THE REPORTER

ATHENS, ONT., JULY 14, 1891

LOCAL SUMMARY.

ATHENS AND NEIGHBORING LOCALITIES BRIEFLY WRITTEN UP.

Events as Seen by Our Knight of the Pencil.—Local Announcements Rolled Right Down.

Read "The Peoples' Column."

W. J. Maley will have a change of ad. next week.

Send 25c and get a trial of the REPORTER for three months.

Rev. Dr. Cummings and wife are guests of Mr. W. G. Parish.

Samuel Mulligan, pensioner, died from over drinking in Kingston.

The Bradford Warehouse, Brockville, has a change of ad. in this issue.

Dr. Cornell has recovered from his recent illness.

Miss Birdie Halladay of Elgin, was the guest of Miss Loverin.

Several of our citizens use the Bee Beer on their tables. It is a nice, cool, non-intoxicating drink.

Miss Slifer went to her home in Plum Hollow on Friday last on hearing of the illness of her father.

Senator Macdonald, Ottawa, has withdrawn his bill to establish divorce courts, as feeling was strong against it.

John Mooney of South Plantagenet was gored fatally by a young bull on his own farm.

A number of circus posters at London, Ont., have been objected to by the police.

Miss Sarah E. Johnston went to Brockville on Wednesday to spend vacation.

In the elections for New South Wales 85 protectionists were returned to 26 free traders.

It has been discovered that broken down and diseased horses have been made into sausage at Chicago.

Someone has poisoned a number of cattle of Allen Young, Mount Hope, Wentworth county.

Hon. Mr. Mercier has sailed for home and is bringing from the pope 800 decorations for papal zouaves in Canada.

A Toronto boy named Clark recently admitted that he had used $7 or $8 of his pilferings from employers to pay his dues, etc., in the Y.M.C.A.

Lt.-Col. Pennington Macpherson, a near relative of the late premier, has been entrusted with the task of writing the life of Sir John Macdonald.

You can buy a one hundred piece colored dinner set for $7.50 at the China Hall, Brockville. T. W. Denis, opposite Central Hotel, Main St. 28-tf

The Voters' List for Athens and Rear Yonge and Escott is now in the hands of the Reporter's staff and will be rushed through without delay.

If everybody improved the minutes with the zeal that a hen puts in her work while making a surreptitious five-minute call in a flower garden, what a world this would be.

Miss Byers wishes to inform the people of Athens and vicinity that she has removed her Dressmaking Rooms, over Mulvena's brick store, where she hopes customers will find her.

Quite a few of the school scholars stayed over for the Orange Demonstration on Monday, others going home as soon as they finished their examination papers.

Athens mourns the loss of the S.A. Lieutenant, who has gone to Hamilton. He may return in a couple of weeks and he may not. Meanwhile the Captain will look after the faithful for a time.

Mrs. Mary Nimmock of Pittsburg, while in a fit of religious hysterics, decided to sacrifice her youngest child. Neighbors interfered, but not until she had chopped its head in a horrible manner with a hatchet.

The Beaver line steamship Lake Superior, from Liverpool, has reached Quebec almost a wreck, being swept by a gale, losing part of her freight, shipping tons of water, and scaring 200 passengers to death nearly.

An operator blundered and two freight trains met near Waterbury, Conn.; the fireman, Muxselle killed. A collision near Mendota, Minn., destroyed thirty freight cars and an engine; three tramps killed; loss to property $50,000.

"The Peoples' Column" in the Reporter is being better advertised every week. The people have come to look upon it as the source of very useful information and watch for the different items each week.

Mr. Joseph Thompson has bought the house on Reid Street, from Mr. J. L. Gallagher of Brockville, and will move in in a few days. Mr. Sharman, the present occupant, will move into one of the houses on Church street near the Baptist church.

Dr. W. J. Hall, Superintendent of Medical Missions, under the Methodist Church of New York, will arrive in Athens by regular train on July 15th en route for Charleston Lake with a company of over one hundred fresh air children and missionaries from New York.

Colored bills have been issued from this office announcing a grand picnic to be held at Harlem on Wednesday, August 12th. A number of prominent speakers will give addresses, the Toledo Brass Band will be there, and a general good time expected. Single ticket 50c., double ticket 75c. See the bills.

The Almonte Gazette tells of a remarkable group it sized up at a recent picnic there. It was composed of Rev. Dr. Williamson, Prof. N. F. Dupuis, Kingston; A. H. D. Ross, M.A., and J. C. Watt, Almonte. All were eminent mathematicians, and the remarkable feature was that Prof. Dupuis was Dr. Williamson's pupil; Mr. Ross, Prof. Dupuis' pupil and Mr. Watt, Mr. Ross' pupil.

The model school is undergoing thorough repair. The roof has been shingled and the inside is being thoroughly overhauled. Part of the floor will be relaid, walls ceiled up, and partitions will divide the room into four departments, making it more convenient for both scholars and teachers. The high school yard, while not making perhaps the very best cow pasture, is not so badly torn up as one might think. In the front on each side of the walk are beautiful beds of flowers, kept in good trim and look very pretty.

Mr. Fisher, of Perth, is visiting his son, Mr. D. Fisher.

Mr. Jas. Bissell, Algonquin, was in Athens for a few days last week.

Mr. and Mrs. Sheldon Holmes, of Newboro, visited Mrs. Giles this week.

Philander Kilborn and daughter, of Chicago, are guests this week of Mr. Jas. Kilborn.

The municipal council of Athens will hold a special session on Friday evening at 8 o'clock.

Mr. R. H. Gordon of Newborn, S. C., has returned to Athens and it is probable will remain some time.

J. J. Phillips, Lewis & Patterson and Geo. Hutcheson & Co. have changes of adv't this week.

Geo. W. Greene intends leaving for the North-West on Monday or Tuesday next. His family will remain here until he locates and makes preparations for securing a residence in the town to which he is going.

On Thursday last in the Presbyterian church the local branch of the W. F. M. S. was addressed by the president and vice-president of the county society, Mrs. Blair and Mrs. Kellogg, of Prescott. The paper read by Mrs. Kellogg was very interesting, instructive and encouraging, and the meeting throughout was a very pleasant affair.

Four convicts in Sing Sing prison were electrocuted or put to death by electricity last Wednesday. Death was instantaneous and free of the disagreeable features which shocked the world at the execution of Kemler. If capital punishment continues to be regarded as the best mode of disposing of murderers electrocution will in all probability supercede hanging.

We are pleased to announce to the people of Athens and vicinity that our old friend, Jas. Ross, who erected part of the Central Block in this village, has decided to re-open the photograph gallery, lately run by Kerfoot Bros. in the Central Block. He has made arrangements to open on Aug. 10th, with Mr. John Kerfoot as manager. Several new and improved instruments will be added and the work turned out will be guaranteed first-class in every respect.

The high school examinations are over, and the scholars and teachers dispersed. Their absence will of course be felt in the town, but visitors arriving to spend vacation will, to a great extent, make up for the absence of the scholars. Last week the examination for certificates and matriculation was held. The papers were considered moderately easy with the exception of the grammar paper which is said to have been unusually difficult, so hard that scholars who were nearly certain of passing, are fearful that this paper will decrease their totality of marks to such an extent that they may be plucked. Quite a few are said to be in a fair way to receive certificates.

Frenchy No. 1, the Arab arrested for Jack the Ripper murder in New York, was proved, in many ways, the fiend, the jury found murder only in the second degree. But the laugh has now turned in favor of the New York detectives. The entire inability on the part of the London detectives to catch the Whitechapel Ripper made them the butt of ridicule, and when the New York murder occurred and the American detectives were, for a time, unable to get a clue, they in turn were jeered at by the people and the press. But the capture and conviction of Frency the Arab has again turned the laugh Londonwards where the festive Ripper murders a victim and escapes the vigilance of the celebrated sleuth hounds of Scotland Yard

Col. Dyrenforth of the Department of Agriculture, Washington, with two assistants, left last Wednesday for the interior of Texas, where he will make further experiments in the feasibility of producing rain in arid regions by exploding balloons charged with oxygen and hydrogen at a considerable height in the air. Tests will also be made in exploding dynamite, attached to the tails of huge kites, in connection with the theory that rain may be produced by the concussion of high explosives in mid-air. The dynamite is to be exploded in the same manner as are the balloons—that is, by a slender wire leading to the kites and connected with an electric battery worked on the ground. Col. Dyrenforth will seek some sequestered spot in texas, where the noise will not disturb anyone, and will make thorough and exhaustive experiments.

In the Methodist church Sunday evening, Revs. Geo. Hartwell and Dr. Kilborn, who are about to leave Canada for China to commence their labors among the people of that great empire, occupied the pulpit. On the platform a chart and a map were shown to illustrate the work done and that which they intend to undertake. Some very interesting and instructive figures were quoted, showing the wonderful progress made by the church especially the Protestant church, in foreign missionary work. The province where the two gentlemen will take up work, contains exactly the same number of square miles as the province of Ontario, but instead of a population of two millions as we have here, there are about 50 millions there. The Methodist church have opened out a medical mission in China, where, by getting the natives into be treated by the "Foreign Doctors," they expect to win them over entirely to the Christian faith. Rev. Mr. Hartwell, in speaking on the question, deplored the terrible effects of the liquor traffic on foreign nations. This, he said, was a serious drawback to Missionary work, as the people fight shy of the religion of a nation that permits such a deadly traffic to be carried on. India, a heathen nation, has actually petitioned Christian England to discontinue the exportation of intoxicating liquors into that country. In 1791, just 100 years ago, was the first attempt at starting a mission school, to-day there are over 200. The Rev. gentleman declared his disbelief in the maxim that young people should be seen and not heard, and said that the young people, men and women, were coming more and more to the front doing grand work. Mr. Hartwell and Dr. Kilborn are graduates of the Athens high school, and the congregation felt a warm personal interest in the future of the two young missionaries which added to the impressiveness of the service. Only a few years ago these young men as school boys strolled along our streets, and to-day they are preparing to commence the work of their lives in a foreign mission field. It was this thought that saddened the hearts of those present as they silently wished them God-speed in their noble and heroic undertaking.

Services in connection with the Deanery meeting at Christ Church will be held this evening at 7.30 o'clock—preacher, Rev. T. G. Stiles, rector of Kitley—and to-morrow morning at 8 and in the evening at 7.30 o'clock, when addresses will be delivered by visiting clergymen.

We have a supply of very superior machine oil for mowers, reapers, &c. which we will sell to our subscribers 50, 60c. per gallon. The same quality of oil cannot be bought for less than 80 and 90c. per gallon outside of this office. None but subscribers to the REPORTER will be given the benefit of the reduction in price.

For several years past disappointed exhibitors at the fairs in this district have been quietly insinuating that the grain shown by that veteran fair-goer, Wm. Pennock, Esq., of Elgin, was not the growth of the year in which it was shown. On several occasions we have personally visited Mr. Pennock's fine farm and seen him preparing his grain for exhibition. This year he writes us to say that his annual collection of grain is now growing and all parties interested in fairs or otherwise are cordially invited to call and see his crops, which consist of fall and spring wheat, rye, barley (2 and 6 rowed) large and small peas, white and yellow corn, white and black oats and timothy seed, at any time. We can safely say that a visit to Mr. Pennock's farm, about two miles north of Elgin, will amply repay them for the time and trouble spent, as his farms and farm buildings are models of good farming and neatness. He is also a connoisseur of fine stock, and his herd of Ayrshires are well worthy a place in the front rank at any county fair. It is possible that he may be induced to bring his herd of Ayrshires to the Unionville fair this fall.

Athens High School

Seventy-one candidates in all wrote at the examinations this year for 3rd and 2nd class certificates, and junior matriculation. The examinations for primary or 3rd class candidates were concluded on Friday last. Those for junior or 2nd class leaving yesterday, and the matriculation candidates ended their labors this morning.

The results will be published about the second week of August. The names of the schools are not given, but of districts, Athens being District 78.

The candidates were favored with fine cool weather and were accordingly able to write with comfort—at least physical comfort.

The papers on the whole were remarkably fair, though in one or two instances there was room for improvement.

The presiding examiners were Messrs. A. D. Passmore, J. D. Dickson and J. S. Copland, of Brockville. Mr. L. A. Kennedy performed the same duty in Brockville.

Entrance Examinations at The Athens High School.

The following is the result of the Entrance Examination held in the Athens high school recently. There were 67 pupils who wrote, 29 of whom have been provisionally admitted by the local Board of Examiners. Of those who failed, 23 did not obtain the minimum number of marks required in Arithmetic, as many as 8 being marked 0. In Grammar there were 33 failures. The papers set in Arithmetic and Grammar were fair papers, such as would test a candidate's fitness for entering a high school. Special mention should be made of the general excellence and neatness of the papers of Edith Gilroy, Louese Towriss, Edward Moles, Kate Purvis, and Burton Brown. In Grammar, Edith Gilroy stands first, with 86 marks out of a possible 105; in Arithmetic, Waldron Greene and Burton Brown are tied for first place, taking 84 out of a possible 105. 764 marks were the total number on the papers, half of which number, 382, were required to enable a pupil to pass. One-third at the least is required on each paper, so that if a pupil is weak on one subject and falls below half the number of marks on that particular paper, but makes one-third, and on another subject makes more than a half and enough to counterbalance the weak subject, the pupil will pass. But if on any one paper the number of marks do not reach one-third, the pupil is plucked. The following are the successful writers:

Ethel Arnold,	454,	Athens M. School
Lillian Blackburn,	500,	do

The Rain of Other Days.

Mr. Edward Bulford favored us this week with a few extracts from his diary, which will be found below. From these it will be seen that the present is not an unprecedentedly dry season, and that at least one product of the farm is bringing a fair price:—

1888.

June 6. Good thunder shower, first rain since sugar making.

June 17. 90 in the shade several days

June 22. 100 in the shade to-day.

July 18. Long heavy rain the first in thirty-one days, no frosts this spring.

July 1. Eggs 10c. cash, no McKinley Bill either.

1891.

May 19. A good shower, the first since sugar making, followed by several hard frosts, nights.

June 21. Long heavy rain, the first in thirty-three days.

July 1. Eggs 12c. cash, under McKinley Bill.

MARRIAGE.

At the Methodist parsonage, Athens on July 13, by the Rev. John Grenfell, Henry A. McClarence, son of Clarence McClarence, of Kitley, to Miss Letitia Riley, daughter of Samuel Riley, of Wolford.

After Twenty-one Years.

The gathering that assembled in Athens on Monday included many who saw our village for the first time and many who revisited it after many years absence. Among the latter was Mr. G. H. Moulton, one of the Belford Mills Prentice Boys, who received his education at the Athens school, and who left here twenty-one years ago and had never till Monday last revisited the village. He was chiefly instrumental in bringing here on Monday the time-honored association of which he is a worthy member. He was pleased to mark the substantial progress of the village, so plainly evident on all sides.

The People's Column

Advertisements under this heading will be inserted at 25 cents for 4 lines or under, or one cent per word when the number of words exceed 25, and ten cents for each subsequent insertion. The number of insertions required should always be plainly stated on the copy. This is a special offer we are making in order to create a special interest in this column. We would consider it a special favor if those who answer an advertisement would mention THE REPORTER as being the source of their information.

Warning

All parties are warned against negotiating a note drawn in my favor by W. R. Warren, for the sum of forty dollars, which note I lost about a month ago. A suitable reward will be paid for its recovery by me.
