last week.

There were about twenty converts at Rev. Mr. Wilson's revival services here and a strong religious feeling has been awakened.

The scarcity of news from this place lately is attributed to your scribe being somewhat indisposed. Well, it could scarcely be expected that a person with his head, throat, and mortal inwards in the grippy grip of La Grippe would be in a position to attend to much work.

From the present outlook, there will be several changes in our neighborhood this spring. Mr. Wm. Mott is moving to Hard Island; Mr. Tripp intends going to Brockville or Smith's Falls; our worthy blacksmith is in one of his migrating moods and wants to sell out (better let well enough alone, "Billy," and remember that "a rolling stone gathers no moss"); and our 150 lb. lady is also determined to leave, no doubt for the reason, that our east end farmer still allows his pigs to run at large. It was bad enough when he had only two, but when it comes to having seven or eight Berkshires roving around, it is no wonder that the people should want to get away.

TEMPERANCE LAKE.

Saturday, Feb. 15.—In the month of December many were sick on this street. Since that time nearly every member of every family in the settlement has suffered severely.

Mrs. Wm. J. Earl has just recovered from a long and dangerous illness. At times her recovery was doubtful.

At present, Mr. Eli Mansel and Mrs. Mansel are ill. For nearly a month they have been subject to alarming changes and symptoms.

The oldest resident, Mrs. Wm. Avery, since the death of her son Wilbert, has been ill and at present is at the point of death. Mr. Delbert Avery has been very sick.

Dr. Harte, by his assiduous attention, skillful treatment, and agreeable manner has won great praise and inspired confidence in the people in the cases referred to.

This community, almost an exception, is in good circumstances and it is a pleasing reflection that people here never weary in waiting on one another in this protracted trial. A common foe draws us together, if only by sympathy. All nations considered, is it not doubtful if there was on our globe at one time so many sick as in the last three months? and the mortality may yet fall far, for the whole earth, to any equal given period in the past.

Among the many who spend a great deal of time in waiting on the sick, Mr. William Earl is prominent.

That very amiable gentleman and lady, the Rev. T. C. Brown and wife, the other day paid a brief visit to their old friends here. An evening with him is pleasure and profit united.

Our samples of Wedding Stationery are the finest ever shown in this locality and are supplied at about half the prices charged elsewhere. Those contemplating matrimony should call and see them before placing their orders. We have a fine line of new type, just suited for this kind of work.

UNIONVILLE FAIR NOTES.

The Directors at their first meeting revise the Prize List and fix the dates for the fair for Sept. 16th, 17th, and 18th.

The Directors of Unionville Fair met at Forth's Hotel on Friday last. Present, Anson Maubard, Pres.; John B. Barry, 1st Vice; H. Lee, 2nd Vice; B. Loverin, Sec'y; E. Davis, Treas.; John M. Keeler, Wm. Neilson, F. L. More, John Forth, N. E. Brown, and W. J. McDougall, Directors. After the reading and adoption of the minutes, Mr. John Imerson was heard in regard to a protest entered against him by John M. Keeler, of Greenbush, who claimed that the sheep entered by Imerson for best pen grade sheep, at last fall's show, were not entitled to the prize on the ground that part of the lot had already received a prize as Leicesters, and consequently were not eligible to compete for pen prize. After listening to both the parties make their statements in regard to the affair, it was moved by John Forth, seconded by W. J. McDougall, that this board, having heard the statement of John Imerson and J. M. Keeler, are of the opinion that the rules of the Society were violated by Imerson and that the prize awarded him on pen of grade sheep be withheld.—Carried unanimously.

Revision of the prize list for 1890 was then proceeded with, when the following changes were made:—Rule 1st of Regulations was amended by adding "and the Judges in the halls shall commence their duties promptly at 9 a.m. on the second day, and the halls will be opened to the public at 1 p.m. sharp."

Rule 3 amended by striking out the words "Section of a" where they occur in the 2nd line.

In class A. Horses, the prizes on Section 26 and 27 were made to read $4.00, 3.00, 2.00 each, and Sections 28 and 29 made to read $3.00, 2.00, 1.00. Section 30 "to be shown in harness," added and prize reduced to $6.00, 4.00, 2.00.

In Cattle, the prizes on all the herds was reduced $5.00.

In Sheep, a new class, "Oxford Downs," was added, prizes to be same as in other classes. $2.00 was taken off all the pens of sheep.

In Swine, the prize for best boar any age or breed was struck off.

In Grain, prize on barley reduced to $1.50, 1.00, 75c.

In Vegetables, a new section was added to be read "Pumpkin, Mammoth White, 2," and the word "Red" inserted after pumpkin in the previous section.

In Apiary, Secretary ordered to place a note in prize list to the effect that hereafter the stand in centre of Dairy hall shall be used for butter, and shelving arranged on side of building for display of honey, so that all exhibitors of honey shall be placed on an equal footing.

In Arts, the prize on paintings (coll.) by amateur was cut down to read $4.00, 2.00.

In Manufactures, a new section was added to read Boots and Shoes (hand made) pegged, prize same as preceding section.

On motion the date for holding the fair was fixed for Tuesday, Wednesday, and Thursday, Sept. 16th, 17th, and 18th, and Secretary was instructed to state on prize list, posters, and *Courier* that if any one of the days selected prove unfavorable, the fair will be postponed until the following day.

Messrs. Beecher, Jelly, and Sec'y, were appointed to canvas for Specials.

Meeting adjourned to call of Sec'y.

CORRESPONDENCE.

The A. O. U. W.

Having just returned from the annual meeting of the Grand Lodge of the A. O. U. W., held in Toronto during past week, I thought it might interest many of your readers to hear of the great success of this order. During the past year from every source encouraging reports have been received, and to-day our grand lodge stands lowest on the list of the seventeen grand lodges on this continent in respect to the death rate, which was only 5½ per thousand. Our order now numbers 19,257 members in good standing, a net increase of 3,173.

Beneficiaries paid during year amounted to $208,000. Causes of death:—14 accidental, 20 constitutional diseases, 65 local diseases, 10 zymotic. Average duration of membership of those who died, 4 years, 3 months and 19 days. Average age, 48 years, 7 months, and 18 days. As to their occupation, a large per cent were farmers, next on list were merchants and next clerks. In their habits of life:—Total abstainers 48, very temperate 3, temperate 9, very little 3, scarcely any 3, very seldom 2, very moderate 12, moderate 25, occasionally 4. One from chronic alcoholism who, when joining, reported himself a total abstainer, temperate in every respect, and was taken as a first-class risk by local examiner. There were 213 applications for membership rejected. A large per cent were on account of finding family history unfavorable. 8 of the deaths were under the age of 30 years, 13 between 30 and 35, 14 between 35 and 40, 29 between 40 and 45, 23 between 45 and 50, 37 over 50. The order is now carrying $38,400,000 of risks on the lives of their members. Only the most carefully selected risks are now taken.

Now, Mr. Editor, I think that the lodge that has stood the test of twelve years, the one just closed having been the most successful one, surely must commend itself to the favorable consideration of all. The lodge in our village has a membership of over 41 members, composed of some of the most respected men in our community. I think that it is the bounden duty of every man to make some provision for his wife and family, when in health, and I know of no society that offers such favorable terms at so little cost as the A. O. U. W. Our assessments were only $12 for the past year on an insurance of $2,000.

D. FISHER.

Seed Grain Tested.

Wm. Saunders director of the Experimental Farm, Ottawa, writing under date of Feb. 17th, says: "The summer of 1889 was not favorable in some parts of the dominion for maturing a high quality of seed grain. Rust interfered with its development and plumpness. Where the rust was severe the grain is unusually light, and its percentage of germinating power has been considerably reduced. This is especially the case with oats. Judging from samples received for testing, this injury has been greater in the maritime provinces and in some districts in Ontario. The important bearings of well-developed, vigorous seed, of high germinating power, on good crops is now recognized by all thoughtful farmers, and no one who has seed on hand, with vitality questionable, should remain long in uncertainty as to its value. The seed testing department at the central experimental farm is in full operation and every farmer is invited to send samples of which he may have doubt for test. The time occupied in testing is usually a fort-night. An ounce would be sufficient. Samples may be sent through the mail to the experimental farm free of postage, and the returns will be made promptly and free of charge. The name and address of the sender should be written plainly, and accompany each package.

Vital Statistics.

The return of the births, marriages and deaths for the year ending 31st December shows that the births number 46,953, the marriages 14,551, and the deaths 23,734; an increase of 1,049 births, of 91 marriages, and of 20 deaths over the previous year. There were 24,354 male and 22,599 females born in 1888. There were 618 illegitimate children, an increase of 322 over 1887. The births of twin children appear to be decreasing. In 1887 the number registered was 72 pairs less than in 1886, and in 1888 the number was 54 less than in 1887. No cases of triplets were registered in 1887. In 1888 three cases were registered. The returns show that 11.5 per cent of all the marriages took place in December, while only 6.2 per cent occurred in August. Nine girls were married at the age of 14, and twenty-five at the age of 15. There was an instance in Norfolk county of a bridegroom at 17 and the bride at 14 years of age. Thirty-one persons were married at the age of 70 years and over. One old man of 84 married a girl of 17 years of age.

Special Notice.

During the next few weeks we purpose sending out a number of sample copies of the Reporter to parties not on our subscription books. We have never employed any canvassing or collecting agents, and are going to adopt the plan of sending sample copies to those whom we hope to secure as regular subscribers. We will send all our samples one week to one post office, enclosing a printed slip, giving a short synopsis of our special offer to those receiving a sample copy and setting a time and place, when and where we will be pleased to meet all those wishing to subscribe. We require less than 200 new subscribers to bring our subscription list up to 1,000. As soon as that number is reached we intend putting in a new cylinder press and making such improvements in the general make up of the paper as to place it in the front rank with any country paper in Ontario. Friends of the Reporter and its editor and proprietor, will you help us by sending in at least one new subscriber each, during the next 30 days.

The Lochy Dramatic Club.

The entertainment recently given in Toledo by the Lochy Dramatic Club was a success in every particular. The parts taken by the actors were sustained with a vigor that demonstrated a worthy earnestness in stage work. But the interesting feature of the evening was Chas. Lochy's satire upon the Dagg mystery. This gentleman has humorously portrayed the absurdities of what constitutes the most detestable nonsense ever propogated before the people. While his dialogue was carried on mainly with a supposed spirit, a sufficient number of "local hits" were indulged in to throw the audience into convulsive laughter. While we have no sympathy with any act that would give prominence to error, yet we believe Mr. Lochy has thoroughly impressed some people with a disbelief in what at one time presented an unsolvable mystery.

A Warning to Husbands.

Husbands had better be careful how they let their wives' tongues wag. In Clayton, N. Y., Mrs. Vincent used slanderous language towards Maud Webber in the presence of her husband, and damages amounting to $800 were given in her favor. The supreme court has now decided that the husband can be held not only for compensatory, but exemplary, damage for the scandalous words of his wife uttered in his presence, although he may not have participated in any other way in the offence.

Amateur Printers.

We have for sale a selfinking job press which may be had cheap for cash. It will print billheads, letterheads, circulars, cards, etc, as good as the best press made and at the rate of 1,000 per hour. May be seen at the Reporter office any day. Write for particulars.
