Leading, as Usual.

Our Goods for the Fall of 1892 are already in, and we are prepared to show our customers a larger range and better values than ever before.

Our Dress Goods and Mantle Cloths are simply marvels of beauty and cheapness, and in Dress Linings and Trimmings we are 15 per cent. below market values, an advantage obtained by buying in very large quantities for spot cash.

We have given special attention, and with gratifying success, to the producing of Men's, Ladies' and Children's underwear. Don't fail to see them; it means to you money saved.

In Boots & Shoes we are keeping our usual large stock well assorted, with a few special lines, or Snaps, added.

We are now keeping a large range of Hand-painted Window Shades (40 different designs) complete, with spring rollers; also Lace Curtains, Curtain Poles, Fancy Pole Ends and Fixtures, and all greatly reduced in price.

We make our Gent's furnishing department a speciality, and can give a better Suit, better Pants, better Hat, Boots, Shirt, Collar, or Tie, than can be got elsewhere for the same money. And why? because having a large trade in these lines we give special attention to the buying, dealing only with manufacturers, and getting closest cash prices.

Come and see us. Give us an opportunity to serve you, and you will realize the above statements as facts.

CENTRAL BLOCK ATHENS — H. H. ARNOLD

Good Value | POLITE ATTENTION | Fair Dealing

The family who spend their money right will succeed. The family who spend their money wrong can not. When you want Groceries and Provisions go to the store and get our prices and see our goods. We claim to give you more value for your dollar than you can get elsewhere. The question will arise, how can this be? It only requires an explanation and you will admit that we can do all we claim. We have always had a large trade in Athens, but at the present we are closely connected with another store in Lyndhurst. This enables us to buy goods in almost car lots; in fact, for the last six months we have had car lots every month, besides nearly every day's train has goods for us. This we can prove by the freight agent. We say, and conscientiously, too, that there is no other store in Athens handling this amount of goods. Why is it?

We started business to sell goods, not to give them away. We cannot live without a little profit, but we cut that profit down to the lowest point. We prefer 5 per cent. profit on ten sales before 40 per cent. profit on one. When you want any and everything in Groceries and Provisions, go to Thompson's. Please note the following prices:

Best granulated sugar 20 lbs. for	$1 00
Bright yellow sugar 25 lbs. for	1 00
Best Valencia Raisons, 5 lbs. for	25

We have purchased this week a whole line of Tea, well worth 35c., which will be sold for 25c per pound. Don't fail to come and see for yourself. Faithfully Yours,

Joseph Thompson.

The local council of the R. T. of T. will meet in the vestry of St. Paul's church on Saturday evening next. The regular night and place of meeting have yet to be decided. The new society contains a number of members experienced in the conduct of lodge business and no doubt the Select Degree will soon be made a prominent feature.

The last of the series of Demorest Medal contests will be held next week, after which comes the gold medal. This will make the fifth contest held by the Athens W. C. T. U., and as Miss Carrie Grenfell is the holder of a silver medal, the number required for a gold medal contest will then be complete. The entertainments provided by those contests are really excellent and are deserving of a more liberal patronage from our adult citizens then they have received.

At the recent Anglican Sunday school Convention in Ottawa the Rev. J. F. Gorman (formerly of St. Paul,s, Renfrew), is reported as having referred in very strong terms to the great disability under which the Sunday school labored regarding the History of the Church of England as taught by the Church and that taught in the secular schools. He said then it was absurd to expect the Sunday school to eliminate in one hour what was taught in the public school five days. The erroneous teaching of secular history was that the Church of England originated with Henry VIII., while the Church taught that it had its birth with the time of our Saviour. He spoke of it as a most abominable practice, and urged that the convention should enter a formal protest against its continuance. In this he was supported by other speakers.

Snow fell all day in Ottawa on Nov. 3.

On Nov. 24th the ratepayers of Brockville will vote upon a by-law granting $150,000 for the purchase of the water works. Water commissioners will be appointed.

We omitted to credit Mr. W. W. Howard, of Delta, with having written the excellent paper on extracting honey that appeared in last week's issue of the Reporter.

The suspected murderer, Charles Luckey conducts himself in a gentlemanly manner. He is assigned a day room by himself and is not allowed to associate with any of the other prisoners.

Those who are inclined to boast of having the biggest apple tree in the country will do well to note that Mr. Brock Davis, of Glen Buell, has an apple tree that measures in circumference 8 ft. 5 in.

A leading physician of Brockville has "broken out." The eruption is in the form of a 3-inch advertisement in the daily paper. He evidently believes in letting his light shine, but when the High Committee on Professional Ethics gets after him he'll wish that he had kept it under the medical bushel.

One evening last week, when the Royal Crusaders were exhibiting their sciopticon views, a picture of Grover Cleveland was flashed upon the canvas. The lecturer asked the boys whose likeness it was, and they at once replied "John L. Sullivan." Both of these gentlemen have been abused, but we thought the resemblance began and ended there.

The Elgin division of the Sons of Temperance are preparing a play to be introduced to the public in the near future. It is entitled "The Country School," and abounds with ludicrous incidents and comic dialogue. It is under the management of Mr. Jas. Sexton and is already advanced to such a stage as justifies the assumption that it will prove one of the best and most popular entertainments of the winter season.

Mrs. John Rockwell, in her report to the W. C. T.U. of Ontario, roundly assailed the royal commission appointed by the Dominion government, as being a mere farce to hoodwink the temperance people. The report emphatically condemned the Scott act, Dunkin act and local option and similar measures as being put forward in order to side track the real issue. What the W. C. T. U. wanted was total prohibition or nothing.

Rebecca Wilkinson, of Brownsvalley, Ind., says: "I had been in a distressed condition for three years from Nervousness, Weakness of the Stomach, Dyspepsia and Indigestion until my health was gone. I bought one bottle of South American Nervine, which done me more good than any $50 worth of doctoring I ever did in my life. I would advise every weakly person to use this valuable and lovely remedy." A trial bottle will convince you. Warranted by J. P. Lamb.

There is no secret or patent in the production of "Myrtle Navy" tobacco. It could be produced by any manufacturer, but no manufacturer could make it pay at that price, unless he could purchase on a large scale and sell on a large scale. He could not sell below the present price without a loss even if he could purchase on the lowest advantageous terms. To get a large market therefore, without which he would have no inducements to go on, would be the work of many years. That is the reason why Messrs. Tuckett & Son have the command of the market, and they can retain it only by keeping the price down to hard pan figures.

Orange and Green at Lansdowne.

H. C. Lynch, of Escott, has challenged Mrs. Shepherd to meet him on the public platform in the town hall, Lansdowne, at 7 p.m., on Nov. 14th, when, he says, "I will refute the false and scandalous statements made by Mrs. Shepherd against the doctrine of the Catholic church, her government and discipline." The subjects to be discussed on the 14th are Indulgences, The Holy Eucharist and Confession. The proceeds of the door to be applied as follows:—One half to the House of Providence in Brockville, and the other half to the Protestant Hospital there.

In a letter to the Times on Monday Mrs. Shepherd practically declines this challenge, but expresses her willingness to meet him on condition that the discussion takes place in Brockville, that no admission fee be charged, that the subject be confined to "indulgences," and that she be allowed to bring "a minister well versed in Latin, Hebrew and Greek to prove that her references to authorities are not incorrect." Mrs. Shepherd's method of meeting Mr. Lynch's challenge will be a surprise to her friends.

A few days ago at Berlin a bigamist was released because his second marriage was performed in the U. S.

At last Tuesday's meeting of the Association at Toronto a copy of the resolution passed at the last meeting of the association, condemning the holding of a sham fight on Thanksgiving Day was ordered to be sent to the Minister of Militia.

Sup't Mooney finds it necessary to announce through the Standard that he does not appreciate anonymous letters. The general public may just as well understand, first as last, that the B. & W. is an institution that is quite capable of protecting its own interests and that any attempt to trespass on its rights and privileges will be found very unprofitable.

The case of Ames Abbott, who was brought before P. M. Deacon on a charge of placing obstructions on the line of the B. & W. has excited considerable interest. The police magistrate before adjourning the case set forth in strong terms the very serious nature of the offence that had been committed, and which might be punished by a long term of imprisonment. In closing he said, "If however Mr. Abbott should repeat such an act, his best plea will be insanity if he is determined to escape the penitentiary or other prison."

Every season the northern lakes and woods are over-run with American sportsmen, a large percentage of whom kill great quantities of Canadian game and fish and pay nothing whatever for the privilege. This season no permits will be granted for deer shooting to residents of the United States. The Provincirl Secretary has wisely decided not to grant any owing to the fact that the demands for permits have this year been beyond all reasonable numbers. It is probable that a great many Americans will go shooting without permits, however, and save the $25, which is the price of a shooting permit.

So far as admission to the English market is concerned, Canadian cattle are now upon the same plane as American; that is, they must be slaughtered immediately upon arrival. The announcement that Canadian cattle had been "scheduled," made last week, caused consternation among dealers in Montreal and elsewhere. No case of pleuro-pneumonia was known to exist in Canada, and at first the cable report was discredited. but later advices confirm the report. This was by far the most valuable trade Canada had with the mother land, and the new regulations will mean a serious loss to Canadian dealers.

Every municipal council should endeavor to have its financial business completed as near as possible during the present month. The Act requires a meeting of the council to be held on the 15th day of December for the purpose of preparing a financial statement for publication, showing a detailed statement of receipts and expenditures for the portion of the year ending on the date of such meeting, together with a statement of the assets, liabilities and uncollected taxes. A similar statement in detail respecting the last fifteen days of the preceding year, 1891, is now required to be attached thereto. Every effort should be made to have this statement show as closely as possible the financial condition of the municipality. We know that to satisfy individual ambition, particulars that should be included are often kept back, so much so that members of councils have been placed in a very unenviable light when the auditors' report was published and compared with the statement required on the 15th December.

B. T. of T.

Quarterly Meeting.

Editor Reporter:

Sir,—Quarterly meeting in the Methodist church, Athens was well attended on Sunday last. In the fellowship meeting there were 78 females and 32 males spoke, and fully 250 partook of the sacrament, some for the first time.

In listening to the different testimonies that were given, I found some were given with a great assurance of their knowledge of full salvation, while others seemed to hesitate to speak of that assurance, but were trusting in God's goodness to save them at last.

I am aware that talk is very cheap, and wishes and desires are very numerous in all the churches, but genuine christianity is enjoyable and profitable to all that have it, and our neighbors will be benefitted by it. The Bible has only one standard of christianity and that is to "love the Lord thy God with all thy heart, and with all thy soul, and with all thy strength, and with all thy mind, and thy neighbor as thyself." If this is our experience, I am satisfied that good will be accomplished in Athens. It's one thing to talk and another thing to live up to the Bible standard in all its teachings.

The Drain Award.

Sir,—I presume our city fathers have a close watch as to the manner in which Engineer Phillips is seeing the award for the drain is being carried out. If so I trust the drain business will be a thing of the past before the end of the present century. The whole award is a humbug, from end to end, as far as fair play and justice is concerned, and the way it is being done shows the great lack of ability of our engineer.

HIGH SCHOOL NOTES.

Leaves of Learning, Little Laughs and Light Legals Blown Into the Reporter Office.

(Acting on a suggestion made by a friend of education, we open a column of the Reporter to the high school students, and invite them to contribute poems, brief essays, and local notices. The first contribution appears to-day.—Ed.)

Our school is at present in a very prosperous condition, under the able management of Mr. U. J. Flach.

On account of the bad weather prevailing last Saturday, the B. C. I. foot-ball club were unable to meet the Athens club as arranged. But the match in Brockville for Thanksgiving is still on.

Moved by the boys, seconded by the girls that we have a holiday on Friday next.

The pupils of the school extend their congratulations to the board in obtaining Mr. Passmore as first assistant.

Our juvenile drug compounder seems possessed of the idea that, on account of his once holding the position of goal umpire for the A. H. S. football team, he has a monopoly on the ball, which idea almost lead to bloodshed recently.

One of the modelites, ambitious to gain admiration in the eyes of the fair sex, had, while visiting our school in pursuance of this object, the misfortune, in making a hasty exit, to leave a portion of his wearing on the gate post. Moral—There is no place like home.

The issue of the Missionary Outlook for October contains the portrait of the late Mrs. Dr. Kilborn. The editor writes concerning the late Mrs. Kilborn that from earliest youth she was of studious habits, always giving her study the preference over all other engagements. "So eager," he says, "was she to acquire knowledge and so close was her application that her health suffered in consequence. Of an active, cheerful disposition, she was a favorite with her companions, and formed many friendships, which, we doubt not, will be renewed in the better land. Her sympathy and consideration for others was such that self was forgotten and sacrificed, and she preferred to endure pain rather than witness the sufferings of others. While a diligent student and faithful friend, she did not neglect the higher and more important duties of the Christian. From childhood until she left the parental roof she was an earnest worker in the Sabbath School, first as a scholar, then as a teacher; her, faith, as her husband expresses it, being simple but bright. We mourn the death of Sister Kilborn, and weep with the bereaved husband, but we shall be inspired by her unselfish and generous life to do and dare for the Master. Her grave will be a constant reminder to those in Cheatu to work for the Master while it is day."

They Want Prohibition.

Lieut-governor Schultze, in speaking before the prohibition commission at Winnipeg, said: "I believe the vote cast in favor of prohibition at the recent general election in this province to have been the expression of the matured conviction of our people upon a subject which has been engaging their thoughtful attention for many years, and must, I think, be accepted as their final decision. In giving it, I think that our people are convinced that prohibition is, after all, the only radical cure for the evils which local option, and the earnest efforts individually, in private and in the pulpit as well, as banded societies, temperance workers have made to check or lessen the evil caused by intoxicants."

An American Doctor.

The Medical News (American) says: One of our physicians recently received the following letter from a country physician (?): "Dear dock I hav a pashunt whos phisicol sines shows that the wind pipe was ulcerated of, and his lung hav dropped intoo his stumick. he is unable to swellor and I fear hos stumick tube is gon. I hav giv him evything without effeckt. his father is welthy Onerable and influenshial. he is an active membber off the M. E. Chirsch and lord nos I dont want to loose hym. what shall I due. sus. buy returns male. yours in neele."

Parents and School Complaints.

A correspondent writing to the Whig says: A few words to parents, if carefully considered, might be a great aid in the enforcement of discipline in public schools. I refer to the thoughtless and presuming interference of some parents who exercise improper influences over their children at home, such as encourage them to disobey or otherwise disturb the dicipline and routine of the school and thus give the teacher uncalled for trouble. Parents would show far more common-sense and better judgment if they would not listen so readily and attentively to the stories which their children carry home from school, but would discuss matters with the teacher and thereby ascertain the true state of affairs. This course would save the teacher, themselves and their children many unpleasant experiences.
